Manufactured by M/s Haseeb Pharmaceuticals Pvt. Ltd., Nagpur, Maharashtra.

Ref: Letter of Assistant Commissioner Sindhudurga dt 15/6/2026

The Food and Drugs Administration (FDA), Maharashtra State, has noticed reports of adverse drug reactions associated with the use of Compound Sodium Lactate Injection IP 500 mL (Ringer's Lactate), manufactured by M/s Haseeb Pharmaceuticals Pvt. Ltd., Nagpur.

Pending detailed investigation and in the interest of public health and patient safety, healthcare professionals, distributors, retailers, hospitals, nursing homes, pharmacies, and the general public are advised to immediately discontinue the use, sale, and distribution of the subjected batches.

Advisory to Hospitals, Healthcare Institutions and Pharmacies

1. Immediately stop the use, sale and distribution of the above-mentioned batches of subjected drug.
2. Quarantine and segregate existing stock till further order.
3. Report any adverse events associated with the product to the nearest FDA office and the Pharmacovigilance Programme of India (PvPI).
4. Inform about details of stock available at all levels to the concerned FDA office.

Advisory to Patients

Patients who have recently received the above-mentioned product and experience symptoms such as difficulty in breathing, chest tightness, severe chills, or any unusual reaction should seek immediate medical attention and inform their healthcare provider about the product administered.

For further information, contact the Food and Drugs Administration, Maharashtra State for appropriate action on email jchq.fda-mah@nic.in.

Issued in the interest of public health and patient safety.
