P R E F A C E

Final Annual Plan Operation of Plantation for the year 2019-20 contains detail of plantation sites such as Name of Scheme/Component, Name of Range/Block/Beat, and Location with exact Khasra No. Km/RD, Plantation Month, Target Achieved (in Ha/RKM), Specie-wise Plants Planted, Spacing and GPS Co-ordinates (Longitude & Latitude) including State level abstract. Plantation sites of various schemes have been shown separately for Territorial wing and Community Forestry wing.

Graphic representation of plantation is aimed at making quick view of Circle/Wing-wise plantation(in Ha./Plants), District-wise Forest & Non-Forest Plantation (in Ha./Plants), Category-wise Forest & Non-Forest Plantation (in Ha./Plants) and hoped that it will be helpful in making decisions on policies of Forestry Sector Investment and Development Programmes for the coming years.

Scheme/Component-wise abstract as per forest and non-forest land in territorial wing have been included and hoped that it will further enhance the utility of this book. However, the over-all approach and design has remained unchanged.

Such type of compilation relating to plantation in different years will serve as a reference book for planning and policy making on plantation activities in the State. Compilation will be of immense use in Monitoring and Evaluation work of plantations. It will also help in assessment of Forestry Sector output in a better way. Modern techniques of plantation can also be adopted to increase forestry sector share in economic development and to get better output in the form of pollution free environment in future.

The data was collected from Divisional Forest Officers of Territorial. It has been compiled, organized, analyzed and augmented in a better way by the CAMPA Branch of PCCF office. Every effort has been made to minimize the typing mistakes.

Various suggestions for further improvement of this book are always welcome.

Place:- Panchkula

Vineet Garg, IFS
PCCF cum CEO, State CAMPA,
Haryana, Panchkula.

FOREWORD

The purpose of compilation of Final Annual Plan Operation of Plantation for the year 2019-20 is aimed at managing forest resources in a better manner and systematic planning of future forestry and other related operations. This Annual Plan has been compiled aiming at this purpose. It contains detail of plantation sites of various schemes as per forest and non-forest land. The format incorporates provisions on collection, collation, validation and compilation of forest statistics of such parameters that are considered to be highly useful for policy formulation, planning and investment related decisions for forestry and other related activities and programmes.

Planning of plantation activities at micro-level can be done on the basis of data base management that are contained in these documents. Such data base will assist field level staff and officers of Haryana Forest Department to achieve the mandated developmental programmes while planning for future plantations.

I am of the firm belief that the information contained in this book will be of immense use, not only in terms of assessing the plantation progress in the State, but would also serve as a tool for assessing the output and impact of forestry sector. Diversified and modern plantation techniques available for different species need to be adopted so as to increase area under Forest and Tree Cover.

I appreciate the efforts made by Sh. Vineet Garg, IFS in bringing out this publication. I also appreciate the hard work done by concerned Staff of CAMPA Branch who made significant contribution.

I am confident that this book will be liked by planners, managers, foresters and various research organizations.

F.No. 14-100/2015-FC (Ph)

To: The Chief Executive Officer
State CAMPA- Haryana

Sub: Approval of Annual Plan of Operation (APO) of Haryana for FY 2019-20

Kindly refer to the letter of the State CAMPA dated 08.02.2019 whereby the Annual Plan of Operation prepared as per the Compensatory Afforestation Act 2016 and Compensatory Afforestation Fund Rules was submitted for approval of the National CAMPA.

The Executive Committee of the National CAMPA in its meeting held on 26.04.2019 has examined the APO of Haryana and made following observations:

1. During the presentation it was informed that the suitable area earmarked for CA along road side is not available because of forest diversion in these areas. Therefore, the EC decided that issue of CA areas may be looked into by the Regional Office, Chandigarh.
2. It was also decided that the block plantation of 100 ha proposed to be undertaken under NPV component should be shifted as plantation under CA component. The State Government has not created land bank for CA plantation. Therefore, it was agreed that the land bank should be identified by the State Government at the earliest and reported to the Ministry.
3. It was informed that third party monitoring report was carried out during 2017-18 and third party monitoring report for current year is yet to be carried out and an amount of Rs. 20.00 lakhs is earmarked for this purpose. The Committee decided that State CAMPA should send report and action taken to National Authority. The money earmarked for third party monitoring is not sufficient. Therefore, State CAMPA should increase allotment of money for this purpose.
4. It was also decided that the money earmarked for publicity, etc. should be used for schemes which are undertaken from the fund of State CAMPA only. Committee has also decided that there should not be purchase of vehicle for State Government except motor cycles for frontline staff as per the requirement. EC also stressed that the money should be spent as per the CAF Rules, 2018.
5. Forest fire prevention, being an important activity should be done as per the National Action Plan on Forest Fire which was approved by the Ministry in April 2018 in consultation with State Government. The State Government should prepare a comprehensive State Action Plan

DELIPAK KUMAR SINHA
Joint Secretary, Ministry of Environment, Forest and Climate Change
GOVT. OF INDIA, NEW DELHI

on Forest Fire for the State in tune with the National Action Plan on Forest Fire and spend money on fire control from NPV (80% component) annually.

6. As per the CAF Rule 2018 the APO should be prepared in consultation with the Gram Sabha as prescribed under the FRA before the APO is approved by the Steering Committee of State Authority. No such undertaking has been provided along with the APO, which may be provided.
7. The expenditure from the NPV should be as per the CAF Rules which provides 80% for core forestry activities and 20% for ancillary activities. The State Authority should re distribute the permissible activities accordingly. Similar Rules applies for expenditure from Interest component.
8. The State Authority should ensure that the expenditure from State CAMPA Fund is done strictly according to the provisions of the CAF Act and CAF Rules and follow directions issued by any authority or Court in this regard.

The committee examined the proposal in light of the above restriction and approved the APO subject to the amendment for non-permissible activities referred above. The budget for the APO should be revised accordingly and informed to the National Authority for record.
