

Guidelines for Digital Signing of A Diary in DCMS

→ This feature allows the Judge to digitally sign the daily proceedings using a Digital Signature Certificate Token.

Currently, the application supports two types of digital signing:

1. SignerX for new tokens – Documents are digitally signed using the SignerX desktop application and a Digital Signature Certificate (DSC).
2. Digital Sign(for Old tokens) – Documents are digitally signed directly within the application using the integrated digital signing feature.

A Diary can be digitally signed from Case Details > Judge A Dairy Esign

When using the SignerX signing method, two applications must be installed on the system:

(Installation guide for SignerX has been shared separately)

- **SignerX Application** – Used to initiate and manage the digital signing process.
- **ProxKey Application** – Used to detect and communicate with the DSC token connected to the system.

Are you sure you want to digitally sign this A Diary?

Cancel Yes, Sign

If any modification is made to the proceedings after an A Diary has been digitally signed, the previously signed version shall no longer represent the current proceedings. In such cases, the Judicial Officer shall digitally sign the A Diary again after the necessary modifications are completed.

Every digitally signed A Diary shall be preserved as a separate version in DCMS. The system shall maintain the complete version history of the A Diary for audit and reference purposes.

Judicial Officer can view all the versions of A diaries signed by selecting them from the dropdown.

The screenshot displays the 'A Diary - E Sign' web interface. At the top, there are two input fields: 'Select Date' with the value 'October 23, 2025' and 'Select Court' with the value 'Court 1 - Sirsha N A'. Below these are three buttons: 'Search' (blue), 'Digital Sign' (green), and 'SignerX' (green). In the center, there is a date '23-10-2025' and two tabs, 'Civil' and 'Criminal'. To the right of these tabs is a dropdown menu labeled 'Select Signed Version' which currently shows 'Ver. 3 - Signed at 31-07-2025'. This dropdown is highlighted with a red rectangle. Below the dropdown is a blue button labeled 'View Signed A Diary'.

Only the latest digitally signed version of the A Diary shall be displayed to users by default. The version number of the A Diary shall be automatically updated with each subsequent digital signing.

