NATIONAL CONFERENCE ON "JUDICIAL PROCESS RE-ENGINEERING AND DIGITAL TRANSFORMATION" *EMPOWERING THE JUSTICE SYSTEM BY REVIEWING THE PAST, RE-ENGINEERING THE PRESENT, REDEFINING THE FUTURE*

The eCommittee of the Supreme Court of India, in collaboration with the Department of Justice, organised the **National Conference on Judicial Process Re-engineering and Digital Transformation** *Empowering the Justice System by Reviewing the Past, Re-engineering the Present, Redefining the Future* on **11 and 12 April 2026**. The two-day conference brought together Judges of the Supreme Court of India, Chief Justices and

Judges of various High Courts, Central Project Coordinators, members of High Court IT Committees, senior officials from the Department of Justice and the Ministry of Home Affairs, representatives from the National Informatics Centre (NIC), Registrars General and other stakeholders to deliberate on the future of technology-enabled justice delivery under **eCourts Phase III**.

The Conference was inaugurated by **Hon'ble Shri Justice Surya Kant, Chief Justice of India**, who released the **Biennial Report on Phase III of the eCourts Project** and articulated the vision of a "natively digital" judiciary that is paperless, efficient and citizen-centric.

The inaugural session also witnessed the launch of four major digital initiatives:

- **eCourts Single Sign-On (SSO) Service Portal**
- **Electronic Delivery of Summons through Email**
- **Integration of eCourts with ePrisons**
- **eCourts Services Mobile App Version 4.0**.

Across five thematic working sessions, participants deliberated on judicial process re-engineering, international best practices, management of electronic evidence, digital inspection of court records, technology-enabled case and surety management and the responsible use of Artificial Intelligence in judicial administration. The discussions consistently emphasised that technology must strengthen and not replace judicial decision-making while improving efficiency, accessibility and transparency in the justice delivery system.

A notable feature of the Conference was the session on the international perspective, where **Hon'ble Mr. Justice Aidan Xu** of the Singapore High Court shared Singapore's experience in judicial digital transformation. Drawing upon

initiatives such as **eLitigation** and the **Future Case Management System** (**FCMS**), the session underscored the importance of adopting a problem-centric approach to technological innovation. The exchange of international best practices enriched the discussions on judicial process re-engineering and reaffirmed the value of cross-jurisdictional collaboration in building a modern technology-enabled justice delivery system.

A major highlight of the Conference was the exhibition of innovative technology initiatives by various High Courts, showcasing locally developed digital solutions in areas such as case management, digitisation, electronic evidence, accessibility and citizen-centric services. The exhibition facilitated the sharing of best practices and reinforced the collaborative approach underpinning the implementation of **eCourts Phase III**.

The Conference concluded with a commitment to judicial process re-engineering and digital transformation, reaffirming the vision of a modern, interoperable and technology-enabled judiciary that delivers accessible, efficient and transparent justice. The deliberations reinforced the goal of establishing ***Integrated Digital Courts*** through end-to-end digital workflows and responsible adoption of emerging technologies. The Conference laid a strong foundation for the continued implementation of eCourts Phase III and the evolution of a future-ready justice delivery ecosystem.

For a comprehensive account of the proceedings of the National Conference, please refer to the detailed report available at the link below: https://ecommitteesci.gov.in/report-on-national-conference-on-judicial-process-re-engineering-and-digital-transformation/

Andhra Pradesh Judicial Academy: Unprecedented Scale in Statewide Digital Literacy

Demonstrating its massive reach, the **Andhra Pradesh Judicial Academy** conducted an exhaustive series of training programs for thousands of stakeholders across the state.

Judicial Officer Upskilling on Cyber Crime: In mid-March, the Academy hosted two critical offline sessions (ECT_14_2025 and ECT_17_2025) for 62 newly recruited Civil Judges (Junior Division) and District Judges (Entry Level). Led by Cyber Crime Inspector Sri Nissar Basha and retired IPS Officer Sri E. Damodar, these sessions utilized real-life case studies and simulation exercises. Officers were trained on navigating cross-border cyber offences, digital arrests, handling digital evidence and understanding the responsibilities of Internet Service Providers.

The Academy also achieved unprecedented reach in late March and April by activating its network of Master Trainers across 13 districts.

- ***Advocate Training (ECT_7_2025):*** Utilizing a hybrid model, Advocate Master Trainers reached an incredible 796 Advocates and clerks. These practical sessions demystified the eCourts project, offering step-by-step guidance on document scanning, e-filing portal registration and VC tool utilization.
- ***Administrative Staff Training (ECT_5_2025 & ECT_8_2025):*** On April 4, a staggering 2,280 participants, comprising Court Managers, Process Servers and Administrative Head Staff were trained by Judicial Officer Master Trainers. This exhaustive program covered Stathub, JOEC, CIS I & II, Pre-Trial modules, electronic hardware management and process re-engineering, ensuring the backbone of the district judiciary is fully digitally literate.

