LEGAL

6.4 Instructions were issued by Punjab Government in their letter No. 1568 dated Lahore, 4th October, 1939 laying down procedure in respect of dealing with antierosion works in areas other than Government forests, and on that basis; circular No. 12 was issued by the Forest Department, Punjab. The same was revised after independence of the country in 1947 vide circular No. 12 issued by the Conservator of Forests, South Circle, East Punjab. Government instructions issued in 1939 were modified later vide Punjab Government letter No. 6539-Ft(VI)-64/4712 dated 6-11-64. According by the following procedure is laid down.

Past History

6.5 **Section-3**—All areas to which Section 4, 5 and 5-A of the Punjab Land Preservation Act are to be applied and in respect of which certain restrictions prohibitions or regulations are to be made, should first be notified under Section 3 of the Act, through a notification by State Government. Provisions of Punjab Land Preservation Act can be applied with or without consent of the owners.

Punjab
Land
Preserva-
tion Act.

6.6 **Section-4**—Section 4 of the Act enables Govt. to keep out sheep, goats and camels; and temporarily regulate, restrict or prohibit various acts enumerated under this section.

A notification to this effect shall be issued by Government.

6.7 **Section-5**—Closure under Section 5 is of much stricter nature than the one under Section 4 and in addition to the restrictions imposed under Section 4, grazing of cattle, felling or lopping of trees continuation of cultivation and removal of any forest produce may be regulated, prohibited or restricted. Notification under Section 4 is necessary before any notification under Section 5 is issued.

6.8 **Section 5-A**—Section 5-A is made use of when in view of the nature and extent of soil erosion, it is considered necessary to require the execution of various works given under this section.

6.9 Section 38 of the Indian Forest Act 1927

For closure under Section 38 of the I.F. Act 1927 consent of majority of the owners, is essential. The owners, themselves will decide the type of management to be applied to the land and the

land so closed will be managed as protected or reserved forest on such terms as may be mutually agreed upon. Normally such lands are managed as protected forests.

SUPERVISION

6.10 After the issue of notifications under Sections 4 or 5 of the Land Preservation Act, implementation of the restrictions or regulations, devolves on the Forest Department; and no charge on that account can be made from the land owners. Local Forest Guard looks after the protection of such areas. In case of a land closed under Section 38 of the I.F. Act, management vests with the forest department subject to the conditions mutually agreed upon and the local Forest Guard will look after the area accordingly.

Application
for closure.

6.11 Application by owners

Applications for closure under Section 4 and 5 of the Punjab Land Preservation Act are not required. Nevertheless such applications are encouraged so as to avoid claim of compensation under Section 7 of the Act. For closures under Section 38 an application addressed to the collector signed by owners having majority of shares is necessary. This application will also indicate the exact conditions of management to be applied to the area.

The application should also clearly state the period for which the closure is required. The law lays down that if provisions of Chapter IV of I.F.A. are to be applied to the land under Section 38 of the I.F.A. the period of closure will not exceed 30 years.

Applications may be obtained from the owners on standard printed forms (Appendices 1 a to 1 c)

Forms of
notification

6.12 Standard Notifications

Standard forms of notifications for management and closure of areas under Section 3, 4, 5, 5-A of the Punjab Land Preservation Act, 1900 and Section 38 of the I.F.A. 1927 are given in Appendices 2 a to 2 g

Areas to be
excluded.

6.13 As far as possible, all habitation, religious places, graveyards, wells, tanks, public Roads and paths etc. should be excluded from the limits of closure. If this is not possible, access should be provided. Limits of areas to be notified under section 5 should not be in the vicinity of any habitation.

Concentrated and compact areas should form part of closure. Isolated bits scattered about or narrow bits of unclosed areas projecting into closed areas present practical difficulties in enforcing protection.

6.14 Proprietorship of Shamlat Deh

The ownership of common village waste lands vests in the village proprietors and are generally used for grazing purposes. The

area of closure should be so selected that there should be no hardship to the villagers. Ordinarily not more than one half of the grazing waste land should be closed to grazing at a time. If whole is to be closed, written consent of proprietors and right holders is necessary. However prohibition on sheep, goats and camels browsing may be imposed in accordance with provisions of the Act.

6.15 Demarcation under Section 13 of the Punjab Land Preservation Act may be done when notification under Section 3 or Section 4 of the Act has been issued and a notification under Section 5, 5-A is proposed to be issued. In case of areas proposed to be closed under Section 38 of the I.F.A. 1927 a similar demarcation is necessary. Kacha boundary pillars will be erected, usually through the owners of the land, so that there may be no misunderstanding on the part of any villager as to what land is proposed for closure.

Demarcation of boundaries.

6.16 COMPENSATION

When an area is notified under the Punjab Land Preservation Act and demarcation has been carried out, the Deputy Commissioner serves a notice on the inhabitant of the village to claim compensation for rights prohibited or restricted. The period allowed is three months from the date of issue of such proclamation (Section 7). Form of notice is given as Appendix 3a to 3c. If any claims are preferred, an enquiry is held into the claims as provided in section 14 to 18. The claim is either rejected or award sanctioned.

Claims for compensation.

6.17 Appeal against the award of compensation lies with the Commissioner and must be preferred, if so desired, within 60 days of the award. In cases mentioned in Section 17 or 18 of the Punjab Land Preservation Act and against orders passed under Section 11, 12, 15 and 16 appeal lies with a Revenue Officer, and his orders are final subject only to revision by the State Govt. and cannot be questioned in Civil Court according to Section 18 of the Act.

