India's COVID-19
 Vaccination Coverage

73.05 crore

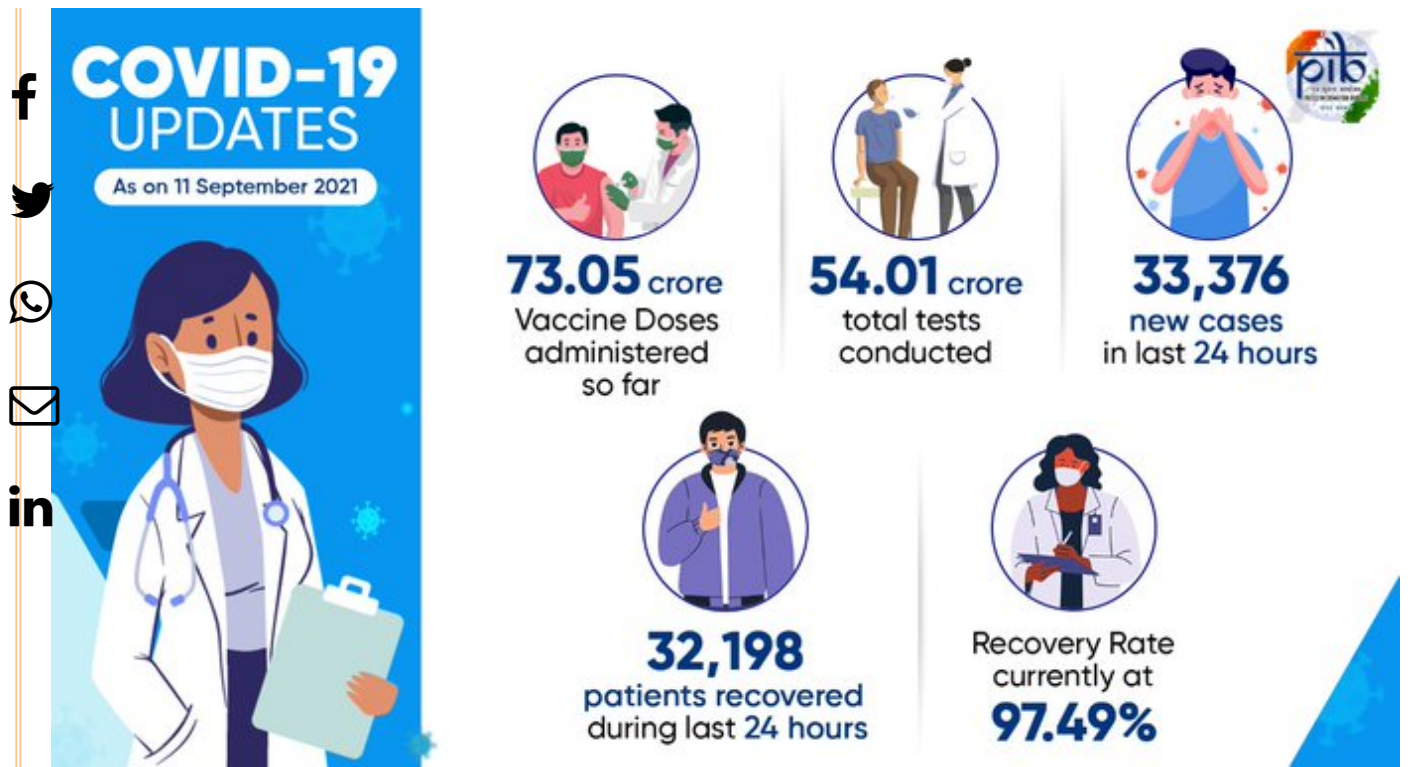

*As on 11 September 2021

Doses Given	 Healthcare workers (HCWs)	 Frontline workers (FLWs)	 Age Group 18-44 years	 Age Group 45-59 years	 Over 60 years
1 st Dose	1.03 crore	1.83 crore	29.34 crore	14.20 crore	9.23 crore
2 nd Dose	85.70 lakh	1.39 crore	4.11 crore	6.16 crore	4.87 crore

