FOREWORD

Ms. B. Anulmash Behr has single handedly and with great poise prepared this Case Management Manual based on the CIS 3.0 application software for all the District and Taluka Courts of the country. Earlier, she had prepared a Manual based on the CIS 2.0 application software which was extensively used by Judicial Officers.

I am confident that with the present Manual and the vastly improved CIS 3.0 application software, Case Management will become a lot easier task that will benefit the judiciary, if taken seriously. The Judicial Academies have an extremely important role to play in Case Management and imparting education on this topic to all the Judicial Officers.

All of us are quite concerned with the large number of cases that have clogged the Courts. To remedy the problem, Case Management is a subject that has been spoken about for several years but with very little encouraging results. Now, with the computerization of all the District Courts and some Talukas that should be made

by the stakeholders, particularly the Judicial Academies and the Judiciary, Case Management can become a reality. The contribution of Mr. R. Arulmozhi Seta in this regard is significant and is a very important step in introducing technology and Case Management.

I strongly recommend all Judicial Academies and Judicial Officers to spend some time in studying the Case Management Manual for the overall benefit of litigation management.

PREFACE

I am doubly delighted to again come up with this manual on Case information system. 3.0. The earlier manual titled “Case management through CIS 2.0” circulated by the Hon'ble e-committee of Supreme Court of India, has touched each and every court of our Nation, and I am Overwhelmed by the response for the said book from various parts of the country. Shouldering such a great responsibility, I started testings CIS 3.0 as a Master Trainer with the testing link circulated to all master trainers of our country by the Hon'ble e-committee of Supreme Court of India.

This manual on CIS 3.0 is complied with the new enhanced features of CIS 3.0 under 10 chapters. The features of CIS 2.0 retained under CIS 3.0. is also dealt in this manual to give a complete picture of CIS 3.0 for the basic and first time users of CIS 3.0. Three new chapters e-filing, Digital registers, Templates have been added in this manual. I was really fascinated with the new world of e-filing, Digital registers, and templates. Hope it will fascinate all the regular users of CIS and there is no iota of doubt that CIS 3.0 has further widened the technological doors to our District Judiciary paving way for the Digitized District Judiciary.

At this juncture I want to record my heartfelt and sincere gratitude to the visionary father of the e-Courts project, **Hon'ble Mr. Justice Madan B Lokur**, Judge, Supreme Court of India for igniting in me the passion for eCourts project and for the endless inspiration and encouragement showered on me. But for his untainted support and encouragement this book would not have reached your hands.

I also record my sincere thanks to **Hon'ble Kumari. Justice Indira Banerjee**, the then Chief Justice of Madras High court and now the Judge of Supreme court of India for her inspiration and for all the moral support. I also record my heartfelt gratitude to **Hon'ble Thiru. Justice T.S.Sivagnanam**, Chairman, Computer committee, Madras High Court, for constantly motivating and encouraging me .

I want to record my heart felt thanks to Mr.C.Kumarappan, Central Project Coordinator of Madras High Court and his technical team for all support and assistance given to me for testing CIS 3.0 in my court.

I also want to record my sincere thanks in particular to Dr. Parvinder Singh Arora, Central Project coordinator of Himachal Pradesh High court and his technical team for

helping me patiently in clearing my doubts while testing CIS 3.0 and in particular helping me test and understand the eFiling module.

I am also specially grateful to each one of the readers of my earlier manual from across the country and it is their tireless enthusiasm, support and encouragement which was also the driving force for me to again write this updated manual.

From the days of CIS 1.0 then to CIS 2.0 and now CIS 3.0 the stage of the digitization of the Indian Judiciary has been firmly laid. The Case Information System (CIS) the brain child of the eCommittee has wide opened the Indian Judicial system to the technological transition with more litigant user friendly Indian Judicial system where the litigants are having the case information literally in their hand(set) and that too 24 X7. The ever increasing transactions under eCourts are loud standing examples of success of the eCourts project. We all can be proud at this juncture of entering into the updated version of CIS 3.0 of having contributed to our Nation's world bank ranking forward in the international scenario and back home of having helped crores of litigants through the crores of clicks recorded in the eCourts website which speaks for itself the success of Case Information System (CIS).

New Features in Case Information System 3.0 (CIS 3.0)

1.1.Introduction :

CIS 3.0 is the improvised version of CIS 2.0 with technological improvements and added functionalities retaining the key features of CIS 2.0 inherited in it. Hence, the much awaited CIS 3.0 has been rolled out for the District Judiciary. The Case information system of the e courts project moving to the 3rd version itself shows the indispensable place it has taken in the District Judiciary and in taking the case details 24X7 to all stakeholders in the administration of Justice. CIS 3.0 further opens the doors of district judiciary digitilization towards the much awaited e filing, e-payments, & e process.

1.2.Milestones of CIS 2.0 :

Before going into the new CIS 3.0 let us take time to ponder over the milestones of CIS 2.0. Which all of us can be proud of.

- Case details/court orders available 24 X 7 mobile app / web
- Unique CNR number for all the cases

1.4.World bank Stamp on NJDG

Further world bank has placed its stamp on NJDG by taking note of the eCourts project and its transparency and India moved 20 ranks forward in the world bank doing business ranking countries. We can be proud that our NJDG has contributed immensely in moving our nation's image worldwide!

1.5 What is CIS ?

CIS means Case Information System. The Case Information System software is a giant move under the initiative of the e committee to make the Indian Judiciary more transparent and more litigant friendly. The CIS versions are available for District Judiciary and High court exclusively. This Case Information System Software for District Judiciary is created under the guidance of the e-committee, Supreme Court of India through the software team at National Informatics Center (NIC), Pune. The whole idea of CIS to put it in a nutshell is that the litigant should be able to view the daily status of his case, to view the orders of the case, hearing date of his case, the progress of the case on any particular date etc on-line from any part of the world. Earlier after migrating from CIS 1.0 to CIS 2.0 any paper coming into the court is entered in CIS 2.0 i.e even cases under per-registration are entered in the filing counter and the litigant will be given acknowledgment with an unique CNR Number. Any litigant who wants to file a case can directly go to the filing counter and file his case and will be given an acknowledgment with a CNR number and through the CNR number the litigant can track the case whether it is taken on file or whether it is returned and all the details can be got by him through SMS or On-line in the comfort of his home. This revolutionizing feature has made Indian judiciary more litigant user friendly and more transparent as all these data are available 24X7 to the litigants and the daily hits of eCourts website per day will speak for itself the success of CIS

1.6. CIS 1.0 to CIS 3.0.

CIS 1.0 means Case Information System version 1.0. The CIS 1.0 version was first Introduced in all District Judiciary and it was upgraded as CIS 2.0 and all the District Judiciary state wise in our country were successfully using CIS 2.0. Now the said Case Information System 2.0 has been technologically enhanced and new functionalities have been added and rolled out as CIS 3.0. There is lot of apprehension in the minds of the basic users that whether CIS 2.0 has been completely removed and CIS 3.0 has been introduced and whether one should start learning afresh for CIS 3.0.?! It is not so the concept of CIS has remained the same and CIS 2.0 has been upgraded as CIS 3.0

retaining the basic options which were available in CIS 2.0 and it has been upgraded with lot more functionalities and options under CIS 3.0. and the next version i.e CIS 2.0 has been introduced in all states. Hence, all the judicial officer and staffs who are trained in using CIS 2.0 can take CIS 3.0 also with much ease.

1.7 Why CIS 3.0

CIS 3.0 has also been developed by NIC Pune

- to further opens the doors of district judiciary digitilization towards the much awaited e filing, e-payments, & e process
- To enhance the existing CIS 2.0 based on the suggestions received for CIS 2.0 from all over the country through all the High courts.
- To move a step forward towards the ICJ visionary project of integrating the court, police station, prison
- In CIS 3.0 there are two types of enhancement made by the NIC Pune.

(i) Tehnological enhancement (ii) Functionalities enhancement .

CIS 3.0 has been technologically enhanced with a better speed than CIS 2.0. The other technological enhancement made in CIS 3.0 may not be apparent for a basic user. But the functionalities enhancement are apparent and user friendly.

1.8. New ecourt logo

CIS 3.0 now comes with a brand new ecourt's logo. With increasing number of e courts transaction and increasing number of services flowing from e courts it has become necessary to have an authenticated identity logo which has given rise to the new e courts logo which has been introduced in CIS 3.0. The said e courts logo will appear in the e courts Mobile app; e courts website, QR code, CNR number, Acknowledgments and it be part of every e courts services. So don't forget to look out for the new e courts logo in all e court services.

1.9 Bilingual toggling within system.

Earlier under CIS 2.0 if one wants to switch to bilingual language setting one has to log out of the CIS 2.0 and then have to come to the login page to choose the bilingual radio button. But now under CIS 3.0 the said bilingual feature is readily available on the screen itself so that the user can very well switch over to the bilingual language without logging out. Thus, this enhancement in CIS 3.0 has made the bilingual option more user friendly and time saving.

1.10 Improved Query-options under CIS 3.0

An enhanced query builder option is made available on the dash home through a colourful Q menu which has shortcut links to select court/date/ query search, calendar, mail option and ac/section.

- **Pdf (Portable document format)PDF format** the uneditable report format can be downloaded.
- **Excel sheet format** Excel sheet format for further editing which will help the user make any desirable report from it.
- **CSV format(commma-separated values)**.Can also be generated. CSV is a simple file format used to store tabular data, such as a spreadsheet or database. Files in the CSV format can be imported to and exported from programs that store data in tables, such as Microsoft Excel or OpenOffice Calc.
- **Customisable format-With Hide Columns option:** Customized reports can be generated with the Hide column option which helps to customize the reports according to the needs. This is also an excellent enhancement which most of them will put to more use.

1.12.Search within search/ sorting option in Reports

Case No	Name	Gender	Date of Birth	Status
1	ANIL KUMAR	Male	20/01/2010	Allowed
2	ANIL KUMAR	Male	20/01/2010	Allowed
3	ANIL KUMAR	Male	20/01/2010	Allowed
4	ANIL KUMAR	Male	20/01/2010	Allowed
5	ANIL KUMAR	Male	20/01/2010	Allowed

Another added attractive feature under the Report generation is the search within the search option. For example the search boxes provided on the top of each column gives a search within search. For example among the disposal. Nature one can choose “Allowed” cases alone. More over the toggling button on the top also gives sorting option of each columns like

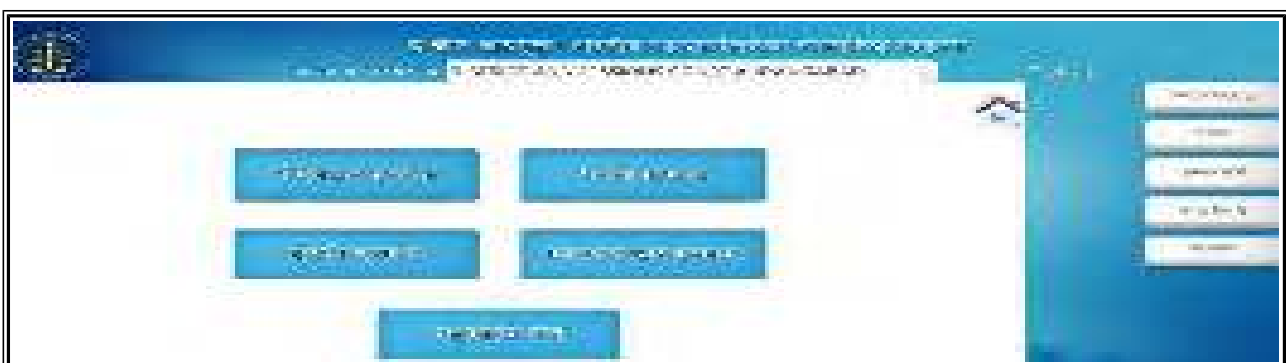

ascending descending order of the reports and then the same can be generated in the needed format

1.13 Kiosk (Automated information provider)

KIOSK the automated information provider is an attractive feature .which has been retained in CIS 3.0.It is a breakthrough in making the Indian Judiciary more litigant user friendly and transparent. With this KIOSK at our court campus any person can get detail about the case status using CNR number; or case number or FIR number or Registration number or Party name. KIOSK is also enabled with search using Advocate name and the cause list can also be seen in the KIOSK. Kiosk operation is just like operating the ATM. KIOSK is also Bilingual and comes with regional language support. Hence like any person

using ATM the KIOSK is very user friendly stored with all data and will become a welcome feature in all court campus. The screen shot of the KIOSK is enclosed for easy appreciation.

1.14.Archival of the Disposed cases

From 2013 to 2018 the Data dealt under CIS has increased multi fold. And

now the management of the huge data has become significant. And now under CIS 3.0 a enhanced technological feature has been added which will archive the disposed cases. This new improvements has lead to big data analysis and data analytical and it is the answer of Case information system towards the emerging BIG Data concept sweeping the digital world!

1.15.Key Board Shortcuts

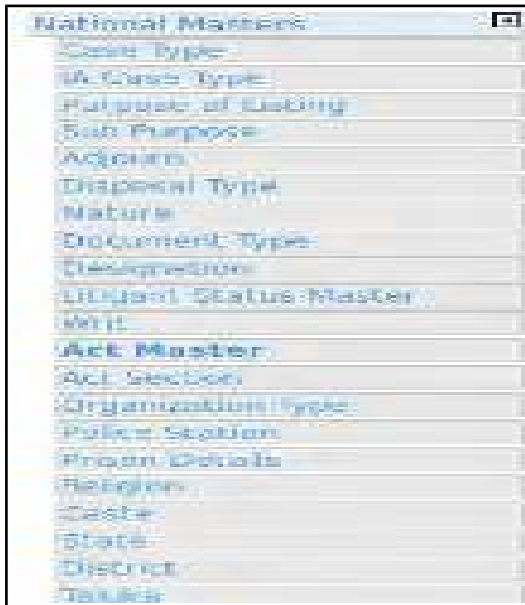

- **Ctrl+m= Shortcut to open Menu.**

With CIS handling lakhs of cases per day the data entry assumes significance. Hence there is significant need for easy and efficient entry of data. To counter that CIS 3.0 has come up with Keyboard shortcuts which will be of tremendous help and time saving for the data entry staffs .

1.16.CIS 3.0 Core & Periphery Modules

Like our Indian Constitution which gives separate powers for state and for central. CIS software created for the whole of India is based on the core and periphery model, which means standard features are created at the centralized level which cannot be modified and will remain uniform throughout our country for all states at District court level. And the states are given powers to develop periphery model according to the needs of the state. In CIS 3.0 Master module has been modified and it has been classified in a more meaningful classification And now under CIS 3.0 more meaningful master modules are provided at National ,state,Local,periphery level which will result in more customization according to the needs of the state and district but at the same time maintaining the standardized features nationwide.

1.16.1 National master:

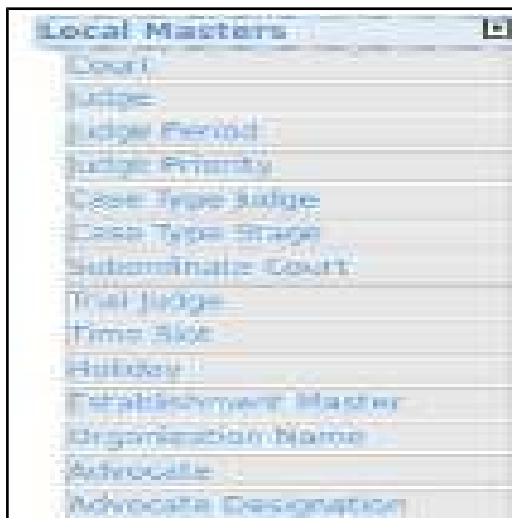

National masters are standardized feature which cannot be changed and it will remain uniform throughout the country and the National code assigned for each features to be followed under National Masters.

1.16.2 State master:

These master has been created for the states to add according the needs of the particular state. Hence the state is authorized to add master in CIS 3.0 under the state masters

1.16.3 Local master

1.16.4 Periphery master

This periphery master option is provided under

<p>This local masters has been created for usage of the local courts where the courts can add Judge name, Judge priority ,local holidays when need arises.</p>	<p>CIS 3.0 where one can add the periphery data like unit type , admin work,accounts,registers, according to the needs of the each High courts. For example the Karnataka High court has created a periphery software for Accounting and Copyist section which can be added in the periphery master.</p>

CNR (Case Number record) number. Earlier if a litigant says OS 1/2016 or CC 1/2016 all the munsif court and all the criminal court will be having the same one such in each courts and it becomes difficult to easily identify it. Hence, unique case identification number was assigned to all cases which is a

real revolutionizing tool. Now under CNR number every case in District Judiciary will get a unique Identification number and the identification of the case becomes easy with this CNR number Creating a CNR number itself is a big task. Just imagine we have to create a number unique for all cases all over India and that number should not be repeated and we should continue the said number hereafter. So we need such a unique number. In CIS 2.0 the said challenge is well met by creating a 16 digit number which contains the State code - District code - Establishment code - Case filing - number - year of the case. Here the CNR number generated in various states in various district is shown below

1.18.View QR code/ Scan QR code :

For every cases one can get the QR code from the www.eCourts.gov.in website as shown below.