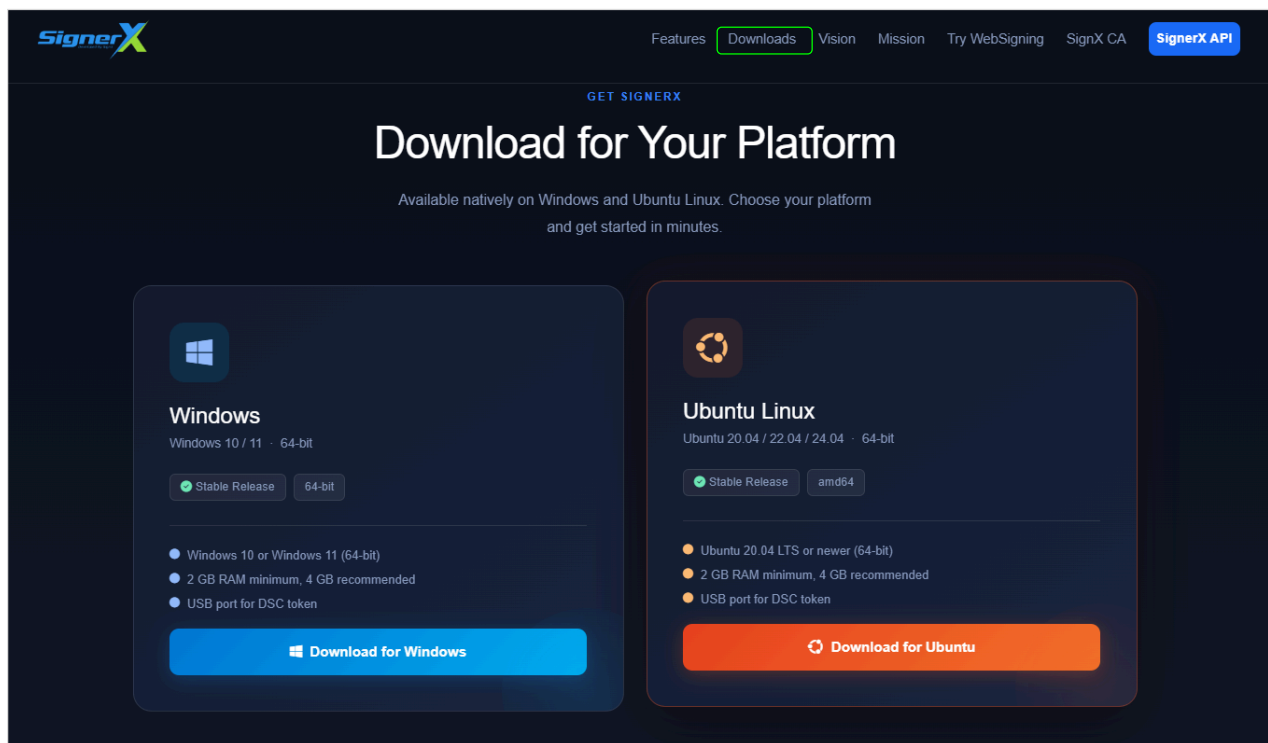

SignerX — DSC Signing in DCMS

SignerX is a unified digital signing application that enables users to securely sign documents through both web-based applications and a desktop interface. It supports online document signing as well as bulk PDF signing from the desktop, eliminating the need for multiple signing tools and providing a seamless signing experience.

Designed to simplify digital document workflows, SignerX helps organizations reduce paperwork, accelerate approval processes, and enhance document security. It offers a reliable and efficient platform for digitally signing, verifying, and managing documents, enabling users to complete signing tasks securely and conveniently from a single application.

