FOREWORD

Ms. R. Arulmozhi Selvi has single handedly and with great passion prepared this Case Management Manual based on the CIS 3.0 application software for all the District and Taluka Courts of the country. Earlier, she had prepared a Manual based on the CIS 2.0 application software which was extensively used by Judicial Officers.

I am confident that with the present Manual and the vastly improved CIS 3.0 application software, Case Management will become a far easier task that will benefit the judiciary, if taken seriously. The Judicial Academies have an extremely important role to play in Case Management and imparting education on this topic to all the Judicial Officers.

All of us are quite concerned with the large number of cases that have clogged the Courts. To remedy the problem Case Management is a subject that has been spoken about for several years but with very little encouraging results. Now, with the computerization of all the District Courts and some efforts that should be made

by the stakeholders particularly the Judicial Academies and the Judiciary, Case Management can become a reality. The contribution of Ms. R. Arulmozhi Selvi in this regard is significant and is a very important step in integrating technology and Case Management.

I strongly recommend all Judicial Academies and Judicial Officers to spend some time in studying the Case Management Manual for the overall benefit of litigation management.

PREFACE

I am doubly delighted to again come up with this manual on Case information system. 3.0. The earlier manual titled “Case management through CIS 2.0” circulated by the Hon'ble e-committee of Supreme Court of India, has touched each and every court of our Nation, and I am Overwhelmed by the response for the said book from various parts of the country. Shouldering such a great responsibility, I started testings CIS 3.0 as a Master Trainer with the testing link circulated to all master trainers of our country by the Hon'ble e-committee of Supreme Court of India.

This manual on CIS 3.0 is complied with the new enhanced features of CIS 3.0 under 10 chapters. The features of CIS 2.0 retained under CIS 3.0. is also dealt in this manual to give a complete picture of CIS 3.0 for the basic and first time users of CIS 3.0. Three new chapters e-filing, Digital registers, Templates have been added in this manual. I was really fascinated with the new world of e-filing, Digital registers, and templates. Hope it will fascinate all the regular users of CIS and there is no iota of doubt that CIS 3.0 has further widened the technological doors to our District Judiciary paving way for the Digitized District Judiciary.

At this juncture I want to record my heartfelt and sincere gratitude to the visionary father of the e-Courts project, **Hon'ble Mr. Justice Madan B Lokur**, Judge, Supreme Court of India for igniting in me the passion for eCourts project and for the endless inspiration and encouragement showered on me. But for his untainted support and encouragement this book would not have reached your hands.

I also record my sincere thanks to **Hon'ble Kumari. Justice Indira Banerjee**, the then Chief Justice of Madras High court and now the Judge of Supreme court of India for her inspiration and for all the moral support. I also record my heartfelt gratitude to **Hon'ble Thiru. Justice T.S.Sivagnanam**, Chairman, Computer committee, Madras High Court, for constantly motivating and encouraging me .

I want to record my heart felt thanks to Mr.C.Kumarappan, Central Project Coordinator of Madras High Court and his technical team for all support and assistance given to me for testing CIS 3.0 in my court.

I also want to record my sincere thanks in particular to Dr. Parvinder Singh Arora, Central Project coordinator of Himachal Pradesh High court and his technical team for

helping me patiently in clearing my doubts while testing CIS 3.0 and in particular helping me test and understand the eFiling module.

I am also specially grateful to each one of the reader of my earlier manual from across the country and it is their tireless enthusiasm, support and encouragement which was also the driving force for me to again write this updated manual.

From the days of CIS 1.0 then to CIS 2.0 and now CIS 3.0 the stage of the digitization of the Indian Judiciary has been firmly laid. The Case information system (CIS) the brain child of the eCommittee has wide opened the Indian Judicial system to the technological transition with more litigant user friendly Indian Judicial system where the litigants are having the case information literally in their hand(set) and that too 24 X7. The ever increasing transactions under eCourts are loud standing examples of success of the eCourts project. We all can be proud at this juncture of entering into the updated version of CIS 3.0 of having contributed to our Nation's world bank ranking forward in the international scenario and back home of having helped crores of litigants through the crores of clicks recorded in the eCourts website which speaks for itself the success of Case Information system (CIS).

Your valuable suggestions may be mailed to me at r.amselvi@ajj.gov.in

1.5 What is CIS ?

CIS means Case Information System. The Case Information System software is a giant move under the initiative of the e committee to make the Indian Judiciary more transparent and more litigant friendly. The CIS versions are available for District Judiciary and High court exclusively. This Case Information System Software for District Judiciary is created under the guidance of the e-committee, Supreme Court of India through the software team at National Informatics Center (NIC), Pune. The whole idea of CIS to put it in a nutshell is that the litigant should be able to view the daily status of his case, to view the orders of the case, hearing date of his case, the progress of the case on any particular date etc on-line from any part of the world. Earlier after migrating from CIS 1.0 to CIS 2.0 any paper coming into the court is entered in CIS 2.0 i.e even cases under per-registration are entered in the filing counter and the litigant will be given acknowledgment with an unique CNR Number. Any litigant who wants to file a case can directly go to the filing counter and file his case and will be given an acknowledgment with a CNR number and through the CNR number the litigant can track the case whether it is taken on file or whether it is returned and all the details can be got by him through SMS or On-line in the comfort of his home. This revolutionizing feature has made Indian judiciary more litigant user friendly and more transparent as all these data are available 24X7 to the litigants and the daily hits of eCourts website per day will speak for itself the success of CIS

1.6. CIS 1.0 to CIS 3.0.

CIS 1.0 means Case Information System version 1.0. The CIS 1.0 version was first Introduced in all District Judiciary and it was upgraded as CIS 2.0 and all the District Judiciary state wise in our country were successfully using CIS 2.0. Now the said Case Information System 2.0 has been technologically enhanced and new functionalities have been added and rolled out as CIS 3.0. There is lot of apprehension in the minds of the basic users that whether CIS 2.0 has been completely removed and CIS 3.0 has been introduced and whether one should start learning afresh for CIS 3.0.?! It is not so the concept of CIS has remained the same and CIS 2.0 has been upgraded as CIS 3.0

retaining the basic options which were available in CIS 2.0 and it has been upgraded with lot more functionalities and options under CIS 3.0. and the next version i.e CIS 2.0 has been introduced in all states. Hence, all the judicial officer and staffs who are trained in using CIS 2.0 can take CIS 3.0 also with much ease.

