..... **Respondents**

Appearance:

For the Petitioner		: Shri Shashank Jewalikar (Rep.)
For MSEDCL		: Adv. Shashwat Kumar
For BEST		: Shri M.M. Rane (Rep.)
For AEML-D		:Shri Ranjit Sawardekar (Rep.)
For TPC -D		: Shri Vidyadhar Wagle (Rep.)
For ADTPS	}	: Shri Chintan Mankad (Rep.)
For APL		
For IEPL		: Shri Sandip Kawale (Rep.)

Daily Order

1. Heard the Advocates/Representatives for the Petitioner and the Respondents.
2. The Petitioner reiterated its submissions as made in its Interlocutory Application filed for an early hearing in its main Petition in Case No. 51 of 2025 and briefly elaborated on the offline studies it undertook for the introduction of SCED (Security Constrained Economic Dispatch) in the State and the pilot run operation for the said Intra-State SCED, which it intends to commence pilot run for six months before its full-fledged implementation. The Petitioner also stated that the Energy Department of the

Government of Maharashtra has included the SCED Pilot project in its 100 Days implementation and hence requested for urgent interim approval.

3. The Commission notes that none of the respondents present during the E-Hearing raised any objection to the prayer of MSLDC seeking approval to conduct a six months online pilot run operation on Intra-State SCED without affecting existing real-time scheduling operations, which will enable MSLDC to evaluate the potential benefits of SCED and provide key insights for its future full-scale implementation in the State.
4. Accordingly, the Commission allows MSLDC to go ahead with the six-month online pilot run on Intra-State SCED as requested, with due coordination with all the concerned stakeholders and without affecting the present real-time scheduling operations under the MERC (Deviation Settlement Mechanism and Related Matters) Regulations, 2019.
5. After completion of the SCED pilot run operation, MSLDC shall come out with the detailed report on the outcome of the pilot run operation, benefits of SCED implementation, difficulties faced, stakeholders' concerns/feedback and way forward/suggestions for full-fledged implementation of SCED in the State. The report shall be shared with the Stakeholders by MSLDC. In the meantime, the stakeholders may submit their replies on the present Petition and also the responses/feedback on the pilot run implementation. After receipt of the MSLDC's above report and stakeholders' feedback and replies, the Commission shall decide further course of action in the main matter (Case No. 51 of 2025).

With the above, IA No. 43 of 2025 in Case No. 51 of 2025 for urgent listing stands disposed of.

NOTIFICATION

Sub:- Invitation of Expression of Interest to Work at SLDC & ALDC

This is transition time in the power sector all over the world. All the organisations in the electric power system are preparing for the transition. The changing generation mix with large number of renewable energy generation, an urgent need for transition to a data centric decision making process of Grid Operations and Management, changing nature of load mix with data centres and EVs are some of the drivers for this change. It is not just the change on technology side in the energy sector but there also are rapidly changing and evolving institutional arrangements. Lots of regulatory changes have already happened at national level and taking shape at state level.

2. The transition is challenging and so it is an exciting opportunity for the young engineers!

3. Maharashtra SLDC is as the apex body for grid management in the state preparing itself for this transition. Apart from strengthening the traditional areas of work they are opening up some new areas of work. The SLDC aims to create an excellent team of engineers having all the skillsets required for this transition.

4. The Management is inviting **MSETCL Engineers** to apply for dynamic roles within the SLDC. Selected candidates will have the opportunity to **enhance their skills and develop expertise** in various areas of SLDC operations, including:-

1. Grid management and operations
2. Power system studies, data analytics and power system modelling
3. Power system protection
4. Power sector regulations
5. Software developers
6. Market monitoring
7. Networking, Communication and cyber security

5. **Who can Apply:**

- Additional Executive Engineer (Trans), Deputy Executive Engineer (Trans) & Assistant Engineer (Trans)
- Number of Posts – 12 to 15

6. Selection process:

The selection will be through an internal scrutiny and interview process. Suitable candidates possessing M.E. or M.Tech. in Power System, Engineers having software development skillsets or power system modelling skillsets, engineers with experience in protection and testing, engineers with experience of line maintenance in critical areas may get preference.

7. If you are interested in exploring this opportunity, please submit your Expression of Interest thorough email on tbcbadvt0422@mahatransco.in by 10.01.2025 in the Attached Application Form.

8. Application must be submitted in the Proforma given, in same order preferably typewritten on full-scape paper. All items of the application should be filled in properly.)

9. Training and Learning:

Selected candidates will undergo specially designed trainings and learning with SLDC team.

Thank you for your attention, and we look forward to your enthusiastic participation!
