COVID-19 UPDATE

- f** • **India reports 80,834 new cases in the last 24 hours; lowest after 71 days**
- 🐦** • **India's Active Caseload further declines to 10,26,159**
- **Daily Recoveries continue to outnumber Daily New Cases for 31 consecutive days**
- 😊** • **Recovery Rate increases to 95.26%**
- **Daily Positivity Rate stands at 4.25%, less than 10% positivity for 20 continuous days**

✉ India has reported 80,834 Daily New Cases in the last 24 hours. The country has recorded less than 1 lakh Daily New Cases for 6 continuous days now. This is a result of sustained and collaborative efforts by the Centre and the States/UTs. India has been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at 10,26,159. The Caseload has been below 20 lakhs for thirteen successive days. A net decline of 54,531 is witnessed in the last 24 hours and active cases are now only 3.49% of the country's total Positive Cases. As more people are getting recovered from COVID-19 infection, India's Daily Recoveries continue to outnumber the Daily New Cases for 31 consecutive days now. 1,32,062 recoveries were registered in the last 24 hours. 51,228 more recoveries were reported during the last 24 hours as compared to the daily new cases.

Prime Minister participates in the first Outreach Session of G7 Summit

Prime Minister Shri Narendra Modi participated in the first Outreach Session of the G7 Summit yesterday. The session, titled 'Building Back Stronger - Health', focused on global recovery from the coronavirus pandemic and on strengthening resilience against future pandemics. During the session, Prime Minister expressed appreciation for the support extended by the G7 and other guest countries during the recent wave of COVID infections in India. He highlighted India's 'whole of society' approach to fight the pandemic, synergising the efforts of all levels of the government, industry and civil society.

Prime Minister Shri Narendra Modi also explained India's successful use of open source digital tools for contact tracing and vaccine management, and conveyed India's willingness to share its experience and expertise with other developing countries. Prime Minister committed India's support for collective endeavours to improve global health governance. He sought the G7's support for the proposal moved at the WTO by India and South Africa, for a TRIPS waiver on COVID related technologies.

COVID-19 Projects Facilitated by Office of Principal Scientific Adviser:

Extension of Hospitals

As COVID-19 cases surged in different parts of the country, infrastructure in hospitals was under immense pressure. Innovative modular hospitals came as a huge relief amidst this. Modular hospitals are an extension of hospital infrastructure and can be built adjacent to an existing hospital building. Office of the Principal Scientific Adviser, Government of India (O/o PSA, GoI) invited private sector companies, donor organizations, and individuals to support various projects of national importance. Project Extension Hospitals is one such initiative. The O/o PSA identified requirements of close to 50 hospitals in states where the highest number of COVID-19 cases were reported.

f**PROJECT O2 for INDIA**

The second wave of COVID-19 saw an increase in demand for medical oxygen in different parts of the country. While meeting the current demand, manufacturing medical oxygen also became important to ensure we have adequate supply in the future. 'Project O2 for India' of the Office of Principal Scientific Adviser, Government of India, is to enable stakeholders working to augment the country's ability to meet this rise in demand for medical oxygen.