1.7 Why CIS 3.0

CIS 3.0 has also been developed by NIC Pune

- to further opens the doors of district judiciary digitilization towards the much awaited e filing, e-payments, & e process
- To enhance the existing CIS 2.0 based on the suggestions received for CIS 2.0 from all over the country through all the High courts.
- To move a step forward towards the ICJ visionary project of integrating the court, police station, prison
- In CIS 3.0 there are two types of enhancement made by the NIC Pune.

(i) Tehnological enhancement (ii) Functionalities enhancement .

CIS 3.0 has been technologically enhanced with a better speed than CIS 2.0. The other technological enhancement made in CIS 3.0 may not be apparent for a basic user. But the functionalities enhancement are apparent and user friendly.

1.8. New ecourt logo

CIS 3.0 now comes with a brand new ecourt's logo. With increasing number of e courts transaction and increasing number of services flowing from e courts it has become necessary to have an authenticated identity logo which has given rise to the new e courts logo which has been introduced in CIS 3.0. The said e courts logo will appear in the e courts Mobile app; e courts website, QR code, CNR number, Acknowledgments and it be part of every e courts services. So don't forget to look out for the new e courts logo in all e court services.

1.9 Bilingual toggling within system.

Earlier under CIS 2.0 if one wants to switch to bilingual language setting one has to logout of the CIS 2.0 and then have to come to the login page to choose the bilingual radio button. But now under CIS 3.0 the said bilingual feature is readily available on the screen itself so that the user can very well switch over to the bilingual language without logging out. Thus, this enhancement in CIS 3.0 has made the bilingual option more user friendly and time saving.

1.10 Improved Query-options under CIS 3.0

An enhanced query builder option is made available on the dash home through a colourful Q menu which has shortcut links to select court/date/ query search, calendar, mail option and ac/section.

- **Pdf (Portable document format)PDF format** the uneditable report format can be downloaded.
- **Excel sheet format** Excel sheet format for further editing which will help the user make any desirable report from it.
- **CSV format(comma-separated values)**.Can also be generated. CSV is a simple file format used to store tabular data, such as a spreadsheet or database. Files in the CSV format can be imported to and exported from programs that store data in tables, such as Microsoft Excel or OpenOffice Calc.
- **Customisable format-With Hide Columns option:** Customized reports can be generated with the Hide column option which helps to customize the reports according to the needs. This is also an excellent enhancement which most of them will put to more use.

1.12.Search within search/ sorting option in Reports

Sl. No.	Cases	Date of Decision	Contested/Uncontested	Disposal Nature
1	CMAQ2/2016	26-03-2018	Contested	Allowed
2	HMGPR15/2016	26-02-2018	Contested	Allowed
3	OSVSR/2016	18-04-2018	Contested	Allowed
4	IASOS/2016	07-04-2018	Contested	Allowed
5	OSVSR/2016	18-04-2018	Contested	Allowed

Another added attractive feature under the Report generation is the search within the search option. For example the search boxes provided on the top of each column gives a search within search. For example among the disposal. Nature one can choose “Allowed” cases alone. More over the toggling button on the top also gives sorting option of each columns like

ascending descending order of the reports and then the same can be generated in the needed format

1.13 Kiosk (Automated information provider)

KIOSK the automated information provider is an attractive feature .which has been retained in CIS 3.0.It is a breakthrough in making the Indian Judiciary more litigant user friendly and transparent. With this KIOSK at our court campus any person can get detail about the case status using CNR number; or case number or FIR number or Registration number or Party name. KIOSK is also enabled with search using Advocate name and the cause list can also be seen in the KIOSK. Kiosk operation is just like operating the ATM. KIOSK is also Bilingual and comes with regional language support. Hence like any person

using ATM the KIOSK is very user friendly stored with all data and will become a welcome feature in all court campus. The screen shot of the KIOSK is enclosed for easy appreciation.

1.14.Archival of the Disposed cases

From 2013 to 2018 the Data dealt under CIS has increased multi fold. And

now the management of the huge data has become significant. And now under CIS 3.0 a enhanced technological feature has been added which will archive the disposed cases. This new improvements has lead to big data analysis and data analytical and it is the answer of Case information system towards the emerging BIG Data concept sweeping the digital world!

1.15.Key Board Shortcuts

- **Ctrl+m= Shortcut to open Menu.**

With CIS handling lakhs of cases per day the data entry assumes significance. Hence there is significant need for easy and efficient entry of data. To counter that CIS 3.0 has come up with Keyboard shortcuts which will be of tremendous help and time saving for the data entry staffs .

1.16.CIS 3.0 Core & Periphery Modules

Like our Indian Constitution which gives separate powers for state and for central. CIS software created for the whole of India is based on the core and periphery model, which means standard features are created at the centralized level which cannot be modified and will remain uniform throughout our country for all states at District court level. And the states are given powers to develop periphery model according to the needs of the state. In CIS 3.0 Master module has been modified and it has been classified in a more meaningful classification And now under CIS 3.0 more meaningful master modules are provided at National ,state,Local,periphery level which will result in more customization according to the needs of the state and district but at the same time maintaining the standardized features nationwide.

1.16.1 National master:

National masters are standardized feature which cannot be changed and it will remain uniform throughout the country and the National code assigned for each features to be followed under National Masters.

1.16.2 State master:

These master has been created for the states to add according the needs of the particular state. Hence the state is authorized to add master in CIS 3.0 under the state masters

1.16.3 Local master

1.16.4 Periphery master

This periphery master option is provided under

This local masters has been created for usage of the local courts where the courts can add Judge name, Judge priority ,local holidays when need arises.	CIS 3.0 where one can add the periphery data like unit type , admin work,accounts,registers, according to the needs of the each High courts. For example the Karnataka High court has created a periphery software for Accounting and Copyist section which can be added in the periphery master.

