

“Davos Agenda 2022: P3 movement for Climate Change”

- Prime Minister Narendra Modi introduced the “**P3 (Pro-Planet People) movement**” at India’s climate change commitments at **World Economic Forum’s (WEF) Davos Agenda 2022**. He signaled some of the challenges that our lifestyle causes for the climate.
- “‘Throw away’ culture and consumerism has deepened the climate challenge. It is must be adapt to rapidly move from today’s ‘**take-make-use-dispose**’ economy to a circular economy”.
- The Prime Minister further underlined that India is preparing policies, taking decisions regarding the present as well as the goals of the **next 25 years**.

India's commitment at COP 26 Summit:

- India is committed towards climate change. As India has around **17 per cent of the world's population but its contribution only 5 per cent to global carbon emissions** and the dedication to tackle the climate challenge is 100 per cent.
- **India's commitment at COP 26 Summit:**
- PM Modi declared that India has set **a target of net-zero carbon emissions by 2070 at COP 26 summit which held in Glasgow.**
India also modified its proposed **Nationally Determined Contributions (INDCs) that have to be met by 2030.**
- India make new commitment with increasing the country's installed **renewable capacity to 500 GW, meeting 50 per cent** of its energy requirements from non-fossil fuel sources.
- India made similar aspirations to reduce the economy-wide emissions intensity by 33-35 per cent from 2005 levels by **2030 at the COP 21 in Paris.** That aim is almost achieved by India.
- In August, the Ministry of New and Renewable Energy officially announced that the country has **installed 100 GW of renewable energy capacity**, with this milestone; India is on its path to achieving only about two-thirds of its planned **renewable target of 175 GW** installations by 2022.
