EDITORIAL

This is the first eGovernance bulletin of Ladakh UT and it has come at a stage when eGov has already gained momentum in Ladakh. Almost all the department/Sector are using eGov/Online application for the benefit of citizens. It is high time that we publish these eGov/Online applications in public interest.

This issue being launched ahead of Digital Week 2023, our focus are the products of “Digital India” - a flagship programme of Government of India that will digitally empower the society. “Digital India Week” that will be celebrated to popularize the eServices being provided for quite some time.

All the eServices have been clubbed together, in this issue, These are the services:

ABHM, Rewa Portal, IPR Ladakh, Ladakh Heritage portal H&MED portal, NGDRS, Sarathi, Vahan, eGazette, eOffice iRAD, LIFMS, eHospital, eCourts, NSP, IVFRT, PFMS, eProcurement, LadakhUT Portal. The remaining will be put in the next issue.

The bulletin has been named as eGovernance@Ladakh.

Happy Reading.

SIO NIC Ladakh UT

We invite your valuable suggestions, articles and write-ups for “eGovernance @ Ladakh”. Please send your inputs/ contributions/ feedback to our editors or else directly to me at the address below

Message

In today's fast-paced digital world, eGovernance initiatives have emerged as a transformative force, revolutionizing the way governments function and interact with their citizens. With the potential to enhance efficiency, transparency, and citizen participation, eGovernance initiatives are paving the way for a more streamlined and inclusive governance system.

At the core of eGovernance lies the principle of accessibility. Through digital platforms and online services, citizens can easily access government information and services from the comfort of their homes. Whether it's obtaining documents, paying bills, or registering for services, eGovernance initiatives bring convenience to citizens' fingertips, creating a more efficient and citizen-centric government.

In this inaugural edition of e-Governance @Ladakh, we delve into an extensive account of multiple projects and services that are currently being implemented in the Union Territory of Ladakh. This volume aims to provide an in-depth exploration of the initiatives undertaken in Ladakh, highlighting their features, progress, and impact on the region's governance landscape.

While the advantages of eGovernance initiatives are undeniable, it is crucial to address challenges and ensure inclusivity. Furthermore, robust cyber security measures must be put in place to safeguard citizen data and maintain the trust in digital systems.

eGovernance initiatives offer tremendous potential for governments to become more efficient, transparent, and inclusive. By embracing digital technologies, governments can enhance accessibility, foster transparency, promote data-driven decision-making, and empower citizen engagement. Let us unlock the power of eGovernance and pave the way for a future where technology is leveraged for the benefit of all.

Message

As the Secretary Information Technology, it is with immense pride and excitement that I introduce the inaugural volume of our eGovernance magazine, highlighting the transformative journey of eGovernance initiatives in the Union Territory (UT). This milestone publication represents a testament to our commitment to embracing technology and leveraging its power for the betterment of governance and citizen services.

We aim to showcase the various initiatives and services that have been implemented, aiming to bring efficiency, transparency, and inclusivity to the forefront of governance. Our dedication to digital transformation is evident through the coverage of various services featured in this volume. Furthermore, this magazine serves as a platform to celebrate the collaborative efforts of NIC and the UT Administration, Ladakh.

We understand that the journey towards comprehensive eGovernance is an ongoing process, requiring continuous adaptation, innovation, and collaboration. However, we remain steadfast in our commitment to serving our citizens better, harnessing the power of technology to bring about positive change in every aspect of governance.

I extend my heartfelt gratitude to the dedicated teams and stakeholders who have contributed (in terms of ideas, discussion, analysis, coding, debugging, deployment, hosting, analyzing, documentation, trainings maintenance and last but not the least citizen satisfaction to the success of these initiatives.

**Secretary IT
Ladakh Administration**
