

C. Vision

- To ensure sustainable improvement in productivity and livelihood / income potential of land through development of rainfed and degraded areas including wastelands and to fulfill Nation's commitment under SDG No.15 (15.3: By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods and strive to achieve a land degradation – neutral world).
- To develop an appropriate integrated land information management system, which will *inter alia* improve real-time information on land, optimize use of land resources and assist in policy/planning.
