

CIVIL COURT BETTIAH
Tender No—01/2024

As per direction, a sealed tender has been invited for the supply of 16 units of air conditioners, each having a 2-ton capacity and a 5-star energy rating. The quotation must include the cost of the stabilizer, installation charges, and hanging stand charges, along with clear information about the warranty and service charges of the air conditioners.

The specifications are as follows:

1. The air conditioner should have a 2-ton capacity and a 5-star energy rating.
2. The air conditioner should feature inverter technology and 100% inner grooved copper tubes.
3. It should have a PM 2.5 filter and a backlit remote controller.
4. It should include a filter clean indicator and a hydrophilic fin.
5. The unit should be a split AC with a copper condenser, PM 2.5 filter, and filter clean indicator.

Preference will be given to local suppliers. The Purchase Committee reserves the right to reject any tender without providing a reason.

The sealed tender must be submitted within 5 days from the publication of this notice to the administrative office of the Ld. District & Sessions Judge.
