Private Sector Participation is being Scaled Up in COVID Vaccination

Around 10,000 hospitals under Ayushman Bharat-PMJAY and 687 hospitals under CGHS can be used by States as COVID Vaccination Centres (CVCs)

Shri Rajesh Bhushan, Union Health Secretary on Saturday interacted with Health Secretaries and MDs (NHM) of States and UTs on the vaccination of age-appropriate groups through a video conference (VC). The nationwide COVID-19 Vaccination drive was launched on 16th January, 2021. From this date onwards, Health Care Workers (HCWs) were given the first dose of the COVID vaccine while Front Line Workers (FLWs) were included from 2nd February, 2021. So far, more than 1.5 crore vaccinations have been done. This nationwide vaccination program has been exponentially expanded to all citizens above 60 years of age, and those within the age bracket of 45 to 59 years with specified co-morbidities from 1st March, 2021. Around 10,000 private hospitals empanelled under Ayushman Bharat PMJAY, more than 600 hospitals empanelled under CGHS and other private hospitals empanelled under State Govts.

Cabinet Secretary reviews Surge in COVID cases in Telangana, Maharashtra, Chhattisgarh, Madhya Pradesh, Gujarat, Punjab, J&K and West Bengal

Cabinet Secretary Shri Rajiv Gauba chaired a high level review meeting on Saturday with Chief Secretaries of States/UTs of Maharashtra, Punjab, Gujarat, Madhya Pradesh, Chhattisgarh, West Bengal, Telangana and Jammu & Kashmir. These States /UTs have been reporting a high active caseload or an increasing trend in new cases in the last week. The meeting to review and discuss the COVID management and response strategy, held through video conference, was attended by the Chief Secretaries and senior health professionals of the States/UTs along with the Union Health Secretary, DG ICMR, NITI Aayog Empowered Group members, and representatives from Home Ministry. A detailed presentation was made on the current status of COVID-19 in the States of Maharashtra, Kerala, Punjab, Karnataka, Tamil Nadu and Gujarat with a focus on districts reporting increasing number of new cases, increasing trend in positivity and having a concerning testing trends. This was followed by a comprehensive review with all the States/UTs. The Chief Secretaries briefed about the current situation in the States and their preparedness to tackle the recent spike of COVID cases. Cabinet Secretary reiterated that States need to maintain a continued rigorous vigil in terms of containing the spread and not squander away the gains of the collective hard work of the last year. The States were advised to take the following steps: Improve the overall testing in districts reporting reduction in testing, Increase RT-PCR tests in states & districts having high antigen testing, Refocus on surveillance and stringent containment in selected districts reporting reduced tests/high positivity & increased cases, Monitor mutant strain & clustering of cases for early hotspot identification & control, Focus on clinical management in districts reporting higher deaths, Undertake priority vaccination in districts reporting higher cases, Promote COVID-appropriate behavior ensure effective citizen communication to not let complacency set in, especially in light of vaccination drive entering the next phase, and enforcing stringent social distancing measures.

Union Health Secretary and Chairman, Empowered Group on Vaccine Administration chair meet on COVID vaccination of Age-Appropriate Groups with States and UTs

Shri Rajesh Bhushan, Union Health Secretary along with Dr. R. S. Sharma, Chairman of Empowered Group on Vaccine Administration (Co-WIN) and member, National Expert Group on Vaccine Administration of COVID-19 (NEGVAC) chaired a high-level meeting on Friday with Health Secretaries and MDs (NHM) of States and UTs on the vaccination of age-appropriate groups through a video conference (VC). The nationwide COVID-19 Vaccination drive was launched on 16th January, 2021. This is now to be exponentially expanded to all citizens above 60 years of age, and those within the age bracket of 45 to 59 years with specified co-morbidities. Those within the age bracket of 45 to 59 years with specified co-morbidities from 1st March, 2021. The States and UTs were explained the basic features of version 2.0 of the digital platform CO-Win, which is a population-scale software with capacity of processing several thousands of entries. The new phase of vaccination of age-appropriate groups will expand the COVID vaccination in the country manifold. With a citizen-centric approach, the fundamental shift in this phase is that citizens in the identified age groups, as also those healthcare workers and frontline who have been missed out or left out of the present phase of vaccination, can select vaccination centres of their choice. Secondly, the private sector hospitals will be involved as COVID Vaccination centres to harness their potential to expand the vaccination capacities.

