

Community Sanitary Complex (CSC) success stories

Name of Gram Panchayat :- Banachiwadi

Taluka :- Radhanagari

Number of Family :- 334

Year of Public Toilet Construction :- 2022-23

Grampanchayat Banachiwadi, Taluka Radhanagari is open defecation free (ODF) Grampanchayat. Bhairibabar village is located at a distance of 2 km from Grampanchayat. Bhairi temple is a religious place in this village and there is a large crowd of devotees in this place. The people coming from out of village facing inconvenience as toilet facilities were not available here. Hence the need for public toilet (CSC) arise here.

The Grampanchayat decided to construct a Public Toilet (CSC) at Bhairi temple. For this, 70% funding of Swachh Bharat Mission (G)Phase-II and 30% funding was sanctioned by 15 Finance Commission. The site for construction of Public Toilet (CSC) is cleaned with public participation.

A public toilet (CSC) has been completed at Bhairi temple, and this toilet is being used by the citizens coming from out of village and the citizens of the village. Due to the construction of this toilet, the people coming from out of village got the facility of toilet and also the citizens of the village are using it. This helps in maintaining the cleanliness of this public place.

The public toilet constructed by Banachiwadi Grampanchayat is maintained and repaired by Grampanchayat itself. Separate units for men and women have been constructed. Also, separate arrangements have been made for disabled persons. Water and hand washing facilities have been arranged here. Water is being supplied here by gravity system. Electricity supply has been arranged in the toilet. Pay and Use system is not used through Grampanchayat and free facility is provided to people.