Step 1: Download SignerX

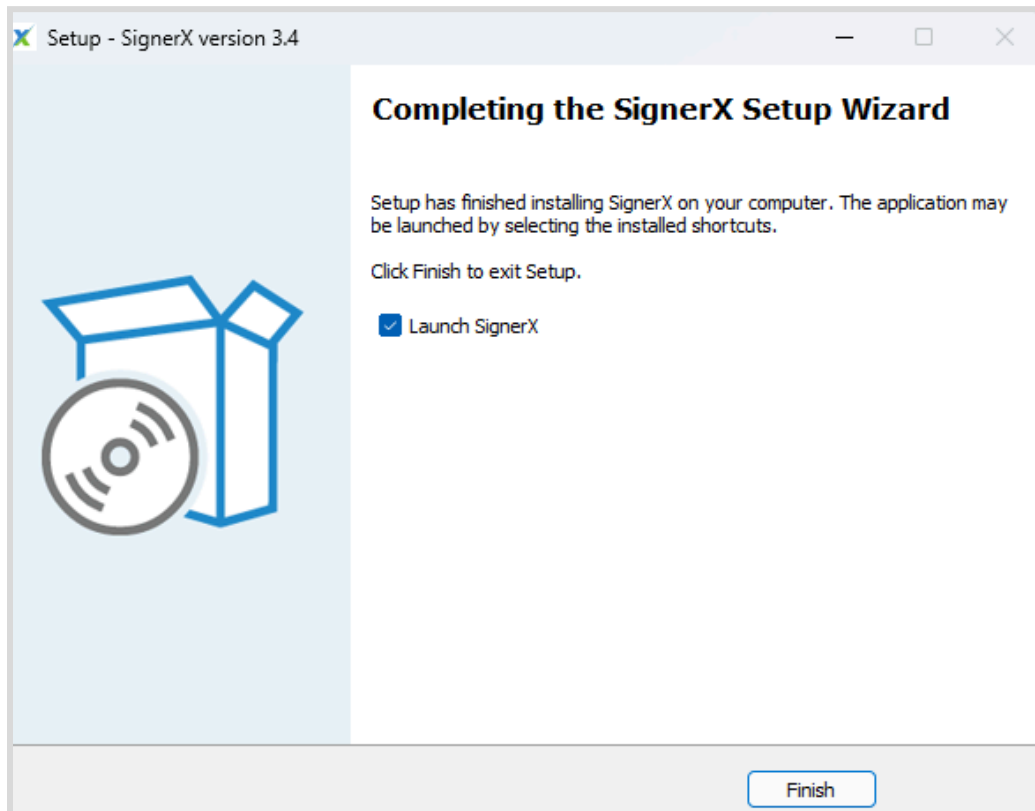

1. Open the application from <https://signerx.signxca.com/>
2. Click the **Downloads** SignerX button.
3. Save the installer to your computer based on your operating system.

Step 2: Install SignerX

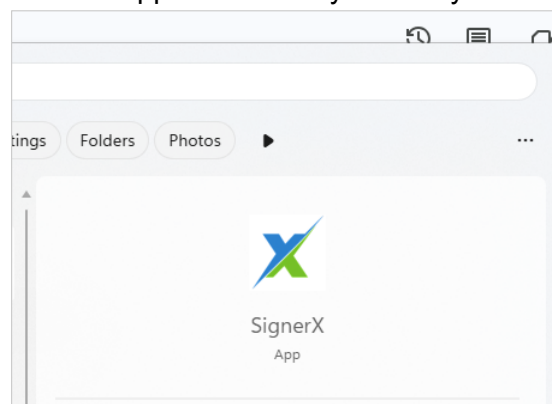

1. Locate the downloaded installer.
2. Right-click the installer and select **Run as Administrator**.

3. Follow the installation wizard.
4. Click **Install**.
5. Wait for the installation to complete.
6. Click **Finish**.

Step 3: Launch SignerX

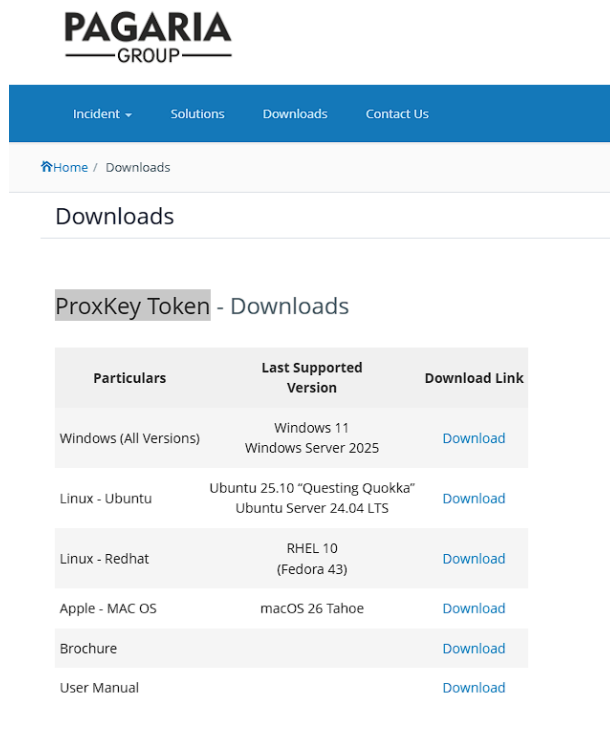

1. Open **SignerX** from the Desktop or Start Menu.
2. Ensure the application is running in the background.
3. Verify that the SignerX icon appears in the system tray.

Step 4: Connect the DSC Token

1. Insert the USB DSC(PROXKey) token into the computer.
2. Wait for Windows to detect the device.
3. Ensure the token driver is installed properly.

<https://www.support.cryptoplanet.in/downloads.php>

The screenshot shows the PAGARIA GROUP website's Downloads section. The header includes the PAGARIA GROUP logo and navigation links: Incident, Solutions, Downloads, and Contact Us. Below the header, there's a breadcrumb trail: Home / Downloads. The main heading is "Downloads". A sub-heading "ProxKey Token - Downloads" is followed by a table with three columns: Particulars, Last Supported Version, and Download Link.

