# Postal Integration

- » In order to keep track on the postal service availed for the issuance of notice/summons by RPAD/speed post an integrated application is in the place, through which real time status of postal covers can be ascertained on daily basis by the court concerned and can be noted in each case file.
- » The postal department shares the status of the postal covers delivered through RPAD technically through web service. The pending branches can get the status of the notice/summons dispatched before receiving the physical acknowledgment. Posting of the case can be done after receiving the status from postal server. Tracking of the postal covers dispatched will become easy for the pending branches.

# ICJS – Interoperable Criminal Justice System

- » The Interoperable Criminal Justice System (ICJS) has been introduced to facilitate speedy Justice through Data-exchange between the Courts, Police, Prosecution, Prison, Women and Child Department and Forensic Labs in a single platform.
- » Under this, all stakeholders would have online and instant access to data available in different software applications, thereby reducing the time normally consumed in manual exchange of documents or information. As an enhancement for the first time in the country digitally signed FIR and charge sheet is received from police station through ICJS media, thereby digital era started for online transmission between Courts and Police Stations. All the Courts and Police Stations in the State are exchanging the data online.