By combining large-scale district participation with the guidance of these resource persons, the Academy ensured that court staff and administrative leaders were equipped with practical skills in NSTEP processes, ICT integration and managerial best practices, reinforcing Andhra Pradesh's commitment to a digitally empowered judiciary.

Chandigarh Judicial Academy: Massive Virtual Refresher for Process Servers and Court Staff Across Punjab & Haryana

The **Chandigarh Judicial Academy** executed a highly impactful and large-scale virtual capacity-building initiative on April 18, 2026. Operating under the ECT_08_2026, this comprehensive one-day online "Refresher Programme for Court staff and NSTEP training" was hosted seamlessly via Microsoft Teams. The initiative achieved an extraordinary turnout, successfully training 1,854 vital grassroots judicial personnel. The curriculum was precision-targeted for members of the Nazarat Branch, Process Servers and Civil Ahlmads operating across the states of Punjab and Haryana. These exhaustive technical sessions were expertly led by specialised regional IT personnel, Sh. Paramveer, System Officer of Kapurthala and Sh. Simirjit Singh, System Officer of Moga. Their instruction focused heavily on modernizing daily administrative efficiency and delivering targeted modules that broke down the operational mechanics of different technology initiatives in the Indian Judiciary.

Gujarat State Judicial Academy: Extensive Registry Staff Refresher and Annual District Judges Conference

In April 2026, the **Gujarat State Judicial Academy** hosted two major programmes reflecting its dual focus on judicial officers and registry staff. On 4 and 5 April 2026, the Academy, in collaboration with the High Court of Gujarat, convened the *Annual Conference of Judges of the District Judiciary* at the High Court Auditorium. Themed *"Re-Shaping Dispensation of Justice – Transcending the Narratives"*, the two-day event brought together judicial officers from across the state.

The inaugural session featured addresses by Hon'ble Judges of the Supreme Court of India and the High Court of Gujarat, alongside the launch of key initiatives including the AI Policy for the Gujarat Judiciary and the Free e-Certified Copy facility. Panel discussions across sessions explored the role of digital tools, societal expectations and strategies for reshaping justice delivery, with contributions from senior judges of the High Court.

The Gujarat State Judicial Academy conducted impactful training programmes for both judicial officers and High Court staff. On 4 and 5 April 2026, the Academy organized *ECT-13-2025* and *ECT-16-2025* as a two-day programme delivered in physical and online modes. These sessions were designed for the Judicial Officers of the State and successfully engaged more than 1,000 participants, reflecting the Academy's commitment to blended learning and large-scale capacity building.

Later in the month, on 18 April 2026, the Academy held two batches of the *ECT-15-2025* refresher programme in physical mode for the Staff of the High Court of Gujarat. *Batch-9* included 49 participants, while *Batch-10* trained 48 participants, ensuring targeted skill enhancement for registry staff.

Himachal Pradesh Judicial Academy: Virtual Master classes for Continuous Advocate Education

Embracing remote learning methodologies, the **Himachal Pradesh Judicial Academy** deployed quick and impactful virtual training programs specifically aimed at the legal community throughout April. Conducted under the ECT_04_2025, these one-hour online training modules focused strictly on mastering "*e-Filing and e-Courts Services*". The initiative was split into two highly accessible sessions: the first was held on April 8, 2026, successfully training 103 Advocates and Advocate Clerks. This was followed by a second session on April 17, 2026 which captured an additional 95 legal professionals. It ensures widespread understanding of the judiciary's foundational online services without disrupting their daily practice.

Jharkhand Judicial Academy: Empowering the Legal Fraternity through Concentrated Offline Sessions

To ensure the Bar Association is seamlessly integrated into the digital transformation, the Judicial Academy Jharkhand dedicated a full week to legal practitioners. Held between April 12 and April 19, 2026, under the unified training codes ECT 4 and ECT 7, the Academy facilitated a massive one-day offline training drive. The target group comprised an incredible 750 Advocates and Advocate Clerks representing multiple jurisdictions. Utilizing the expertise of dedicated Advocate Master Trainers, the curriculum was meticulously crafted to familiarize the learned lawyers with the broader eCourts project, the distinct advantages of e-Filing usage, seamless system access and the utilization of software tools, particularly the N-Step application, to improve daily litigation practices.

Meghalaya State Judicial Academy: Judicial Digital Infrastructure and e-Courts Training Programme

The **Meghalaya State Judicial Academy** implemented two major offline programs on 18 April 2026 at Shillong to bridge operational gaps between court staff and legal professionals.