The QR code option can be utilized equally by the courts, advocates, the litigants. The print out of the QR code generated from the ecourt website may be pasted in the case docket by the courts and the advocates and with the scan QR code option available in the e courts mobile app or using any other scan QR code app one can scan the QR code and get the details of the case in one scan which will free the user from manually typing the 16 digit CNR number or by entering the other details while searching . If one starts using this Qr code option it becomes addictive for the user .Just try the option and enjoy its speed and accuracy of getting the case details.

1.19 Avoiding undated cases – Tips

All data entered through CIS in the respective courts are displayed through the ecourt website www.eCourts.gov.in and from where any litigant from any part of the world can view this case details from the ecourt website page. The data not entered in CIS on a particular date or entered after replication is shown as UNDATED CASES. To avoid undated cases the best way is to start the daily proceedings' entry in the calling itself. At 10.30 A.M when the Judge comes to the dais the data entry staff can also come to the computer in the dais and make the daily proceeding entry as and when the case is called and adjourned. The common mistake done in the courts are, the data entry work is done as the last work. When daily proceedings are posted after 6 pm by that time the system officer of the said district would have replicated the data. Hence, posting daily proceeding after the replication will only result in undated cases. Hence, to avoid undated cases the data entry staff should give priority for completing the daily proceeding entries before 5 pm.

1.20. Importance of Complete and accurate data entry

One important mantra every staff should remember is that, all the benefits and fruits under CIS can be reaped only if complete and accurate data entry are made at every level in CIS . If incomplete data are entered we will not be able to get authenticated and full fledged reports. For eg. In filing there is a non mandatory column that Advocate registration number must be entered. If the same is not entered then in case of any complaint that the said advocate was not registered with the bar council cannot be traced. One point to remember is that all mandatory field are compulsorily entered by the staffs and if it is not entered the software will not allow moving to the next step. But this common mistake of incomplete data is committed by the staffs in filing up the non mandatory fields which are very useful field in many other aspects. Hence, all staffs should ensure to enter all data in the CIS whether it is mandatory or non mandatory keeping in mind that the non mandatory fields are very useful in generating various reports. It reminds of the saying

“what you sow you reap”. If you enter complete data we can get the complete reports of our data! If you enter incomplete data we can get only incomplete reports !

1.21 Fetching Trial court data while Appeal filing:

When appeal is filed in an appellate court , the data regarding the Trial court can now be fetched under CIS 3.0 by the appellate court. By this option the second time data entry of the same case in the appellate court comes to an end. This is a sure welcome option for all the data entry staffs .

1.22 Random case allocation option:

For allotment of cases to various courts the random allocation option have been provided under CIS 3.0. By this random allocation cases can be allotted to the court which will be unpredictable. For eg if Motor accident cases are dealt by Court no 3,7, 9 then it can be assigned that MCOP cases to be randomly allotted to the courts 3,7,9.

1.23 Pre Trial options for Remand/ Bail/application

In Criminal cases where charge sheets are not filed there are lot of pre trail stages like remand, bail which arise and are dealt by the courts The pre-trial module has been enhanced and when an accused is remanded it can now be added in the pretrial module

from where the log of the remanded person can be maintained. And with it one can easily get the date of remand, days in police custody, judicial custody. Similarly, the bail orders has to be generated from CIS 3.0. The day is not far when Fir is lodged and a person arrested and entries are made in police station it will be automatically fetched by the court and once the court remands the accused to judicial custody then it will be automatically fetched by the prison authorities. This option under CIS 3.0 is a real visionary option whereby the vision of ICJS integrating court, police station, prison becomes a reality.

1.24. Digital Record Room/copy section/nasarat:

Under CIS 3.0 new

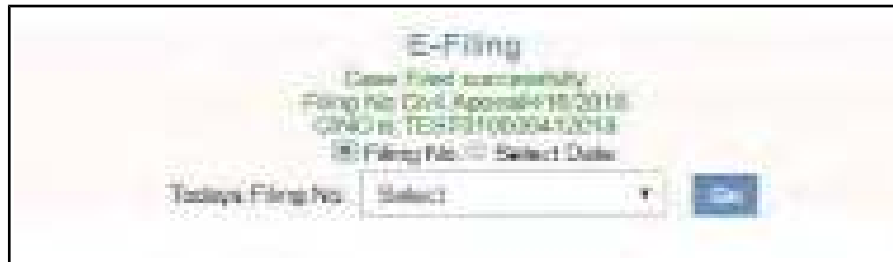

branch wise options like Record Room ,nasarat , copying section which can be customized to the needs of the states are also added. These modules will surely pave way for perfect digitilization of various branches of the court making digital record room ,digital process monitoring, digital copying section ,digital property room a dream come true for the District Judiciary.

1.25 Digital Registers

The Dream of process re engineering of having digital registers for the manual regisrers has been met with under the new C 3.0 .The following list of registers are now inbuilt under CIS 3.0. The most welcome option is that it can be customised according to the needs of the High court through Periphery master option. The digital register is dealt in detail in a seperate Chapter “ Digital Register”

- With CIS 3.0 the district judiciary of our country moves to the much awaited digital world of e-filing

-----With this intro one will surely feel

CIS 3.0 is a next generation case management system-----

2. Important Menus Under CIS 3.0

2.1 Introduction

CIS 3.0 now comes with certain enhanced options which were available under CIS 2.0. The question which immediately comes into one's mind on seeing CIS 3.0 is whether the basic options available under CIS 2.0 has been removed and new CIS 3.0 has been introduced? The answer is NO. What has been done in CIS 3.0 is that the basic features already available in CIS 2.0 has been enhanced and certain new features has been introduced, certain unwanted features have been removed so the judicial officer or the staff who are using CIS 2.0 can take up CIS 3.0 also with an ease.

2.2 Enhanced Basic options under CIS 3.0 :

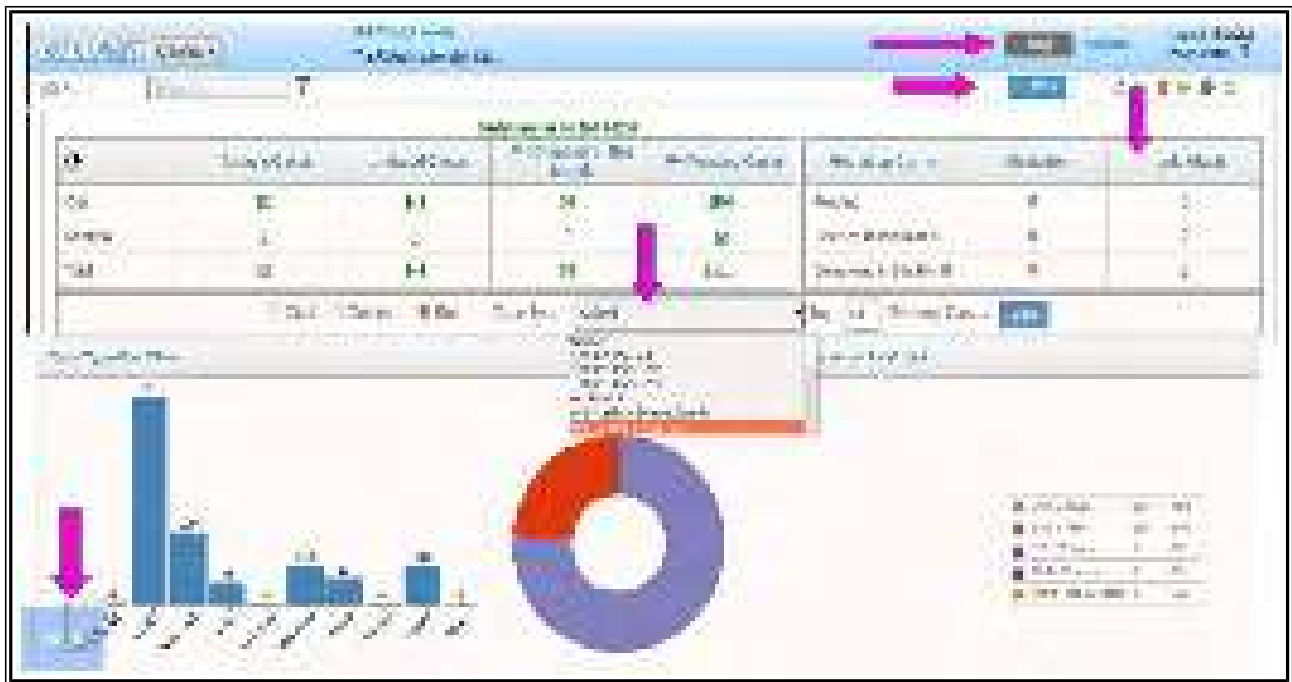

Under CIS 3.0 regarding the basic options the already existed Home page has been enhanced , a new colourful attractive Q menu introduced, the show menu has been changed and it has been made static, the alert menu has been removed, the calender option has been enhanced, and in modification menu new IA modification has been introduced and the bilingual toggling is inbuilt on the home page, the dash home comes with enhanced case type search, new pie chart etc. Let us see the following enhanced basic options one by one hereunder for better understanding.

- | | |
|---|---------------------------------|
| • CIS 3.0 Dash Home Page | Enhanced show menu |
| • Navigation Pane | Sub Menu |
| • Q Menu | Search Box |
| • ecourtIS Link | Establishment select Box |
| • Modification | Proceedings corrections |
| • Security Check through Role Management | Year end initialization |
| • Unification & National Mapping | Logout |

2.3 Improvised Dash Home in CIS 3.0:

The dash home in CIS 3.0 has been enhanced keeping in mind that a Judicial officer or a staff who comes to dash Home must be able to get the complete details and statistics

about the concerned court without again further going into the reports menu or statistics. The dash home have been added with the features like the bi lingual toggle , Lok Adalat menu, Enhanced Bar/Pie Chart, Enhanced Top 10 cases with case type options, Q menu a compilation of shortcut menus, new static navigation pane. The alert menu which was available in the dash home has been removed.

2.3.1 Lok Adalat menu in Dash Home:

In CIS 3.0 the addition of Lokadalth option

Module Name	Module Name	Lok Adalat
Reporting	1	1
Referenced in this Month	1	1

in the Dash Home is a much awaited enhancement. Now we can get the details of the cases referred to Lok Adalat, settled in LokAdalat and lok Adalat reports ,Lok Adalat notices . A new lok Adalat menu has also been added in the navigation pane which has an exhaustive list of options as shown in the screen shot is added

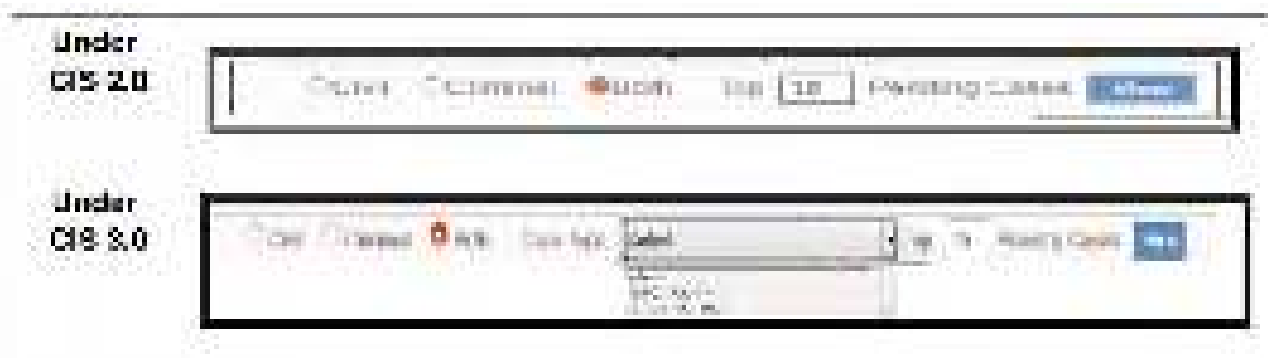

2.3.2 Enhanced Case type Bar Chart .

Bar chart and Pie chart has been enhanced. It will display only top 10 cases. Earlier the bar chart/pie chart was appearing crowded with numerous list but now it has been given a neat look with the top 10 cases showcasing under enhanced bar / pie chart.

2.3.3 New Case Type search in Dash Home:

Under dash Home earlier one can view the required number of case list based on Civil; Criminal option. Under CIS 2.0 option one can get the list of any number of top cases only under the broad option Civil ; Criminal. How to get the top 10 sessions cases or any other case type top 10 cases. The answer is now provided under CIS 3.0 which has enhanced this search with case types and also the generation of reports under various formats in dash home based on case type. The screen shot from CIS 2.0 and CIS 3.0 is provided hereunder to have a clear understanding.

2.4 New Show menu icon

In CIS 2.0 the show menu was given on the left hand side which if clicked will open a Navigation Pane. Now in CIS 3.0 the show  menu is made as image 3. If this is clicked it will open up into the Navigation Pane. This new standard show menu option will be a real welcome feature among basic users of CIS 2.0 who were finding it difficult to catch up with the earlier dynamic moving menu bar.

2.5 Navigation Pane

Similarly earlier the Navigation Pane under CIS 2.0 was dynamic as only when show menu was clicked, the navigation pane will appear and for some basic users this moving navigation menu was practically difficult. Now this has been enhanced with a standard Navigation pane with added options which is user friendly as shown in the screen shot. The new navigation pane has been re-arranged and new options have been added. Under CIS 2.0 there were total 20 options under the navigation pane which has been enhanced to 26 options under CIS 3.0 Navigation pane.

		<p>New options in CIS 3.0 Navigation pane</p> <ul style="list-style-type: none"> • Configure establishment • Unification • Proceeding corrections • Appeal filing • I court fees • Lok Adalat • E-filing • Record room • copying Branch • Nazarat <p>In Navigation pane CIS 2.0 -20- options CIS 3.0- 26-options</p>

<p>2.7.3.5 Pre trial application</p> <p>One can search pre trial application using the  following options (i) Bail (ii)Remand (iii) Application</p>	

2.7.4 Enhanced Calendar features:

The Calendar feature which existed under CIS 2.0 has been enhanced now under CIS 3.0. Earlier under CIS 2.0 one can get the Calendar with the number of civil and criminal cases on a particular date. Now under CIS 3.0 the number of civil and criminal cases if clicked will show the breakup of cases stage wise. For example now from the calendar option a presiding officer can see the stage wise case details i.e. how many cases in argument stage, how many for trial etc. and can plan accordingly. And the stage wise case will further break up into the case numbers as shown hereunder in the screen shot. This will be very useful for a presiding officer to handle the posting of the cases more efficiently..

2.9 ecourtIS link

This ecourtISlink is like a light house under CIS to go to the Home page. It is a shortcut link which will take you back to the Home Page from any place you are. For example, if you are on the Bailiff screen and you want to view the Home Page for any reason, click the ecourtISicon which is on the upper right hand corner of the screen,then you can reach the home page .

2.10 Establishment select box

The Establishment select box is situated on the left side top of the home page as

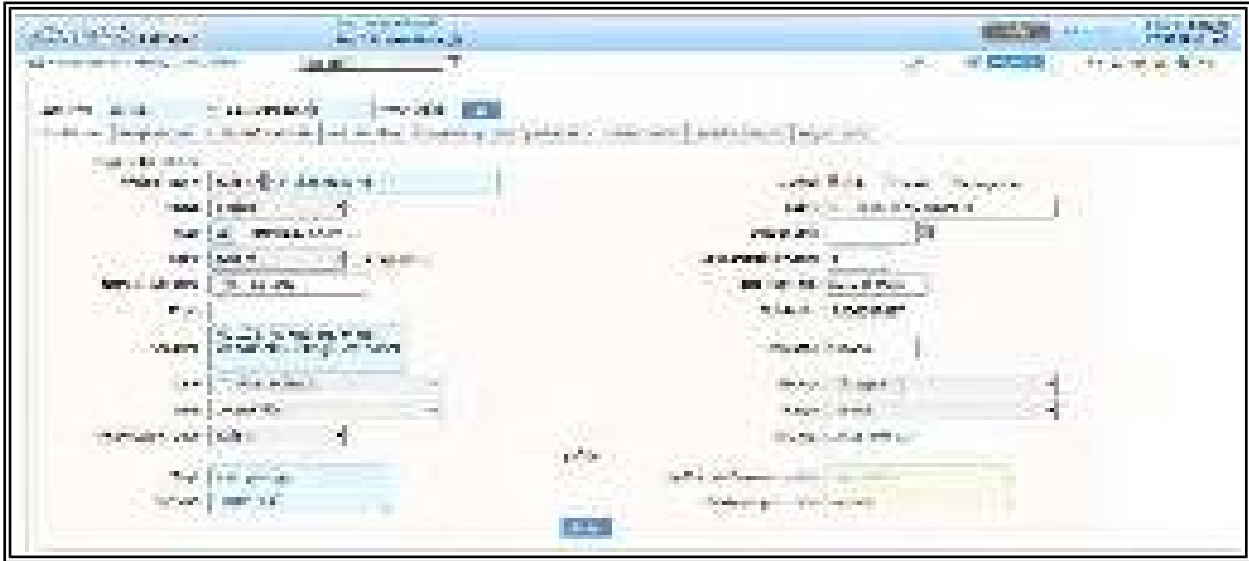

shown in the screen shot. It will display all the establishments. You can select the needed establishment .

2.11 Modification Menu

The modification menu is necessary to correct the errors that is wrongly entered and saved in the system. Three types of Modification menus are available under admin menu.

