INTRODUCTION:

Seed is basic input for agriculture. All other inputs have little effect, if any, in the absence of this basic input that remained neglected for a long time. Govt. of India laid the foundation of viable Seed Industry by enforcing the Seeds Act during the year 1966, and recommended the State Governments for setting up of Seed Certification Agency in the States under Section - 8 of the said Act. The Seed Review Team, which studied the Seed Trade in developed countries reported in 1968: -

1. That the role of each Agency in the field of Seed Industry must be specifically defined.
2. National Seeds Corporation may assist State Governments to set up their own Seed Certification Agencies and transfer its certification function to them, etc.

The Govt. of India launched a National Seed Project in late 1974 with the assistance of World Bank and recommended for setting up of the State Seed Certification Agencies under Section 8 of the Seeds Act, 1966. The Certification Agency should be an autonomous body, independent of the Seed Production / Marketing Agencies and the Authority enforcing the Seeds Act. Consequently, the Government of Haryana established the Seed Certification Agency vide notification No. 8837-Agri.I (2)-75/18831 dated 31.10.75. The Haryana State Seed Certification Agency was registered under the Societies Registration Act XXI of 1860 on 6th April 1976. The Agency started its independent functioning w.e.f. 01.09.1976. The Agency adopted Memorandum of Association and Rules based on the model pattern communicated by the Government of India. This is the 40th Year of independent working of Haryana State Seed Certification Agency.

DEFINITION AND OBJECTIVES OF SEED CERTIFICATION:

Seed Certification is a particularly prescribed procedure through which (a) genetic identity (b) genetical, physical and physiological purity and seed health is maintained in seeds and propagating material of notified kind and varieties. As a result, the certified seed is of known pedigree, high varietal purity and good seedling value and should conform to the prescribed field as well as laboratory standards in respect of genetic/physical purity, germination, moisture and seed health etc.

The main aim and objective of the Haryana State Seed Certification Agency is to maintain and make available to the public, through certification, high quality seed and propagating material of notified kinds & varieties so grown and distributed so as to ensure genetic identity and genetic purity. According to the Memorandum of Association, the objectives of the establishment of the Haryana State Seed Certification Agency are as under: -

- a) to act as the Certification Agency established under Section 8 of the Seeds Act, 1966 (54 of 1966).
- b) to discharge the functions entrusted to the Certification Agency under Sections 9 & 10 of the Seeds Act, 1966 (54 of 1966).
- c) to recognize varieties (& kinds where improved varieties are not available) eligible for Seed Certification and publish annually the lists indicating the names of such varieties and kinds.
- d) to maintain a list of sources of Breeder & Foundation seeds approved by the Central Seed Certification Board in the case of varieties grown in more than one State and by the State Seed Certification Board in case of varieties of local importance.
- e) to verify, upon receipt of an application for certification that the variety is eligible for certification, that the application has been submitted in accordance with the procedure

Prescribed by the State Seed Certification Governing Board and that the seed used for planting is from approved sources.

- f) to provide for the inspection of seed fields, seed processing plants and seed lots in accordance with the procedure outlined by the Central Seed Certification Board.
- g) to ensure that the seeds certified in the State conform to the standards prescribed by the Central Seed Certification Board.
- h) to grant certificates, certification tags and seals etc. designed as per specifications provided by the Central Seed Certification Board and as per procedure prescribed by the State Seed Certification Governing Board.
- i) to carry out educational programmes designed to promote the use of certified seed including a publication listing co-operators in the Seed Certification programme & sources of certified seed and provide such information to the Central Seed Certification Board and to publicise the same.
- j) to regulate the processing of seeds in the seed processing units with a view to see that seeds are properly processed to conform to the standards fixed.
- k) to test the seeds at the notified seed testing laboratories to ascertain whether the seeds conform to the standards prescribed under the Seeds Act.
- l) periodical inspection of premises of dealers to ensure that certification standards are not violated & there is no abuse of certification in any form & to ensure that farmers get certified seeds conforming to the standards prescribed under the Seeds Act at all times.

Both the area certified and the quantity of seed certified showed the increasing trend during 2015-16 when as compared to that of 2014-15.