65.27 lakh
 vaccine doses administered in
 last 24 hours

COVID-19 Update

India's Cumulative COVID-19 Vaccination Coverage achieves 73Cr landmark milestone

Recovery Rate currently at 97.49%

33,376 New Cases reported in the last 24 hours

India's Active Caseload (3,91,516) is 1.18% of Total Cases

Weekly Positivity Rate (2.26%) less than 3% for last 78 days

With the administration of **65,27,175** vaccine doses in the last 24 hours, country's COVID-19 vaccination coverage surpassed the cumulative figure of **73Cr landmark milestone (73,05,89,688)** as per provisional reports till 7 am today. This has been achieved through 74,70,363 sessions.

The break-up of the cumulative figure as per the provisional report till 7 am today include:

HCWs

1st Dose

1,03,63,329

2nd Dose

85,70,340

FLWs

1st Dose

1,83,35,452

2nd Dose

1,39,10,387

Age Group 18-44 years

1st Dose

29,34,35,121

2nd Dose

4,11,03,253

Age Group 45-59 years

1st Dose

14,20,96,089

2nd Dose

6,16,92,121

Over 60 years

1st Dose

9,23,11,436

2nd Dose

4,87,72,160

Total**73,05,89,688**

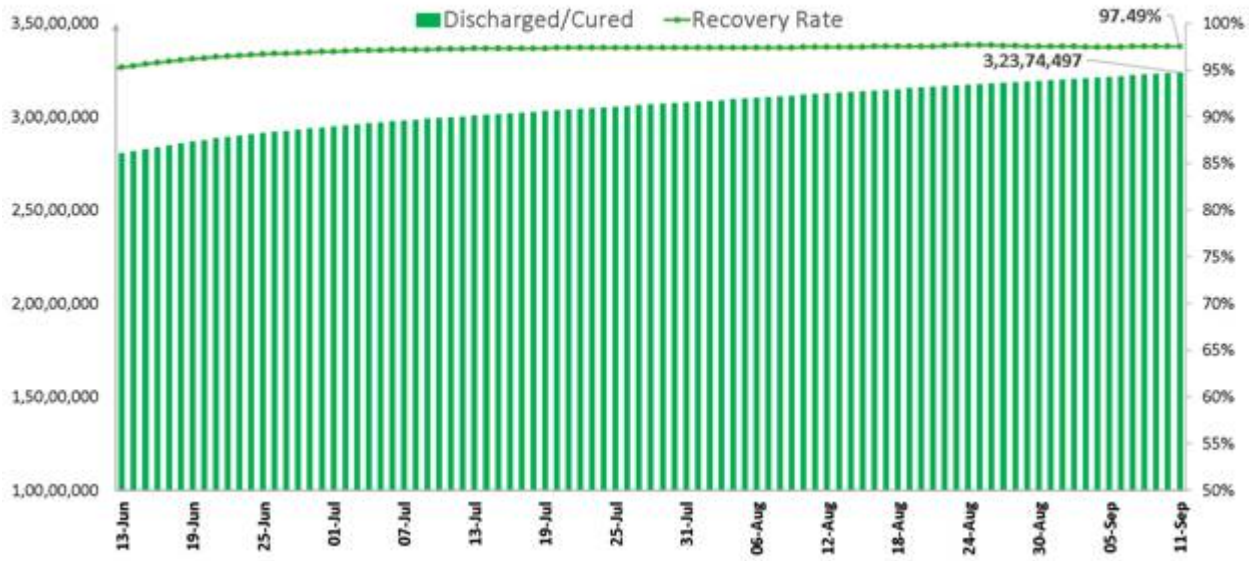

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country.

The recovery of **32,198** patients in the last 24 hours has increased the cumulative tally of recovered patients (since the beginning of the pandemic) to **3,23,74,497**.

Consequently, India's recovery rate stands at **97.49%**.