Under CIS 3.0
Under modify business
IA option newly added

The said menus can also be directly searched through the search box.(i) Modify Business (ii) Modify Next Date and Purpose;(iii)Modify Case Details (iv)Modify IA detailsThe above mentioned modification option should be sparingly used as we have live data and based on it lot of live reports are auto generated through NJDG, eCourts services.

Case Registration. Now under CIS 3.0 the modify case details form comes with the additional feature of Party wise act .With Modify Case Details menu the registration details alone can be modified but the details regarding Court Number, Filing Number and Registration Number cannot be modified through this option.

2.11.4 Modify IABusiness:

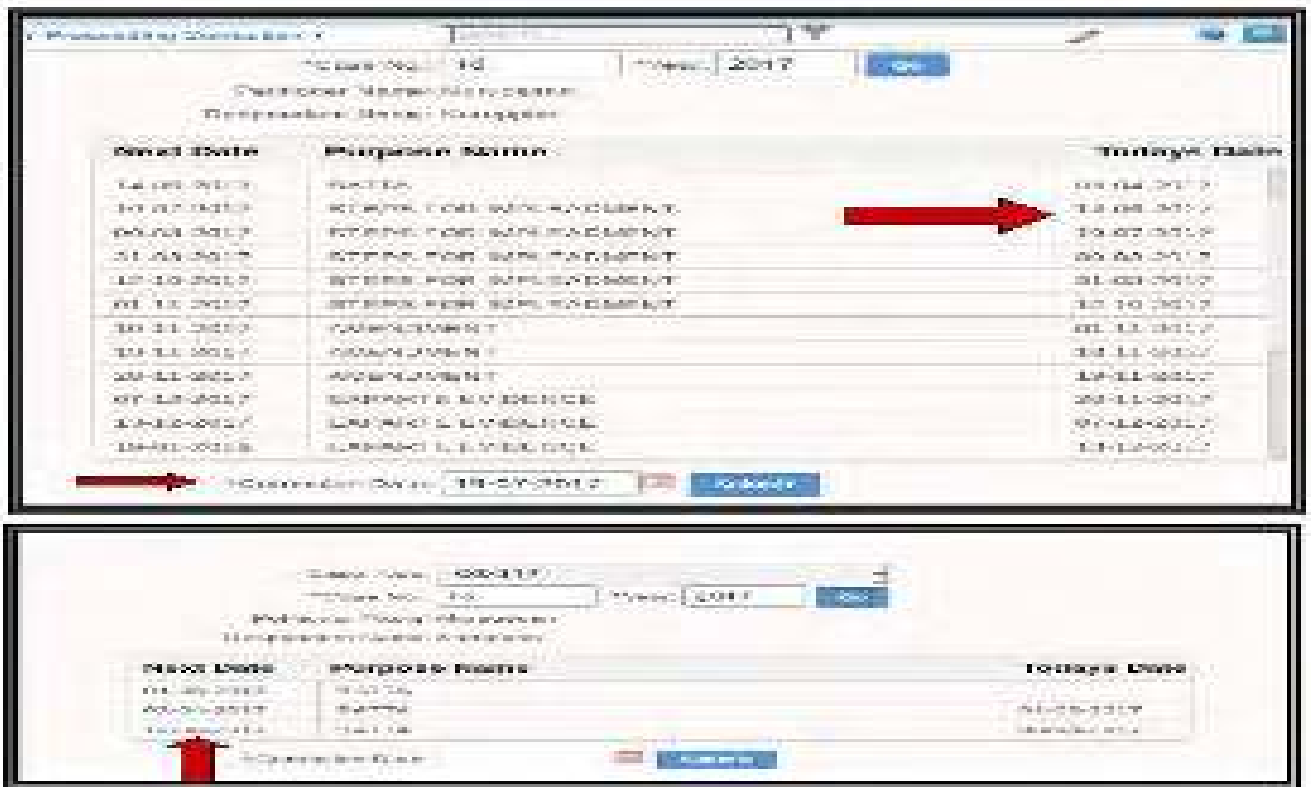

Under CIS 3.0 the option to modify the details of IA business has been provided .The IA modification screen shot is shown herewith

2.12 Proceeding correction:

Another new feature in CIS 3.0 is the proceeding correction. For example if the proceedings have been entered wrongly from one particular date by using this option one can choose the date from which the proceedings need to be corrected. Once the said date is chosen then the proceedings from that date is deleted. For eg in the screen shot 19-07-2017 date is chosen for correction and hence the proceedings till the previous date 14-06-2017 has been corrected .This saves the user from going and correcting each date's proceedings. But before making such correction the judicial officers can ensure that the concerned staff gets the necessary order from the concerned judge before making correction .

2.13 Security check through Role management :

Under CIS lot of live data are handled by various staffs at various stages in different courts

and not all staffs can be given access to all data. CIS also has an inbuilt security check to define the role of the staffs handling CIS data. The Role management option is available in the User menu where in the role of handling data by the staffs can be per-defined and the access of the data by the staffs can be checked and controlled. Earlier under CIS 2.0 this option was available and now Now under CIS 3.0 the role management options has been expanded to control nearly 24 types of data entry roles under CIS 3.0. The Judges who are in control of administration should pre define the staff roles and ear mark what data alone they can enter in CIS. This option should be effectively implemented and defined for data security under CIS 3.0. and to prevent the mishandling of data by the staffs

2.14 Year end initialization:

Year End Initialization is a new option under CIS 3.0 whereby the option is provided to start new numbering on 1st January of every calendar year because the filing number are given based on the year for eg 1/2018 when the year 2018 started. When the new year 2019 starts one has to start the new numbering i.e 1/2019 which can be done by using this year end initialization which will wind up the previous year number i.e by entering the last filing number of 2018. Year end initialization need to be done not only for filing number but option is provided for year end initialization of Registration number; fees, appellate number, PTN no. Wait for the new year 2019 to try this new feature !

3. Daily usages

3.1 Introduction

Considering the daily users of CIS this chapter has been framed as a starter pack for CIS 3.0 .The daily users of CIS can take with confidence CIS 3.0 having in their mind that CIS 3.0 is nothing but an upgradation of features of CIS 2.0 . Once this daily work are done through CIS 3.0 there will not be any stumbling block in carrying forward the torch of CIS 3.0. Once the staffs become accustomed with this basic usage of CIS 3.0 work and they become equipped by themselves to explore all other options. Hence this starter pack aims to cover the following basic options which are used daily in every courts:

Daily proceeding

A diary, B diary

Taken on Board

Restoration of the case

Transfer of Case

Mediation

Litigant Updation

Bulk proceeding

Status of Case

Recall of a case

Refile cases

Lok Adalat

Order uploading

Proceeding Modification

3.2 Daily proceedings

Daily proceeding under CIS 3.0 has been improvised with many features like VC (Video Conference) proceeding, Convicted particulars, Purpose wise view, Time Table, Exhibits, Keep Dormant/sine die,. Posting the daily proceeding is one of the most important work in CIS. Because only when daily proceedings are posted we can generate A diary and from A diary any litigant can know the status and the progress of the case on the hearing date. And this daily proceeding goes online through our eCourtswebsite making it accessible to any one and visible to everyone. Only when

daily proceeding is posted the litigant from any nook and corner of the world can see the status of the case online. So we must attach utmost importance while posting daily proceeding and should avoid any error while posting, considering its reach through Internet, its accessibility by anyone and visibility by everyone worldwide! .If daily proceedings are not updated then that cases becomes undated cases. To avoid undated cases a system may be formulated wherein the data entry staff who is posting the entries in CIS can come to the court hall at 10.30 am when the court commences and post the daily proceeding immediately after the case is adjourned .By this we can avoid undated cases.Now let us see how to post the daily proceedings under CIS 3.0 .It is the same as done earlier under CIS 2.0 .Go to navigation pane as shown in the picture herewith and then select case proceeding and from which the daily proceeding has to be selected.

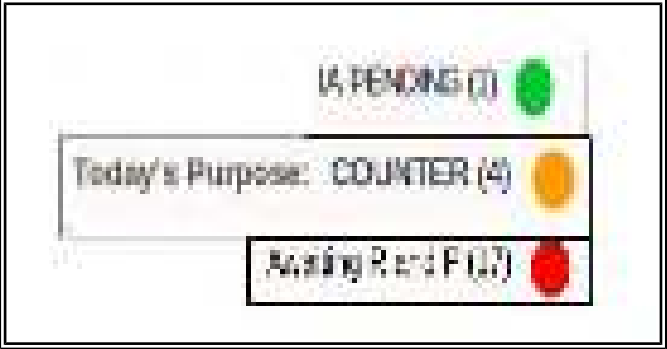

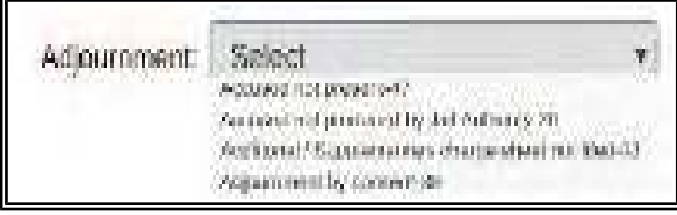

Go to Navigation tab--> click case proceeding --> select daily proceeding

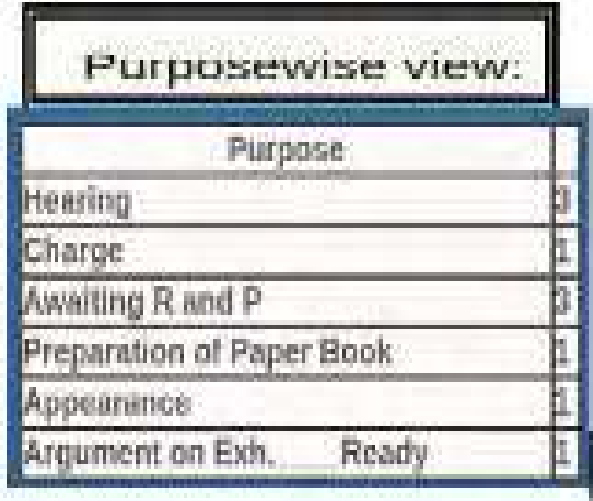

Once you click Daily proceeding it will open up the daily proceeding window as shown in the picture hereunder. You have to first select Civil/Criminal option through the radio button and only then the cases will appear in the drop box and then the case number has to be selected for posting the business

Step No 1 : Select Radio button
civil/criminal

<p>Step No 2: Select case number (the cases listed on the particular day alone will appear in the list)</p>	
<p>Step No 3: Once the case number is selected from the drop down box the party name will automatically appear</p>	
<p>Step No.4 : Once the case number is selected along with party name Today's purpose also appears which shows the stage of the case with the number of times on the same stage along with colour coding below (3) with green, more than three at amber colour and more than 6 times it comes with red colour indicating danger level!</p>	
<p>Step No 5: The proceeding window also auto generates pending duration like since how many months and days. All the auto generated data for the Judicial officer to take note before making granting the adjournment.</p>	
<p>Step No 5: Make entry of the day's happening in the business box</p>	
<p>Step No 6: select the reason for adjournments.</p>	

<p>Step No 7: And then select the next date of hearing by typing the date or by choosing from the calender</p>																	
<p>Step No 8: Also select the purpose of listing. This data entry is a useful statistics which will generate the satge wise case details.</p>																	
<p>Step No 9: Purposewise view is a new feature added under CIS 3.0 .Hence select the purposewise view .This is a time management tool whereby the Judicial officer can post cases effectively considering how many cases are pending on the same satge. For example to adjoun the case which is pending at the stage of arguments the Judicial officer can take note how many cases are already posted for arguments on the same date .</p>	 <table border="1"> <thead> <tr> <th colspan="2">Purposewise view:</th> </tr> <tr> <th>Purpose</th> <th>Count</th> </tr> </thead> <tbody> <tr> <td>Hearing</td> <td>0</td> </tr> <tr> <td>Charge</td> <td>1</td> </tr> <tr> <td>Awaiting R and P</td> <td>3</td> </tr> <tr> <td>Preparation of Paper Book</td> <td>1</td> </tr> <tr> <td>Appearance</td> <td>1</td> </tr> <tr> <td>Argument on Exh. Ready</td> <td>1</td> </tr> </tbody> </table>	Purposewise view:		Purpose	Count	Hearing	0	Charge	1	Awaiting R and P	3	Preparation of Paper Book	1	Appearance	1	Argument on Exh. Ready	1
Purposewise view:																	
Purpose	Count																
Hearing	0																
Charge	1																
Awaiting R and P	3																
Preparation of Paper Book	1																
Appearance	1																
Argument on Exh. Ready	1																
<p>Step No : 10 To dispose a case Select the disposal button ;Select the Date of decision; contested /uncontested and the nature of disposal only then we can get the accurate statistical report on disposal from CIS .</p>																	

3.3 Case Proceedings

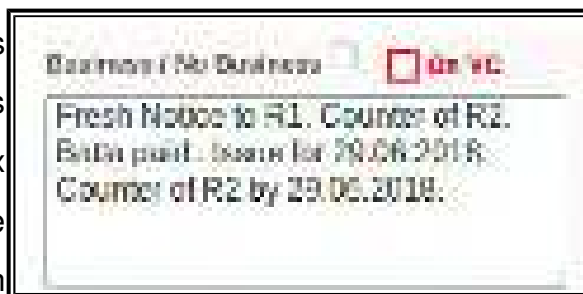

The case proceeding under Daily proceeding is referred in CIS as Business. And the daily proceeding has to be typed in the Box which is named as” Business” And if there is No business then that option can be clicked ..The following options need to be filled up in daily

proceeding

- Proceedings
- Presentee
- Conviction(in case of disposal)

3.4 Business/ No business option

First under proceeding the daily proceeding has to be entered in the Rectangular box named as Business In the picture herewith at Business box the daily proceeding is posted as” Fresh Notice to R1 -----29.06.2018” If there is no business on

that day then check the box “No business”. When no business option is selected it mandates that the adjournment reason must be compulsorily entered That doesnt mean that for the cases in which business are entered there is no need to give the reason for adjournment. For all cases the reason for adjounmeent should be entered.

3.5 Proceeding through Video conferencing :

Nowadays lot of trials include proceedings through Video conferencing CIS 3.0 comes with the option to enter the proceedings under Video conferencing for which check the box “ on VC” and then enter the business as shown in the screen shot .

3.6 Presentees:

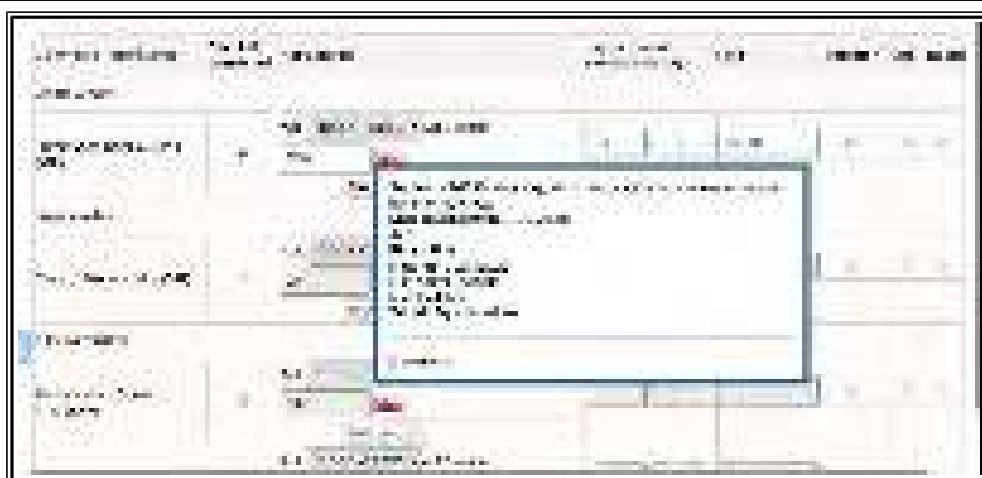

The presentee option available under CIS 2.0 is also made available under CIS 3.0 through which who were present on the date of hearing is updated. You can check the box to mark the presence of the parties as shown below.

3.7 Conviction :

In case of a criminal case where conviction has been passed CIS 3.0 now comes with the option to record the conviction details which is yet another useful enhanced feature under CIS 3.0. The conviction tab as shown above will appear only after the case is disposed and the "dispose the case" check box is clicked.

