As part of procurement process and tender terms and conditions, sample was drawn from the supplies made against the said purchase order. On sending the said sample to NABL accredited lab for testing, vide its test report (details given in table below), it was declared as "Not of Standard Quality".

The sample of the same batch was sent to another NABL accredited laboratory for testing and the lab, vide its test report (details given in the above table) has declared it as "Not of Standard Quality".

Name of Item	Batch No.	Mfg. Date	Exp. Date	Lab Test Report Date	NSQ Report received from NABL accredited lab
Tab. Lorazepam 1 mg	2453501	Jun-24	May-26	Lab 1: 24.10.2024	Assay 57.5%; failed in assay and dissolution parameter