The details regarding variety-wise area inspected, area certified and quantity of seed certified under foundation and certified classes is given at Annexure-IV. Agency-wise and variety-wise production of foundation seed is depicted at Annexure-V while that of certified seed is depicted at Annexure-VI.

PROGRESS OF VALIDATION OF SEEDS:

A process known as validation extends the validity of the certified seed. The seed that is not utilised within the validity period is offered by the seed producing/marketing organisations to the Haryana State Seed Certification Agency as carry-over stock for extending the validity. The field staff of the Agency draws the seed samples from such seed lots for their testing at the State Seed Testing Laboratory. The field staff also undertakes the re-cleaning and re-fixation of fresh tags on the bags of seed to be validated, if required.

The crop-wise detail of carry-over stocks offered by various seed producing/marketing organisations and quantity validated by Haryana State Seed Certification Agency is given at Annexure-VII.

GROW-OUT-TESTS:

In order to assess the varietal purity of foundation class of seed in case of wheat, paddy and potato, pre-control grow-out-tests are undertaken by the Agency. The representative samples of the seed lots are taken by the field staff for this purpose and are sown during the off-season at locations where these can be grown.

The Haryana State Seed Certification Agency arranged off-season grow-out-tests during the year 2015-16 at following locations:-

<u>Crops</u>	<u>Crops</u>	<u>Location</u>	<u>Duration of test</u>
1.	Potato	Fagu in Shimla Hills (Himachal Pradesh)	April to end of June.

<u>Crops</u>	<u>Crops</u>	<u>Location</u>	<u>Duration of test</u>
2.	Wheat	Dharward (Karnataka State)	June to September
3.	Paddy	Hyderabad (A.P.)	November to April

During the year under report, 1168 samples of wheat, 662 samples of paddy, 18 samples of potato were sown under pre-control grow-out-tests at the locations mentioned above.

In addition, the Agency also arranges post-control grow-out-tests of 10% of the certified class seed lots in case of wheat and paddy. These post-control grow-out-tests help in self-assessment and effectiveness of certification system. This system also helps in identifying the deficient areas for further improving the quality control within the organisation and also outside the organisation by properly educating the seed growers.

1305 samples from certified class wheat lots and 88 samples from certified class paddy lots were put under post-control grow-out-tests during the year 2015-16.

¥¥¥

SEED TESTING:

The seed certification process is mainly governed by the Minimum Seed Certification Standards prescribed by the Govt. of India. Seed testing forms the basis for distinguishing standard seed from sub-standard seed (seed below the prescribed standards). It has been made obligatory to test the seeds for the purpose of certification as well as seed law enforcement under the Seeds Act-1966. To fulfil this requirement of the Seeds Act, samples are drawn from each lot of seed during primary processing as well as from the lots offered for validation. These samples are submitted to the Seed Testing Laboratory for analysis. During the year under report, 21747 seed samples were

drawn and submitted to the Seed Testing Laboratory. A chart of bar-diagram depicting the number of samples tested during the last 5 years is exhibited at page No. 25.

¥¥¥

BREEDER SEED PRODUCTION:

Breeder seed is the primary source for initial as well as recurring seed multiplication under seed certification. The concerned Breeder strictly supervises the production of this class of seed. The National Seeds Project 1975 emphasised that breeder class seed production should be monitored by the monitoring team comprising of representatives from Indian Council of Agricultural Research, National Seeds Corporation, State Seed Certification Agency and concerned Breeder at field level. Keeping this in view, during the year under report the breeder seed plots of following crops were inspected by this team at different locations of the State:-

SEED PRODUCING ORGANISATIONS AND SEED PROCESSING UNITS:

During 2015-16, 10 institutional producers and 245 private producers (Total 255) offered area of various crops for certification to the Haryana State Seed Certification Agency. During Kharif 2759 and Rabi 13172 (total 15931) contact growers were registered with the Haryana State Seed Certification Agency through these seed producing organisations. List of the seed producing organisations is given at Annexure - VIII. For undertaking the processing of certified produce, 21 institutional and 192 Private (Total 213) seed processing units have been registered with the Haryana State Seed Certification Agency. A list of the seed processing units along with codes allotted to them is furnished at Annexure-IX. Bar-diagram depicting the increase in registered producers as well as processing units with the Haryana State Seed Certification Agency from 2011-12 to 2015-16 is shown at page 27.