3.8 Kept as Dormant / Sine Die cases

In the case proceeding page just beneath Short Order box there is a red colour option named Kept as Dormant / Sine Die. This option is used for cases for which date of adjournment cannot be given. For example in criminal cases where the presence of accused could not be secured after adopting all the remedies under the Code of Criminal Procedure, the Court can keep the case at a dormant stage. Similarly, whenever any Court has too many civil cases which are not ready for hearing and it is not possible to accommodate any more cases on the cause list, in such situation the Court has power to

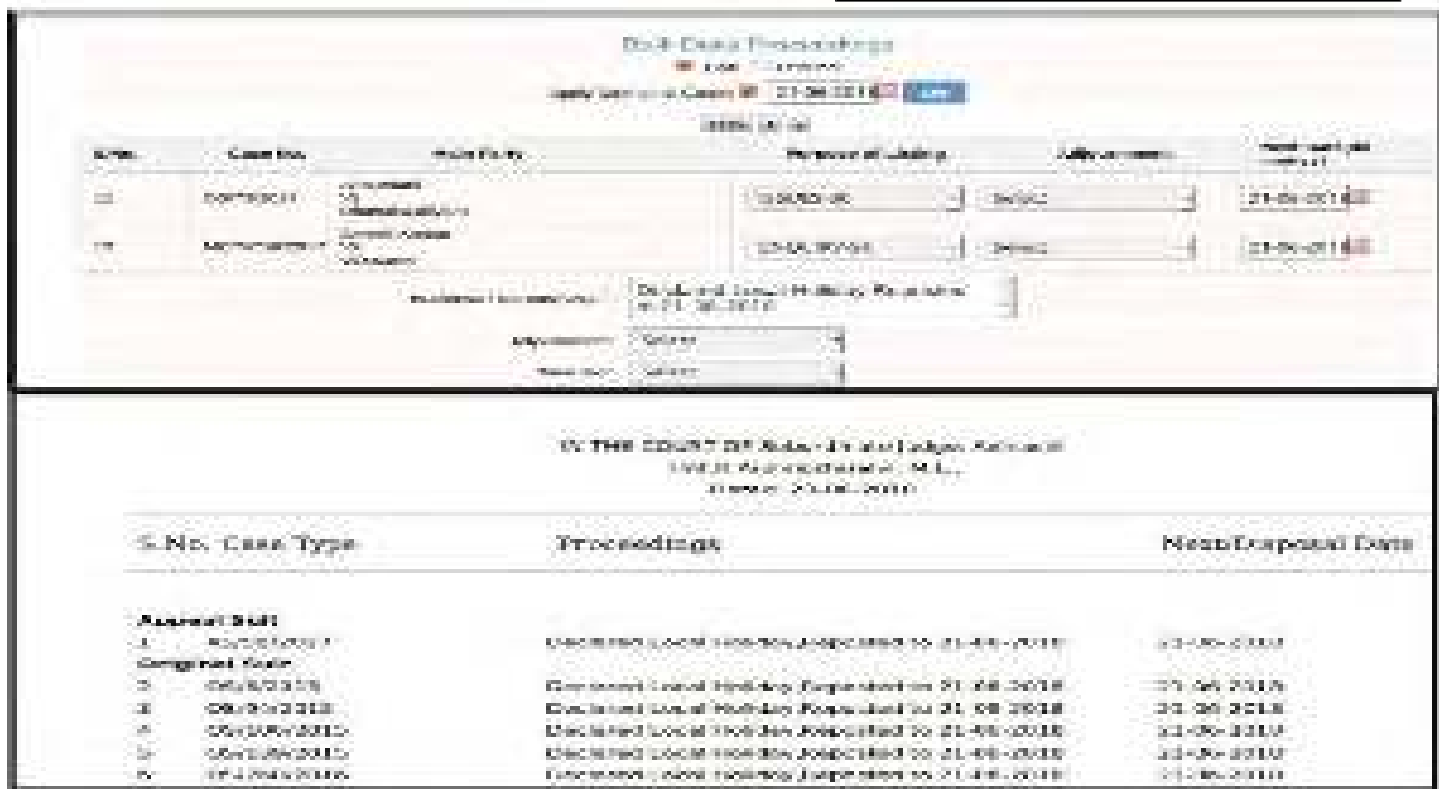

adjourn the case sine die. When you check the box of Kept as dormant or Sine die, then automatically 3 months date is given in the calendar and you have to choose whether the case is dormant or whether it is adjourned sine die. Then Click Next and submit. Then the

case becomes Dormant sine die .It can be updated and restored using the “Update Dormant/sine die” option available under court proceeding option.

3.9 Bulk proceedings :

Bulk proceeding option which was in CIS 2.0 now comes in CIS 3.0 with enhanced option of “ Apply date to all cases” to cater the need of the bulk posting for numerous cases. For example if declared holiday then the staff need not go and

type the same diary “Declared Holiday Hence reposted to “ .and similarly when there are

numerous cases with the same proceeding for example in batch cases or bulk transfer this option is very much useful. Apply date to all cases will give date to all cases . This must be used sparingly by the staff. This option is sometimes misused for posting cases to avoid undated cases which must be avoided by the staffs.

3.10 A Diary

In CIS 3.0
the word ROZNAMA
Replaced as A DIARY

In CIS 3.0 for A diary the word Roznama has been removed And it is mentioned simply as A diary which now becomes easy for common users to understand.Steps to generate A diary you can follow the following steps

On the Navigation pane ----->, click the court Proceeding menu---->click A diary

S.No.	Case Type	Proceedings	Next Hearing Date

3.11 B Diary

B diary is a new option available under CIS 3.0 .It gives the entire diary for all the hearing dates in the case .To put it simply A diary gives the business or diary for a particular date but B diary gives the consolidation of the A diary for all dates. One can view the entire case dairy of all hearing dates of any case through B diary For example in the screen shot the B diary shows the case diary from 7 .04.2017 starting from trial because that bundle was received by Transfer at the stage of Trial and the Trial was commenced

for the said case from 07.04.2017.

3.12 Status of case Called / In progress/ completed

With display boards and Kiosk coming up in the courts the status of the cases are to be displayed outside court and it will show whether in calling or whether in progress or whether

completed In this feature, the system will display the number of Called Cases. To view the numbers of called cases select the Called check box. (Shown in the above figure which shows 1 Called case) and also shows the options In Progress/completed .With these

option one can mark the case as In Progress or completed.

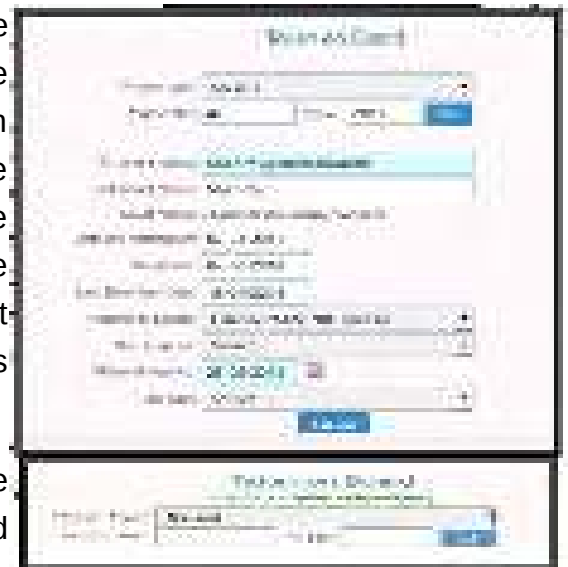

3.13 Taken on Board (Advance hearing of a case)

When advance hearing petition is filed this taken on board option is used to advance hearing of the case to the current date

Step No 1: Go to navigation pane---> then select admin menu ---> Select Taken on board

Step 2. On Clicking “ Taken on board” ---> case type option will open up (as shown below) ---> select case type --> fill up case number, year .and case details as shown herewith * Important point to remember is to fill up the date of hearing as the current date.The next date of the selected case will be replaced by the current date. The case can then be viewed on the Daily Board/Cause list .Further proceedings in the court can be then filled up as usual

Step 3. Click Submit to save the data into the system. The system will display the message, “Taken on Board Successfully”

3.14 Recall of a case

Recall of a case can be used to recall a case for which daily proceedings has been posted but which need to be taken again on the same date .This option is used to modify or update the information of cases if you want to recall a case on the same day. In Daily Proceedings the modification facility is not provided. However, you can recall the case, on the same day, if the reasons provided are accepted by the court. For example, The Litigant appears in the court, but the advocate is not able to reach the court in time and hence the matter is adjourned. The Advocate can then request the court to recall the matter and open the proceedings again. The request

may be accepted by the court and the matter may be recalled. The Recall option is used to modify or edit the information of such cases. (Recall option check box is shown in the figure)

Select the check box of Recall.-->Select the radio button for Civil / Criminal case/Case No.--> Today's Purpose displayed automatically --> The business can be modified and entered

3.14.1 Difference between recall and Taken on Board

Recall of case is used to recall the case posted on the same date it cannot be used to recall a case posted on some other date. But taken on board is used to advance the case posted on some other date. Taken on board comes into help when a case posted on some other date need to be advanced to a current date.

3.15 Restoration of the case

Go to navigation pane ---> then admin menu -----> restore case

To access the Case Restoration screen, follow the steps given below:

- On the Navigation pane, click the Admin menu.
- Then, click the Restore Case sub menu.
- When you click Restore Case sub menu, the Case Restoration screen is displayed.
- Fill up the details (There is option to restore by transfer which can also be exercised under this option)
- Click submit. The system will display the message, "Case Restored Successfully"

3.16 Refile Case

Refile Case' option is used to refile the cases that are rejected during scrutiny. Select the Case Type and enter the Filing Number and Year of the case to be refiled. On clicking the "Go" button, the details of the case are displayed. Select the "Date of Refile" from the calendar. The rejected case resumes on refile with the same filing number. It is to be remembered that this option is available only to admin user and not to the ordinary users

3.17 Transfer of cases

Go to navigation pane--> select admin menu --> select transfer of cases

This option is used to transfer the case from one court to another, within the same establishment and out side establishment. This feature includes the options given below: (i) Individual Case Transfer; (ii) Bulk Transfer; (iii) Establishment Transfer

3.17.1 Individual case transfer

This option provides the facility to transfer an Individual case from one court to another court. To access the Civil/Criminal Individual Case Transfer, follow the steps given below:

On the Navigation pane, click the Admin menu-->.click the Transfer of Case --> click

Individual Case sub menu, the Civil/Criminal Case Transfer screen is displayed--> Select case Type,Enter the Case Number& year ---> click Go--->Enter further details as shown in the screen --->Click Submit to save the data into the system.--> The system will display the message, "Case Transferred Successfully"

Example No 1: Individual case transfer successfully made from Court No 1 Mr.S.Karupiah, Principal District Court, Thupur, to the Court No 2 Mr.A.Abdul Kadar, 1st Additional district court, Thupur as shown in the screen shot.

3.17.2 Bulk Transfer

Bulk Transfer option are used to transfer Bulk cases from one court to another court. This Bulk transfer necessity arises in many occasion title When new courts are formed. For example a Special Court to try Motor Accident Cases or 138 Negotiable Instrument Act (Cheque cases) are formed, then the said Motor Accident Cases or 138 cases has to be transferred in Bulk to new court. CIS.3.0 provides Bulk transfer option under the following four options

Example: Bulk Transfer of from court No 1 Mr.S.Karupiah to Court No 2 Mr.A.Abdul Kadar based on case type(CC case):

Step No 1: Select from the Four options under Bulk Transfer (i) Case Type (ii) Police Station (iii) Act / Section;(iv) Nature

the Disposal report of Chief Judicial Magistrate Court and the institution report of Additional Mahila Court the same was successfully reflected. The steps involved in Establishment Transfer of case is shown hereunder

Step-I:- Transfer from (Court No.9) Chief Judicial Magistrate's Case No.901558/2006 to Additional Mahila Court as STC No. 1600320/2018 where by. enabling the the Register case option that case was numbered "2018" as case No.1/2018 and then give submit

3.18 Lok Adalat

Under CIS 3.0 the Lok Adalat option has been enhanced with many key features considering the importance of Alternate Dispute Resolution mechanism in the Indian Judiciary. Lok Adalat option comes with option for adding ID for Lok Adalat, ID for Lok Adalat member, ID for Lok Adalat panel. CIS 3.0 has also enhanced Lok Adalat with features of assigning cases to Lok Adalat, panel and generation of Reports. The Lok Adalat option are captured in the screen shot shown herewith.

3.18.1 Lok Adalat ID

Varieties of Lok Adalat are held in courts and under this Lok Adalat option ID can be created separately for National Lok Adalat, State Lok Adalat, District Lok Adalat, Taluk level lok adalats under CIS 3.0 which is shown hereunder.

3.18.2 Lok Adalat Member

Similarly Lok adalat member can be created under four types 1) Advocate 2) Judge 3) Retired Judicial Officer and 4) others. Once this Lok Adalat list of members is updated under CIS 3.0 the cases can be referred to the particular member type. The lok adalat member screen shot is shown herewith.

3.18.3 Lok Adalat panel:

For every Lok Adalat different panels can be created under CIS 3.0 with panel ID and with specified Panel members

3.18.4. Assign cases to Lok Adalat

Under this option the user must choose the lok adalat ID and the case which is to be referred. To assign the check the box as shown herewith. If Lok adalat ID is not created this option may not work. The list of assigned cases can also be generated under CIS 3.0 as shown in the screen shot herewith

3.19 Mediation

With ADR gaining big momentum in our Indian Judiciary ,CIS 3.0 comes with more detailed options to face the every increasing Alternate Dispute Mechanism,(ADR) . Now under Mediation option one can update Mediation members list, Refer to mediation, allocation of cases to mediation, Mediation reports .

Go to the Navigation pane----> click the Mediation menu

3.19.1 Mediation Member

By using this option under CIS 3.0 one can add the panel Member name. The Mediation member option provides for member types which includes Advocate, Judicial Officer, Retired Judicial Officer, Marriage counsellors and others. Each of the mediation member will have details of the field of expertise under CIS 3.0 whereby while referring to mediation the Judicial officer can refer the cases to the expert mediation members.

Go to the Navigation pane----> click the Mediation menu---->Click Mediation member cases and can be referred to the.particulars mediation member

3.19.2 Refer to Mediation

To refer the case for Mediation this option of refer to mediation is used

3.19.3 Mediation allocation

Member ID	Member Name	Total No. of Cases	Case Type Total	Allocate
1	Thakur, Gopal Lal (Defendant)	1	1	<input type="checkbox"/>
2	Subodh Keshri (Plaintiff)	1	1	<input type="checkbox"/>

When a case is referred to mediation the next question which arises is who are the mediators? To decide the mediators the mediation allocation option is used and cases are allocated to the selected mediation members

3.19.4 Mediation cause list

3.19.5 Mediation proceedings Once case is referred for mediation and after the said reference, the mediation proceedings takes place. When the referred case is adjourned then it is recorded in the Next date option under this option. There is also an option for returning the case to the mediation cell or Recall the case for further proceedings.

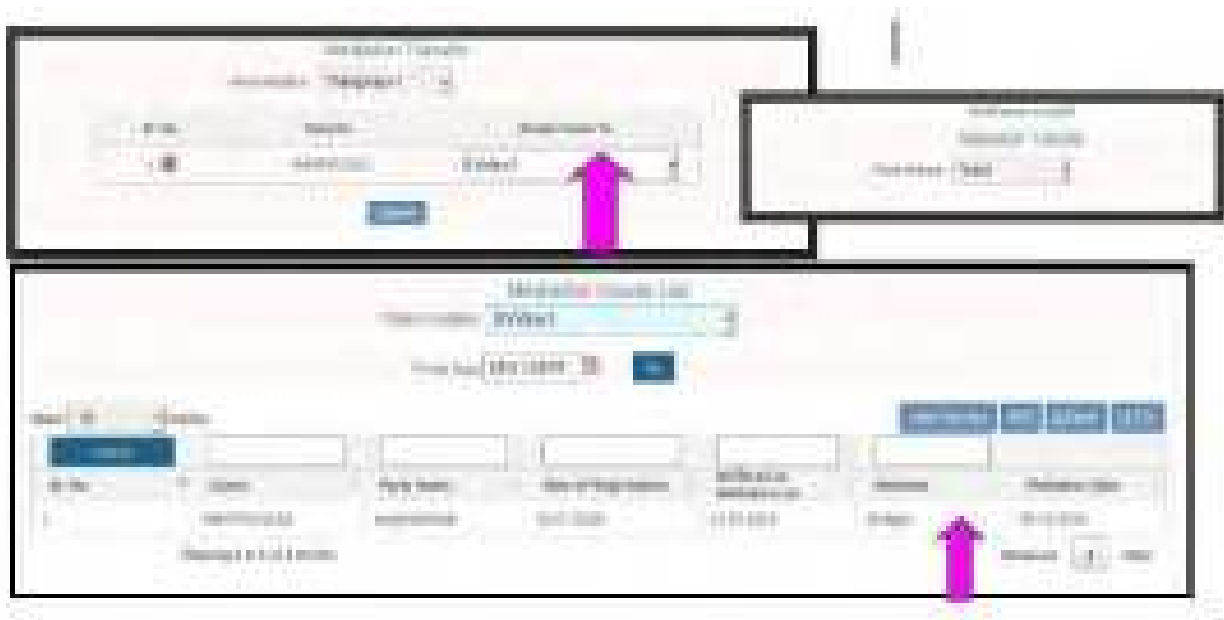

3.19.7 Mediation Report:

Mediation Report is an important option whereby the details of the list of cases referred and with the status of referred cases can be generated as shown herewith.

3.19.7 Mediation Transfer:

Mediation transfer is an important option whereby the cases referred for mediation can be transferred within the mediators. Once the mediation case is transferred from one mediator to another it can be checked through the mediation case list which shows the current status of the mediation case.

3.20 Query builder

The Query Builder is used to generate queries on filling up the given fields and generating reports dynamically .In Query Builder, you can build a Reports within seconds for Civil cases, Criminal cases, or a single Query for Both the case types. You can get the reports instantly by dynamically specifying the parameters. It is useful to create exclusive reports according to the needs by specifying field and to get reports other than the standard reports available inbuilt in CIS. It is a real akshayapatra where innumerable reports on various probabilities can be created.

