ADMISSION NOTICE FOR
BACHELOR in CLINICAL PSYCHOLOGY
(B.Clin.Psy.) A.Y. 2026-27

1. About the Institute

The **National Institute of Mental Health Rehabilitation (NIMHR)**, Sehore is an autonomous institute under the **Department of Empowerment of Persons with Disabilities (DEPwD), Ministry of Social Justice & Empowerment, Government of India**. Established with the vision to advance the cause of mental health and rehabilitation, NIMHR serves as a national resource center for education, training, research, and policy development in the field of mental health and psychosocial rehabilitation.

Strategically located on the Bhopal-Indore highway in Sherpur, Sehore (Madhya Pradesh), the institute is committed to developing a multidisciplinary workforce and delivering need-based rehabilitation services to persons' with psychosocial and intellectual disabilities, autism spectrum disorders, and other developmental conditions. It plays a pivotal role in integrating mental health within the broader framework of disability rehabilitation and inclusive development.

With a focus on excellence in academics, clinical services, and community outreach, NIMHR regularly collaborates with leading institutions such as NIMHANS Bengaluru, IHBAS New Delhi, CIP Ranchi, and AIIMS Bhopal. Its facilities include specialized service units, and a cross-disability early intervention center (CDEIC).

2. About the Course

The Bachelor in Clinical Psychology (B. Clin. Psy.) is a four-year, full-time undergraduate professional program recognized by the Rehabilitation Council of India (RCI) under the National Education Policy (NEP) framework. The program has been designed to develop competent frontline mental health professionals equipped with the knowledge, skills, and attitudes required for mental health promotion, early identification of psychological problems, psychoeducation, community-based interventions, and rehabilitation support services.

The course provides a strong foundation in psychological sciences, human behavior, mental health, psychopathology, psychological assessment, research methodology, rehabilitation psychology, and clinical psychology. Through a combination of classroom teaching, laboratory-based practical training, supervised clinical placements, community exposure, internships, and research activities, students gain comprehensive exposure to diverse mental health and rehabilitation settings.

The program aims to address the growing need for trained mental health professionals in India by preparing graduates to work under the supervision of qualified Clinical Psychologists and multidisciplinary rehabilitation teams. Students are trained to conduct awareness and mental health promotion activities, basic psychological screening, psychoeducation, psychological first aid, caregiver support, and community-based rehabilitation interventions while adhering to ethical and professional standards.

Upon successful completion of the program, graduates are eligible for registration with the Rehabilitation Council of India (RCI) as Clinical Assistant (Clinical Psychology) and may pursue employment opportunities in hospitals, rehabilitation centers, educational institutions, community mental health programs, non-governmental organizations, research projects, and

allied healthcare settings. The degree also provides a strong foundation for higher education and advanced professional training in psychology and related disciplines.

3. Objectives of the Course

The Bachelor in Clinical Psychology (B. Clin. Psy.) program aims to:

1. Develop a strong foundation in psychological sciences, human behavior, mental health, and clinical psychology.
2. Equip students with the knowledge and skills required for mental health promotion, prevention, early identification, and basic psychological assessment.
3. Prepare students to provide psychoeducation, psychological first aid, caregiver support, and community-based mental health interventions under professional supervision.
4. Provide practical training through clinical placements, community exposure, internships, and research activities to enhance professional competence.
5. Foster ethical, evidence-based, and disability-inclusive practices while preparing graduates for careers in mental health services and higher studies in psychology and related disciplines.