1.17 CNR (Case Number Record) number :

All cases under CIS now comes with the unique feature of Case identity number called as

CNR Number	PB 01-015294-2016	ML 04-00548-2017	TN 406-000398-2017
State code (2 digits)	PB (Punjab)	ML (Meghalaya)	TN (Tamil Nadu)
District Code (2 digits)	JL (Jalandhar)	SH (East Khasi district)	SA (Salem district)
Establishment Code (2 digits)	01 (District and sessions court Establishment)	04 (Chief Judicial Magistrate Establishment)	05 (Principal District Munsif Establishment)
Case filing number (6 digits)	014824 (Case number)	000548 (Case Number)	000470 (Case Number)
Filing year (4 digits)	2016 (Filing Year)	2017 (Filing Year)	2017 (Filing Year)
Total (16 digit) (State code) (District code) (Establishment code) (Case filing number) (Filing year)	(PB)(JL)(01) (014824)(2016) (Total 16 digits)	(ML)(SH)(04) (000548)(2017) (Total 16 digits)	(TN)(SA)(05) (000470)(2017) (Total 16 digits)

CNR (Case Number record) number. Earlier if a litigant says OS 1/2016 or CC 1/2016 all the munsif court and all the criminal court will be having the same one such in each courts and it becomes difficult to easily identify it. Hence, unique case identification number was assigned to all cases which is a

real revolutionizing tool. Now under CNR number every case in District Judiciary will get a unique Identification number and the identification of the case becomes easy with this CNR number Creating a CNR number itself is a big task. Just imagine we have to create a number unique for all cases all over India and that number should not be repeated and we should continue the said number hereafter. So we need such a unique number. In CIS 2.0 the said challenge is well met by creating a 16 digit number which contains the State code - District code - Establishment code - Case filing - number - year of the case. Here the CNR number generated in various states in various district is shown below

1.18.View QR code/ Scan QR code :

1.19 Avoiding undated cases – Tips

All data entered through CIS in the respective courts are displayed through the ecourt website www.eCourts.gov.in and from where any litigant from any part of the world can view this case details from the ecourt website page. The data not entered in CIS on a particular date or entered after replication is shown as UNDATED CASES. To avoid undated cases the best way is to start the daily proceedings' entry in the calling itself. At 10.30 A.M when the Judge comes to the dais the data entry staff can also come to the computer in the dais and make the daily proceeding entry as and when the case is called and adjourned. The common mistake done in the courts are, the data entry work is done as the last work. When daily proceedings are posted after 6 pm by that time the system officer of the said district would have replicated the data. Hence, posting daily proceeding after the replication will only result in undated cases. Hence, to avoid undated cases the data entry staff should give priority for completing the daily proceeding entries before 5 pm.

1.20. Importance of Complete and accurate data entry

One important mantra every staff should remember is that, all the benefits and fruits under CIS can be reaped only if complete and accurate data entry are made at every level in CIS. If incomplete data are entered we will not be able to get authenticated and full fledged reports. For eg. In filing there is a non mandatory column that Advocate registration number must be entered. If the same is not entered then in case of any complaint that the said advocate was not registered with the bar council cannot be traced. One point to remember is that all mandatory field are compulsorily entered by the staffs and if it is not entered the software will not allow moving to the next step. But this common mistake of incomplete data is committed by the staffs in filing up the non mandatory fields which are very useful field in many other aspects. Hence, all staffs should ensure to enter all data in the CIS whether it is mandatory or non mandatory keeping in mind that the non mandatory fields are very useful in generating various reports. It reminds of the saying

“what you sow you reap”. If you enter complete data we can get the complete reports of our data! If you enter incomplete data we can get only incomplete reports !

1.21 Fetching Trial court data while Appeal filing:

When appeal is filed in an appellate court , the data regarding the Trial court can now be fetched under CIS 3.0 by the appellate court. By this option the second time data entry of the same case in the appellate court comes to an end. This is a sure welcome option for all the data entry staffs .

1.22 Random case allocation option:

For allotment of cases to various courts the random allocation option have been provided under CIS 3.0. By this random allocation cases can be allotted to the court which will be unpredictable. For eg if Motor accident cases are dealt by Court no 3,7, 9 then it can be assigned that MCOP cases to be randomly allotted to the courts 3,7,9.

1.23 Pre Trial options for Remand/ Bail/application

In Criminal cases where charge sheets are not filed there are lot of pre trail stages like remand, bail which arise and are dealt by the courts The pre-trial module has been enhanced and when an accused is remanded it can now be added in the pretrial module

from where the log of the remanded person can be maintained. And with it one can easily get the date of remand, days in police custody, judicial custody. Similarly, the bail orders has to be generated from CIS 3.0. The day is not far when Fir is lodged and a person arrested and entries are made in police station it will be automatically fetched by the court and once the court remands the accused to judicial custody then it will be automatically fetched by the prison authorities. This option under CIS 3.0 is a real visionary option whereby the vision of ICJS integrating court, police station, prison becomes a reality.

1.24.Digital Record Room/copy section/nasarat:

Under CIS 3.0 new

branch wise options like Record Room ,nazarat , copying section which can be customized to the needs of the states are also added. These modules will surely pave way for perfect digitilization of various branches of the court making digital record room ,digital process monitoring, digital copying section ,digital property room a dream come true for the District Judiciary.