Sl. No.	Case No.	Case Name	Case Type	Case Status	Case Date	Case Value	Case Description	Case Location	Case Judge
1	12345678	Case Name	Civil	Open	2023-01-01	1000000	Case Description	Case Location	Case Judge
2	12345679	Case Name	Civil	Open	2023-01-02	2000000	Case Description	Case Location	Case Judge
3	12345680	Case Name	Civil	Open	2023-01-03	3000000	Case Description	Case Location	Case Judge
4	12345681	Case Name	Civil	Open	2023-01-04	4000000	Case Description	Case Location	Case Judge
5	12345682	Case Name	Civil	Open	2023-01-05	5000000	Case Description	Case Location	Case Judge

3.21. Caveat search option

In civil courts searching caveats is an important work . Now the said caveat search can be done with four options (I)

anywhere, (ii) Starting with, (iii) subordinate court,(iv) caveat no. The example screenshot shows the caveat search using caveat number 1/2018 which shows the search result

3.22 Litigant status

Go to Navigation Pane -->Select Litigant Updation---> select Litigant status

Now under CIS 3.0 comes with updating the litigant status. For example if a plaintiff in a case dies, now there is option to update the litigant status as dead , Absconding ,Abated, Quashed etc

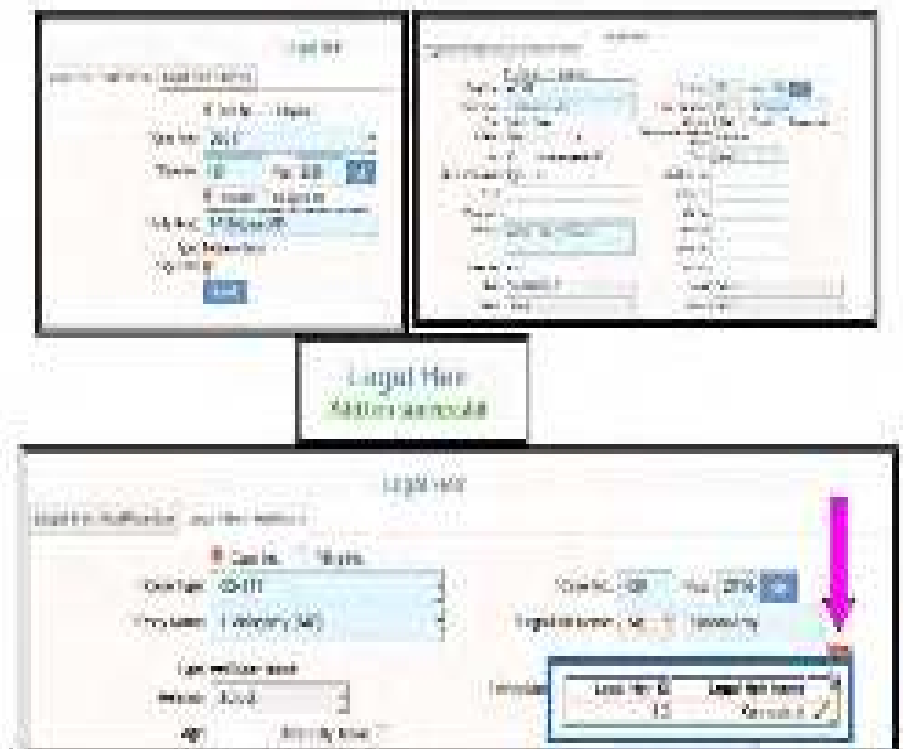

3.23 Legal heir addition

Go to Navigation Pane -->Select Litigant Updation---> select Legalheir addition

Under Litigant updation the most important feature is the addition of legal heir. Once the litigant status is updated as dead then the next question which arises is that how to add the legal heirs. The answer is provided under CIS 3.0 through legal heir addition. First under Legal heir notification option one need to file up the details of the case and the party for

whom legal heir to be added and then click submit; then under legal heir addition the details of the heirs to be filed up and the legal heirs details can be added successfully.

3.24 Witness Information

Go to Navigation Pane -->Select Litigant Updation---> select Witness information

Under CIS 3.0 we can now keep track of the list of witnesses examined in a case. To use this option go to Navigation pane---> then select the Litigant updation-----> then choose witness information option and fill up the details of the witness then we can get the list of witnesses as shown in the screen shot

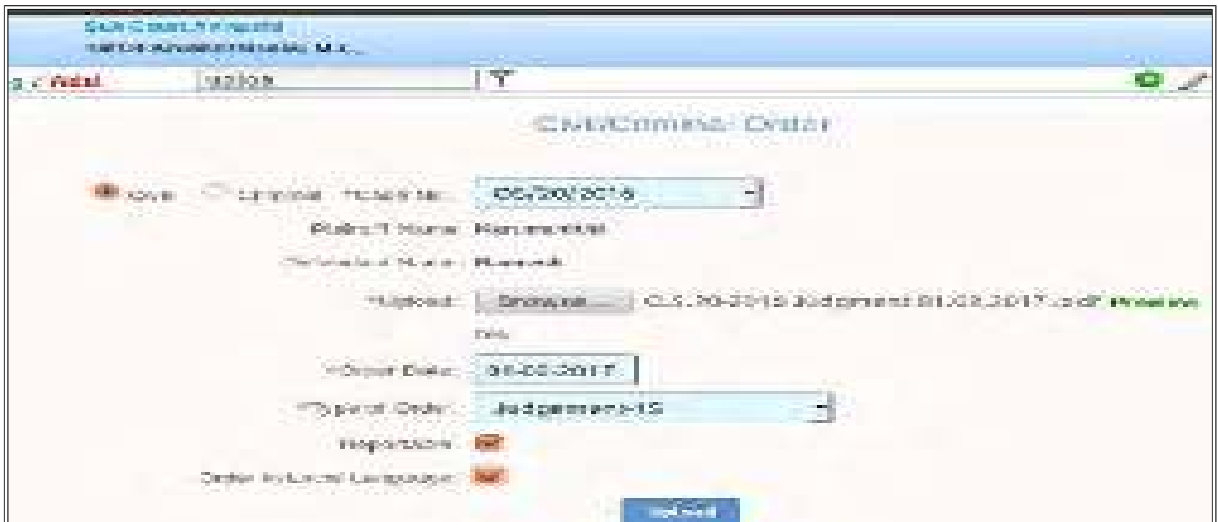

3.25 ORDER/JUDGMENT UPLOADING

The order Judgment uploading under CIS 3.0 comes with an upgraded option of preview feature and reportable option as shown in the screen short below

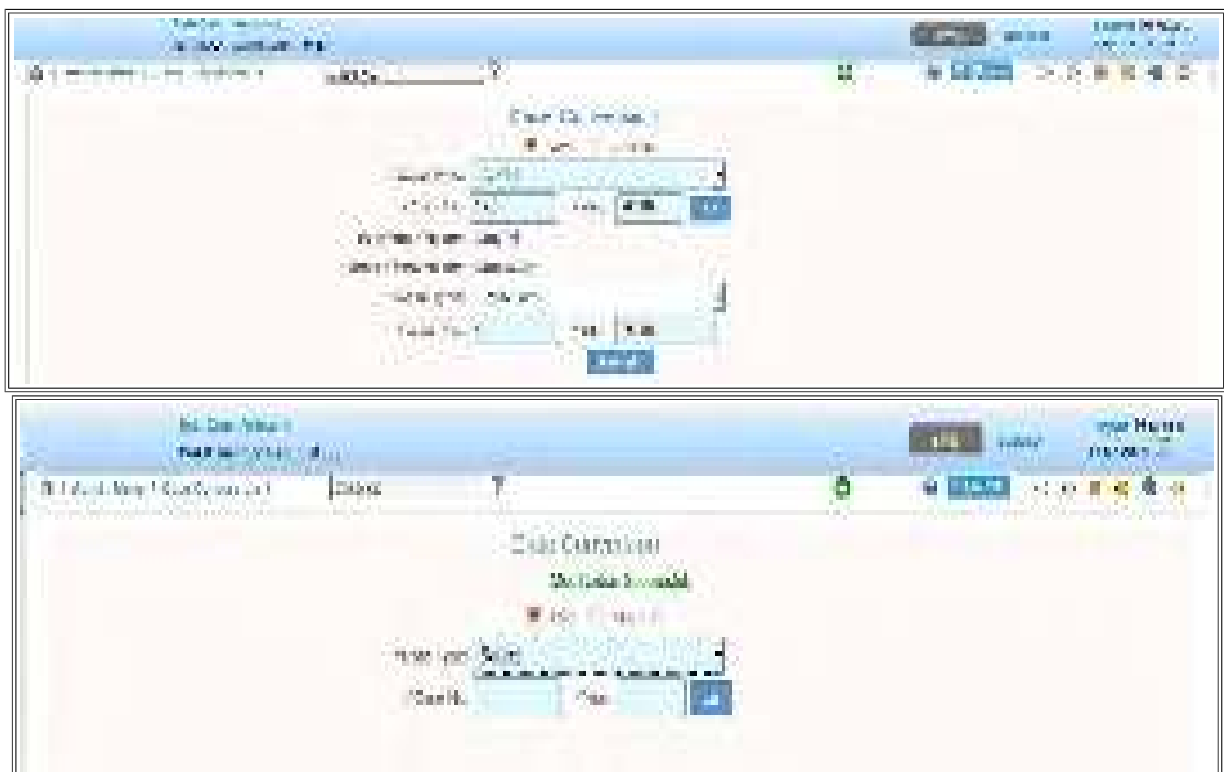

- Go to Navigation pane select court proceedings-Select order Judgment uploading then fill up the cases in the dialogue box shown – select the click browse -select PDF formatted Judgment / order from the computer – after PDF document is attached – verify in the preview option and then select the options under reportable and order in local language and click upload

3.26 Case conversion

Go to Navigation Pane--> click Admin menu -->Select proceeding modification--> select case conversion (or) Type case conversion in the search box directly

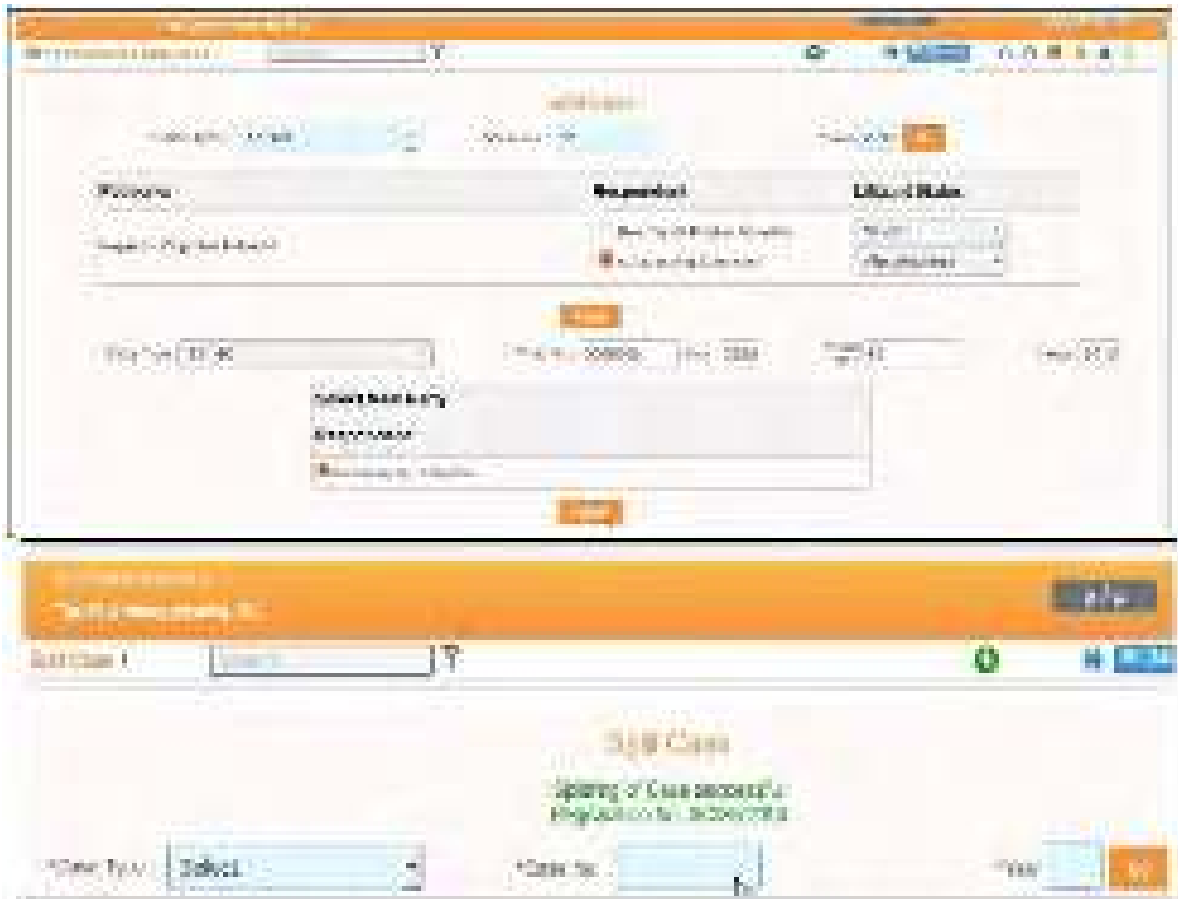

When the type of case is wrongly entered and if the type of case need to be changed then case conversion option under CIS 3.0 can be utilized for example if a case as EP has been wrongly entered as OS then using this option it can be converted in to the current case type using this option

3.27.Split cases.

For criminal cases sometimes in case of number of accused and if NBW is pending for one person Judicial orders are passed for splitting the case for proceeding with the accused who are present in the case and to separate the case against whom NBW is pending. In such case split case option is useful and it is a new feature under CIS 3.0 Eg:- In SC.11/2017 there are two accused and one accused is absconding. Hence case against the absconding accused is split separately as SC.86/16

Go to Navigation pane – select admin menu select proceeding modification select split case option (or) directly type split case in the search box which will show the split case option.

3.28 Delete case

Go to Navigation Pane--> click Admin menu -->Select proceeding modification-> select Delete case (or) Type Delete case in the search box directly

Under CIS.3.0 under admin menu the delete case option is provided. Cases can be deleted using three options based on the filing number, Caveat Number, IA No. This delete case option must be used with caution and hence

4. e Filing

4.1 Introduction:-

The dream of E filing for the District Judiciary has come true with CIS 3.0. The concept of E filing under CIS 3.0 to put it in simple words is that the digital filing by an advocate or party in person is filed through a separate eFiling portal from where after verification and preliminary scrutiny it is transferred to CIS and the said efiled data is consumed under CIS 3.0 .So as far as CIS 3.0 is concerned the work under CIS 3.0 starts only when the efiled case data is consumed under CIS and then the usual procedure of scrutiny by raising objection, Rejection,Registration, allocation is done. In this chapter the stages of e filing cases where it is done and how the digital case content is consumed under CIS 3.0 is dealt herewith

4.2 Two stages of eFiling

- (I) eFiling cases through Online portal (www.eFiling.eCourts.gov.in)
- (ii) Consuming data by CIS 3.0 from the on- line eFiling portal

4.3 eFiling option under CIS 3.0

CIS 3.0 comes with the new eFiling option. There is no direct eFiling of case into CIS3.0 .But cases are filed in an online portal from where under the consume data option the efiled content will be consumed by CIS 3.0 and then it will be scrutinized like any other cases going through the stage of FORA. The other visionary options like e witness, victim, e plead guilty and e fir are also inbuilt under CIS 3.0 .

4.4 . Consume Data option under CIS 3.0

The consume data option under eFiling is provided under the CIS 3.0 for consuming the efiled cases from the online portal. There is no direct eFiling of cases into the CIS ,because if the registered users are allowed to make direct filing into CIS software it may affect the security and the speed of the software. Hence at present a separate eFiling portal is allocated whereby registered user make the eFiling and it is consumed into CIS

under this consume data -eFiling option Under CIS 3.0 Consume data option is provided

which is a visionary option proposed for consuming datas under six heads.

4.4.1. Consume Data -E filing

Under the first option of consume data i.e eFiling option the cases filed in the efiled portal will be consumed under CIS 3.0.

4.4.2 E filing view Document option

There is another option e filing view document option under the consume data option in CIS 3.0. Under this option the great move of integrating the court datas has been proposed. For example if an appellate court wants to view the trial court data then it can use the option of eFiling view document option. This option enables the much needed vertical and horizontal integration of court datas under CIS 3.0

4.4.3 PDE (Public Data Entry) – Consume Data

Under this visionary option it is proposed that the litigants will be able to make Public case data entry from their home and which will be consumed through CIS and through the consume data option through CIS 3.0 it will reach the respective courts.

4.4.4 Plead guilty- Consume Data

Under this plead guilty option under consume data option in CIS 3.0 one will be able to plead guilty and deposit fine online and the said data will be consumed through CIS 3.0. This is already tested successfully in Karnataka

4.4.5 FIR data- Consume Data

Under FIR Data consume data option, the day is not far when the FIR registered in the Police Station will be consumed immediately by the courts and reflected in the court data through this option.

