India records a sharp decline in the Active Caseload; stands at 1.35 lakh today

No New Cases reported by 4 States/UTs in the last 24 hours

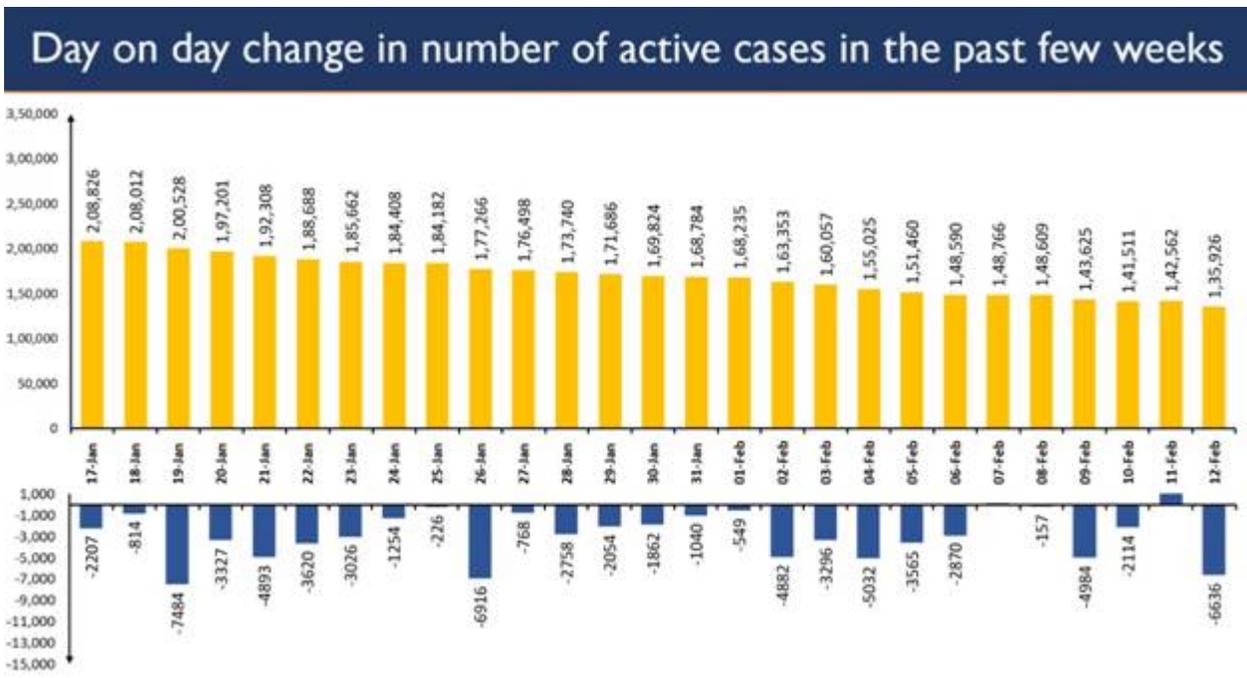

More than 75 lakh beneficiaries vaccinated against COVID19

India fastest to cross the 7 million Vaccination mark

Posted On: 12 FEB 2021 10:53AM by PIB Delhi

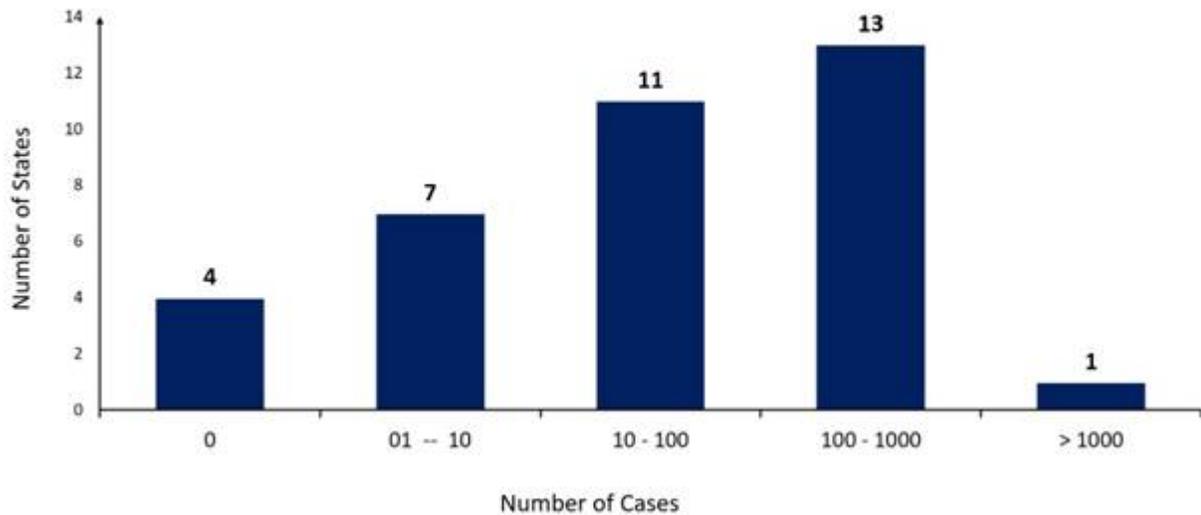

The country's total Active Caseload has seen a sharp decline, falling to **1.35 lakh (1,35,926)** today.

The total positive cases of the country now comprise only **1.25%** of the total cases. The day on day change of active cases in the last few weeks shows a consistent decline.

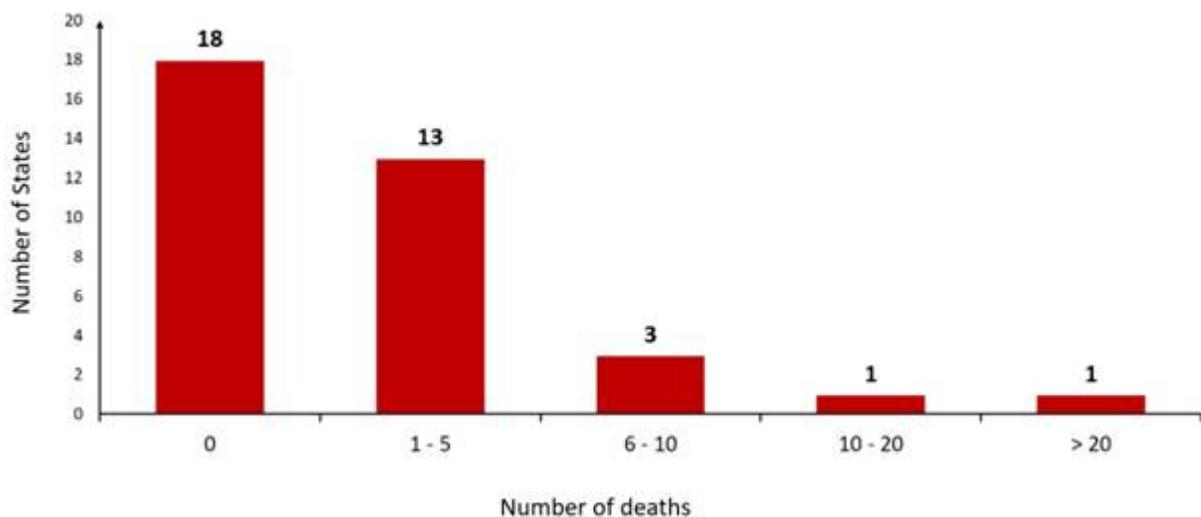

The distribution of new cases in India in the last 24 hours shows a positive picture with only 1 State reporting over 1000 cases while the rest of the States and UTs reporting less than 1000 new cases. **4 States/UTs have not reported any new cases in the last 24 hours.** These D&NH, Daman and Diu, Ladakh, Tripura and A& N Islands.

Distribution of new cases in the last 24 hours

The distribution of daily deaths among States/UTs in the last 24 hours, also reflects a significant decline in the daily deaths with **18 States/UTs not reporting any new deaths in the last 24 hours.** 13 States/UTs have reported between 1-5 new deaths.

Distribution of Daily Deaths

9,309 new confirmed cases were recorded in the last 24 hours in the country. **15,858** new recoveries were registered in the same period.

National Recovery rate (**97.32%**) continues to be **one of the highest globally**. The continued high rise in the recoveries has led to progressively improving national Recovery Rate.

The total recovered cases are **1,05,89,230**. The gap between active cases and recovered cases is continuously increasing and stands at **1,04,53,304**.

As on 12thFebruary, 2021, till 8 AM, more than **75 lakh (75,05,010)** beneficiaries have received the vaccination under the countrywide COVID19 vaccination exercise.