1.25 Digital Registers

The Dream of process re engineering of having digital registers for the manual registers has been met with under the new C 3.0 .The following list of registers are now inbuilt under CIS 3.0. The most welcome option is that it can be customised according to the needs of the High court through Periphery master option. The digital register is dealt in detail in a seperate Chapter “ Digital Register”

1.26 Templates

Under Regular courts lot of formats are used in day to day usage for example simple abatement orders, notice forms, issues /charge framing and now the skeleton formats with the option of customising to the needs of the courts are inbuilt in CIS 3.0 under the option Template. It is a sure time saving and effective court management tool made available for the courts

1.27 eFiling module:

The much awaited e-filing model has been rolled out for the district judiciary of our country. The e-filing will consist of two major stages

- Registered users i.e. advocate/ party in person filing their digital case content through the e-filing web portal
- And after the digital case content is scrutinized with option for return, resubmitt and accepted
- The digital case content on being accepted now becomes ready for consuming under CIS 3.0 option as shown in the screenshot.
- When the e filed cases is consumed through CIS 3.0 it is verified then rejected or accepted .
- Once it is accepted the filing number is generated successfully under CIS 3.0 as shown in the screenshot .
- After generating eFiling number it goes through the usual procedure of objection, rejection, scrutiny, and registration of FORA as in built in CIS 3.0.

- With CIS 3.0 the district judiciary of our country moves to the much awaited digital world of e-filing

The screenshot displays the E-Filing interface. At the top, it says "E-Filing". Below that, a green message states "Case Filed successfully". The filing details are: "Filing No: Civil Appeal/416/2018" and "CINO is: TEST010006412018". There are two radio buttons: "Filing No." (selected) and "Select Date". At the bottom, there is a label "Today's Filing No:" followed by a dropdown menu showing "Select" and a blue "Go" button.

-----With this intro one will surely feel

CIS 3.0 is a next generation case management system-----

2.7.4 Enhanced Calendar features:

The Calendar feature which existed under CIS 2.0 has been enhanced now under CIS 3.0. Earlier under CIS 2.0 one can get the Calendar with the number of civil and criminal cases on a particular date. Now under CIS 3.0 the number of civil and criminal cases if clicked will show the breakup of cases stage wise. For example now from the calendar option a presiding officer can see the stage wise case details i.e. how many cases in argument stage, how many for trial etc. and can plan accordingly. And the stage wise case will further break up into the case numbers as shown hereunder in the screen shot. This will be very useful for a presiding officer to handle the posting of the cases more efficiently..

2.7.5 Mail option

Under Q menu an important shortcut of mail option has been added. This is a great step towards moving paperless and fastest communication between courts.

2.7.6 Act/Section

Under Q menu the option of adding act and section short cut has been provided

2.8 Search box:

This search box is on the left top of the home page. It can be called as the Google search engine of CIS. If the staff or the Judicial officer knows this option alone then they can use all features of CIS by typing the name of the option in the search box. One need not worry of keeping in mind where the options are nor what

are the options available. There is no need to go to Navigation pane or to memorise where each and everyone of the option is. Any option under CIS can just be typed and found out through search box. If any option is typed it will immediately display it. For example if one want to know the modification menu under CIS just type "modification" in the search box it will show all the modification menu as shown in the screen shot

2.9 ecourtIS link

This ecourtISlink is like a light house under CIS to go to the Home page. It is a shortcut link which will take you back to the Home Page from any place you are. For example, if you are on the Bailiff screen and you want to view the Home Page for any reason, click the ecourtISicon which is on the upper right hand corner of the screen, then you can reach the home page .

2.10 Establishment select box

The Establishment select box is situated on the left side top of the home page as

shown in the screen shot. It will display all the establishments. You can select the needed establishment .

2.11 Modification Menu

The modification menu is necessary to correct the errors that is wrongly entered and saved in the system. Three types of Modification menus are available under admin menu.

Under CIS 3.0
Under modify business
IA option newly added

The said menus can also be directly searched through the search box. (i) Modify Business (ii) Modify Next Date and Purpose; (iii) Modify Case Details (iv) Modify IA details The above mentioned modification option should be sparingly used as we have live data and based on it lot of live reports are auto generated through NJDG, eCourts services.

2.11.1 Modify Business

This modification menu is used to modify the Business, which has been wrongly entered during the Case Proceedings. Earlier under CIS 2.0 the modify business option was available only with pending and disposed cases, now under CIS 3.0 the additional option of IA no is added. Let us now see how to use the modify business option. First the case must be selected for which the business is to be modified. The next dates (Proceeding Dates) are displayed automatically. The date for which the business is to be corrected is selected and the Business can be corrected or modified. After which if we Click on the submit button to save the case, the system message, will display “Modification Successful”

Under CIS lot of live data are handled by various staffs at various stages in different courts

and not all staffs can be given access to all data. CIS also has an inbuilt security check to define the role of the staffs handling CIS data. The Role management option is available in the User menu where in the role of handling data by the staffs can be per-defined and the access of the data by the staffs can be checked and controlled. Earlier under CIS 2.0 this option was available and now Now under CIS 3.0 the role management options has been expanded to control nearly 24 types of data entry roles under CIS 3.0. The Judges who are in control of administration should pre define the staff roles and ear mark what data alone they can enter in CIS. This option should be effectively implemented and defined for data security under CIS 3.0. and to prevent the mishandling of data by the staffs

Year End Initialization is a new option under CIS 3.0 whereby the option is provided to start new numbering on 1st January of every calendar year because the filing number are given based on the year for eg 1/2018 when the year 2018 started. When the new year 2019 starts one has to start the new numbering i.e 1/2019 which can be done by using this year end initialization which will wind up the previous year number i.e by entering the last filing number of 2018. Year end initialization need to be done not only for filing number but option is provided for year end initialization of Registration number; fees, appellate number, PTN no. Wait for the new year 2019 to try this new feature !

2.15 Unification and National Code

One significant breakthrough brought about under CIS 3.0 is the

standardization at the National level. Various aspects of the cases has been standardized using National code and the same has been unified under the unification option. Due to standardization one can get the accurate statistics at the national level due to the uniformity adopted by this unification option. If one wants to know about the list of the national code one can click the options like case Type master and get the case type National code as shown hereunder .

