

# COVID-19 Activity Report

## Goa State Centre

3<sup>rd</sup> June, 2020

NIC Goa the Technology partner of Government of Goa performs 24x7 operations of ICT Infrastructure services for Government such as Video Conferencing, Data Centre, Networking and Technological support through their IT team.

During this **Covid-19 pandemic**, NIC Goa explored every possibility to ensure seamless availability of all the IT services to Government. For this, all NIC officials have taken every possible measure to ensure that none of the IT related critical functions are impacted for State and Central Government Offices in Goa.

### Some of the prominent Applications supported by NIC Goa are:

- Technical support for conducting high level VC with Ministries.
- Technical support for Desktop based VC for conducting official meetings at local level in order to maintain social distancing at Secretariat, High Courts and District Courts.
- Publicizing and Support for Aroyasetu App, which is launched by Government of India to help people identify the risk of getting infected by the **Corona Virus**.
- NIC Goa supports the implementation Web Portal and Mobile Apps for Covid-19 test (RT-PCR) and Rapid antibody test App.