Appeal

CIVIL SUITS

6.18 Suit against the Government for anything done under the Punjab Land Preservation Act and suit against any public servant for anything done, or purporting to have been done by him in good faith, are barred under Section 21 of the said Act.

Bar of Suits.

PROCEDURE

6.19 The following procedure for completion of papers and issue of the Gazette notifications under the provisions of Punjab Land Preservation Act 1900 and Section 38 of the I.F.A. 1927 is laid down. This is partly based on instructions as were in force under Revised Circular No. 12 of the Conservator of Forests, South Circle East Punjab issued in 1947 and partly on Punjab Government Memo No. 6539-Ft (IV)-64/4712-13 dated 6-11-1964.

Examina-
tion of
proposal.

6.20 On receipt of suggestions from Range Officer/Working Plan Officer, the Divisional Forest Officer will personally inspect the area required to be closed for purposes of afforestation and/or checking of erosion. He will also consult local inhabitants informally, in this behalf.

6.21 For areas to be closed, the Range Officer will elicit the opinion of the owners of the land proposed for closure. The Range Officer will clearly indicate the state of erosion and unless the land is under active erosion or likely to be subject to erosion closures under Land Preservation Act cannot be done.

The enquiry conducted and opinion of owners will also accompany the closure proposal. In case the owners do not agree to the closures, the Range Officer will clearly indicate why closure is necessary even in the absence of consent by owners. After this the procedure, set forth below, will be observed depending on whether the closure is agreed to by owners of land/civil officers or not.

Where the closure is agreed to by the owners of land

6.22 The proposal, alongwith suitable instructions, will be sent by the Range Officer to the forest Patwari. He will get it countersigned by the Revenue Patwari and Quanungo who may make corrections, if necessary, about the particulars, of the area on the basis of revenue records.

6.23 The Range Officer will also send the proposal simultaneously to the Sub Divisional Officer (Civil) for his information giving therein the boundaries of the area proposed to be closed.

6.24 The Forest Patwari, after getting the case completed by the Revenue Patwar/Quanungo, will submit it to the Range Officer. The Range Officer, after enquiry will send the case to the Divisional Forest Officer.

6.25 The Divisional Forest Officer will, on receipt of the case from the Range Officer, send it alongwith requisite draft notification to the Conservator who will pass it on to the Chief Conservator of Forests Haryana for onward transmission to the Government for issue of notification, after thorough checking.

Where the closure is not agreed to by the owners of land

6.26 The Range Officer on receipt of the case, after completion of the formalities mentioned in paras 6.22 and 6.23 above, will send it to the Tehsildar/Naib Tehsildar giving the technical reasons for the closure of the area and the later will forward it to the Sub Divisional Officer (Civil) for countersignatures and transmission to the Divisional Forest Officer. If the Tehsildar/S.D.O. (Civil) wishes to inspect the site, he will give the date of inspection to the Range Officer, who will accompany him. The case, however, will not be sent by them to the Subordinate Revenue Staff, at this stage and will be completed within 2 months at the maximum.

Thereafter the Divisional Forest Officer will deal with the case as in para 6.25 above.

Where the S. D. O. (Civil) does not agree to the proposal

6.27 The Divisional Forest Officer will take up the case with the Deputy Commissioner for obtaining his consent and after the Deputy Commissioner has agreed to the closure, the Divisional Forest Officer will refer the case to his Conservator, who will forward it to the Chief Conservator of Forests for onward transmission to Government for notification.

6.28 If the Deputy Commissioner does not give his consent

The Conservator will refer the case to the Chief Conservator of Forests, who will submit it to Government with his recommendation, if he considers that the issue of notification is necessary.

6.29 The Patwari, will prepare, under the direction of the Divisional Forest Officer or Range Officer, the following papers:—

Papers to be prepared by Forest Patwari.

- (a) A list of Khasra Nos. lying within the proposed area.
- (b) A field book of all Khasra numbers included in part.
- (c) A tracing from the shajra map showing khasra numbers to be closed. Khasra number outside but adjacent to the boundary line of the closure should also be shown. Boundary line should be coloured.
- (d) An extract from the last detailed Jamabandi giving complete entry for holdings of which closure is proposed. A note of any mutations entered after the preparation of the last detailed jamabandi should be added. It should be prepared on a form added as appendix 4.
- (e) Share list of owners of area applied for voluntary closure will be prepared as in appendix 5.
- (f) An index for closure proposal will be prepared as in appendix 6.
- (g) An extract from the Sharat Wajib-ul-araz giving details of rights in the proposed area.
- (h) An area statement on a form added as Appendix 7.
- (i) A statement regarding information and Certificates on a form added as appendix 8.
- (j) An index map of the whole village on a scale 1" = 240 Karams will be prepared. In this map the situation of the proposed area for closure under different sections will be shown in different colours. Where both sections 4 & 5

are to be applied in a village, one map showing both the areas will be prepared. The situation of habitations, tanks, religious and prominent places should also be indicated in the map.

Note :—All closure papers will be prepared in quadruplicate.

GAZETTE NOTIFICATION

Standard
notification

6.30 Draft notification prepared on standard forms should be thoroughly checked in respect of details entered therein before their submission by the Divisional Forest Officer and also after their issue by the Government and discrepancies, if any, be got removed.
