What is Mediation?

Mediation is a process where a neutral third party Mediator facilitates the parties to reach a mutually satisfactory settlement of their disputes.

MEDIATION HOW

- ❖ Mediation Centres are functioning in all District Courts.
- ❖ In the pending litigation, you can request the Court to send your case to the Mediation Centre by appearing in person or through Advocate.
- ❖ Trained Mediators will facilitate you to negotiate and hold talks.
- ❖ In the Mediation Centre, you can participate and discuss your case/problem with the other side directly. Your Advocate may also participate and help you in the process.
- ❖ This process will not affect your case in any way.
- ❖ If there is no settlement, you may proceed with your case before Court.

BENEFITS OF MEDIATION

- ❖ If the case is settled through mediation, Court can order refund of Full Court Fee.
- ❖ This is an opportunity for litigants to directly negotiate and finally resolve the disputes within a short time without any fees.
- ❖ The discussions in Mediation will not be recorded and will be kept confidential and the conversations during the mediation proceedings cannot be used against the parties concerned as evidence.
- ❖ It is quick, economical and future oriented and allows creative and flexible solutions.
- ❖ WIN/WIN situation emerges.
- ❖ If the case is settled through Mediation, it reaches finality and there is no appeal or revision and further litigation.
