

JUSTICE THROUGH TECHNOLOGY

PUBLIC NOTICE

Embracing Technology for Justice

An upgraded version of the **eCourts Services Mobile App** i.e. **Version 4.0**, has been launched during the National Conference on Judicial Process Re-engineering and Digital Transformation held on 11th and 12th April 2026 in the Hon'ble Supreme Court of India.

Version 4.0 represents a significant technological advancement, marking the transition from the legacy Cordova hybrid framework to React Native v0.77.0, ensuring enhanced performance, improved responsiveness, and better handling of high data volumes.

KEY ENHANCEMENTS IN VERSION 4.0

1

TECHNOLOGICAL COMPLIANCE

The application now supports Android 14 (API level 34), ensuring continued availability on the Google Play Store for users with the latest hardware.

2

PERFORMANCE UPGRADE

The shift to a native rendering engine facilitates faster load times, smoother animations, and more efficient resource management.

3

ERGONOMIC UI REDESIGN

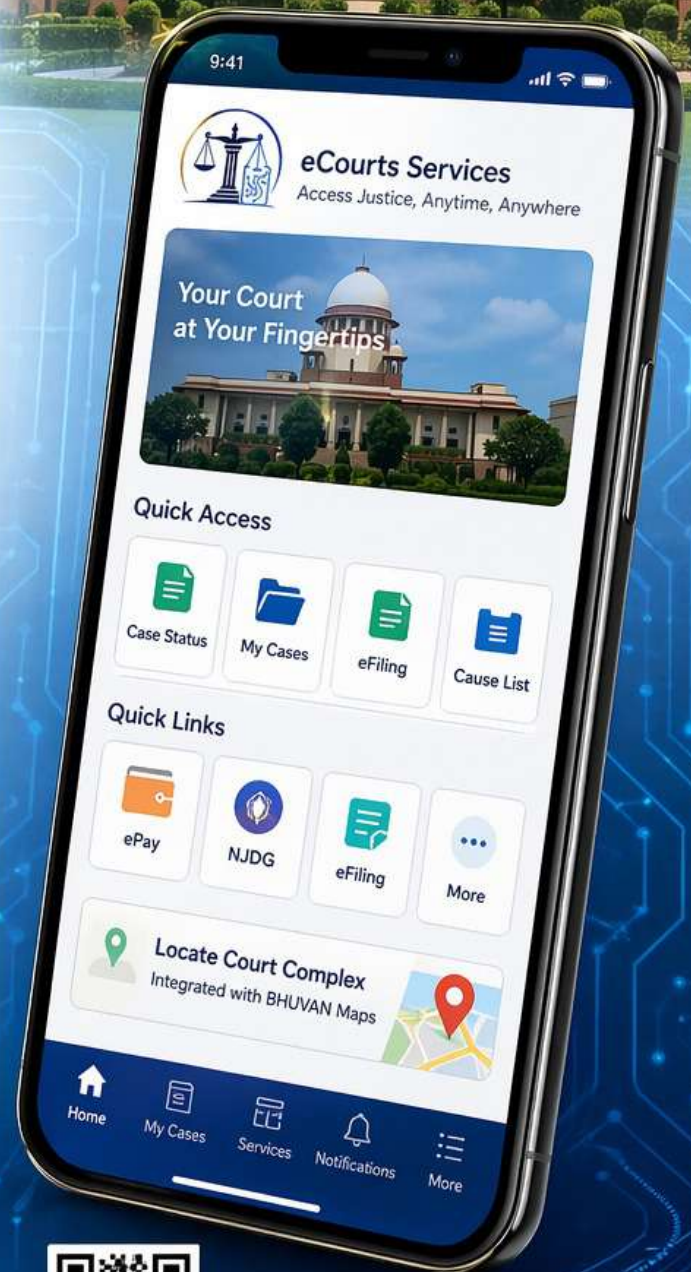

Following expert consultation, the interface features a minimalist design with a bottom-tab navigation menu for easier one-handed use.

4

FUNCTIONAL IMPROVEMENTS

- Direct Order Access:** Clickable links within the "Case Status" screen allow users to view order PDFs directly.
- Case Conversion Tracking:** A new table enables users to view both old and new case numbers for converted cases.
- Personalization:** The "My Cases" section now utilises pagination (10 records per page) to resolve previous unresponsiveness and "page hanging" issues.
- Unified Quick Links:** All secondary services like ePay, NJDG, and eFiling are consolidated into a single "Quick Links" menu for intuitive navigation.
- Integrated with BHUVAN maps** for locating Court Complexes.

IMPORTANT ADVISORY

To ensure the safety of user data and ensure a seamless migration across all judicial platforms, all users are required to **back up** their data from the existing mobile application.

Users may utilize the "**Export**" feature within their current application to securely back up their saved cases. This step is essential to prevent any data loss due to the migration to the new storage architecture.