- ***District Judiciary Infrastructure Training (ECT_11_2025):*** Master Trainer Shri F.S. Sangma conducted a 2 hour technical orientation for 18 staff members of the District & Sessions Court, Baghmara. The instruction emphasized the mechanics of feeding metadata into the Case Information System (CIS), tracking complex case statuses and utilizing the National Judicial Data Grid (NJDG).
- ***Bar Association Familiarization (ECT_4_2026 & ECT_12_2026):*** Shri F.S. Sangma extended his expertise to 11 practicing advocates from the Baghmara Bar Association during a separate 2 hour block. This session provided comprehensive live demonstrations on e-filing portal, scanning and general electronic case management systems.

Tamil Nadu State Judicial Academy: Technical Empowerment for Staff & Officers

In a dedicated effort to enhance digital proficiency, the **Tamil Nadu State Judicial Academy** facilitated a comprehensive one-day physical training initiative on April 25, 2026. Operating under the specific training modules ECT 13 and ECT 16, the Academy successfully upskilled 155 Judicial Officers drawn from seven distinct districts. The exhaustive session was guided by Master Trainers alongside the respective District System Officers.

The curriculum was heavily focused on the practical and operational aspects of the digital judiciary, with in-depth instruction provided on the Case Information System (CIS), the National Service and Tracking of Electronic Processes (NSTEP), E-Summons, the Inter-operable Criminal Justice System (ICJS) and various pre-trial applications.

Uttarakhand Judicial & Legal Academy: District-Specific Refresher on Vital Digital Tools and Change Management

To ensure administrative personnel are keeping pace with these technological upgrades, the **Uttarakhand Judicial & Legal Academy** (**UJALA**) in Nainital conducted a highly specific training module on April 26, 2026. Conducted under the banner of ECT_9_2026, this one-day physical "Refresher Programme" was organized exclusively for the court staff of the Rudraprayag district.

A total of 47 participants attended the session, which was expertly facilitated by Shri Anoop Singh (Joint Registrar IT/CPC), Sri Ravindra Joshi (Officer-in-Charge, NIC) and Sri Vijay Singh (Developer). The training focused heavily on the mechanics of e-Prison, e-Sakshya and e-Pay, while also detailing Civil and Criminal Process Generation through NSTEP and Roznama.

West Bengal Judicial Academy: Focused Capacity Building for Island Jurisdictions

On April 30, 2026, the **West Bengal Judicial Academy** successfully executed a targeted initiative to bolster the technical capacity of the judicial workforce in the Andaman & Nicobar Islands. Recognizing the unique logistical and geographical challenges of these islands, the Academy conducted two specialized parallel training programs tailored to meet the distinct operational needs of registry and maintenance staff.

- ***Registry and Paperless Workflows (ECT_15):*** This 6 hour intensive program brought together 12 staff members of the Hon'ble Circuit Bench of Andaman & Nicobar Islands. Spearheaded by Partha Sakha Adhikari (Software Developer, High Court, Calcutta), the curriculum extensively outlined CIS 1.0 architecture, the specific role of the Registry in e-filing, open-source office suites, PDF customization tools for paperless operations, data management, and hybrid hearing methodologies.
- ***Hardware and Network Administration (ECT_11):*** Running concurrently for 6 hours, this specialized session targeted 41 staff members of the District Court of Andaman & Nicobar Islands. Resource person Prince Srivastava (District System Administrator, City Sessions Court, Calcutta) provided technical instruction on system hardware and software maintenance, local Area Network (LAN) topologies, data replication and video conferencing equipment setup.

High Court Tech Roadmap

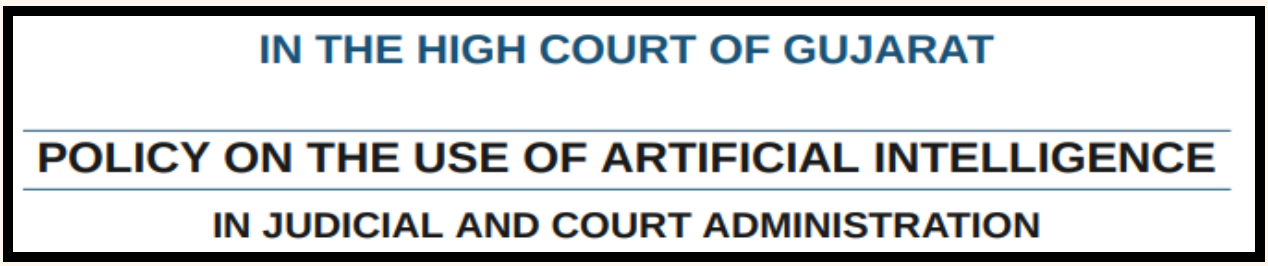

Enhancing Execution Procedures: Delhi Judicial Academy Training Initiative

The **Delhi Judicial Academy**, under the directions of the Hon'ble High Court of Delhi, organized a specialized online training programme on *Execution of Warrants, carrying out Attachment, Sale and other Official Duties for Executing Orders of the Execution Court*. The programme was designed for Bailiffs, In-charges and Nazirs of the District Courts, covering half of the total strength in two post-lunch sessions. Conducted through the Webex Meeting Platform at the respective District Court Complexes, the training was held on 25th February 2026 (Wednesday) and again on 21st April 2026 (Tuesday). The April session successfully engaged participants in structured modules and equipped them with practical knowledge.

