-sd-  
**CEO (CAMPA),  
State Authority, Haryana**

**Terms of Reference (ToR) for hiring of Independent Consultant for**  
**“eGreenWatch”**  
**at Haryana Forest Department**

**1. Background**

In order to manage the works carried out by the State Forest Departments using the funds allotted under CAMPA (Compensatory Afforestation Management & Planning Authority) and to monitor the progress of plantations as per the approved Annual Plan of Operations (APOs), the Government of India launched the e-GreenWatch portal in compliance to the orders of the Hon’ble Supreme Court. e-GreenWatch is an integrated e-governance portal for automation, streamlining & effective management of processes related to the utilization of CAMPA funds and all other funds earmarked by States under various centrally or state-sponsored schemes for plantation and other forestry-related works. The system is designed and targeted to be mainly used by all Range Offices, Division Offices, State Forest Departments, and agencies responsible for the evaluation of forestry works. The portal is jointly monitored by the Ministry of Environment, Forests & Climate Change (MoEFCC) and the Forest Survey of India (FSI), and NIC handles the technical execution of the project. It facilitates the capture of information on land under Compensatory Afforestation, Diverted Land, Plantation Work, Other Plantation Work and Assets. The land under these categories is also monitored over satellite imagery through this portal. It provides a common platform for all stakeholders for the effective and transparent execution and monitoring of all plantation and forestry-related works being carried out anywhere in the country.

**2. Assignment**

This assignment is focussed on the forestry related work under Haryana state forest department. The consultant will work on the eGreen Watch portal at the Haryana Forest Department to ensure smooth functioning of the portal with regular updates & monitoring of data uploaded, reviewing data quality & accuracy, and coordinating with other stakeholders for data sharing and management.

**3. Tasks to be carried out by the Consultant**

- Upload information about each activity implemented under the approved (APOs) as per the prescribed forms and schedule including photographs, latitude and longitude of the place of execution.
- Check and ensure correct registration of all FCA projects in the State, work progress by the division/range user and details of the funds received from National CAMPA in the e-Green Watch portal.
- Review the digitization of Compensatory Afforestation (CA), Diverted Land (DL), Plantation Work (PW), Other Plantation Work (OPW) and Assets.

- Ensure the availability of the geographic coordinates/ boundaries of all work sites in KML format.
- Check the master data related to the species, divisions and Ranges.
- Review the FSI comments and reply on the same within the stipulated time.
- Coordinate and support the workshops/training for the division staff in association with NIC, MoEFCC and FSI.
- Prepare a report on the work completed at the end of the consultancy period.

#### **4. Consultancy Period**

The period for consultancy is eleven months starting from ..... November, 2022 to..... 2022.

#### **5. Emoluments**

The consultant will be given a consolidated emolument of about Rs. 50000/- per month

#### **6. Evaluation of Consultant's Work**

The work done on eGreenWatch portal and the relevant data & documents will be monitored and reviewed by the CEO, CAMPA

#### **7. Qualifications required for Consultant**

- M.Sc. in Forestry/Environmental Science with additional qualifications in GIS & Remote sensing
- 1-2 years of working experience in the field of forestry/environmental science.
- Experience with FSI and eGreenWatch will be preferred.
