Update on COVID-19 Vaccine Availability in States/UTs

More than 163.71 Crore vaccine doses provided to States/UTs

More than 13.60 Crore balance and unutilized vaccine doses still available with States/UTs

 The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16th January 2021.  The new phase of universalization of COVID-19 vaccination commenced from 21st June 2021. The vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs/

VACCINE DOSES	(As on 27 th January, 2022)
SUPPLIED	1,62,73,06,725
BALANCE AVAILABLE	13,83,03,116

More than **163.71 crore (1,63,71,18,725)** vaccine doses have been provided to States/UTs so far through Govt. of India (free of cost channel) and through direct state procurement category.

More than **13.60 Cr (13,60,98,246)** balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered.

**National Regulator approves “Conditional Market Authorization” of two COVID19 Vaccines-
Covaxin and Covishield**

**Market Authorization conditional to submission of ongoing clinical trial data and safety data of
the vaccine, at longer time intervals**

All vaccinations to be recorded on CoWIN platform and AEFI, AESI to be strictly monitored

f The National Regulator, Drugs Controller General of India (DCGI), has given nod to market authorization of two COVID19 vaccines, Covaxin and Covishield subject to certain conditions, here today. The Subject Expert Committee (SEC) of the Central Drugs Standard Control Organization (CDSCO) had recommended for upgradation of status for the vaccines from restricted use in emergency situations to grant of new drug permission with conditions in the adult population on 19th January 2022.

🗨️ The proactive and agile approach followed by Government of India has been a hallmark of its strategy of management of COVID19. The latest approval accorded by DCGI for conditional market authorization to two COVID19 vaccines in the country indicates the promptness and timeliness with which the public response strategy and decision making apparatus of the country has responded to the emerging needs during the pandemic.

in It may be noted that of the global Stringent Regulatory Authorities, only the United States Food and Drug Administration (USFDA) Medicines and Healthcare products Regulatory Agency (MHRA) of the UK have granted “conditional market authorization” to Pfizer and AstraZeneca, respectively, for their COVID19 Vaccines.