4.4.6 N-STEP – (National Service and Tracking of Electronic Processes) eSummons Portal:

The N-STEP application will track the status of process of the Courts. Court Process can be served through smart phones. The NIC Pune team has prepared the eSummons software application for use through smart phones. This is a most welcome feature which is surely going to curb all the delays involved in the process service. By using this option, courts will be able to digitally track the service of electronic process which is generated and published through CIS 3.0: The web portal is being launched for monitoring the status of processes at www.nstep.eCourts.gov.in

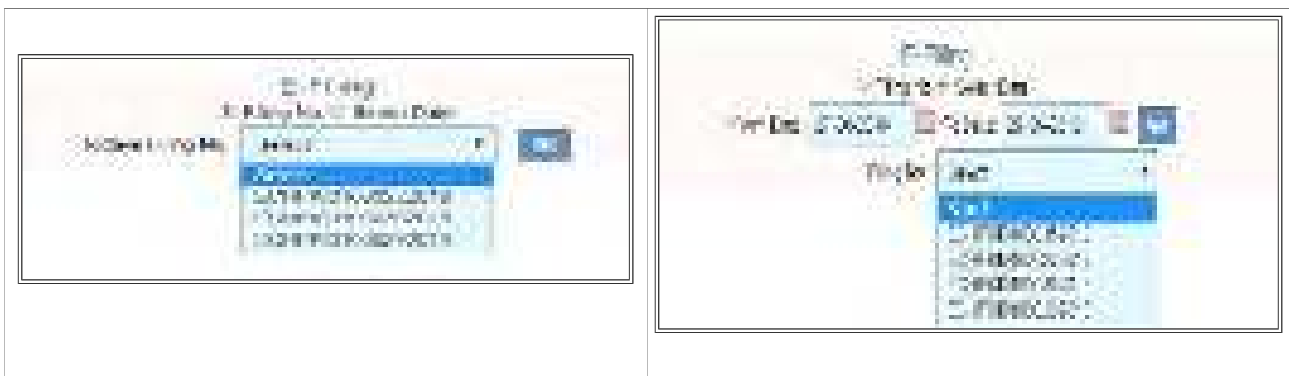

4.4.7 RTO- Consume Data

Just imagine, if the vehicle number is typed the data of driving license, vehicle number, insurance all are fetched in the court. With that vision this RTO option included under Consume data option. This is a sure time saving tool for the courts.

4.5 Extracting e-filed cases :

As already stated above the e filed cases from the online portal is consumed through CIS 3.0 under this option of "e-filing" Under this option two options are available for extracting the e filed cases from the e filed web portal.

(i) Filing number (ii) Select data .The screen shot herewith shows the choosing of both the options . By selecting filing number option and from date to date option. The efiled case is extracted into CIS 3.0.

4.6 Verification / Rejection of e filed cases under CIS 3.0

Once the e filed case is extracted under CIS 3.0 using the e filing number then the e filed case goes through the stage of verification and if it is in order then " Submit" option is chosen or else the Reject option to be chosen.

Once it is verified then the CIS staff must choose Civil/Criminal and also the Case Type as shown in the screenshot herewith.

4.7 Filing number generated under CIS 3.0

Once the e-filed case is verified and the case nature assigned then the filing number is generated as shown in the screenshot “ **Filing No: Civil Appeal/416/2018**” Thus the e filed case content is consumed under the CIS 3.0 and it is given a separate filing number under CIS 3.0.

4.8 Rejection of e filed case under CIS 3.0

If during verification under CIS 3.0 if the e- filed case is not in order then the rejected option is chosen and Rejection remarks are made in the box and the e filed case is rejected under CIS 3.0

The image shows two screenshots of the e-filing portal interface. The top screenshot displays a case verification form with various fields for case details and a 'Reject' button. The bottom screenshot is a close-up of the 'Reject' button and the 'Remark' field, which contains the text 'Documents not attached'. A pink arrow points to the 'Reject' button.

4.9 Online eFiling portal (www.efiling.eCourts.gov.in):

After reading about the process of consuming data of efiled cases under CIS 3.0 one will surely become curious to know where the eFiling is done and how it works. To satisfy the curiosity of the readers the various options available under eFiling portal is discussed in brief. To put it simple for making eFiling an online portal has been created wherein registered users can login and make their eFiling at www.efiling.eCourts.gov.in

4.9.1 Login page of E filing portal

Under the online E filing portal only a register user can make E filing. The Register user can be an Advocate or party in person. The advocate or party in person who becomes the registered user alone can login using their user ID and efile the case .The screen shot of the login page is shown herewith.

4.9.2 Registered user

The advocate and the party in person have to register an account under the eFiling portal to become a registered user.

4.9.2.1 Registration of An Advocate

4.9.2.2 Registration of party in person

4.9.3 Dash Board of e filing login

Once a registered user login the dash board welcomes the user which

has the following option. Home,New Case,Documents,Deficit court fee,Report

Contacts,Help.

4.9.4 E filing a New case under the online portal

Step1 Become registered user Advocate / party in person

Step 2 Login with a registered user ID

Step 3 Choose New case option under dash board for filing a new case. And fill up the datas regarding for which court case is efiled.

The screenshot shows a web form titled "New Case - Where to file". The form contains several input fields and buttons. The fields are: "Case No." (with a dropdown menu), "District" (with a dropdown menu), "Court Name" (with a dropdown menu), "Case Type" (with a dropdown menu), and "Case Type" (with a dropdown menu). Below these fields, there are two buttons: "New Case" (in blue) and "Cancel" (in green). There is also a red error message at the bottom of the form, which is partially obscured but appears to be a warning about the case type.

Step 4 Once new case option is chosen its opens up 6 digital forms which need to be filled up.

- (i) Petitioner form ;
- (ii) Respondnet form
- (iii) Extra Information
- (iv) Act/section
- (v) Extra Party
- (vi) Upload document

Step 4.1 Digitally Fill up Petitioner form

A screenshot of a digital form titled 'Petitioner' in a software application. The form is divided into two main columns. The left column contains several text input fields for personal information, including 'Name', 'Address', 'City', 'State', and 'Zip'. The right column contains a series of dropdown menus and checkboxes, likely for selecting a jurisdiction or type of case. At the bottom of the form, there are two prominent buttons: a green one on the left and a blue one on the right.

Step 4.2 Digitally Fill up Respondent form

A screenshot of a digital form titled 'Respondent' in a software application. The layout is very similar to the Petitioner form, with two main columns. The left column has text input fields for 'Name', 'Address', 'City', 'State', and 'Zip'. The right column features dropdown menus and checkboxes. A red button is visible at the top right of the form area. At the bottom, there are three buttons: a blue one on the left, a green one in the middle, and a blue one on the right.

Step 4.3 Digitally Fill up Extra information form

A screenshot of a digital form titled 'Extra information' in a software application. This form is more complex than the previous ones, featuring a large table with multiple rows and columns. The table appears to be for recording detailed information, possibly related to the case. There are also some text input fields and dropdown menus interspersed within the table structure.

Step 4.4 Digitally Fill up Act / Section form

Step 4.5 Digitally Fill up Extra party form

Step 4.6 Digitally upload documents only as PDF

Step 4.5 Court fee payment

Step 4.6 Upload digitally signed litigant affirmation

Step 4.7 Upload digitally signed Advocate Identification and Verification

4.9.5 Other option for Registered user

Under the Dash board few other options are also available like preview, digital draft, Viewing pending acceptance Viewing Pending scrutiny , Resubmit option, Miscellaneous document upload, deficit court fee options as shown in the screen shots hereunder

4.9.5.1.New case Preview

4.9.5.2. Digital draft

The Registered user can use the draft option to store their digital case content before making final submission. Under this option “final submit” can be clicked for making the final submission of the draft.

4.9.5.3 Viewing Pending Acceptance e filed cases

The registered user can see the cases which are pending for acceptance. This feature shows the E filing number along with the date of

submission and time of submission. This will be a useful reference column for the registered user to know the status of the E filed cases.

Case No.	Case Name	Status	Action
1	Case 1	Pending Acceptance	Re-submit
2	Case 2	Pending Acceptance	Re-submit
3	Case 3	Pending Acceptance	Re-submit
4	Case 4	Pending Acceptance	Re-submit
5	Case 5	Pending Acceptance	Re-submit

4.9.5.4. Viewing Pending scrutiny e filed cases

This option shows the status pending scrutiny which shows the updated regarding the scrutiny date and time.

Case No.	Case Name	Status	Action
1	Case 1	Pending Scrutiny	Re-submit
2	Case 2	Pending Scrutiny	Re-submit
3	Case 3	Pending Scrutiny	Re-submit
4	Case 4	Pending Scrutiny	Re-submit
5	Case 5	Pending Scrutiny	Re-submit

4.9.5.5 Re submit option

This option provides the options for re submission of the cases which has been not accepted or rejected.

Case No.	Case Name	Status	Action
1	Case 1	Not Accepted	Re-submit
2	Case 2	Rejected	Re-submit

4.9.5.6. Miscellaneous Document

The registered user can digitally file all connected case documents by digitally signing it with the digital token or using Aadhar.

4.9.5.7. Deficit CF payment

The Registered user can also make deficit court fee payment using this option when the cases are returned for payment of deficit court fee.

4.10 Admin options under e filing portal

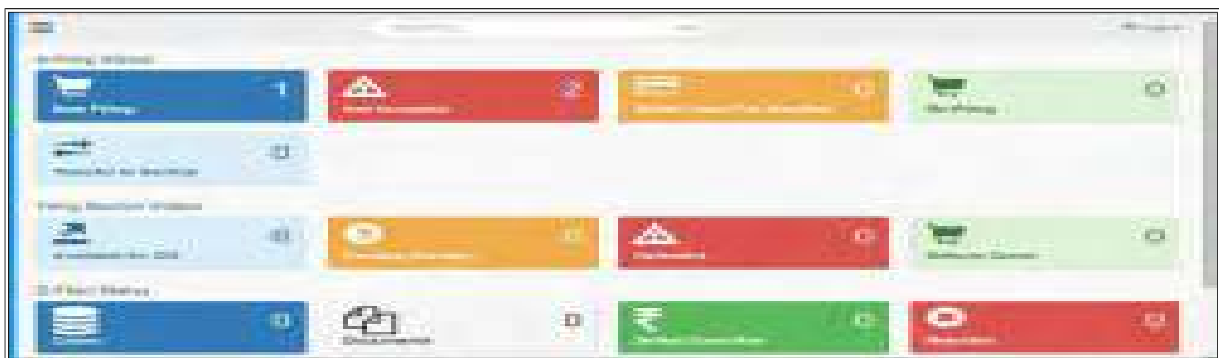

After the registered user makes E filing the digital content comes to the scrutiny by the registered admins. The registered admins from the court will have registered user ID and profile and the admin starts scrutiny by login with his ID.

4.10.1 Admin login

4.10.2. Admin Dash Board

The Authorized Admin who login with the ID under E filing portal is welcomed with the separate dash home containing admin functions like transfer to section filing section status E filing status etc. The screen shot of the said dash home is provided herewith for clear understanding.

4.10.3 Admin Action on e filed cases

The authorised court admin scrutiny the e filed cases using new filing option and if it is approved orders transfer to section and if it is not accepted this approves with the reason.

4.11.3 Viewing log report .

Thus eFiling starts from the filing of case through the separate online portal and preliminary verification is made in the online portal and then it is consumed through CIS 3.0 and scrutinised and filing number is given under CIS 3.0 . And now the technological doors are wide open for District Judiciary with this eFiling option.

-----welcome to the new world of eFiling---

5.Filing & Registration

5.1 Filing counter

The Centralised Filing counter and the concept of FORA the revolutionary feature of the District Judiciary has been retained under CIS 3.0. Some High courts are using different workflow. Under CIS 3.0 two types of filing are now available one regular manual filing in the filing counter and the other online eFiling. We are seen in the preceding chapter how eFiling is done and how it is consumed into CIS 3.0 . Under CIS 3.0 any person who wants to manually file the case can come to the filing counter and file his case. During filing all the details will be entered in the format prescribed and the entries will be made. After making entries filing number and CNR number (unique case identity number) will be generated and filing acknowledgement will be given to the litigant who can then track his case status on line whether his case is taken on file or whether any objections have been noted or whether it is returned or rejected or registered. So with this filing counter and CNR number the tracking of unnumbered cases is also possible which is great breakthrough on the litigant point of view resulting in greater transparency in District Judiciary.

5.2 FORA- Filing work Flow

What is FORA ?FORA is nothing but the abbreviation of the stages of the case through which any case passes through once filed into the filing counter. The stage has been classified as

FORA = Filing ◻ Objections ◻ Registration ◻ Allocation

eFiling	Filed through on line portal www.efiling.eCourts.gov. in	After preliminary verification transferred to CIS	Consumed under CIS	Then the regular FORA stages followed
Manual filing	Filed through the court complex Filing counter	FORA = Filing ◻ Objections ◻ Registration ◻ Allocation Stages takes place		

5.3.Filing

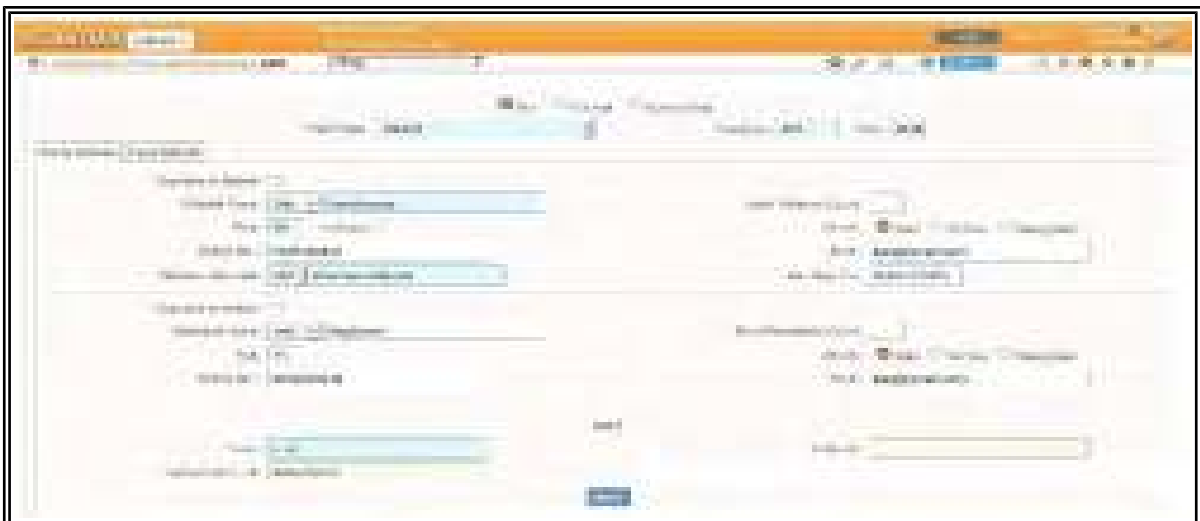

Under CIS 3.0 any case filed in the filing counter will enter the First step which is termed as Filing. Under the first step of filing any case which is filed will be entered in the prescribed form in the filing counter. After making preliminary entries filing number and a CNR number is generated and a printed acknowledgement is given to the litigant in the filing counter.

5.3.1 Filing Counter Menu

Under CIS 3.0 to enter details of a filed case go to the filing counter menu which is in the navigation pane and then select the Case and caveat filing. Under Case you can select either civil or criminal and for caveat filing you can click Caveat filing which is shown hereunder.

Go to Navigation Pane ▢ Filing counter ▢ Case and Caveat filing

5.3.2 Types of filing provided under CIS 3.0

5.3.3.Filing-Procedure Civil/Criminal

For Civil or Criminal Case Filing follow the steps given below:

- By default in CIS 3.0 you will get civil filing and you can choose criminal filing or caveat filing through the radio button as shown hereunder
- And then select case type when the filing number is auto generated.

5.3.4 Adding details

At the filing counter Civil /Criminal Case and Caveat filing process involves filling up of various details as listed below:

- Plaintiff, Defendant, Other details for Civil case types.
- Complainant Details, Accused Details, Other Details for Criminal case types
- Caveator and Caveatee details for Caveat filing
- Adding the details in bilingual languages also

5.3.5 Auto Generated Date and Time of filing.

A salient feature of the filing counter is that the Date of filing and the time of filing is recorded for each cases.

There is also an option for Changing filing date because there may be cases which may be returned and represented or cases which would have been dismissed for default and restoration petition would be filed. In such cases the actually filing date will be an earlier date and to accommodate the said type of cases where the filing date is not its actual filing date, “Changing filing date” option is also included which comes with the separate box by name “Reason for changing filing date” where the reason must be recorded why the filing date is changed. The screen shot of the Changing file date is enclosed in the next para for better understanding.

5.3.6 Changing filing date

By default, the current date is displayed in the Date of Filing field. If you want to change the date of filing then select the Change Filing Date check box. When you select the Change Filing Date check box, the system will display the calendar control (to change the date) and Reason for Change Filing Date field. We can Change the Date of Filing using calendar control and enter the reason for changing the date in the Reason for Changing Filing Date field.