3. Daily usages

3.1 Introduction

Considering the daily users of CIS this chapter has been framed as a starter pack for CIS 3.0 .The daily users of CIS can take with confidence CIS 3.0 having in their mind that CIS 3.0 is nothing but an upgradation of features of CIS 2.0 . Once this daily work are done through CIS 3.0 there will not be any stumbling block in carrying forward the torch of CIS 3.0. Once the staffs become accustomed with this basic usage of CIS 3.0 work and they become equipped by themselves to explore all other options. Hence this starter pack aims to cover the following basic options which are used daily in every courts:

Daily proceeding

A diary, B diary

Taken on Board

Restoration of the case

Transfer of Case

Mediation

Litigant Updation

Bulk proceeding

Status of Case

Recall of a case

Refile cases

3.2 Daily proceedings

Daily proceeding under CIS 3.0 has been improvised with many features like VC (Video Conference) proceeding, Convicted particulars, Purpose wise view, Time Table, Exhibits, Keep Dormant/sine die,. Posting the daily proceeding is one of the most important work in CIS. Because only when daily proceedings are posted we can generate A diary and from A diary any litigant can know the status and the progress of the case on the hearing date. And this daily proceeding goes online through our eCourtswebsite making it accessible to any one and visible to everyone. Only when

daily proceeding is posted the litigant from any nook and corner of the world can see the status of the case online. So we must attach utmost importance while posting daily proceeding and should avoid any error while posting, considering its reach through Internet, its accessibility by anyone and visibility by everyone worldwide! .If daily proceedings are not updated then that cases becomes undated cases. To avoid undated cases a system may be formulated wherein the data entry staff who is posting the entries in CIS can come to the court hall at 10.30 am when the court commences and post the daily proceeding immediately after the case is adjourned .By this we can avoid undated cases.Now let us see how to post the daily proceedings under CIS 3.0 .It is the same as done earlier under CIS 2.0 .Go to navigation pane as shown in the picture herewith and then select case proceeding and from which the daily proceeding has to be selected.

Go to Navigation tab--> click case proceeding --> select daily proceeding

Once you click Daily proceeding it will open up the daily proceeding window as shown in the picture hereunder. You have to first select Civil/Criminal option through the radio button and only then the cases will appear in the drop box and then the case number has to be selected for posting the business

Step No 1 : Select Radio button
civil/criminal

☒ Civil ☐ Criminal

Step No 2: Select case number (the cases listed on the particular day alone will appear in the list)	
Step No 3: Once the case number is selected from the drop down box the party name will automatically appear	
Step No.4 : Once the case number is selected along with party name Today's purpose also appears which shows the stage of the case with the number of times on the same stage along with clour coding below (3) with green, more than three at amber colour and more than 6 times it comes with red colour indicating danger level!	
Step No 5: The proceeding window also auto generates pending duration like since how many months and days. All the auto generated data for the Judicial officer to take note before making granting the adjournment.	
Step No 5: Make entry of the day's happening in the business box	
Step No 6: select the reason for adjournments.	

Step No 7: And then select the next date of hearing by typing the date or by choosing from the calender

Step No 8: Also select the purpose of listing. This data entry is a useful statistics which will generate the satge wise case details.

Step No 9: Purposewise view is a new feature added under CIS 3.0 .Hence select the purposewise view .This is a time management tool whereby the Judicial officer can post cases effectively considering how many cases are pending on the same satge. For example to adjoun the case which is pending at the stage of arguments the Judicial officer can take note how many cases are already posted for arguments on the same date .

Purposewise view:

Purpose	
Hearing	3
Charge	1
Awaiting R and P	3
Preparation of Paper Book	1
Appearance	1
Argument on Exh. Ready	1

Step No : 10 To dispose a case Select the disposal button ;Select the Date of decision; contested /uncontested and the nature of disposal only then we can get the accurate statistical report on disposal from CIS .

3.3 Case Proceedings

The case proceeding under Daily proceeding is referred in CIS as Business. And the daily proceeding has to be typed in the Box which is named as" Business" And if there is No business then that option can be clicked ..The following options need to be filled up in daily

proceeding

• Proceedings

• Presentee

• Conviction(in case of disposal)

3.4 Business/ No business option

First under proceeding the daily proceeding has to be entered in the Rectangular box named as Business In the picture herewith at Business box the daily proceeding is posted as” Fresh Notice to R1 -----29.06.2018” If there is no business on

that day then check the box “No business”. When no business option is selected it mandates that the adjournment reason must be compulsorily entered That doesnt mean that for the cases in which business are entered there is no need to give the reason for adjournment. For all cases the reason for adjounmeent should be entered.

3.5 Proceeding through Video conferencing :

Nowadays lot of trials include proceedings through Video conferencing CIS 3.0 comes with the option to enter the proceedings under Video conferencing for which check the box “ on VC” and then enter the business as shown in the screen shot .

3.6 Presentees:

The presentee option available under CIS 2.0 is also made available under CIS 3.0 through which who were present on the date of hearing is updated. You can check the box to mark the presence of the parties as shown below.

3.7 Conviction :

Proceedings	Convicted	Presence
-------------	-----------	----------

In case of a criminal case where conviction has been passed CIS 3.0 now comes with the option to record the conviction details which is yet another useful enhanced feature under CIS 3.0. The conviction tab as shown above will appear only after the case is disposed and the "dispose the case" checkbox is clicked.

☒ Dispose the Case	☐ Kept as Dormant/Sine Die

3.8 Kept as Dormant / Sine Die cases

☐ Dispose the Case	☒ Kept as Dormant/Sine Die
* Next Date: 08-10-2018	☐ Dormant ☒ Sine Die

In the case proceeding page just beneath Short Order box there is a red colour option named Kept as Dormant / Sine Die. This option is used for cases for which date of adjournment cannot be given. For example in criminal cases where the presence of accused could not be secured after adopting all the remedies under the Code of Criminal Procedure, the Court can keep the case at a dormant stage. Similarly, whenever any Court has too many civil cases which are not ready for hearing and it is not possible to accommodate any more cases on the cause list, in such situation the Court has power to

☐ Dispose the Case	☒ Kept as Dormant/Sine Die
* Next Date: 08-10-2018	☐ Dormant ☒ Sine Die

adjourn the case sine die. When you check the box of Kept as dormant or Sine die, then automatically 3 months date is given in the calendar and you have to choose whether the case is dormant or whether it is adjourned sine die. Then Click Next and submit. Then the

case becomes Dormant sine die .It can be updated and restored using the “Update Dormant/sine die” option available under court proceeding option.

