Farmer Registration and Unified beneficiary InformaTion System

https://fruits.karnataka.gov.in

FRUITS

FRUITS is an e-Governance project for managing and maintaining farmer registry which can be used by all agriculture and allied departments for providing benefits to eligible farmers. FRUITS is evolving as Soft Infrastructure project in Agriculture sector acting as inventory of farmers, land owned by them and benefits extended.

A well organized and scrutinized farmer database will avoid farmers from running pillar to post for availing benefits. Besides, it would help the developmental departments in overcoming issues such as multiple benefits to same beneficiary, impersonation, availing benefits using fake documents, etc.

BIRD's EYE VIEW

- UIDAI
- Caste & Income data (Revenue Department)
- Crop Survey
- NPCI (A/c check)
- OTHER DATA BASES
  - ❖ Ration Card
  - ❖ KSRSAC
  - ❖ KSNDMC
  - ❖ Soil Health
  - ❖ KCC Details

Land Data Base (BHOOMI)

Ownership Data | Mutation Data

FRUITS (Farmer's Database)

State DBT Portal

Financial Management System

Departmental Beneficiary Management Systems –

- ❖ K-KISAN
- ❖ HASIRU
- ❖ Raitha-siri
- ❖ Pashu- bhagya
- ❖ Samrakshane
- ❖ Banks
- ❖ MSP
- ❖ Ksheerasiri

FEATURES

- Mobile app for farmer - facilitates easy accessibility
- Golden Record of Farmer - comprehensive view of farmer
- Once in lifetime registration for farmers - relief from drudgery of documentation
- Self registration and facility to raise request for modifications enabled - contactless, paper less and faceless service
- E-mail, and SMS integration - hassle free communications
- Workflow based approval process - accountability ensured

KEY STATISTICS

- 1.01 Cr Farmers Registered
- 71 Schemes Covered under FRUITS DBT
- 9.9 Cr. Benefits transferred through DBT
- 36576.3 Cr. Amount Transferred
- 1.74 Lakhs Online Registered Farmers

SEPT 2025
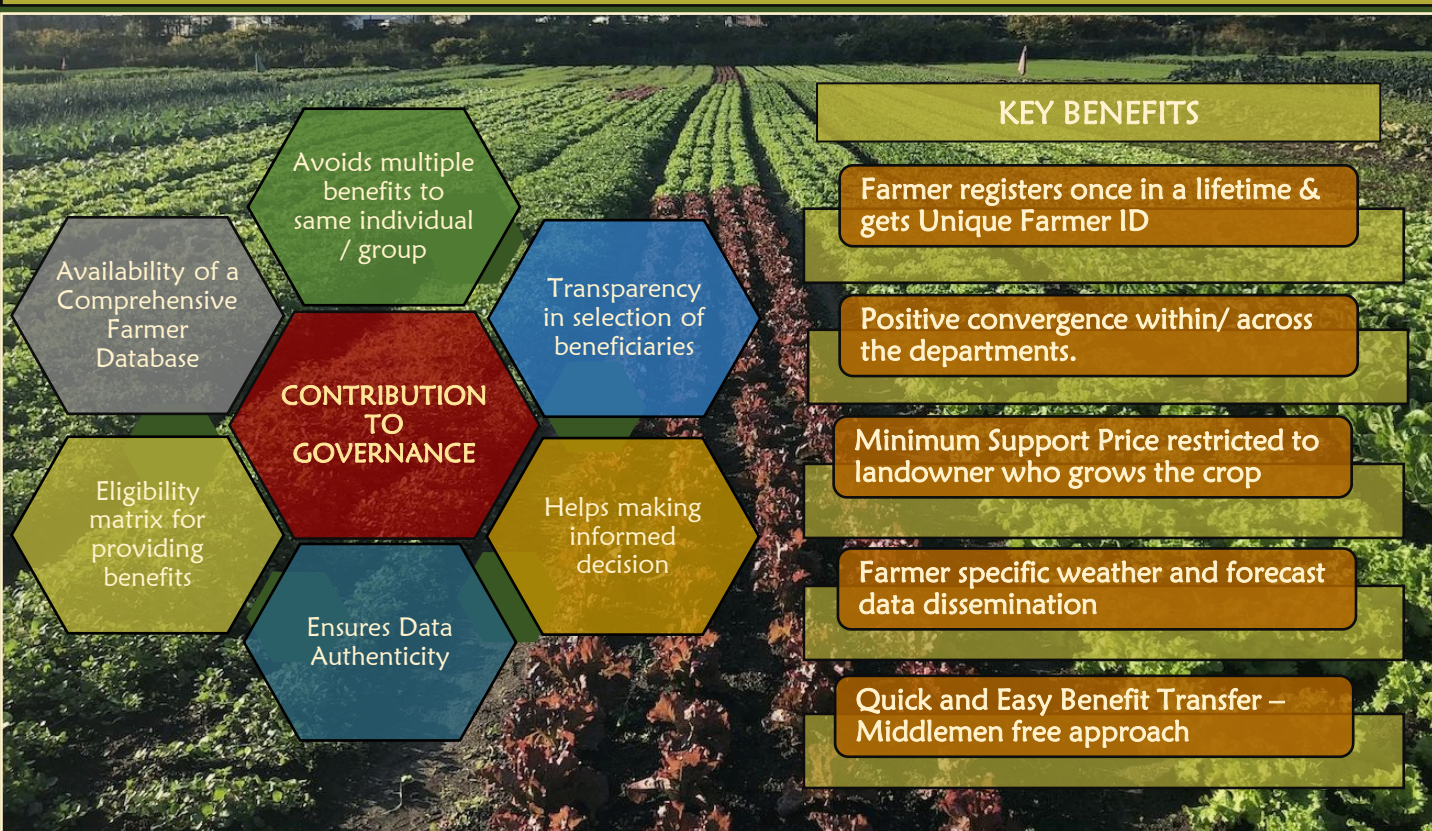

FRUITS

"Common platform for Farmers, Agriculture & allied Departments and Stakeholders"

CONTRIBUTION TO GOVERNANCE

- Avoids multiple benefits to same individual / group
- Availability of a Comprehensive Farmer Database
- Transparency in selection of beneficiaries