Dr. Harsh Vardhan addresses the Global Indian Physicians Congress

Dr Harsh Vardhan, Union Minister for Health and Family Welfare on Sunday addressed the Global Indian Physicians Congress, organized by the Global Association for Physicians of Indian Origin (GAPIO), through video conference. Expressing his appreciation to GAPIO, which since its inception in 2011 has endeavoured to bring 1.4 million physicians of Indian origin across the world on a single platform to facilitate exchange of knowledge, skills and research, Dr Harsh Vardhan called the association a shining example of the talent and caliber of Indian physicians who have made remarkable contributions in various fields of medicine across the globe. Praising the contribution of medical professionals in the fight against the COVID-19 pandemic, Dr Harsh Vardhan said, "As the world faced the unprecedented crisis of COVID19, it has been our doctors, nurses and healthcare workers who have cemented their position as the foremost champions of humanity, saving humankind as it was staring at an existential crisis. I salute their courage, valour and selflessness in serving society. No words are enough to express gratitude towards all the Corona Warriors, who risked their own lives to save the lives of others. It's unfortunate and a great personal loss for me that so many of them lost their lives during this time." In this context, the Union Minister also noted GAPIO's efforts towards establishing the Global Indian Physician COVID-19 Collaborative to continuously share their knowledge and experiences to arrive at the best possible approach for management of COVID-19.

Dr Harsh Vardhan gives away awards to science communicators and women scientists on National Science Day

Union Minister for Science & Technology, Earth Sciences and Health & Family Welfare, Dr. Harsh Vardhan on Sunday highlighted how science technology and innovation (STI) would impact our future in education, skills and functioning in the post-pandemic world. He was addressing the National Science Day (NSD) function through video-conferencing from Imphal, Manipur. Awards to science communicators and women scientists were also conferred by the Science & Technology Minister on the occasion of National Science Day which is celebrated to commemorate the discovery of Raman Effect on this day every year. The NSD celebrations were organized by the National Council for Science Technology Communication (NCSTC), Department of Science & Technology. Dr. Harsh Vardhan said, "The 30 percent increase in the budget of Ministry of Science & Technology and Earth Sciences put together for the year 2021-22 would provide stimulus to S&T infrastructure resources in the country". The Union Minister said that in view of last year's challenges thrown by the COVID-19 pandemic, **the theme** of the National Science Day 2021, **'Future of STI: Impacts on Education, Skills, and Work,'** becomes all the more important. Dr. Harsh Vardhan said, "World has witnessed how Indian S&T systems rose to this recent unprecedented crisis caused by the pandemic. Scientific awareness and health preparedness shall become even more important in post-COVID 19 times.

Union Chemicals & Fertilizers Minister inaugurates a four day Global Investors meet: India Pharma 2021 & India Medical Devices 2021

Union Chemicals and Fertilizers Minister Shri D V Sadananda Gowda inaugurated a four-day Global Investors meet: India Pharma 2021 & India Medical Devices 2021 on Thursday. Minister of Commerce and Industry, Shri Piyush Goyal was virtually present on the occasion. Minister of State for Chemicals and Fertilizers, Shri Mansukh L Mandaviya, also graced the occasion. Speaking on the occasion Shri DV Sadananda Gowda commended India's capabilities as a global and reliable supplier of drugs and medical devices during the COVID-19 pandemic. Citing the recent UNCTAD report, he also pointed out India's positive FDI growth even with a decline in FDI of 42% globally. Shri Gowda said, "As the pandemic exposed the global vulnerabilities of the supply chains in the pharmaceuticals sector, the Department of Pharmaceuticals launched the Production Linked Incentive Scheme for bulk drugs, with a financial outlay of ₹6,940 crores across 53 APIs over 6 years. For Medical Devices, another PLI scheme was announced with an outlay of ₹3,420. Such interventions & incentives have played an instrumental role in realizing Prime Minister's vision of 'Aatmanirbhar Bharat', or India for the world." Addressing the participants Shri Piyush Goyal said, "57 countries have already joined India's leadership in demanding Intellectual Property Waiver for COVID-19 vaccine. Leaders everywhere are rising up to the challenge and joining PM Modi Ji's call for affordable health for the entire world. Globally, India is one stop solution provider for the entire health ecosystem, and we are confident enough to deal with anything related to health. Regulatory & good manufacturing practices, systems and certifications, approvals, will always help us grow in scale and bring down the price."

COVID 19 Vaccination sessions not scheduled on Saturday and Sunday (27th & 28th Feb. 2021) in wake of IT System Transition from Co-Win 1.0 to Co-Win 2.0

The COVID vaccination was launched on 16th January by the Honourable Prime Minister. The country wide Vaccination exercise is being exponentially expanded to include those above 60 years of age and those above 45 years with co-morbidities, from 1st March 2021.

