1 Introduction

The computerization of courts has ushered in a transformative era for the Indian judiciary, redefining how justice is administered and how citizens interact with the legal system. This digital evolution—driven by the eCourts Project has significantly enhanced transparency, and efficiency of judicial processes.

Transparency: Citizens can now access case status, judgments, and hearing dates online, minimizing opacity and corruption.

Efficiency: Digital records, e-filing, and virtual hearings have optimized resource use and reduced paperwork.

1.1 Citizen-Facing Portals

To deliver these services, multiple digital platforms have been developed over time, including:

Sl. No.	Portal	Domain	Purpose
1	HC Services	https://hcservices.ecourts.gov.in	Access High Court case status, cause lists
2	DC Services	https://services.ecourts.gov.in	District Court services and case tracking
3	Judgment Search	https://judgments.ecourts.gov.in/pdfsearch	Access High Court judgments
4	ePay	https://pay.ecourts.gov.in	Online payment of court fees and fines
5	Virtual Courts	https://vcourts.gov.in/	Plead guilty and pay fine online in traffic violation cases

These digital platforms have enabled citizens to engage directly with judicial services, minimizing reliance on middlemen and eliminating the need for frequent visits to court complexes.

1.2 Challenges

However, the existence of multiple standalone portals—each developed at different stages—has led to several usability and accessibility issues:

Fragmented User Experience: Citizens must navigate different websites with varying interfaces and login requirements.

Digital Literacy Barriers: Many users, especially in rural areas, struggle to understand and use these platforms effectively.

Confusion: Confusion about where to access specific services.

1.3 eCourts Services Single Sign-On Portal

To overcome these challenges, a unified portal is essential. The eCourts Services Portal is a dynamic and integrated platform newly developed under this project to address these challenges and to enhance citizen-centric service delivery, ensuring greater transparency, efficiency, and accessibility in the judicial services.

*Note-The Single Sign-On portal will replace the existing ecourts.gov.in website. All current features will be retained; a comprehensive comparison of these features is provided in Annexure-A.

2 Key Features and Functionalities

The eCourts India Services Portal provides access to multiple applications developed under eCourts project in a single portal and introduces additional facilities including secure login and customised portfolios.

2.1 Single Sign-On

The portal consolidates multiple applications and services developed under the eCourts initiative into a single, easy-to-navigate interface with unified Access Point. It will establish an integrated communication channel with citizens, litigants, and advocates, thereby enhancing the efficiency and accessibility of services. Access to this portal is provided through, Parichay, a National Single Sign-On (SSO) service designed to provide a unified, secure, and seamless access mechanism for users. Information on user registration and login using Parichay are provided in Section 4 of this document.

2.1.1 User Profile

User profile displays the e-KYC status along with personal details.

If e-KYC is not completed, link is displayed to complete the e-KYC procedure, else completed status is displayed.

2.2 Integration of Applications

The eCourts Portal brings together a variety of digital tools and services that were previously scattered across separate systems, creating a one-stop destination for all citizens. Information from multiple applications is made available to users in a single, streamlined interface with application-level insights are presented in a unified dashboard for quick reference. This integration reshapes how users interact with the justice system. The following applications are available in the eCourts India Services Portal.

2.2.1 High Courts Services

This portal provides facility to view Case Status, Court Orders & Judgments, Cause lists and Caveat details for High Courts. Users can access case details and view updates on hearing dates, case progress, orders by providing CNR number, case number, party name, advocate name, or FIR number.

2.2.2 District Courts Services

This portal provides facility to view Case Status, Court Orders & Judgments, Cause lists and Caveat details for District and Taluka Courts.

The Judgment Search Portal enables users to conduct free-text searches of High Court judgments using a combination of search filters and keywords. The embedded filtering feature allows further filtering on available results.