3.9 Bulk proceedings :

Bulk proceeding option which was in CIS 2.0 now comes in CIS 3.0 with enhanced option of “ Apply date to all cases” to cater the need of the bulk posting for numerous cases. For example if declared holiday then the staff need not go and

type the same diary “Declared Holiday Hence reposted to “ .and similarly when there are

numerous cases with the same proceeding for example in batch cases or bulk transfer this option is very much useful. Apply date to all cases will give date to all cases . This must be used sparingly by the staff. This option is sometimes misused for posting cases to avoid undated cases which must be avoided by the staffs.

3.27.Split cases.

For criminal cases sometimes in case of number of accused and if NBW is pending for one person Judicial orders are passed for splitting the case for proceeding with the accused who are present in the case and to separate the case against whom NBW is pending. In such case split case option is useful and it is a new feature under CIS 3.0 Eg:- In SC.11/2017 there are two accused and one accused is absconding. 4. e Filing

4.1 Introduction:-

The dream of E filing for the District Judiciary has come true with CIS 3.0. The concept of E filing under CIS 3.0 to put it in simple words is that the digital filing by an advocate or party in person is filed through a separate eFiling portal from where after verification and preliminary scrutiny it is transferred to CIS and the said efiled data is consumed under CIS 3.0 .So as far as CIS 3.0 is concerned the work under CIS 3.0 starts only when the efiled case data is consumed under CIS and then the usual procedure of scrutiny by raising objection, Rejection,Registration, allocation is done. In this chapter the stages of e filing cases where it is done and how the digital case content is consumed under CIS 3.0 is dealt herewith

4.2 Two stages of eFiling

- (I) eFiling cases through Online portal (www.eFiling.eCourts.gov.in)
- (ii) Consuming data by CIS 3.0 from the on- line eFiling portal

4.3 eFiling option under CIS 3.0

CIS 3.0 comes with the new eFiling option. There is no direct eFiling of case into CIS3.0 .But cases are filed in an online portal from where under the consume data option the efiled content will be consumed by CIS 3.0 and then it will be scrutinized like any other cases going through the stage of FORA. The other visionary options like e witness, victim, e plead guilty and e fir are also inbuilt under CIS 3.0 .

4.4 . Consume Data option under CIS 3.0

The consume data option under eFiling is provided under the CIS 3.0 for consuming the efiled cases from the online portal. There is no direct eFiling of cases into the CIS ,because if the registered users are allowed to make direct filing into CIS software it may affect the security and the speed of the software. Hence at present a seperate eFiling portal is allocated whereby registered user make the eFiling and it is consumed into CIS

under this consume data -eFiling option Under CIS 3.0 Consume data option is provided

which is a visionary option proposed for consuming datas under six heads.

4.4.1. Consume Data -E filing

Under the first option of consume data i.e eFiling option the cases filed in the efiled portal will be consumed under CIS 3.0.

4.4.2 E filing view Document option

There is another option e filing view document option under the consume data option in CIS 3.0. Under this option the great move of integrating the court datas has been proposed. For example if an appellate court wants to view the trial court data then it can use the option of eFiling view document option. This option enables the much needed vertical and horizontal integration of court datas under CIS 3.0

4.4.3 PDE (Public Data Entry) – Consume Data

Under this visionary option it is proposed that the litigants will be able to make Public case data entry from their home and which will be consumed through CIS and through the consume data option through CIS 3.0 it will reach the respective courts.

4.4.4 Plead guilty- Consume Data

Under this plead guilty option under consume data option in CIS 3.0 one will be able to plead guilty and deposit fine online and the said data will be consumed through CIS 3.0. This is already tested successfully in Karnataka

4.4.5 FIR data- Consume Data

Under FIR Data consume data option, the day is not far when the FIR registered in the Police Station will be consumed immediately by the courts and reflected in the court data through this option.

4.4.6 N-STEP – (National Service and Tracking of Electronic Processes) eSummons Portal:

The N-STEP application will track the status of process of the Courts. Court Process can be served through smart phones. The NIC Pune team has prepared the eSummons software application for use through smart phones. This is a most welcome feature which is surely going to curb all the delays involved in the process service. By using this option, courts will be able to digitally track the service of electronic process which is generated and published through CIS 3.0: The web portal is being launched for monitoring the status of processes at www.nstep.eCourts.gov.in

4.4.7 RTO- Consume Data

Just imagine, if the vehicle number is typed the data of driving license, vehicle number, insurance all are fetched in the court. With that vision this RTO option included under Consume data option. This is a sure time saving tool for the courts.

4.5 Extracting e-filed cases :

As already stated above the e filed cases from the online portal is consumed through CIS 3.0 under this option of "e-filing" Under this option two options are available for extracting the e filed cases from the e filed web portal.

(i) Filing number (ii) Select data .The screen shot herewith shows the choosing of both the options . By selecting filing number option and from date to date option. The efiled case is extracted into CIS 3.0.

4.6 Verification / Rejection of e filed cases under CIS 3.0

Once the e filed case is extracted under CIS 3.0 using the e filing number then the e filed case goes through the stage of verification and if it is in order then " Submit" option is chosen or else the Reject option to be chosen.

The screenshot displays the CIS 3.0 verification interface. At the top, there is a form with fields for 'Filing No.' (ECHOPE210006412018), 'From Date' (27-06-2018), and 'To Date' (27-06-2018). Below this is a table with columns for 'Petitioner', 'Respondent', 'Extra Information', 'Subordinate Court', and 'Case Details'. The bottom section shows a 'Case Type' dropdown menu set to 'Civil Appeal-416' and a 'Submit' button. A pink arrow points to the 'Case Type' dropdown menu.

Once it is verified then the CIS staff must choose Civil/Criminal and also the Case Type as shown in the screenshot herewith.

