## Conceptual Framework

The modern education system essentially requires robust database systems for the creation, dissemination and application of knowledge to the society and its welfare. The Ministry of Education (MoE) has been conducting the All India Survey on Higher Education (AISHE) to collect data from all higher education institutions in the country through electronic mode for evidence-based policy making and effective planning. The AISHE report published annually by the MoE, has been very useful not only in providing a glimpse of the statistical profile of the institutions but also in analysing its various domains.

This volume on *India Higher Education Profile (2019-20)*, brought out by the Planning, Monitoring and Statistics Division for the first time, includes all-India/State-wise statistical profile of higher education in two broad segments i.e. demographic particulars and academic indicators as given below:

Segments	Indicators/Parameters
<b>Demographic Profile</b>	<ul style="list-style-type: none"> <li>Projected population (18-23 years)</li> <li>Literacy Rate</li> </ul>
	<ul style="list-style-type: none"> <li>Number of Universities, colleges and stand-alone institutions</li> <li>Number of autonomous colleges and dual mode universities</li> <li>Percentage of colleges in rural areas, colleges exclusively for girls</li> <li>Degree awarding universities/institutions</li> <li>Enrolment in higher education</li> <li>Gross Enrolment Ratio, Gender Parity Index, Pupil Teacher Ratio</li> <li>Number of teaching and non-teaching staff</li> <li>Hostel accommodation and intake capacity, Details of academic infrastructure, etc.</li> <li>Accreditation status of Higher education institutions</li> <li>Higher Educational Rankings published by MoE               <ul style="list-style-type: none"> <li>National Institute of Ranking Framework (NIRF)</li> <li>Swachhata Ranking of Higher Learning Institutes</li> <li>Atal Ranking of Institutions on Innovation Achievements (ARIIA)</li> </ul> </li> </ul>

The main source used for the compilation of statistical information on all these aspects is the All India Survey on Higher Education (AISHE) report. To present key indicators of higher education at single place, few data have been taken from diversified sources such as

National Institutional Ranking Framework (NIRF), National Assessment and Accreditation Council (NAAC), University Grant Commission (UGC), Atal Ranking of Institutions on Innovation Achievements (ARIIA) and Census report of Govt of India,2011.

The data sources are mentioned at relevant places. In places, where it is not mentioned, it is understood to be taken from AISHE 2019-20 report.

The maps used in the report are not to scale. The boundaries and the names used in the maps are only a visual representation and do not determine the legal boundary position.