The screenshot displays the 'eCourts Services' portal interface. The main content area is titled 'Judgments and Orders'. It features a search bar with the text 'High Court' and a search button. Below the search bar, it shows 'About 1,68,51,263 results (0 seconds)'. A list of judgments is displayed, including case numbers like 'WP/12022/2016 of M. SEENAPPA, CHITTOOR DIST AND 3 OTHERS V. PRIL SEGY ANIMAL HUSBANDRY DAIRY DEV AND FISHERIES DEPT' and 'WP/11500/2023 of KEFAVAT AHMAD SOFI V. UNION TERRITORY OF JAMMU AND KASHMIR AND OTHERS (REVENUE DEPARTMENT)'. The left sidebar contains navigation options: High Court Services, District Court Services, Judgment Search, Virtual Court, and ePay. The top right shows Theme, Language, and user profile settings.

2.2.4 ePay

ePay is a single payment gateway application which provides facility for various kinds of digital payments in the courts thereby eliminating the use of stamps, cheque and cash. This is used for payment of court fees, judicial deposits, fine and penalty. ePay is successfully integrated with 22 State Treasury Systems across the country and serves as a payment gateway for other eCourts applications including Case Information System, Virtual Courts and eFiling.

The screenshot displays the 'eCourts Services' portal interface, specifically the 'ePay eCourts Digital Payment' section. It features a list of payment options: Court Fee, Judicial Deposit, Fine, Penalty, and Others. The left sidebar contains navigation options: High Court Services, District Court Services, Judgment Search, Virtual Court, and ePay. The top right shows Theme, Language, and user profile settings.

The screenshot displays the 'Online Payment - Court Fee' form on the eCourts Services Portal. The left sidebar contains navigation links for High Court Services, District Court Services, Judgment Search, Virtual Court, and ePay. The main content area has a 'Back' button and tabs for 'District Court' and 'High Court'. The form includes fields for State (Andhra Pradesh), District (Amaravathi), Establishment (Chief Judicial Magistrate, Amaravathi), Party Name (Shahidoox), and Court Fee (100). A 'Remark' field is also present. Below the form, there is a 'Terms and Conditions' section with a checkbox for 'I agree to above Terms and Conditions'.

2.2.5 Virtual Courts

Virtual Courts is an online application designed to manage the complete life cycle of traffic violation cases with round-the-clock functioning capabilities. It aims at reducing footfalls in the courts by eliminating the physical presence of violator or advocate in the court, thereby saving the precious judicial time. The litigant/ violator can plead guilty and pay fine online without visiting the court.

The screenshot displays the 'Virtual Court' interface on the eCourts Services Portal. The left sidebar contains navigation links for High Court Services, District Court Services, Judgment Search, Virtual Court, and ePay. The main content area has a 'Back' button and a 'Select Department' dropdown. Below this, there is a 'Search your case' section with four search criteria: CNR Number, Mobile Number, Party Name, and Chalan/Vehicle No.

2.3 Enhanced Application Security

In an age where digital services are rapidly expanding, protecting sensitive data from malicious scraping bots and unauthorized users is vital for safeguarding privacy, intellectual property, and operational integrity. The implementation of centralized authentication mechanisms via Single Sign-On (SSO) significantly enhances the efficiency of logging and surveillance capabilities. This integration facilitates comprehensive monitoring of access behaviours and the identification of security incidents, thereby promoting increased transparency and traceability of user activity across applications. SSO also contributes to the simplification of identity and access management processes, Optimized Identity and Access Management (IAM), by enabling administrators to effectively provision and revoke user access across multiple applications through a unified administrative interface. This streamlined approach supports both operational agility and robust security governance.

Features such as Session Management & Timeout policies can also be easily implemented to ensure inactive sessions expire automatically, reducing opportunities for unauthorized exploitation.

2.4 User Portfolio

Facility is provided for creation of portfolio, where users can add specific cases to 'My Cases' enabling easy access to these cases. Cause list along with calendar view is also available for cases added as 'My Cases'. Judgments and Orders of High Courts can be added to 'My Judgements' for easy access. Similarly, payments made through ePay and fines paid through Virtual Courts can also be added to the user portfolio.

3 Managing Portfolio

3.1 Importing Cases

Cases exported from mobile app or eFiling can be imported in eCourts Services application. Store the 'myCases.txt' file on local machine and import by clicking on 'Import My Cases' button.