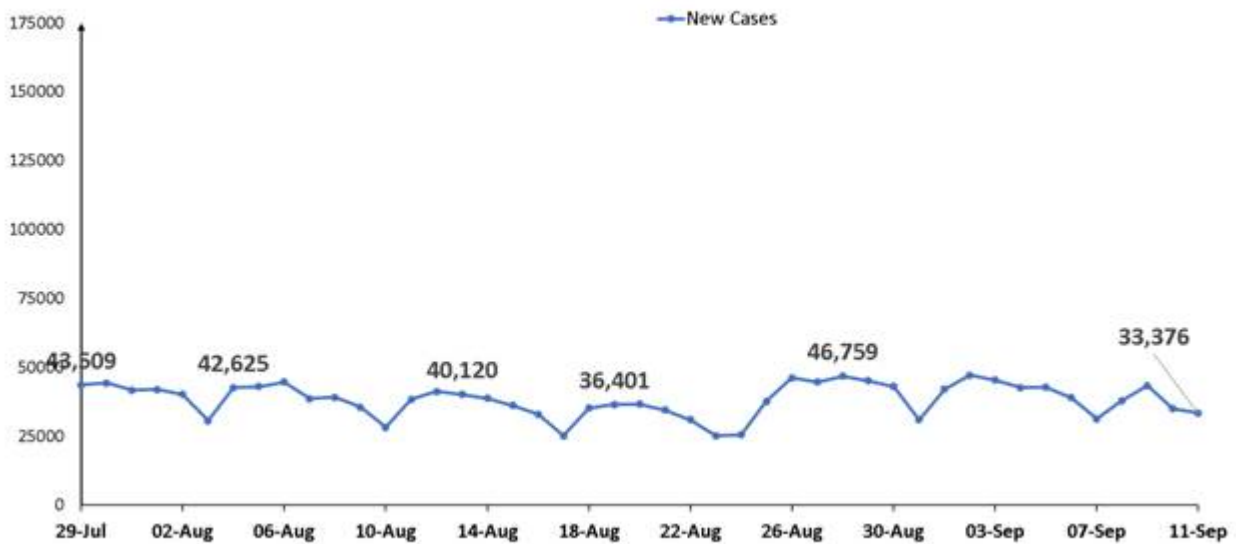

Recovered cases over 3.23 Cr & Recovery rate at 97.49%

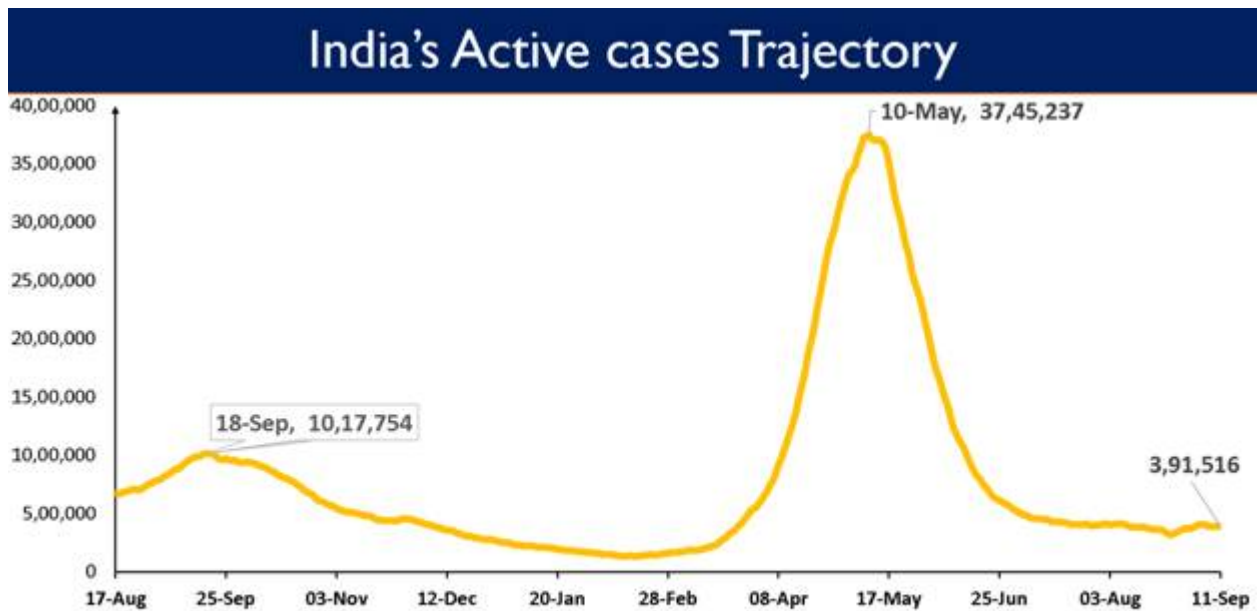

Sustained and collaborative efforts by the Centre and the States/UTs continue the trend of less than 50,000 Daily New Cases that is being reported for 76 consecutive days now.

33,376 new cases were reported in the last 24 hours.

33k New Cases reported in last 24 hrs

The Active Caseload is presently **3,91,516**. Active cases presently constitute **1.18%** of the country's total Positive Cases.

The testing capacity across the country continues to be expanded. The last 24 hours saw a total of 15,92,135 tests being conducted. India has so far conducted over **54.01 Cr (54,01,96,989)** cumulative tests.

While testing capacity has been enhanced across the country, **Weekly Positivity Rate at 2.26% remains less than 3% for the last 78 days now.** The **Daily Positivity rate reported to be 2.10%.** The daily Positivity rate has remained below 3% for last 12 days and below 5% for 96 consecutive days now.

Update on COVID-19 Vaccine Availability in States/UTs

More than 72.01 Crore vaccine doses provided to States/UTs

More than 5.75 Crore balance and unutilized vaccine doses still available with States/UTs

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The new phase of universalization of COVID-19 vaccination commenced from 21st June 2021. The vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

VACCINE DOSES	(As on 11thSeptember 2021)
SUPPLIED	72,01,73,325
BALANCE AVAILABLE	5,75,43,795

More than 72.01crore (72,01,73,325) vaccine doses have been provided to States/UTs so far through Govt of India (free of cost channel) and through direct state procurement category.

More than 5.75Cr (5,75,43,795) balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered.

PM chairs a high level meeting to review the Covid-19 related situation and vaccination

PM briefed about the augmentation of healthcare infrastructure

States asked to maintain buffer stock of medicines in every district

PM reviewed production, supply and pipeline of vaccines for next few months

