Data Bank for Case Information System (CIS) In High Court

- Earlier, there was no provision in the CIS for keeping database of ready pending cases for listing before respective Benches. Also, previously, individual staffs used to directly make entry of cases before respective Benches.
- An in-house module has been developed for keeping accumulated database of ready pending cases for listing the cases before respective Benches centrally as per requirement. In this regard, a separate periphery has been developed for entering of ready pending cases by the concerned sections.
- There is a provision in the Data Bank module for listing the cases Bench wise, nomenclature wise, subject wise and year wise as per direction of Benches.

Order/Judgement Mailing System

- ▶ An application has been developed for sending orders/ judgements through email to Lower Court in authorized way on the uploading day of judgement without any delay.
- ▶ There is also a provision to send Order/Judgement by manually typing any mail provided.
- ▶ Secretary/PA's of Hon'ble courts can directly send the judgements to the District Courts without having given internet connection on his personal PC.
- ▶ The application is Gmail based.
- ▶ The official mail created to send Judgement is:
portal.ordermailing@gmail.com

Order/Judgement Mailing System

Its features are mentioned below:

- Crucial decisions, including orders of bail and stay of arrest, can be communicated electronically to Lower Court, prison authorities and investigating agencies on the same date of Judgement.
- Parties who have been granted relief are not left waiting for an order copy in order to be released.
- Initiative to confront the problem that affects the liberty and dignity of accused/convicts regarding delay in release after grant of bail.