The screenshot displays the 'My Cases' section of the eCourts Services portal. On the left, there's a 'Calendar' for October 2025. To its right, a 'Case List For 16-10-2025' is shown with a table. The table has the following columns: Sr. No., Case Number, Next Disposal Date, Purpose/Disposal Nature, Status, Cause Title, Registration date, and Documents/Action. Below the table, it says 'Showing 0 to 0 of 0 entries'. On the right sidebar, under 'Portfolio', there are four cards: 'My Cases' (640), 'My Judgments' (3), 'VC Cases' (34), and 'Payments' (17). The 'Import My Cases' button is highlighted with a red dashed box. Below these cards is a 'Recently Used' section with a list of recent actions.

The screenshot shows the 'Import Files' page. On the left, there's a sidebar with icons for 'High Court Services', 'District Court Services', 'Judgment Search', 'Virtual Court', and 'ePay'. The main area has a heading 'Import Files'. Below it, there are radio buttons for 'Highcourt' (selected) and 'District Court'. A 'Choose File' button is highlighted with a red dashed box, and the file 'myCases (5).txt' is selected. Below the file selection, it says 'File type allowed: .txt' and 'Max size: 10 MB'. At the bottom, there are 'Submit' and 'Reset' buttons.

The screenshot shows the 'Import Files' page with a success message. A white box with a green checkmark icon and the text 'File is uploaded Successfully' is centered on the screen. The background shows the 'Import Files' form with the 'Highcourt' radio button selected and the 'Choose File' button highlighted.

Facility is provided to export the cases available in the portfolio. Click on 'Export My Cases' button to download 'myCases.txt' file. The downloaded text file can be stored on Google Drive or sent via email for import into the mobile app or e-Filing system.

Search the case to be added with High Court/ District Court Services application. Access the case history and click on 'Add' button.

3.4 Adding Judgments

Access Judgment Search portal and click on 'star' to add the judgment to 'My Judgments'.

3.5 VC Cases and ePayments

All cases where Virtual Court fine payments and ePayments were made using the login user's mobile number will be displayed in these tabs.

4 Key Benefits

Unified Login: One secure account unlocks access to all services, avoiding requirements for repeated authentications.

Simplified Navigation: Users does not need to access multiple websites, as everything is available through a single dashboard.

Cross-Application Synergy: Data across multiple applications and seamlessly connected under one portal.

Customized Portfolios: Users can create customized portfolios in their respective logins covering wide range of information

Improved User Experience: A unified look and feel ensures users have a coherent experience with no learning curve between services.

Improved UI/ UX: Well-designed user interface for streamlined navigation.

Web Accessibility: Enhanced accessibility features ensure that users with disabilities can interact with the portal effectively services.

5 Login through Parichay

Parichay is a National Single Sign-On (SSO) service offers a centralized authentication framework that simplifies access while enhancing security. The platform supports eKYC using Aadhaar, legal profession verification, and multi-factor authentication, ensuring that only verified individuals can access the applications and services provided.

Parichay is managed and maintained by the Ministry of Electronics and Information Technology (MeitY), Government of India. Any changes to the sign-up or sign-in procedures are managed under the framework of Parichay.

Users can click on 'Parichay' icon available in the home screen to 'Sign in' or 'Sign up'.

5.1 Sign up for Parichay

Jan Parichay sign-up procedure for eCourts services requires following steps

1. Fill out registration form
2. Complete e-KYC verification
3. Complete e-Mail verification

Step 1: Registration Form

- a) Click the 'Sign-up for MeriPehchaan' link to proceed.
- b) Fill the required fields, mark the consent checkbox and click the Submit button to proceed.
Note: Ensure that name entered is same as name on Adhaar card. If name is not same, user will be directed to profile to edit name and then complete e-KYC.
- c) Post successful registration, the user will be redirected to the e-KYC page

The diagram illustrates the JanParichay sign-up process in three steps:

- Sign in screen:** Users are prompted to sign in via JanParichay. Fields for Username, Mobile, and Password are provided. A link for 'New user? Sign up for MeriPehchaan' is highlighted.
- Sign up form:** Users fill out the 'Sign up for JanParichay' form. Fields include Mobile No, First Name, Last Name (optional), Date of Birth, Select Gender, Suggested User Id, Password, and Confirm Password. A 'Submit' button is at the bottom.
- Confirmation screen:** After successful registration, a confirmation message is displayed: 'Thank You for Signing up for JanParichay MeriPehchaan Service. You may use these credentials for accessing all MeriPehchaan Services.' with a 'Continue' button.

