Update on COVID-19 Vaccine Availability in States/UTs

More than 193.53 Crore vaccine doses provided to States/UTs

More than 8.60 Crore balance and unutilized vaccine doses still available with States/UTs

The Union Government is committed to accelerating the pace and expanding the scope of COVID-19 vaccination throughout the country. The nationwide COVID 19 vaccination started on 16th January 2021. The new phase of universalization of COVID-19 vaccination commenced from 21st June 2021. The vaccination drive has been ramped up through availability of more vaccines, advance visibility of vaccine availability to States and UTs for enabling better planning by them, and streamlining the vaccine supply chain.

As part of the nationwide vaccination drive, Government of India has been supporting the States and UTs by providing them COVID Vaccines free of cost. In the new phase of the universalization of the COVID19 vaccination drive, the Union Government will procure and supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country to States and UTs.

VACCINE DOSES

(As on 20th July 2022)

SUPPLIED

1,93,53,58,865

BALANCE AVAILABLE

8,60,46,365

More than **193.53 crore (1,93,53,58,865)** vaccine doses have been provided to States/UTs so far through Govt. of India (free cost channel) and through direct state procurement category.

More than **8.60 Cr (8,60,46,365)** balance and unutilized COVID Vaccine doses are still available with the States/UTs to be administered.

Centre Reviews COVID-19 Situation in 115 districts of 9 States showing an Upsurge in COVID Cases and Positivity; Flags Concerns regarding low levels of testing and vaccination

States to report & monitor district-wise SARI and ILI cases on a daily basis

Shri Rajesh Bhushan, Union Health Secretary chaired a high-level meeting today to review the COVID-19 situation in 9 states of Kerala, West Bengal, Tamil Nadu, Maharashtra, Assam, Andhra Pradesh, Himachal Pradesh, Mizoram and Arunachal Pradesh. These States are either reporting a surge in new daily COVID cases or a rise in positivity. The public health measures for surveillance, containment and management of COVID19 were also reviewed. Dr Vinod Paul, Member (Health), NITI Aayog was also present.

Expressing concern regarding the surge in cases in these states in the past one month, Dr V. K. Paul reiterated, “We need to be mindful that COVID has not gone. Looking at the global scenario, we need to be at high alert. There is poor surveillance, poor testing and below average vaccination in many states undergoing the present surge”, he pointed out. He urged states to improve the testing in areas with high positivity, increase surveillance as per the revised surveillance strategy and speed up COVID vaccination.