Gujarat High Court Unveils Major AI Policy and Tech Upgrades

Policy on the Use of Artificial Intelligence in Judicial and Court Administration

The High Court of Gujarat has published **"POLICY ON THE USE OF ARTIFICIAL INTELLIGENCE IN JUDICIAL AND COURT ADMINISTRATION"** on the official website of the High Court of Gujarat. The said policy is available at https://gujarathighcourt.nic.in/hccms/sites/default/files/miscnotifications/Policy%20on%20the%20use%20of%20Artificial%20Intelligence%20in%20the%20Judicial%20and%20Court%20Administration.pdf

Implementation of the eShakshya Portal

As per the provision of Bharatiya Nagarik Suraksha Sanhita, 2023, the State Government in consultation with the High Court of Gujarat, has published Notification No. HD/SB.5/BNS/102025/GoI-15, dated 30/06/2025, regarding eShakshya Management in the State of Gujarat which is available at the following link: https://home.gujarat.gov.in/upload/HomeNotification3_10122025.pdf. As per the directions and guidelines of the Hon'ble the Chief Justice and Hon'ble Judges of the IT Committee,

eShakshya platform has been implemented for the Gujarat District Judiciary and all the Judicial Officers of the Gujarat District Judiciary have been directed to use the eShakshya portal viz. https://icjs.gov.in/esakshya/ with the their respective accounts as required under the law including for viewing uploaded evidence.

