

HIGH COURT OF ORISSA: CUTTACK

Letter No. OHC-COMP-NC-0001-2026-**8658(30)**/Dated:**22.05.2026**

From

**Soumya Sourav,
Central Project Coordinator**

To

The District Judge (All)

Sub: Implementation of “One Case One Data” Initiative and Ensuring Timely Data Management under the e-Courts Project

Respected Madam/ Sir,

In inviting reference to a communication dated 14.05.2026 received from Hon'ble Mr. Justice Surya Kant, Chief Justice of India regarding the launch of the **“One Case One Data”** initiative by the Supreme Court of India on 11.05.2026, I am directed to communicate the following for information and necessary action.

The launch of the “One Case One Data” initiative marks an important milestone in the collective pursuit of a seamless, transparent, and data-driven justice delivery system. Under the initiative, eCourts APIs and the Government's crime record system APIs have been integrated with the Case Management Software of the Supreme Court of India to enable automatic retrieval of information.

Through such multi-level integration, the Case Management Platform of the Supreme Court will now be capable of automatically retrieving, at the time of data entry, all crucial information, including electronic copies of FIRs, as well as orders and judgments from the Courts below. This will eliminate the need for duplicate data entry and ensure instantaneous verification. The record that travels with a case will thus remain the same as that created at its source.

The initiative is aimed at ensuring data integrity and accuracy from the very first day a matter is instituted, fostering consistency in institutional response, reinforcing transparency, and strengthening an efficient digital justice ecosystem.

In view of the above, you are requested to ensure strict compliance with the following directions in all Courts under your jurisdiction:

1. Timely Uploading of Orders and Judgments

All orders and judgments shall be uploaded promptly in the Case Information System (CIS) immediately upon pronouncement and reflected on the National Judicial Data Grid (NJDG) without delay.

2. Universal Coverage under eCourts Platform

Every Court under your jurisdiction must either be onboarded to the eCourts platform or have its case data reflected on NJDG, so that the data-sharing APIs do not return empty or incomplete responses when matters reach the Supreme Court of India.

3. Discipline of Data Management

Consistent, structured, and accurate data entry practices across all Courts are foundational to the success of this ecosystem. All Judicial Officers and concerned Registry staff may, therefore, be suitably sensitized regarding timely updation and maintenance of accurate judicial records.

It is further informed that the Supreme Court of India is also making available the APIs of its Case Management Platform to High Courts and State Governments alike, thereby enabling improved monitoring and management of litigation before the Apex Court.

It is therefore, requested to kindly circulate these instructions amongst all Judicial Officers and concerned staff under your control for strict compliance and necessary awareness.

The matter may kindly be treated as one of institutional priority.

Yours faithfully,

Central Project Coordinator

Memo No. OHC-COMP-NC-0001-2026-8659/Dated:22.05.2026

Copy forwarded to the Director, State Crime Records Bureau (SCRB), Odisha, Bhubaneswar (Nodal Officer, ICJS, Odisha) for favour of kind information and necessary coordination and monitoring with respect to integration of the Government's crime record system APIs with eCourt's APIs and related systems.
