

SUPREME COURT OF INDIA

(Admn. General Branch)

File No.: A-G-210/12/2/2023-SCA(G)

Date: 21.08.2025

CIRCULAR

It is hereby informed by the SCPMC, CPWD that the opening of windows in centralised air-conditioned areas of Blocks A, B, C and D of the Administrative Buildings Complex is resulting in the entry of humid air during the ongoing monsoon season, causing condensation on the AC ducts, grills, frames of false ceilings thereby raising damage and safety concerns as also increasing energy consumption and non-maintenance of effective cooling.

Accordingly, all concerned are requested to ensure that the windows in the aforesaid areas remain closed, especially during the monsoon season, to maintain effective cooling in the building and to prevent moisture-related issues and any damage to air-conditioning system.