Pilot implementation of the Nyaya Shruti Platform

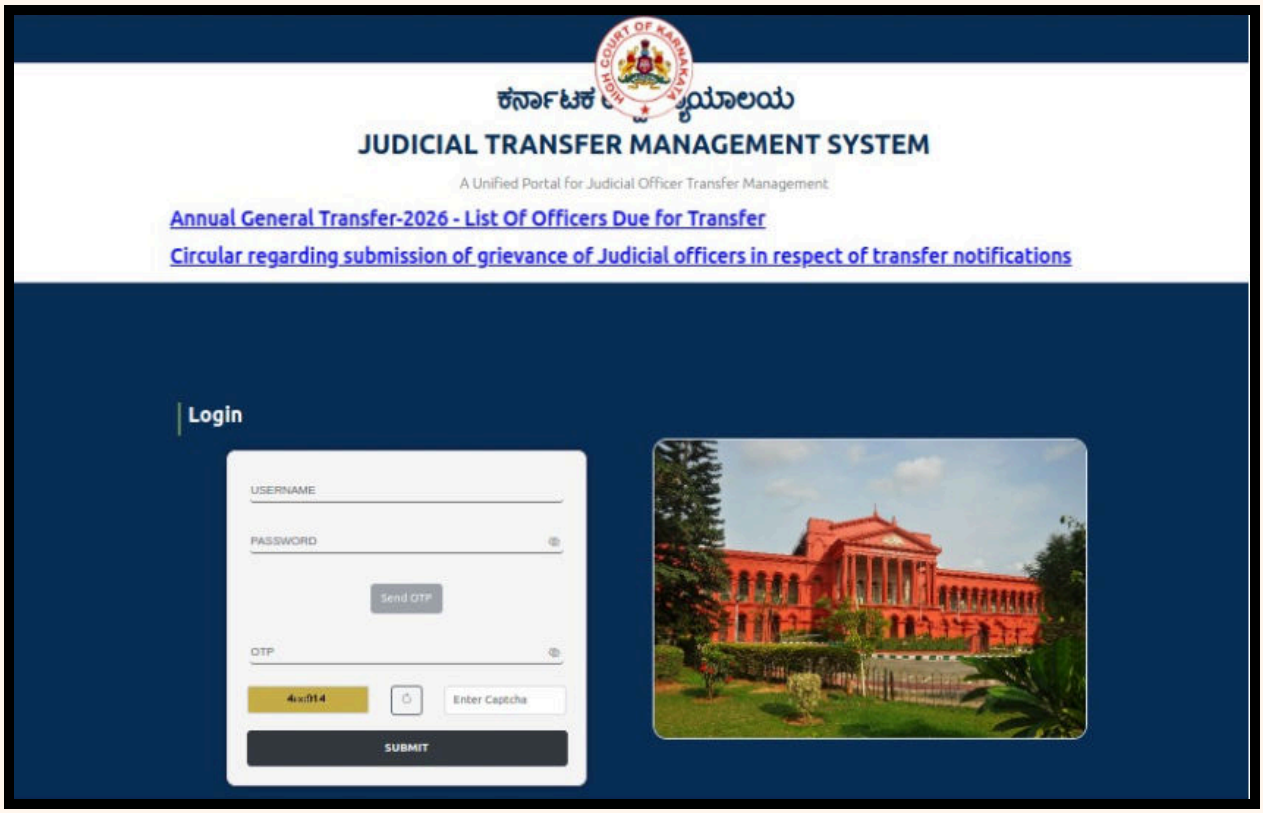

By the directions and guidelines of the Hon'ble the Chief Justice and Hon'ble Judges of the IT Committee, Nyaya Shruti platform has been implemented in 10 Courts of the Gujarat District Judiciary, on pilot basis.

Inventory Management with Online Requisition System

Under the guidelines of Hon'ble Chief Justice, the "**Inventory Management with Online Requisition System**", has been developed and deployed whereby various Departments of the High Court can make requisition of various stationery items through this "Inventory Management with Online Requisition System", instead of the physical requisition slips.

Karnataka High Court Launches Judicial Transfer Management System (JTMS)

Judicial Transfer Management System (JTMS)

The Judicial Transfer Management System (JTMS) marks a transformative step in judicial administration within the Karnataka State Judiciary. By automating the transfer process and implementing the Transfer Guidelines 2026 through constraint-based algorithms, the High Court of Karnataka has eliminated manual procedures, ensuring fairness, transparency and efficiency in the transfer and posting of judicial officers.

System Integration & Security

The JTMS operates on a secure, data-integrated framework, offering a seamless experience for judicial officers:

- *Secure Authentication:* Officers log in using their unique JO Code with OTP verification, linked to mobile and email data from the CIS Master.
- *Data-Driven Accuracy:* Live API integration with JORTS retrieves complete posting and service history automatically.
- *Service Transparency:* Officers receive a verified Service History Report (PDF) with their official photograph before applying.

Zonal Restrictions & Geo-Distance Logic

To ensure equitable talent distribution and adherence to policies, JTMS applies advanced geographic constraints:

- *Zonal Division:* Karnataka is divided into seven zones, with transfer restrictions enforcing diverse experience across the state.
- *Geo-Distance Algorithm:* Calculates precise distances between current and potential postings.
- *Automated Validation:* Integrates JORTS history and geographic data to instantly apply guidelines and eligibility criteria.

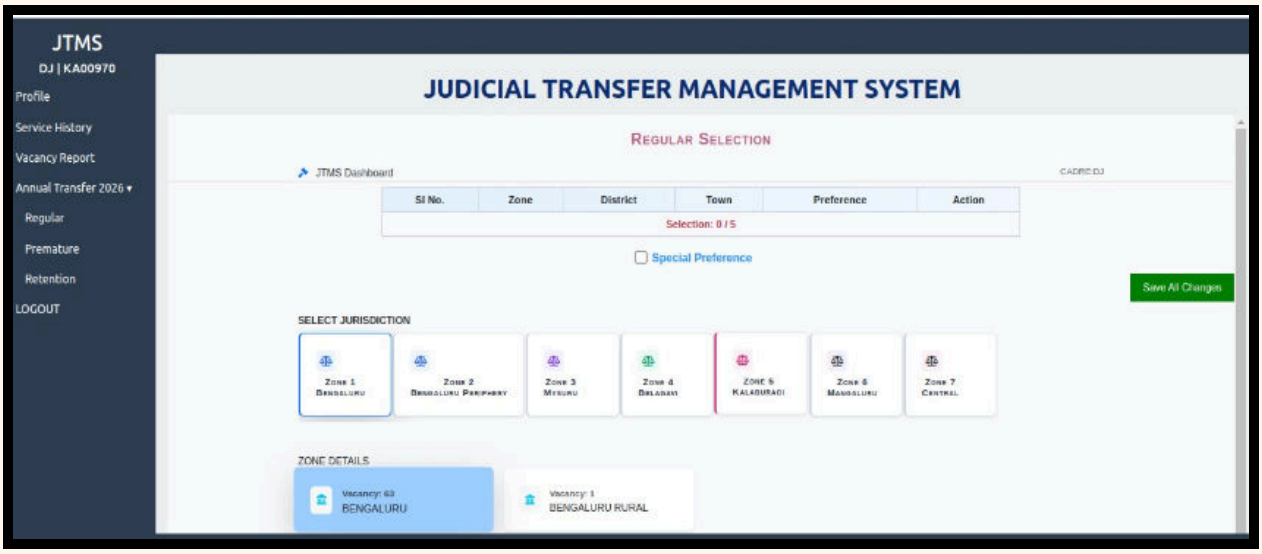

Transfer Classification

The JTMS categorizes transfers into three main tracks to meet the judiciary's varied needs:

- *Regular Transfer:* Based on tenure and seniority, including spouse postings or medical needs.

