Update on COVID-19 Vaccine Availability in States/UTs

More than 58.76 Crore vaccine doses provided to States/UTs

More than 3.77 Crore balance and unutilized vaccine doses still available with States/UTs with 1.03 Crore doses in Pipeline

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

VACCINE DOSES	(As on 26 August 2021)
SUPPLIED	58,76,56,410
PIPELINE	1,03,39,970
BALANCE AVAILABLE	3,77,09,391

More than **58.76 crore (58,76,56,410)** vaccine doses have been provided to States/UTs so far through Govt of India (free of cost channel) and through direct state procurement category. Further, more than 1.03 Cr doses (**1,03,39,970**) are in the pipeline.

More than **3.77 Cr (3,77,09,391)** balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered.

Ayush Ministry Strongly Condemns the Tirade Against AYUSH-64 by a Section of Media

‘It is Misinterpreting the Facts, Lacking the Understanding of the Matter’

A malicious campaign is being carried out by a section of media against Ayurveda in general and the ministry of Ayush in particular for the last couple of days, citing a small study which is in pre-print stage (not peer reviewed yet). The one-sided tirade is focused on AYUSH-64, a herbal formulation found effective in the management and treatment of COVID-19 based on many larger studies and a robust multi centered clinical trial.

The results of the said study clearly show that Ayush 64 is a safe drug with an equivalence in safety with the standard of care. Also, the pre-publication cites a larger study (Chopra A, Tillu G, Chuadhary K, Reddy G, Srivastava A, Lakdawala M, et al. Coadministration of AYUSH 64 as an adjunct to Standard of Care in mild and moderate COVID-19: A randomized, controlled, multicentric clinical trial. medRxiv2021.06.12.21258345. <https://doi.org/10.1101/2021.06.12.21258345>) which takes care of the lacunae of the pre-publication.
