

FINAL ANNUAL PLAN OPERATION OF PLANTATION YEAR : 2014-15

COMPILED BY : BUDGET BRANCH
O/o PRINCIPAL CHIEF CONSERVATOR OF FORESTS, HARYANA, PANCHKULA

FOREWORD

The purpose of compilation of Final Annual Plan Operation of Plantation for the year 2014-15 is aimed at managing forest resources in a better manner and systematic planning of future forestry and other related operations. These Annual Plans have been compiled aiming at this purpose. It contains detail of plantation sites of various schemes as per forest and non-forest land. The format incorporates provisions on collection, collation, validation and compilation of forest statistics of such parameters that are considered to be highly useful for policy formulation, planning and investment related decisions for forestry and other related activities and programmes.

Planning of plantation activities at micro-level can be done on the basis of data base management that are contained in these documents. Such data base will assist field level staff and officers of Haryana Forest Department to achieve the mandated developmental programmes while planning for future plantations.

I am of the firm belief that the information contained in these books will be of immense use, not only in terms of assessing the plantation progress in the State, but would also serve as a tool for assessing the output and impact of forestry sector. Diversified and modern plantation techniques available for different species need to be adopted so as to increase area under Forest and Tree Cover.

I appreciate the efforts made by Sh. Vineet Garg, IFS in bringing out these publications. I also appreciate the hard work done by concerned Staff of Budget Branch who made significant contribution.

I am confident that these books will be liked by planners, managers, foresters and various research organizations.

C R Jotriwal, IFS
Principal Chief Conservator of Forests,
Haryana, Panchkula.

Dated : May, 2015

P R E F A C E

Final Annual Plan Operation of Plantation for the year 2014-15 contains detail of plantation sites such as Name of Scheme/Component, Name of Range/Block/Beat, Location with exact Khasra No. Km/RD, Plantation Month, Target Achieved (in Ha/RKM), Specie-wise Plants Planted, Spacing and GPS Co-ordinates (Longitude & Latitude) including State level abstract. Plantation sites of various schemes have been shown separately for Territorial wing and Community Forestry wing.

Graphic representation of plantation is aimed at making quick view of District-wise Notified Forest Area(in Ha.), Circle/Wing-wise plantation(in Ha./Plants), District/Category-wise Forest & Non-Forest Plantation(in Ha./Plants) and hoped that it will be helpful in making decisions on policies of Forestry Sector Investment and Development Programmes for the coming years.

Scheme/Component-wise abstract as per forest and non-forest land in territorial wing have been included and hoped that it will further enhance the utility of these books. However, the over-all approach and design has remained unchanged.

Such type of compilations relating to plantation in different years will serve as a reference book for planning and policy making on plantation activities in the State. Compilation will be of immense use in Monitoring and Evaluation work of plantations. It will also help in assessment of Forestry Sector output in a better way. Modern techniques of plantation can also be adopted to increase forestry sector share in economic development and to get better output in the form of pollution free environment in future.

The data were primarily collected from Divisional Forest Officers through their Conservators of Forests. It has been compiled, organized, analyzed and augmented in a better way by the Budget Branch of PCCF office. Every effort has been made to minimize the typing mistakes.

Various suggestions for further improvement of these books are always welcome.

Place:- Panchkula

Vineet Garg, IFS

Conservator of Forests (Planning & MIS)
O/o Principal Chief Conservator of Forests,
Haryana, Panchkula.