- *Premature Transfer:* For exceptional circumstances such as marriage, childbirth or disability
- *Retention:* Allows officers to remain at their station for reasons like children's education or nearing superannuation.

Committee Oversight & Allocation Workflow

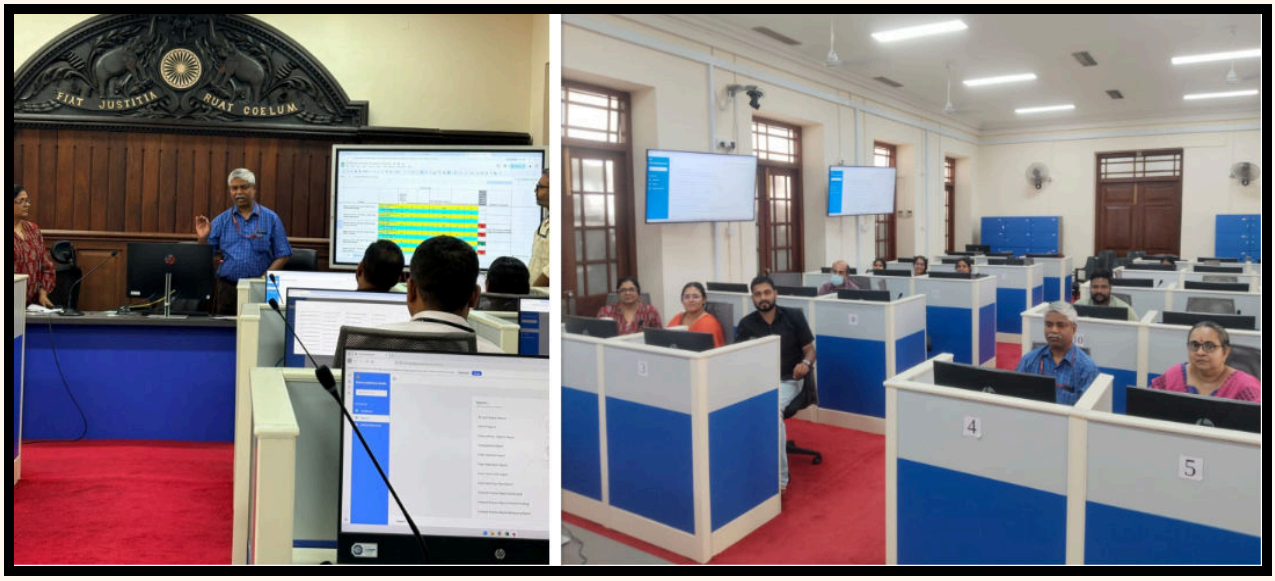

The system harmonizes administrative requirements with algorithmic precision:

- *Committee Review:* Sensitive cases of premature transfers, retentions and special requests are reviewed by the Hon'ble Committee.
- *Automated Allocation:* Once approved, JTMS executes allocations based on transfer type, zonal restriction and geo-distance logic.
- *Grievance Redressal:* A dedicated portal allows officers to raise concerns for final review by the Committee.

High Court of Kerala Rolls Out Massive Digital Overhauls and DCMS Upgrades

Training and demonstration programme on Judicial Statement Generation

The IT Directorate conducted a training and demonstration programme on Judicial Statement Generation, following the readiness of 27 automated statements and the proposed rollout of 24 additional statements by the IT Technical Cell. The programme featured a live demonstration of automated report generation. Participants were provided hands-on exposure to the reporting module, enabling practical understanding of the process. An interactive session was conducted to clarify doubts, gather feedback and receive suggestions for further system improvement, ensuring better adoption of the digital reporting framework. The session was held on 07 April 2026 , with participation of concerned officers and controlling officers of the Statement Wing of the High Court.

Basic Computer Application Training Programme for the staff attached to Hon'ble Judges

Basic Computer Application Training Programme was conducted for the staff attached to the Hon'ble Judges to enhance their efficiency, accuracy and professionalism in judicial administrative support functions. The training programme was held on 22.04.2026 and 23.04.2026 at the IT Training Hall, High Court. Around 120 staff members participated in the programme, which was conducted in four batches. Each batch underwent a half-day training session, scheduled from 10:30 AM to 1:00 PM and from 2:00 PM to 4:30 PM.