5.3.7 Adding Plaintiff details with Transgender/Differently abled/ Party in person details.

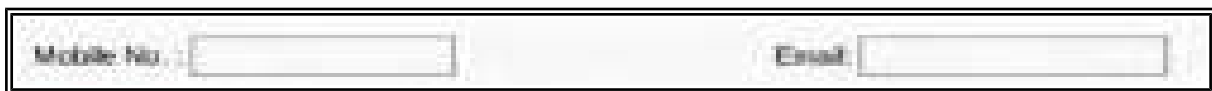

For adding the plaintiff's details follow the following steps. Since this entry is done in the filing counter the staffs entering the details should ensure complete entry of all details asked in CIS 3.0 whether it is mandatory fields (marked with red star) or non mandatory fields.

- Enter name of the Plaintiff in the Plaintiff field. (in bilingual language).
- If the plaintiff is an Organization click Organization details and select Organization name

- Choose the new option of Differently abled ,Party in person added in Plaintiff details
- Choose the Gender of the Plaintiff .Under CIS 3.0 the new option of transgender added,Hence select the respective radio buttons.
- Enter Age of the Plaintiff in the Age field.
- Enter extra party petitioner count in the Extra Party Petitioner Count field. (in bilingual language)

5.3.8 Adding Plaintiff's Mobile Number, email ID

The screenshot shows a form with two input fields. The first field is labeled 'Mobile No.' and the second field is labeled 'Email'. Both fields are empty and have a light gray background.

- This is the great breakthrough feature of CIS 3.0. Now the litigant will get direct update from the court in his mobile and through email id whether case Registered or Returned or Rejected.
- Enter mobile number in the Mobile Number
- Enter email address in the Email field.

5.3.9 Adding Defendants details

Similarly, Defendants Details need to be filed up in the filing counter.

The screenshot shows the 'Defendants Details' form. The 'Defendants Name' field is highlighted in light blue. The 'Gender' field has a dropdown menu with 'Differently abled' selected. The 'Age' field is highlighted in light blue. The 'Extra Party Petitioner Count' field is highlighted in light blue. The 'Defendants Address' field is highlighted in light blue. The 'Defendants Mobile No.' field is highlighted in light blue. The 'Defendants Email ID' field is highlighted in light blue. The 'Defendants Gender' field has a dropdown menu with 'Differently abled' selected. The 'Defendants Age' field is highlighted in light blue. The 'Defendants Extra Party Petitioner Count' field is highlighted in light blue. The 'Defendants Address' field is highlighted in light blue. The 'Defendants Mobile No.' field is highlighted in light blue. The 'Defendants Email ID' field is highlighted in light blue. There are also buttons for 'Add Defendant' and 'Remove Defendant'.

- If defendant is an Organization click Organization details and select Organization
- Enter name of the Defendants in the Defendants field. (in bilingual language).
- Choose the new option of Differently abled ,Party in person added in Defendant details
- Choose the Gender of the Defendant .Under CIS 3.0 the new option of

transgender added,Hence select the respective radio buttons.

- Enter Age of the Defendants in the Age field.
- Enter advocates name in the Name of the Advocate field. (in bilingual language)
- Enter extra party respondent count in the Extra Party respondent Count field. (in bilingual language)

5.3.10 Adding Advocate Name & Registration Number

- Enter advocates name in the Name of the Advocate field.
- Enter Bar Registration Number of the Advocate in the Bar Registration Number field.

5.3.11 Adding Organization details

If the Plaintiff or the Complainant is an Organization, then follow the steps given below:

- Select the check box for Organization Details.
- When you select the Organization Details check box, the system will display the Organization Name select box.
- Select the Organization Name from the select box.

5.3.12 Suit Valuation

Enter the suit valuation value in the Suit Valuation field. Click the Calculate button which calculate the Amount to be levied, based on the -Jurisdiction value.

The screenshot shows a form with a 'Prayer' dropdown menu on the left and a 'Relief Claimed' button on the right. The dropdown menu is open, showing a list of prayer options. The 'Relief Claimed' button is highlighted with a blue border.

5.3.13 Adding Prayer

Select the Prayer from the Prayer select box and click  then select from the Relief Claimed The relief will be displayed

The screenshot shows a form with a 'Prayer' dropdown menu on the left and a 'Relief Claimed' button on the right. The dropdown menu is open, showing a list of prayer options. The 'Relief Claimed' button is highlighted with a blue border.

5.3.14 Adding cause of action

Enter the cause of action in the Cause of Action field. Select the date for the cause of action from the Date of Cause of Action calendar control.

The screenshot shows a form with a 'Cause of Action' text field on the left and a 'Date of Cause of Action' calendar control on the right. The calendar control is open, showing a date selection interface.

Only one box is provided for cause of action and the date of cause of action. In certain cases there may be multiple reliefs claimed based on different cause of action where we will need additional box to include multiple cause of action and multiple dates of cause of action. This has been brought to the knowledge of the Computer committee who will address the concerned person for such addition. Till then add the cause of action date based on which limitation is calculated. That date may be entered as of now in the single box !

5.3.15 Add & Remove Acts

Select the acts from the Act 1 select box and enter the section in the Act Section1 field.

The screenshot shows a form with a list of acts on the left and a 'More Acts' button on the right. The list of acts includes 'Act 1' and 'Act 2'. The 'More Acts' button is highlighted with a blue border.

To add more Acts, click More Acts button.

When you click More Acts button, the system will display the Act2 select box and the Act Section2 field. Similarly, you can add more Acts for the selected case type.

To remove any of the added Acts and Act Section, click Remove Acts button

For example if you want to add MV act (select Motor Vehicle act) as shown in the screen shot

5.3.16 Hide party name

This option of Hide party name is a crystal clear example to show with how much care and concern the CIS is created. The basic idea being CIS is to display all case details to every litigant public. Hence the Cause Lists, Kiosks, Website etc. display all the party names that are entered for a case. But in certain cases like POSCO(prevention of sexual abuse against children), Juvenile cases, matrimonial cases It may be statutorily essential to hide the party names. This Hide party name is inbuilt at Filing stage At filing stage to invoke hide party details you have to check the box by the side of Hide party name as shown in the screen shot

When you mark to hide a party name then the party names are shown as masked "xxxxxxx" on the citizen interface like Cause list, Kiosks, website.

5.3.16.1 Hide party name for registered cases

This hide party name is also available for registered cases. The same can be invoked by using the path shown below

Go to Navigation pane ▯ Select Case proceeding ▯ click Hide party names

The hide party name for the registered cases can be used under three options i.e

- Hide Parties using Case Number option.
- Hide Parties using Today's Date option.
- Hide parties using parties name.
- Hide entire Establishment (Like Family Court or Juvenile Justice Board)

When establishment like Juvenile Justice board, family court are selected then the system by default will hide all the Party Names in all the cases filed in that establishment. The hidden party names shown as xxxx in the screen shot.

5.3.17 Addition successful

After entering all details in the filing counter click SUBMIT, “Addition successful” message appears Then the following three messages regarding Filing, CNR, Print acknowledgement appears

5.3.18 Print acknowledgement with QR code

On receipt of the case at the filing counter after the filing process is over the litigant will be given a printed acknowledgement Containing filing number, CNR number and now under CIS 3.0 with the QR code. Using the CNR number and the filing number and by scanning the QR code printed in the acknowledgement the litigant can track the filing stages i.e. whether it is returned with objections or whether it is registered or whether it is rejected and all these at the comfort of his home with a mouse click ! This is really a welcome and a breakthrough feature which will surely pour in lot of transparency on the filing system and make the filing system more litigant - user friendly.

5.4 Case scrutiny :

After the filing of the case is over, then the stage of case scrutiny begins. Case scrutiny is done and three types of scrutiny is available.(i) Case Objection; •(ii)Case Rejection (iii) Case registration. Under case objections if there are any objections (reasons for return) then it is noted under objection column and the case is ordered to be returned Under case rejection if there are grounds for rejection then it is placed before the concerned Judge

for hearing the objections and the cases under which order for rejection is passed are entered. For eg. Rejection of plaint orders. Under case registration if there is no objection then the case is ordered to be registered (taken on file). The case scrutiny menu can be reached through the following path

Go to Navigation pane □ click registration section □ case scrutiny □ case objection / case rejection/ case registration (menu bar screen shot shown herewith

5.5. Objections

It is pertinent to point out that the objections for taking on file and the reason for return of the case is also entered in CIS 3.0 under objection column which can be tracked by the litigant using his CNR number. This is again a great breakthrough in the filing system because a litigant or an advocate will be able to know the reason for return of the case bundle from the comfort of his home. Hence, now it becomes possible that the litigant/advocate need not personally come to the court to know whether the case is taken on file or returned. The screen shot of the case objection is shown below for clarity. The

The image displays three sequential screenshots of the CIS 3.0 Case Objection form. The top screenshot shows the 'Case Objection / Compliance' header and input fields for 'Filing No.', 'Case No.', and 'Case Bundle No.'. The middle screenshot shows a dropdown menu for 'Objection Reason' with a pink arrow pointing to it. The bottom screenshot shows a table with columns for 'Objection Code', 'Description', and 'Status', along with a 'Print' button.

standard objections as to jurisdiction is listed which can be selected through the radio button yes/no. For other probable returns a big check list is generated from where other objections can be noted. The check slip generated with standard returns is of much help

and time saving for the filing staff. To get the check list click “Check Slip” as shown in the screen shot hereunder then the check slip will be generated

Check Slip

5.6 Case rejection :

During case scrutiny the cases can be either returned or it can be rejected In some cases the plaint may liable to be rejected under Order 7 rule 11 CPC then it is posted under rejection head as shown below.

5.7 Registration :

If there are no objections then the case is ordered to be registered. On registration further additional details are entered. And at this stage a registration number is generated. Registration number is nothing but the case number. During registration using copy previous case data. Returned cases when reentered their data can be copied. It is a real time saver tool for data entry staff.

Under registration one have to fill up 11 forms as detailed under

5.7.1 Petitioner form to be filled up:

5.7.2. Respondent form to be filled up:

5.7.3 Extra information

Extra information about the parties including Pan number to be added. The UID number (unique identity number) is filed up already during th petitioner , respondent form

filling This entry of details will be useful to group up the cases of a single individual in various courts.

The screenshot displays a web-based interface for managing legal cases. It features two main sections, each representing a different case. Each section includes a 'Case No.' field, a 'Party Name' field, and a 'Court' field. Below these fields are several dropdown menus for selecting case details. The interface is organized into a grid-like structure with multiple columns and rows of input fields. At the bottom of each section, there are 'Save' and 'Cancel' buttons. The overall layout is clean and professional, typical of a corporate or government software application.

5.7.4 Act- Section

details to be filled up. While filing up section it need to be filed up without any space. If any space is given then error occurs !

This screenshot shows a similar web-based interface to the previous one, but it is focused on a specific form for filing a section. The form contains several input fields, likely for case details and filing information. A prominent blue button labeled 'File with' is visible at the bottom left of the form area. The interface includes a header with navigation options and a footer with a 'Save' button. The overall design is consistent with the previous screenshot, maintaining a professional and user-friendly appearance.

5.7.5 Extra party form :

5.7.6 Party wise Details

Under Party wise details one can add the act as shown in the screen shot below.

5.7.7 Case Details form:

5.7.8 Search Caveat option.

Any staff with registration will be armed with this revolutionary tool. Because earlier manual search of caveat is made by the registration section which is very laborious and

not a fool proof method. But now with this option any caveat relating to the case details will be searched automatically by the click of the mouse under various search options i.e Anywhere ; starting with ; subordinate court; date of decision

5.8 Registration :

After entering all details click register case and the case is registered.

5.9 Allocation

After registration the case is allotted to various court which is called the allocation stage. As all the cases are filed in the centralized filing counter it becomes necessary to allot the cases to the concerned courts which is done under allocation. Once the case is numbered (registered) then it is allotted to the concerned court, then the concerned court gets the alert message

5.12 Fees collection

In the filing counter the payment of fee i.e court fees, process fees, search fees receipt fees under CIS 3.0 is made possible under various modes.

- Through cash payment
- Through demand draft (DD)
- Through Challan
- Through stamp payment
- Through Cheque
- Through e challan

Payment Mode: Cheque

Cheque No.: [Field]

Fee Type: Court Fee

Case Type	Amount	Payment Mode	Cheque No.	Fee Type
CC-317	0	Cheque	[Field]	Court Fee

This option of payment of court fee through cheque is provided under CIS 3.0. Once the case comes to the filing counter and when the payment is offered to be paid through cheque the said details of cheque can be entered in the column as shown supra. And then the case can be processed. The cheque received can be send for collection and until the cheque is cleared the case will not be taken on file. If the cheque is returned, then the said return can be noted in the objection's column that cheque returned and court fee not paid hence the case is returned. Then the litigant may receive back his bundle and re- present it with the court fee. So now the litigant and the advocate will have variety of options for payment of court fee a step forward from the earlier method of paying court fee only through stamps. At this juncture it would be pertinent to point out that Madras High Court, Delhi High Court and Bilaspur High court have already implemented e court fee system.

5.12.2 Fees receipt

After the fee is entered then Addition successful message appears with the receipt number as shown here. Then click Print the receipt will be printed. On payment of court fees the fee receipt is generated which can be printed out and given to the litigant. I personally think this is a most welcome feature on the point of litigant. Now a litigant can have first hand knowledge of how much court fees is paid in the court.

5.13. Adding Immovable/Movable suit schedule

Under registration of cases option is provided for adding details of immovable and movable properties. And there is yet another important feature of searching cases using property

5.13.1. Searching property

The search option is there for property by village name ,by property, by case number etc

5.14. Photo upload of party :

This option of uploading photo of the litigant is an important and a very useful feature in CIS. The day is not far when every litigant who comes to the filing counter will be photographed in the photo booth and which will put an end to all identity issues arising practically

5.15 Legacy Data

Legacy data is the option under CIS 3.0 whereby the registered case can be directly entered into CIS 3.0. Under Legacy data the case doesnot go through Filing,Objection, stage.It is directly entered after registration and it generates the CNR number.

Thus under CIS 3.0 the key features of FORA already available under CIS 2.0 has been retained with new field like Transgender,Differently abled,party in person. Another significant move under filing is that the efiled cases are consumed under CIS 3.0 which goes through the stages of FORA thus providing the much needed digital filing and maual filing.

6. Report Generation

6.1 Introduction

The report generation is a major enhanced option made under CIS 3.0. Under CIS 3.0 the most enhanced welcome feature is creating the reports with various customizable formats like PDF, Excel, CSV formats and Hide column options . The various variety of reports are stored under various heads and the major heads are Proceedings reports and DJPMC. Other than DJPMC and proceeding reports ; various reports are stored in almost all other menus like appeals ;plead guilty cases ;mediation etc. From DJPMC pending disposal cases, five years, ten years old cases, senior citizen cases ,the monthly statement, Quarterly statement and all types of periodical statements also can be created by the click of the mouse. It will surely reduce the volume of time spend by the staffs for manual search in creating the statistical reports . The day is not far when all the High Court may call for reports only generated through CIS This will result in more authenticity in the statistical reports. In this chapter the basic reports are covered.

6.2. New features of Report generation -Hide column/ PDF/ Excel/ CSV

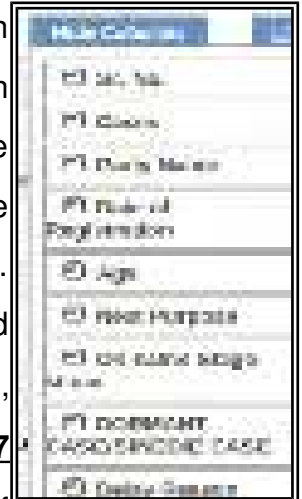

One can get the customizable report by clicking on any one of the options like Hide column, PDF, Excel ,CSV option and get the reports generated and customized according

to the needs of the user.

6.3 Customisable format-With Hide Columns option:

Customised reports can be generated with the Hide column option which helps to customise the reports according to the needs. This is an excellent enhancement which most of them will put to maximum use. There are nine column options available in each reports the user can choose any of the 9 columns and customise the report according to their needs. Using this Hide option different combination of reports can be created which is shown hereunder. Eg: **1st report with 5 column** S.No; Cases, Party name,Next purpose, On same stage since; **2nd report with 7 columns** i.e with additional two column of the 1st report Date of registration, and Dormant case/sine die along with S.No; Cases, Party name,Next purpose, On same stage since column.

6.3.1 Same report with two different combination of columns generated through Hide Column option

6.6 CSV format (comma-separated values).

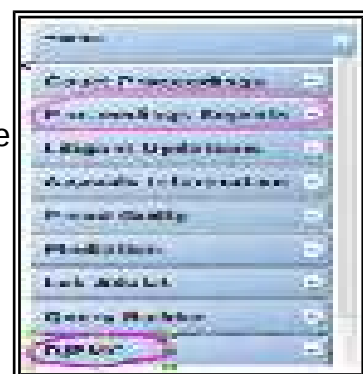

Can also be generated. CSV is a simple file format used to store tabular data, such as a spreadsheet or database. Files in the CSV format can be imported to and exported from programs that store data in tables, such as Microsoft Excel or OpenOffice Calc.

6.7 Store house of reports

The major heads under which the reports are available are as follows

- DJPMC
- Proceedings reports

6.8 DJPMC (District Judge Project Management committee)

What is DJPMC ? It means " District Judges project management committee". A committee consisting of District Judges were formed and the various types of reports to

suggested by the said committee is included in CIS. And the report options have been placed in the navigation pane under the name of the said committee i.e DJPMC.

