Queries Reg.: Mid-Term Evaluation of Watershed Development components of the Pradhan Mantri Krishi Sinchae Yojana (WDC-PMKSY 2.0)

Name of the Firm: AFC India Limited

S. No.	Reference	Query	Response
1.	IN HAND SUBMISSION OF PROPOSAL	It is kindly requested to allow the in-hand submission of the proposal. Your kind consideration of this request will be greatly appreciated.	Yes, You may submit by Hand and also sent through Post.
2.	Last date for Original Bid Documents (hard copies) submission by Speed post /Registered Post / Courier 03.02.2025 by 3:00 PM	It is requested to kindly extend the submission date considering the upcoming Republic Day celebrations on 26th January and the associated public holiday, we kindly request you to extend the submission deadline by at least one (1) week to accommodate potential delays during this period.	No.

**Queries- Mid-Term Evaluation of Watershed Development Component of
Pradhan Mantri Krishi Sinchae Yojana (WDC-PMKSY 2.0)**

Agency Name - Sambodhi Research and Communications Private Limited

S. No.	Section	Page and section number	Query/ Requested Change	Response
1.	Successfully completed at least 5 assignments of similar nature (having Contract Value \geq Rs. 25.00 Lakh and Duration \geq 3 Months), i.e. Concurrent Evaluation / Impact Assessment / Process Monitoring / Baseline Survey / GIS based Survey and analysis in any social sector under Central / State Govt. / EAPs*/ Autonomous bodies operated under Govt. administrative control / International and National Organisation during the last 5 years (2018-19 to 2022-23).	RFP Page 8 - Eligibility Criteria #3	It is mentioned that successfully completed projects of similar nature are to be considered in the Criteria, however there are numerous ongoing watershed projects in various states. Therefore, can we share similar experiences and expertise in ongoing/live projects in the Eligibility Criteria?	As stated in the ToR document, only completed projects will be considered.

2.	<p>Section I: Impact Evaluation a.To assess the impact created under the programme, including benefit to community through indicators (suggestive – to be added if needed) is attached at annexure-IV. covering three broad areas of the programme, as listed in Table 1.</p> <p>A. List of indicators for mid- term evaluation of WDC- PMKSY 2.0 Annexure-1 and Annexure-II.</p> <p>b.To ascertain the impact of Watershed Development using Photographic image analysis (RS and GIS) for assessing the changes in various biophysical indicators like land use / land cover condition and overall bio- mass change.</p>	Page 3, Section I	<p>The ToR mentions the assessment of the impact of Watershed Development using photographic image analysis (RS and GIS) for assessing biophysical indicators like land use/land cover condition. Could you provide more details on the baseline data and whether it will be available to the evaluating agency for comparison?</p>	<p>The baseline data will be provided to the selected agencies for mid-term evaluation. However, the RS and GIS data for the midterm evaluation will have to be made available by the selected agency, this data for mid term will not be provided by SLNA.</p>
3.	<p>Section II</p> <p>d.To assess the fund flow status, financial progress and impediments, if any.</p>	Page 3, Section II	<p>The ToR mentions assessing the fund flow status and financial progress. Could you specify if the financial disbursement and fund flow details will be provided by the department?</p>	<p>The department will provide the details of financial disbursements at department/state level.</p>
4	<p>Section 7: Sample size & area coverage</p> <p>iii. The study will cover 30% of households from the selected micro watershed for evaluation.</p>	Page 4, Section 7	<p>It is mentioned that 30% of households from selected micro watersheds will be covered for evaluation. It will be helpful for us to understand the rationale behind selecting 30%? Can you</p>	<p>The sample will be taking from the selected micro-watershed areas. As per the ToR, 30% of the sample will have to be taken from the micro-watershed areas, whereas , control village sample will be determined by the</p>

			also clarify whether the control villages are already sampled or the agency need to conduct this sampling considering villages outside in each project with similar topography & socioeconomic features.	agency and will be intimated to SLNA for consideration.
5	8. Deliverables A brief note on the study methodology and study tools to be used	Page 5, Section 8	The Inception Report is required to include a note on sampling methodology, consultant need to develop these tools from scratch?	Yes, the tools will have to be developed and shared in the inception report for final approval.
6	Consulting Team Composition	Page 6, Section 10	The ToR specifies the team composition but does not mention the experience required for Field Investigators. Can you provide further clarification on the qualifications and experience expected for this role, especially with regard to handling participatory data collection methods (PRA, PLA)?	The min qualification should be graduate and above with experience in handling data at various stages.
7	In addition to the above about 10% of the total households in three (3) control adjoining villages outside in each project with similar topography & socioeconomic features. This would facilitate a comparative analysis of with & without project scenarios. The control village sareone each from the upper, middle and lower reaches.	TOR Page 4	The ToR specifies the selection of adjacent villages outside project areas (encompassing 2-3 micro watersheds). Will the department provide maps with watershed boundaries and village boundaries?	The agency in consultation with district officials will have to identify the nearby areas for taking control sample.
8	Average depth of water table in dug wells (mts.)-Summer Season Average depth of water table in tube	Annexures, Page 7	Is there any secondary data that can be provided or any baseline data along these indicators? Is there any previously	The data will have to be looked at form the district offices on ground water level.

	wells (mts.) - Summer Season		used or preferred method of measurement for the department?	
9	Request for Extension		Request for an Extension to the submission deadline for 10 days.	No
