CodeQuotient School of Technology

Date: 25th April 2024

Mr Jitender Kumar
Director - Department of Education
Government of Haryana

Subject: **CodeQuotient Corporate Sponsorship Program** - A sponsorship program for 120 students from Haryana who aspire to become software engineers.

Respected Sir,

The unemployment rate in Haryana was recorded at a staggering 9% according to a periodic labour force survey in 2023. According to the report received from employment exchanges, as of July 31, 2023, 1,03,265 graduates, 29,998 postgraduates, and 21,569 professional degree holders had enrolled themselves as unemployed. We at CodeQuotient believe that a lot of underprivileged students who do not have access to Tech education because they are unable to afford the high fees charged by Engineering colleges, have the potential to become the best software engineers and deserve a fair chance to showcase their talents and achieve their dreams and goals. So, we are pleased to introduce **CodeQuotient Corporate Sponsorship Program**, a scholarship program that aims to empower 12th-passed students to make a career in software engineering.

The program will identify 120 students from Haryana who aspire to become software engineers and provide a 100% tuition fee waiver on the Under-Graduate Program in Software Engineering (UGPSE) at CodeQuotient School of Technology, Panipat. This program is integrated with the Bachelor of Computer Applications (BCA) degree and designed to train students on skills as per industry requirements. The students get trained for 18 months on campus, followed by an 18-month paid internship (remote/offline) in a software company. Once the internship is completed, the student gets a job with the same employer. At the end of three years of the BCA+UGPSE program, each student will get a BCA degree and a certificate in Software Engineering along with work experience of up to 1.5 years and placement with a decent company.

<u>Selection Criteria of Scholarship:</u>

Student Eligibility

- The applicant should have done 12th from the state of Haryana with good problem-solving skills.
- Scored over 70% marks from 10th onwards.
- Interested in making a career in Software Engineering.
- Any Stream in Class 12th (Non-Medical/ Medical/ Commerce/ Arts)

W/DSE
Diary/CFMS...23282
Dt....25/04/2024

The selection process involves

Stage 1: An online/offline written test comprising the challenges such as quantitative aptitude, logical reasoning, communication skills, and computer & general awareness.

Stage 2: The students who clear the 1st stage, will appear for an online personal interview. The CQST team will check the student's curiosity to learn and seek the student's acknowledgment to take up our unique teaching model (1.5 years on campus and 1.5 years internship with software companies).

Stage 3: The selected student will be offered a seat with a 100% scholarship.

About CodeQuotient

CodeQuotient is a learning and career platform for aspiring programmers. We empower students with our pathbreaking programs and prepare them for high-growth careers in technology companies. Our journey so far:

- Partner with 150+ hiring companies
- Placed 1000+ SuperCoders
- Trained 25000+ students from 70+ Universities

Sir, we seek your support to reach out to potential students and get applications from the students who are keen to make their career in software development. This scholarship will open doors for those from Tier-2 and Tier-3 cities who either discontinue their studies due to financial constraints or take up traditional courses instead of professional ones. We are very hopeful that this will also help us encourage students to make their careers in software development which is fast becoming a must-have skill in the future.

Please approve and suggest the next course of action.

Sincerely yours

Harsimran Kohli