6.8.1 DJPMC option in Navigation Bar

6.8.2 DJPMC =Management reports in Maharashtra

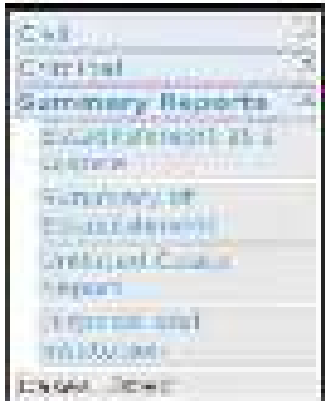

In some state the name of DJPMC is customised according to their state need and it is named as Management Reports.

6.8.3 Reports under DJPMC

Earlier under CIS. 2.0 , under DJPMC variety of reports were available under 11 headings but now under CIS 3.0 two more report option under (i) Pending monitoring(ii) Disposal monitoring has been added to the already existing 11 reports and now 13 categories of reports are available under DJPMC as shown in the screenshot

6.8.4 “ + ” sign in DJPMC

The above shown civil ; criminal; summary reports; Returns; pending reports have + sign which again opens up into a variety of reports .For eg. if you click the + sign on the side of civil/ criminal/ summary reports/returns/pending report then extended list of reports as shown in the screen shots hereunder will appear. and the screen shots of the same enclosed hereunder will throw more light over it

6.9 New Pending Monitoring report under CIS 3.0

Go to Navigation Panel--> click DJPMC---> Click Pending monitoring option--> the following report “Civil Pending cases “Generated

6.11 Balance Sheet

Balance sheet is another very useful report. The balance sheet generates the summary report along with the detailed report.

To get balance sheet → : Go to Navigation bar → select DJPMC → then click Balance sheet → select civil/criminal/court no then click Go as shown in the screen shot hereunder

After you click go the “view” message appears as shown here When the “view” message is clicked then the balance sheet as appended hereunder is generated The balance sheet is generated with the details of the cases

i.e category wise along with its case number and it also generates a summary at the end of the report. The model Balance sheet generated is appended herewith which will throw more light into its utility. First let us see the summary generated in the balance sheet : The summary balance sheet shows the total number of cases category wise Appeal(6) HMOP (16) Original suits(Money) (4) ; Original Suit Title (11) and also shows year wise numbers. From this we can take more than 2 years /more than 5 yrs /7 yrs /10 years etc. The balance sheet also shows the split up case number details for the summary i.e it shows the details of the case with case number. For eg Civil Miscellaneous Appeal (5) shown in

6.13 Data health card

Data health card is an “MRI scan” of our data entry in CIS !! Its an important and an interesting feature to monitor the data entry in CIS. The data entry in CIS is an important work based on which all our statistics in CIS ; e-courts; and NJDG all depends. So we have to ensure correct complete data entry. To monitor the said complete data entry this data health card is very useful. Through data health card we can monitor if all data are properly entered are not. Data health card scans our data entry and show the data not entered or omitted to be entered. Its an important and an useful tool to monitor the Data entry into CIS.

Go to Navigation bar → select DJPMC → then click Data health card → select court no → select civil/criminal/ all records/ inconsistent → then click Submit ->Data Health card Report generated (as shown in the screen shot hereunder)

S.No	Case No.	Party Name	Advocate Name	...
1	AS/26/2015 -1	...	AS/26/2015 -1-(advocate column)	...
2
3

In the Data health card shown herewith it shows the number of data entered under each head like no of parties; address; section etc. Under Advocate column the figures are shown in red in colour which means the advocate particulars has not been entered. For eg under the S.No 2 AS/26/2015 -1-(advocate column) is shown which means one advocate name has not been entered. Similarly we can monitor the data not entered and ensure that complete data are entered by which the health of the data in CIS can be maintained. At the risk of repetition it is reminded again here of the saying

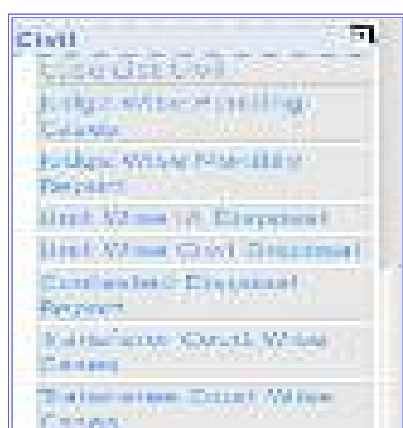

“what you sow you reap”.

If you enter complete data we can get the complete fruits of our data!

If you enter incomplete data we can get only incomplete statistics!

Unit details Report

This report is an useful one for both the Judicial officers and the staffs. The Judicial officer can keep track of the units reached by him/her and can plan the month's work accordingly. As the unit system differs from state to state the respective states have to upload and synchronize CIS 3.0 with their own unit details. At present in Tamilnadu the unit system periphery work is going on. When the unit system is uploaded we will get a full fledged report with automated units calculation

To get unit reports → Go to Navigation bar → select DJPMC → then click unit details → select court no → Select → From date /to date → then click Go (as shown in the screen shot hereunder).

6.20 Master list

Master list is yet another useful report for the courts. It generates the details of the disposed cases. And the day is not far when this digital master list will substitute the manual disposal registers. The master list generated shows the date of disposal of the case with the date of filing. This one is a useful feature for the Bench clerks who calculate the duration of the case when the case is disposed. The master list also shows the result of the case with the number of exhibits filed. Master list also shows category wise cases MCOP, EP, IA, etc.,

Go to Navigation bar → select DJPMC → then click Master list → select civil/criminal/

6.23 Enhanced generation of pending report from Dash home

The dash board which welcomes you once you login is packed with almost all important data. Its the simplest way yet most useful and attractive which also displays reports using graphical elements such as Pie charts and Bar charts. Under CIS 3.0 the Dash home itself has been enhanced to generate pending cases list with case type. Earlier in CIS 2.0 we were able to generate pending cases under civil , criminal and both but now it has been enhanced to give case type wise pending reprot from dash home The list of reports generated from dash home is given below:

	Today's Cases	Undated Cases	My Disposal in this Month	My Pending Cases
Civil	10	10	1	10
Criminal	1	1	1	1
Both	10	10	1	10

[List of Today's Cases List](#)

7. TEMPLATES

7.1 Introduction

One interesting enhancement under CIS 3.0 is the digital Templates which comes with auto generated forms which can be further customised according to the needs of the court. This can be added in Master and can be generated in a skeleton formats. This should not be mistaken for authorized forms of orders. It is only a skeleton form which must be edited and filled up according to the individual cases. Let us see the key templates under this chapter under the following headings:

- **Issue / Charge Framing Templates**
- **Summons auto generation Templates**
- **Warrant auto generation Templates**
- **Order / judgment Templates**

7.2 Issue / Charge Framing Templates

This option of framing of issues is available under court proceedings. Using this option the formatted issues can be chosen which are made available under CIS 3.0 and it can be customised according to the needs of the user.

7.2.1 Customizable Issue Master under State Master

CIS 3.0 comes with the state master whereby according to the needs and style of format in use in the particular state, the Issues master can be created. This option gives the freedom for the High Courts to create and generate issues and charges model as prevalent in accordance with the state laws..

7.2.2. Framing of Issue Menu

This option is available under the court proceedings whereby one can choose the issue or charge framing for the particular case. While choosing the option it should be ensured that the issues can be framed only when the case is posted on the same date. And after choosing the issues or editing the issues click submit and we will get the message addition successful.

7.2.3 Generating the Issue Format

After getting the message as addition successful click the report option which is available on the top right hand side of the screen as shown in the screen shot. Only when the report option is clicked it will generate templates. Once the generate template option appears click the same then issue template is generated.

Go to Navigation panel – click court proceedings – select framing of issues – click submit - Addition successful message appears – click report icon – click generate template – click issue template – the draft of issues is generated which can be edited .

7.2.4 Charge Framing Templates

Similar to the issue framing steps as dealt above the charges can be framed using same option of Framing issue/charge menu .

7.3 Process generation Template

The option of generating summons and warrants are available under process generation.

- **Summons auto generation Templates**
- **Warrant auto generation Templates**

7.4 Summons auto generation Templates :

This enhanced feature of auto generation of summons is a path breaking option available under CIS 3.0. Once the summons are auto generated they are uploaded and published through CIS and the draft of the process is generated. With this digital generation of process the next stage of tracking the service of summons becomes possible and already steps are underway with the E-committee of Supreme Court of India to give GPS enabled instruments to the process servers who are serving in person to the litigants. This is a sure revolutionary tool for the District judiciary. Let us now see how to generate summons through this CIS 3.0

7.4.1 Generating summons to appear in person -Steps

Step No 1 Go to Navigation panel – click Civil / Criminal process – click process generation and select the civil / criminal case type and the process type, and select the address needed as shown in the screen shot herewith.

9.5 National Judicial Data Grid (NJDG)

National Judicial data grid (NJDJ) is the data base where our entire judicial case data are stored under the following heads **(i) High Court NJDG (ii) District Court NJDG**

Initially the public access portal of National Judicial Data grid was inaugurated for public access on 19.09.2015 by Hon'ble Mr. Justice Madan B. Lokur, Judge in-charge of e-committee Supreme Court of India. Within two years of launching the National Judicial Data Grid (NJDG) for District and Taluka Courts, the Supreme Court eCommittee has implemented the same initiative for high courts. All the 24 high courts have joined High court NJDG. High court/District court NJDG gives the consolidated figures of pendency of cases in High courts and District Judiciary across the country. These statistics, are updated everyday by the respective Court Complexes which will show case the number of cases filed and also the number of cases pending. The pending cases statistics are further broken into Civil and Criminal Cases segregated into age-wise categories of 10 years old cases / between 5 to 10 years old cases

Browsing experience of NJDG web page-->Login into NJDG --->Then to Homepage with Nationwide data--->Then to State wise data of our nation ---> then to District wise data of the particular state --->Then to Establishment wise data of the particular District---> Then to court wise data of the particular establishment ---> Then to case wise data of the particular court---> and will end with the Daily /Disposal status of the said particular case.

And now the National pendency of case figures at High Court level and District level are open to public under NJDG and is just a mouse click to get the same. The importance of NJDG is raising day by day and the latest world bank lauding NJDG is is another proof of it.

9.9.4 Viewing cause list on-line under District court NJDG

The cause list is nothing but the hearing book. The cause list of any court can be also viewed from the court website. This cause list search is an equally useful feature for Judicial Officers, staff other than the litigant public. Through cause list a judicial Officer can login from his home and know the cases posted on any date and can plan for his work. For example the Judicial officers can have it as a habit to view everyday workload through Cause list search and can plan the work for the day. Through cause list the Judicial officer and the staff can now very well find out which is the heavy work load day and which day has lighter work on any given week or month. The litigant public and advocate can now confirm when the case is coming up for hearing using the on-line cause list.

10. “eCourts services” the Mobile application

Now its age of smartphones. To keep in phase with the technological boon through mobile phones, eCommittee has also devised a mobile application in the name “ecourt services”. eCourts Services App is useful to the Litigants, Lawyers, Police, Government Agencies and other Institutional Litigants. It can be downloaded from google play store like any app for android phones and from apple app store for iPhone, iPad devices. The mobile application comes with search of case with CNR number, searching case status using case number, Filing number, Party Names, FIR number, Advocate details, Acts, case type. The cause list can also be got through the eCourts mobile app. All the services are similar to the services available through eCourts web page. But one added advantage in the eCourts mobile app is that it can be customised using My cases option available in it. Using My cases one can add the personal case number and can get updates. It is also useful for litigants, companies or organisation having multiple cases in different courts in different places. In that case all the case number can be entered and all updates can be got through the eCourts mobile application. It is no doubt that through eCourts mobile app all court details are literally available in your hands(set)!!

10.1 How To Install eCourts Services Mobile App:

10.1.1. Download directly from the ecourt website shortcut links

10.1.2. Download directly from the Google Store / apple store

10.1.1 Download directly from eCourts web page shortcut link

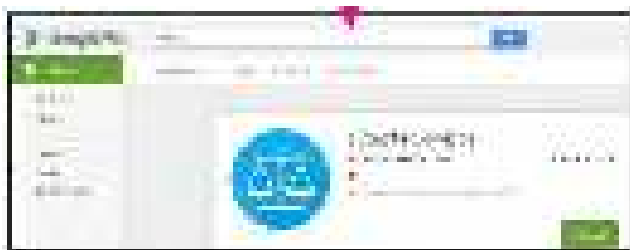

The newly launched eCourts services mobile app can be downloaded in the smart phones from google play store/ apple itunes stores. The eCourts website provides the shortcut link to download ecourt services mobile app from the google playstore/ apple itunes and the said sort cut links can be clicked which will direct to the respective playstore from where it can be downloaded. The eCourts webpage shortcut link screen shot is shown below. when installation is complete you get 100% symbol and then click “open” the app will open up as shown below and the welcome screen of the eCourts apps appears which is shown in the next page.

The dashboard features a header with the eCourts Services logo and navigation links. Below is a large banner image of the Supreme Court of India. A central data grid displays the following statistics:

Download Mobile App for Android & iOS. Available on the App Store and Google play.

10.1.2. Download directly from the Google Store / apple store

10.2 eCourts services available under mobile app

The mobile app provides four main services under the following heads as shown below

10.2.1 Searching case using CNR number	
10.2.2 Getting Case Status, using 7 other options (i) Case Number (ii) Filing number (iii) Advocate (iv) Case Type (v) Party Name (vi) FIR number (vii) Act	
10.2.3 Getting the Cause List of any court	
10.2.4 Personalised list of “ My Cases ”	
10.2.5 New search option under My cases	

10.3 Search Cases Using CNR Number

Search by CNR number is the quickest way to get case details in your phone using the mobile app. CNR is an unique number assigned to each case filed in District and Taluka Courts in the Country, through Case Information System.

10.3.1 What is CNR number :

The CNR number is an unique 16 digit number given to all cases. Its just like the PNR number used in train tickets. With CNR number the unique 16 digit ID any case in India at the District level can be traced .

CNR (16 digits) contains (State code) (District code) (Establishment code) (Case filing number)(Filing year)=	(JK) (AN) (01) (000638) (2017)
--	---------------------------------------

The example of CNR number from various states(Punjab, Meghalaya, Tamil Nadu) are given hereunder for clear understanding

State Code (3 digit)	PK (Punjab)	ML (Meghalaya)	TN (Tamil Nadu)
District Code (2 digits)	01 (Jalandhar)	01 (West Khasi district)	06 (Salem district)
Establishment Code (2 digits)	01 (District and session court Establishment)	04 (Chief Judicial Magistrate Establishment)	05 (Principal District Magistrate Establishment)
Case filing number (6 digits)	014534 (Case Number)	000548 (Case Number)	000470 (Case Number)
Filing year (4 digits)	2015 (Filing Year)	2017 (Filing Year)	2017 (Filing Year)
Total (16 digit) (State code) (District code) (Establishment code) (Case filing number) (Filing year)	(PK)01(01)01 (01-4534)(2015) (Total 16 digits)	(ML)01(04)04 (000548)(2017) (Total 16 digits)	(TN)06(05)05 (000470)(2017) (Total 16 digits)

10.3.2. How to know Your CNR number

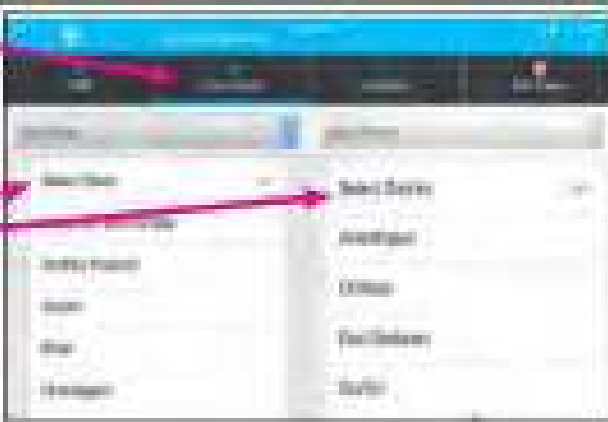

The said CNR for every case can be seen in the eCourts webpages in the case details. One can browse the eCourts web page and through case status option the case details can be generated which will display the CNR number which can be noted for getting details of the cases

10.10.Conclusion :

From the days of CIS 1.0 then to CIS 2.0 and now CIS 3.0 the stage of the digitalization of the Indian Judiciary has been firmly laid . The ever increasing e-transaction through eCourts running to crores speak aloud the increasing dependability reliability towards the eCourts website by the litigants all over the country. With eCourts project the dream of pouring more transparency and accountability into Indian Judiciary is true now. The Case information system CIS the brain child of the ecommittee has wide opened the Indian Judicial system to the technological transition with more litigant user friendly Indian Judicial system where the litigants are having the case information literally in their hand(set) and that too 24* 7. The ever increasing etransactions under eCourts are loud standing examples of success of the eCourts project. We all can be proud at this juncture of entering into the updated version of CIS 3.0 of having contributed to our Nation's ranking forward in the international scenario and back home of having helped our litigants through the 87 crores e courts clicks during the period 1.1.2017 to 21.07.2018 which speaks aloud about the success of CIS .
