Update on COVID-19 Vaccine Availability in States/UTs

More than 193.53 Crore vaccine doses provided to States/UTs

More than 13.81 Crore balance and unutilized vaccine doses still available with States/UTs

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16th January 2021. The new phase of universalization of COVID-19 vaccination commenced from 21st June 2021. The vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

Union Health Minister Dr Mansukh Mandaviya interacts with State Health Ministers; reviews status and progress under “HarGharDastak 2.0”

Urges States to Focus on increasing COVID Vaccination coverage of School Going Children and Precaution Dose for the Elderly

COVID not over yet; With rising COVID cases in some states, Important to be Alert and not forget COVID Appropriate Behaviour (CAB): Dr Mansukh Mandaviya

States/UTs urged to continue and Strengthen the Surveillance and focus on Genome Sequencing

“COVID is not over yet. There are reports of rising cases of COVID in some states. It is important at this time to be alert and not forget COVID Appropriate behaviour (CAB) such as wearing masks and maintaining physical distance to prevent spread of the infection”. This was stressed by Union Minister for Health and Family Welfare, Dr Mansukh Mandaviya as he chaired a meeting through Video Conference (VC) today with Health Ministers and senior officials of States and Union Territories (UTs) to review the progress of vaccination exercise HarGharDastak 2.0 campaign.

Highlighting increased case positivity in some districts and States and reduced COVID-19 testing, Dr Mandaviya stated that increased and timely testing will enable early identification of COVID cases and help to curb spread of the infection among the community. He urged States/UTs to continue and strengthen the surveillance and focus on genome sequencing for identifying new mutants/variants in the country. He stated that the five-fold strategy of Test, Track, Treat, Vaccination & Adherence to Covid Appropriate Behavior (CAB) needs to be continued and monitored by States/UTs.