New features and enhancements in the DCMS

Judge Management System

A new Judge Management System module has been introduced in DCMS to facilitate structured management of administrative details relating to Hon'ble Judges. The module enables entry and maintenance of leave details, transfer information, and assignment of Judge In-charge within the system. Users can record leave by specifying the duration, session (forenoon, afternoon, or full day), and calculate the total number of leave days within the system. In the case of transfers, relevant details can be entered with appropriate remarks. The module also mandates selection of a Judge In-charge during leave periods to ensure continuity in court functioning. All entered records are maintained within the system and are available for reference, thereby improving transparency, administrative control, and streamlined judicial management workflows.

Advocate Clerk Management Module

A new Advocate Clerk Management module has been introduced in DCMS to enable advocates to map and assign registered clerks to assist in various filing processes, including case, petition, document and caveat filings. Assigned clerks can complete filing steps through their dashboard, while advocates can monitor progress and perform final submission through OTP authentication. This feature improves workflow efficiency while ensuring accountability and control at the advocate level.

Target Module for Family Courts

The Target Module has been enhanced with new features to improve monitoring and reporting of court performance.

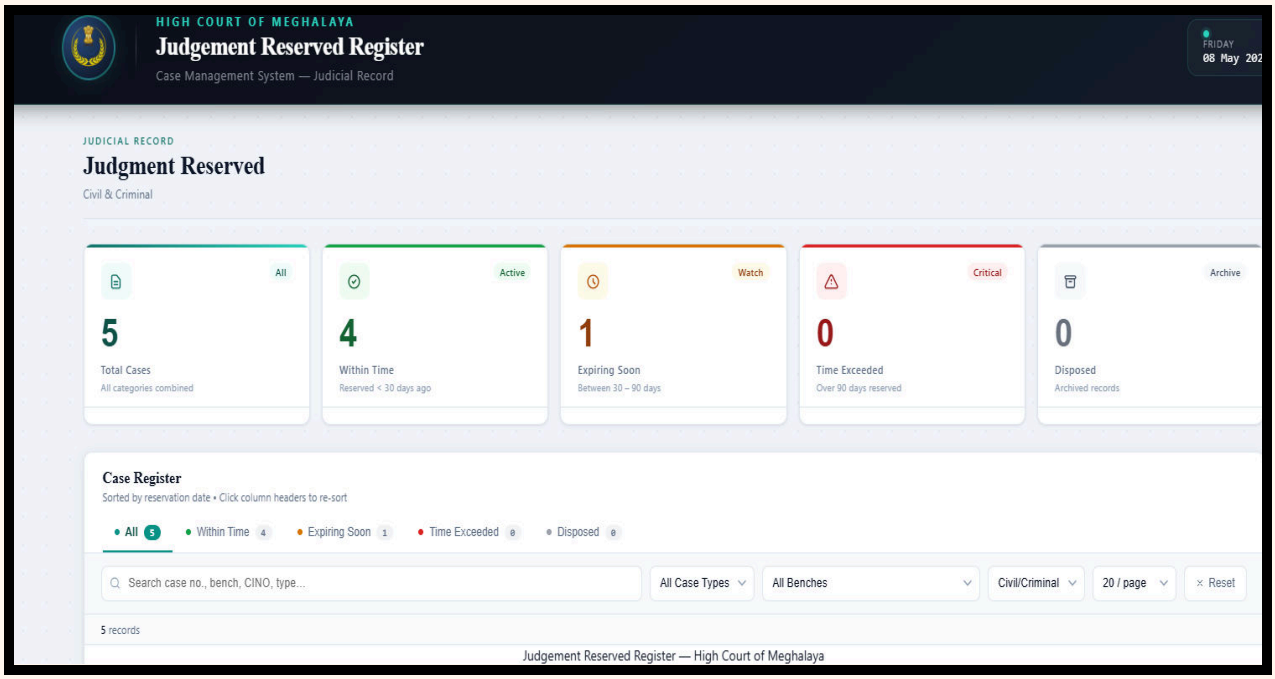

- *View Category Pendency:* Enables viewing of category-wise pendency distribution for Family Courts, with an option to generate a PDF report.
- *Generate Report:* Provides detailed target reports for the selected year, including annual, half-yearly, and quarterly views, along with information on oldest and disposed cases.
- Target Fixation: Displays targets set for each category, covering both old and other cases.
- *Target Achievement Report:* Shows the percentage of targets achieved by each court, organized category-wise for better analysis.