For details :

INPUTS FROM PIB FIELD OFFICES

- Kerala: As the second phase of the vaccination drive is progressing in the State by recording a good response, Chief Minister Pinarayi Vijayan today received the first dose of the COVID-19 vaccine from a government hospital in the state capital. After the vaccination, the Chief Minister appealed to all to take the vaccine. Three other Ministers including State Health Minister K.K.Shylaja too their first dose of vaccine yesterday. Shylaja had stated that the possibility of mass vaccination centres is also looked into. Authorities have meanwhile directed to complete the two rounds of vaccination for 3.8 lakh officials to be deployed for election duties by March 6. So far only half of the poll officials have received the vaccine. As the vaccine-makers claim that immunity against COVID-19 will develop only 14 days after a person takes the two doses in an interval of 28 days, many polling officers would be still uncovered or susceptible to the disease as they take up duties for the April 6 election in Kerala. However, doctors at the health department said that immunity starts developing after the first dose itself.
- Nadu: State Health department has requested the Election Commission to form special teams to monitor the spread of Covid in election campaign meets. The Central Council of Indian Medicine and Ministry of Ayush have presented 'Ayush Excellence award' to Siddha practitioner Baskar for his outstanding contribution towards COVID-19 management in Tamil Nadu. Following rise in Covid cases, number of testing centres have been increased in the border areas of Tamil Nadu. Also, the government has issued new guidelines, which say those coming from Kerala and Maharashtra would be quarantined. Meanwhile, those above 60 have been asked to register their names for vaccination.
- Karnataka: As on date, Karnataka recorded 9,52,037 total cases, 12343 deaths, 5945 active cases and 9,33,730 discharges.
- Andhra Pradesh: Andhra Pradesh has reported 106 new COVID-19 infections in the 24 hours ending Tuesday morning. For the fourth consecutive day, no death was reported and the toll stands at 7,169. The tally increased to 8,90,080 and the number of recoveries stands at 8,82,137. For the first time in months, the number of active cases gradually increased during the past week as the number of daily new infections over-passed the number of daily recoveries. As of Tuesday morning, there were 774 active cases in the State. In the past week, 671 new infections were reported, and only 471 patients recovered. The overall recovery rate slightly decreased to 99.11 per cent and the death rate remains at 0.81 per cent. The number of samples tested so far crossed 1.4-crore mark and reached 1,40,10,123 with a positivity rate of 6.35 per cent. The last 10 lakh samples were tested in 34 days and their positivity rate was 0.25 per cent. With the latest rise in the cases, the officials have geared up again to arrest the further spread of the virus.
- Telangana: As part of the nation-wide drive, the second phase of Covid-19 vaccination drive for priority age groups in Telangana commenced on Monday with inoculation of 4,558 individuals above 60 years and those aged between 45 and 59 with co-morbid conditions at 93 identified Covid Vaccination Centres in government and private hospitals. State Health Minister Eatala Rajender was inoculated at the Area Hospital in Huzurabad of Karimnagar district on the first day. A 100-year-old person Jaidev Chowdhary got vaccinated in a private hospital in Hyderabad. Union Minister of State for Home Affairs Shri G.Kishan Reddy took the vaccine at Gandhi Hospital on Tuesday. The number of Govt and private health facilities across the state increased to 135 and a total of 13,081 elderly and persons with co-morbidities were inoculated till yesterday evening. Apart from this, a total of 1,98,628 health care workers and 97,822 frontline workers received the first dose. And, a total of 1,49,623 health care workers and 16 (Sixteen) front line workers were inoculated the second dose. Thus, the cumulative number of vaccinations in the state stands at 4,59,170. The doctors, health care workers and sanitation staff of Gandhi Hospital in Hyderabad, which served as the MAIN COVID HOSPITAL in the state during the pandemic, were felicitated by the State Health Minister yesterday to mark the completion of one year of treating first Covid patient in the state.
- Maharashtra: 29 private hospitals in Mumbai have been given permissions to carry out COVID vaccination. The decision was taken to increase the speed of the vaccination drive as long queues were seen outside the designated vaccination centres in Mumbai and number of beneficiaries had to wait long to get the dose of the Covid-19 vaccine yesterday.

New Cases - 7,863

 Recoveries - 6,332

Deaths - 54

 Active Cases - 79,093

 Total Cases till date - 21,69,330

Total Recoveries till date - 20,36,790

Avoid the Three Cs

Be aware of different levels of risk in different settings.

World Health Organization
Western Pacific Region

There are certain places where COVID-19 spreads more easily:

1

Crowded places
with many people nearby

2

Close-contact settings
Especially where people have close-range conversations

3

Confined and enclosed spaces
with poor ventilation

The risk is higher in places where these factors overlap.
Even as restrictions are lifted, consider where you are going and #StaySafe by avoiding the Three Cs.

WHAT SHOULD YOU DO?

Avoid crowded places and limit time in enclosed spaces

Maintain at least 1m distance from others

When possible, open windows and doors for ventilation

Keep hands clean and cover coughs and sneezes

Wear a mask if requested or if physical distancing is not possible

If you are unwell, stay home unless to seek urgent medical care.

NOVEL CORONAVIRUS DISEASE (COVID-19)