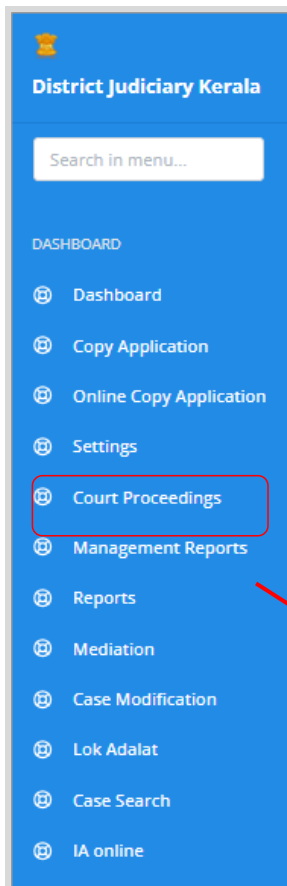

Particulars	Last Supported Version	Download Link
Windows (All Versions)	Windows 11 Windows Server 2025	Download
Linux - Ubuntu	Ubuntu 25.10 "Questing Quokka" Ubuntu Server 24.04 LTS	Download
Linux - Redhat	RHEL 10 (Fedora 43)	Download
Apple - MAC OS	macOS 26 Tahoe	Download
Brochure		Download
User Manual		Download

4. Confirm that the DSC certificate is visible.

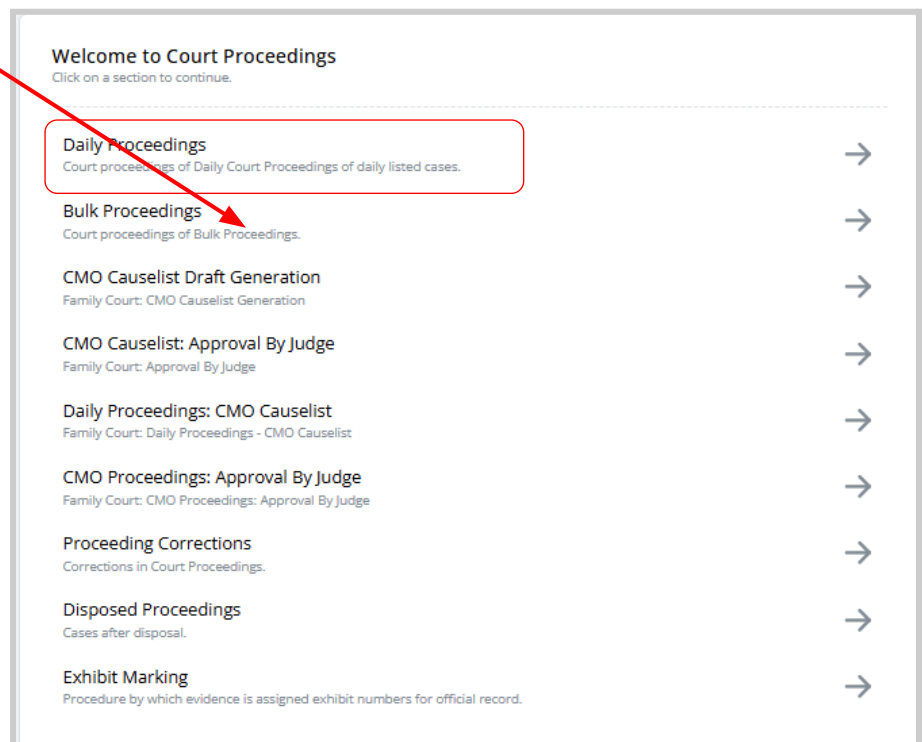

Step 5: Sign the Document

1. Open the application.
2. Navigate to the page where digital signing is required in DCMS.
3. Click **Sign**.
4. If multiple certificates are available, select the appropriate certificate.
5. Enter the DSC token password/PIN.
6. Click **OK** or **Sign**.
7. Wait for the signing process to complete.
8. A success message will be displayed after the document is signed successfully.