Advocate Stipend Fee Incorporation

In compliance with the Kerala Advocates' Welfare Fund (Amendment) Act, 2026, provisions have been incorporated in DCMS to facilitate collection of the Advocate Stipend Fee along with the Advocates' Welfare Fund contribution during filings. The payment option has been integrated across key modules including Vakalath Filing, Case Filing, Petition Filing and Caveat Filing, ensuring uniform implementation of the statutory requirement across all filing workflows. The system currently allows manual entry of the applicable amounts based on the number of advocates engaged in a matter. Further improvements are under consideration to introduce automated calculation of the payable amount, ensuring consistency, reducing errors and simplifying compliance.

High Court of Meghalaya: Digital Initiatives & Training Updates

Judgment Reserved Dashboard

A new software patch has been deployed to capture both Judgment Reserved and Judgment Pronounced dates. Building on this, a dedicated dashboard has been developed to track cases where judgments remain pending.

The dashboard highlights three categories: cases where judgments have not been pronounced within three months of reservation, those pending beyond three months and cases approaching the expiry of the three-month window.

Additional fields such as bench details, case type (civil/criminal), last hearing date and reserved date are also integrated, ensuring comprehensive monitoring and timely judicial follow-up.

Hands-On Training on Nyay Shruti

On 30 April 2026, hands-on training was provided to the Bench Assistant of the Court of Judicial Magistrate at Sohra to ensure the effective implementation of *Nyay Shruti*. This initiative strengthened practical understanding and facilitated smoother adoption of the system at the court level.

What is Nyay Shruti?

Nyay Shruti is a specialized application and framework launched under India's Inter-operable Criminal Justice System (ICJS) and the eCourts Project. It is an advanced video conferencing (VC) and electronic communication system designed explicitly for judicial proceedings. It legally and logistically enables virtual appearances and testimonies.

Patna High Court: Launch of the Bihar Judicial Academy Portal

On 17 April 2026, the Hon'ble Chief Justice of Patna High Court, in the august presence of Hon'ble Mr. Justice Rajeev Ranjan Prasad, Judge-cum-J.A.D-II, Patna High Court and Chairman of the Bihar Judicial Academy, along with other distinguished Hon'ble Judges of the Patna High Court, formally launched the official website of the Bihar Judicial Academy. The website has been hosted on a new, independent and secure cloud server, marking a significant step toward strengthening digital infrastructure and enhancing accessibility to judicial training resources.

High Court of Rajasthan: Key Digital Upgrades & Modernization Initiatives

Expansion of e-Sewa Kendras to Six New Locations

To strengthen citizen-centric services and facilitate advocates, litigants and other stakeholders six new digitally equipped e-Sewa Kendras have been established across five Judgeships at: *Beawar Court Complex, Barmer Court Complex, New Court Building Bikaner, Khajuwala Court Complex, Hanumangarh Court Complex* and *ADJ No.1 Gangapur City Court Complex*.

These centres provide a wide range of digital services, including video conferencing for remote participation in proceedings, access to case status, cause lists, orders and judgments, as well as e-filing and e-payment facilities. All six e-Sewa Kendras were formally inaugurated and became operational in April 2026, marking a significant step toward accessible and technology-driven justice delivery.

Launch of the Uniform Case Registration Number (URN) System

On 25 April 2026, the Hon'ble Mr. Justice Surya Kant, Chief Justice of India inaugurated the Uniform Registration Number (URN) system for the Rajasthan High Court. This pioneering initiative introduces a single unified case number applicable to both the Principal Seat at Jodhpur and the Bench at Jaipur marking a significant step toward administrative efficiency and digital modernization. Previously, the High Court maintained distinct databases, separate case types and independent

numbering systems across its benches. With the URN, case types, numbering and classification codes have been standardized into one unified structure, ensuring clarity and eliminating redundancy. The system's key features include centralized case management, streamlined case flow, enhanced transparency, improved accessibility of citizen-centric services and stronger system integration. Notably, the URN system is the first-of-its-kind among High Courts with multiple benches using the Case Information System (CIS) and it will be prominently displayed on the official website of the Rajasthan High Court, reinforcing transparency and accessibility.

Implementation of Aadhaar OTP based e-Hastakshar Facilities

The technical team of the Rajasthan High Court has successfully implemented an Aadhaar OTP-based e-signing facility in CIS 4.0 enabling the signing of processes, orders and judgments directly through a browser-based system. Previously, only the USB digital signature token method was available for such purposes. The facility was introduced through a CIS patch released by the Hon'ble e-Committee, Supreme Court of India, tested at a pilot location and subsequently rolled out across all district courts of Rajasthan. With this enhancement, summons, processes and judicial orders can now be authenticated using Aadhaar-based e-signing (e-Hastakshar) in addition to the existing USB token method. This feature is particularly valuable for validating PDF documents, including certified copies issued under the e-True Copy module.

Statewise e-Initiatives Rollout Status as on 30.04.2026

Number of Cases Facilitated through Video Conferencing Platform