4.7 Filing number generated under CIS 3.0

Once the e-filed case is verified and the case nature assigned then the filing number is generated as shown in the screenshot “ **Filing No: Civil Appeal/416/2018**” Thus the e filed case content is consumed under the CIS 3.0 and it is given a separate filing number under CIS 3.0.

The screenshot shows the E-Filing confirmation screen. It displays a green message 'Case Filed successfully' and the generated Filing No: Civil Appeal/416/2018. Below this, it says 'CINO is: TEST010006412018'. At the bottom, there is a 'Filing No' dropdown menu set to 'Select' and a 'Go' button.

4.8 Rejection of e filed case under CIS 3.0

If during verification under CIS 3.0 if the e- filed case is not in order then the rejected option is chosen and Rejection remarks are made in the box and the e filed case is rejected under CIS 3.0

Thus eFiling starts from the filing of case through the separate online portal and preliminary verification is made in the online portal and then it is consumed through CIS 3.0 and scrutinised and filing number is given under CIS 3.0 . And now the technological doors are wide open for District Judiciary with this eFiling option.

-----welcome to the new world of eFiling---

5.Filing & Registration

5.1 Filing counter

The Centralised Filing counter and the concept of FORA the revolutionary feature of the District Judiciary has been retained under CIS 3.0. Some High courts are using different workflow. Under CIS 3.0 two types of filing are now available one regular manual filing in the filing counter and the other online eFiling. We are seen in the preceeding chapter how eFiling is done and how it is consumed into CIS 3.0 . Under CIS 3.0 any person who wants to manually file the case can come to the filing counter and file his case. During filing all the details will be entered in the format prescribed and the entries will be made. After making entries filing number and CNR number (unique case identity number) will be generated and filing acknowledgement will be given to the litigant who can then track his case status on line whether his case is taken on file or whether any objections have been noted or whether it is returned or rejected or registered. So with this filing counter and CNR number the tracking of unnumbered cases is also possible which is great breakthrough on the litigant point of view resulting in greater transparency in District Judiciary.

5.2 FORA- Filing work Flow

What is FORA ?FORA is nothing but the abbreviation of the stages of the case through which any case passes through once filed into the filing counter. The stage has been classified as

FORA = Filing → Objections → Registration → Allocation

eFiling	Filed through on line portal www.efiling.eCourts.gov.in	After preliminary verification transferred to CIS	Consumed under CIS	Then the regular FORA stages followed
Manual filing	Filed through the court complex Filing counter	FORA = Filing → Objections → Registration → Allocation Stages takes place		

5.3.Filing

Under CIS 3.0 any case filed in the filing counter will enter the First step which is termed as Filing. Under the first step of filing any case which is filed will be entered in the prescribed form in the filing counter. After making preliminary entries filing number and a CNR number is generated and a printed acknowledgement is given to the litigant in the filing counter.

5.3.1 Filing Counter Menu

Under CIS 3.0 to enter details of a filed case go to the filing counter menu which is in the navigation pane and then select the Case and caveat filing. Under Case you can select either civil or criminal and for caveat filing you can click Caveat filing which is shown hereunder.

A salient feature of the filing counter is that the Date of filing and the time of filing is recorded for each cases.

There is also an option for Changing filing date because there may be cases which may be returned and represented or cases which would have been dismissed for default and restoration petition would be filed. In such cases the actually filing date will be an earlier date and to accommodate the said type of cases where the filing date is not its actual filing date, “Changing filing date” option is also included which comes with the separate box by name “Reason for changing filing date” where the reason must be recorded why the filing date is changed. The screen shot of the Changing file date is enclosed in the next para for better understanding.

5.3.16 Hide party name

This option of Hide party name is a crystal clear example to show with how much care and concern the CIS is created. The basic idea being CIS is to display all case details to every litigant public. Hence the Cause Lists, Kiosks, Website etc. display all the party names that are entered for a case. But in certain cases like POSCO(prevention of sexual abuse against children), Juvenile cases, matrimonial cases It may be statutorily essential to hide the party names. This Hide party name is inbuilt at Filing stage At filing stage to invoke hide party details you have to check the box by the side of Hide party name as shown in the screen shot

When you mark to hide a party name then the party names are shown as masked “xxxxxxx” on the citizen interface like Cause list, Kiosks, website.

5.3.16.1 Hide party name for registered cases

This hide party name is also available for registered cases. The same can be invoked by using the path shown below

Go to Navigation pane → Select Case proceeding → click Hide party names

Hide Parties

After entering all details in the filing counter click SUBMIT, "Addition successful" message appears Then the following three messages regarding Filing, CNR, Print acknowledgement appears

ORIGINAL	INTERMEDIATE	USE IT HERE
Case No.	2485-2015	
Plaintiff Name	Sub Court	
Defendant Name	Sub Court	
Amount	2000.00	

On receipt of the case at the filing counter after the filing process is over the litigant will be given a printed acknowledgement Containing filing number, CNR number and now under CIS 3.0 with the QR code. Using the CNR number and the filing number and by scanning the QR code printed in the acknowledgement the litigant can track the filing stages i.e. whether it is returned with objections or whether it is registered or whether it is rejected and all these at the comfort of his home with a mouse click ! This is really a welcome and a breakthrough feature which will surely pour in lot of transparency on the filing system and make the filing system more litigant - user friendly.