Step 2: e-KYC Verification

- Enter Aadhaar number and click Verify to proceed.
- Enter the OTP received on your Aadhaar linked Mobile number, provide consent by marking the checkbox, and then click Submit to proceed.

The image shows two sequential screenshots of the 'eKYC Details' page in the Meri Pehchaan portal. The first screenshot shows a user with a masked Aadhaar number entering their Aadhaar number into a text field and clicking the 'Verify' button. The second screenshot shows the same user with the Aadhaar number '*****7186' entered. They have received an OTP (masked as '*****') and are prompted to 'Submit' or 'Resend'. Below the OTP field, there is a checkbox for '*Consent for Authentication' which is checked. A message states 'You are allowed to resend OTP after 3 Seconds'. Both screenshots include a 'Skip for now' link at the bottom.

Step 3: e-Mail Verification

- Enter e-Mail ID and click Verify to proceed.
- Enter the OTP received on e-Mail, click Submit to proceed.

The image shows two sequential screenshots of the 'Sign up for JanParichay' page in the Meri Pehchaan portal. The first screenshot shows a user with a masked email ID entering their email ID into a text field and clicking the 'Verify' button. The second screenshot shows the same user with the email ID '*****@*****.com' entered. They have received an OTP (masked as '*****') and are prompted to 'Submit' or 'Resend'. Both screenshots include a 'Skip for now' link at the bottom.

*Note- e-KYC and e-Mail verification are optional at the time of registration

5.2 Sign-in to your account via JanParichay

Clicking the JanParichay icon within the SSO portal will automatically redirect the user to the Digital Authentication page. Three options are provided- Username, Mobile and Others

- Enter the Login Credentials in the required fields, Click the consent checkbox, and then, click the Sign In button to proceed.
- Choose any of the MFA options and click Next to proceed.
- Enter OTP and click Next to proceed.

The first screenshot shows the 'Sign In to your account via JanParichay' page. It has tabs for 'Username', 'Mobile', and 'Others'. Under the 'Mobile' tab, there is a field 'Enter Mobile Number*' with a masked input. Below it are links for 'Forgot User Id' and 'Forgot Password'. There are checkboxes for 'Password Less Authentication' and 'I consent to MeriPehchaan terms of use'. A 'Sign In' button is at the bottom. Below the 'Sign In' button is an 'OR' section with logos for 'DigLocker', 'JanParichay Government Users', and 'e-Passport'. At the bottom are social media icons for Google, Facebook, Twitter, and LinkedIn, and a link 'New user? Sign up for MeriPehchaan'.

The second screenshot shows the 'Two Step Authentication' page. It says 'Select a Multi Factor and Click "Next"'. There are two options: 'OTP on Email' and 'OTP on Mobile'. A 'Next' button is at the bottom. Below the 'Next' button is a link 'Login as Different User'.

The third screenshot shows the 'Verify OTP?' page. It says 'OTP successfully sent to registered Mobile +91*****8283'. There is a field for the OTP with a masked input. A 'Resend OTP' link is on the right. A 'Sign In' button is at the bottom. Below the 'Sign In' button is a link 'Login as Different User'.

5.3 Sign In via Parichay for Government Officers

Click on the 'Parichay' icon on the Sign-in page and use official email ID to log-in into the system.

The first screenshot is the same as the one in the previous section, showing the 'Sign In to your account via JanParichay' page.

The second screenshot shows the 'PARICHAY' page. It has a header with the 'PARICHAY' logo and the tagline 'Single Simplified Sign'. Below the header is a section 'Please enter details to proceed' with fields for 'Enter Email or Mobile Number' and 'Enter Password'. There are checkboxes for 'Password Less Authentication' and 'I consent to Parichay Terms Of Use'. A 'Next' button is at the bottom. Below the 'Next' button is a link 'Forgot Password'. At the bottom are logos for 'NIC SERVICES' and 'National Informatics Centre'.