PM spoke about the need for constant genome sequencing to monitor emergence of mutants

PM Narendra Modi chaired a high level meeting to review the Covid-19 related situation yesterday. The topics covered included a review of the prevailing Covid-19 scenario, preparedness of the health systems to respond, availability of medical oxygen and matters relating to production, supply and distribution of Covid-19 vaccine.

It was discussed that across the world, there are countries where the number of active Covid cases continues to remain high. In India too, the figures from states like Maharashtra & Kerala, indicate that there can be no room for complacency. However, the weekly positivity was at less than 3% for the 10th

consecutive week.

PM was briefed about the concentration of cases in a few geographies, districts with high test positivity as well as the week on week test positivity rate in the country.

PM spoke about the need for constant genome sequencing to monitor emergence of mutants. The officers informed him that INSACOG now consists of 28 labs distributed across the country. The lab network is also linked with a hospital network for clinical correlation. Sewage sampling is also being done for genomic surveillance. PM was apprised that states have been requested to share SARS COV2 positive samples with INSACOG regularly.

PM lauds Goa for 100% first dose vaccination in Goa

The Prime Minister, Shri Narendra Modi yesterday lauded Goa for administering the first dose of Covid-19 vaccines to 100% eligible population in Goa.

While sharing a tweet by the Chief Minister of Goa, Dr. Pramod Sawant, the Prime Minister said "Well done Goa! Great effort, powered by a collective spirit and the prowess of our doctors as well as innovators."

Important Tweets

Nearly 73 crore vaccine doses administered across the country.

Around 58% of India's adult population has received the first vaccine dose & about 18% of adult population has received the second dose.

India's efforts against Covid-19 continue with undaunted determination.