5.4 Case scrutiny :

After the filing of the case is over, then the stage of case scrutiny begins. Case scrutiny is done and three types of scrutiny is available. (i) Case Objection; (ii) Case Rejection (iii) Case registration. Under case objections if there are any objections (reasons for return) then it is noted under objection column and the case is ordered to be returned Under case rejection if there are grounds for rejection then it is placed before the concerned Judge

for hearing the objections and the cases under which order for rejection is passed are entered. For eg. Rejection of plaint orders. Under case registration if there is no objection then the case is ordered to be registered (taken on file). The case scrutiny menu can be reached through the following path

Go to Navigation pane → click registration section → case scrutiny → case objection / case rejection/ case registration (menu bar screen shot shown herewith)

5.5. Objections

It is pertinent to point out that the objections for taking on file and the reason for return of the case is also entered in CIS 3.0 under objection column which can be tracked by the litigant using his CNR number. This is again a great break through in the filing system because a litigant or an advocate will be able to know the reason for return of the case bundle from the comfort of his home. Hence, now it becomes possible that the litigant/advocate need not personally come to the court to know whether the case is taken on file or returned. The screen shot of the case objection is shown below for clarity. The

This option of payment of court fee through cheque is provided under CIS 3.0. Once the case comes to the filing counter and when the payment is offered to be paid through cheque the said details of cheque can be entered in the column as shown supra. And then the case can be processed. The cheque received can be send for collection and until the cheque is cleared the case will not be taken on file. If the cheque is returned, then the said return can be noted in the objection's column that cheque returned and court fee not paid hence the case is returned. Then the litigant may receive back his bundle and re- present it with the court fee. So now the litigant and the advocate will have variety of options for payment of court fee a step forward from the earlier method of paying court fee only through stamps. At this juncture it would be pertinent to point out that Madras High Court, Delhi High Court and Bilaspur High court have already implemented e court fee system.

5.12.2 Fees receipt

After the fee is entered then Addition successful message appears with the receipt number as shown here. Then click Print the receipt will be printed. On payment of court fees the fee receipt is generated which can be printed out and given to the litigant. I personally think this is a most welcome feature on the point of litigant. Now a litigant can have first hand knowledge of how much court fees is paid in the court.

5.13.1. Searching property

The search option is there for property by village name ,by property, by case number etc

5.14. Photo upload of party :

This option of uploading photo of the litigant is an important and a very useful feature in CIS. The day is not far when every litigant who comes to the filing counter will be photographed in the photo booth and which will put an end to all identity issues arising practically

5.15 Legacy Data

Legacy data is the option under CIS 3.0 whereby the registered case can be directly entered into CIS 3.0. Under Legacy data the case doesnot go through Filing,Objection, stage.It is directly entered after registration and it generates the CNR number.

The screenshot shows the 'Legacy Data' entry form in the CIS 3.0 system. At the top, a green message indicates that the CNR number has been generated as TNTI160003262018. The form includes several input fields and dropdown menus for case details:

- Case Type:** MCDP-315
- Case No.:** 44
- Year:** 2018
- Filing No.:** 44
- Year:** 2018
- Case No.:** 2-subordinate Judge, Avinash

- Date of Registration:** 07-07-2018
- Date of Hearing:** 07-07-2018
- Proposed Listing:** Board of Service-447
- Sub Request:** MCDP-315

The form also includes a 'Legacy Data' tab and a 'Legacy Data' button.

Thus under CIS 3.0 the key features of FORA already available under CIS 2.0 has been retained with new field like Transgender,Differently abled,party in person. Another significant move under filing is that the efiled cases are consumed under CIS 3.0 which goes through the stages of FORA thus providing the much needed digital filing and manual filing.

6. Report Generation

6.1 Introduction

The report generation is a major enhanced option made under CIS 3.0. Under CIS 3.0 the most enhanced welcome feature is creating the reports with various customizable formats like PDF, Excel, CSV formats and Hide column options. The various variety of reports are stored under various heads and the major heads are Proceedings reports and DJPMC. Other than DJPMC and proceeding reports ; various reports are stored in almost all other menus like appeals ;plead guilty cases ;mediation etc. From DJPMC pending disposal cases, five years, ten years old cases, senior citizen cases ,the monthly statement, Quarterly statement and all types of periodical statements also can be created by the click of the mouse. It will surely reduce the volume of time spend by the staffs for manual search in creating the statistical reports. The day is not far when all the High Court may call for reports only generated through CIS. This will result in more authenticity in the statistical reports. In this chapter the basic reports are covered.

6.2. New features of Report generation -Hide column/ PDF/ Excel/ CSV

One can get the customizable report by clicking on any one of the options like Hide column, PDF, Excel, CSV option and get the reports generated and customized according

to the needs of the user.

6.3 Customisable format-With Hide Columns option:

Customised reports can be generated with the Hide column option which helps to customise the reports according to the needs. This is an excellent enhancement which most of them will put to maximum use. There are nine column options available in each report the user can choose any of the 9 columns and customise the report according to their needs. Using this Hide option different combination of reports can be created which is shown hereunder. Eg: **1st report with 5 column** S.No; Cases, Party name, Next purpose, On same stage since; **2nd report with 7 columns** i.e with additional two column of the 1st report Date of registration, and Dormant case/sine die along with S.No; Cases, Party name, Next purpose, On same stage since column.

Similarly we can monitor the data not entered and ensure that complete data are entered by which the health of the data in CIS can be maintained. To get unit reports → Go to Navigation bar → select DJPMC → then click unit details → select court no → Select → From date /to date → then click Go (as shown in the screen shot hereunder).

While choosing the option it should be ensured that the issues can be framed only when the case is posted on the same date. And after choosing the issues or editing the issues click submit and we will get the message addition successful.

9.9.4 Viewing cause list on-line under District court NJDG

The cause list is nothing but the hearing book. The cause list of any court can be also viewed from the court website. This cause list search is an equally useful feature for Judicial Officers, staffs other than the litigant public. Through cause list a judicial Officer can login from his home and know the cases posted on any date and can plan for his work. For example the Judicial officers can have it as a habit to view everyday workload through Cause list search and can plan the work for the day. Through cause list the Judicial officer and the staff can now very well find out which is the heavy work load day and which day has lighter work on any given week or month. The litigant public and advocate can now confirm when the case is coming up for hearing using the on-line cause list.

A screenshot of the 'Cause List / Daily Board' search interface. It includes fields for 'Court Complex', 'Court Name', and 'Cause List Date'. There is a 'Cause List Date' field with a calendar icon. Below these fields is a 'Captcha' section with a distorted image of the text 'YS9NZ' and a 'Re-enter Captcha' field. At the bottom, there are two buttons: 'Civil' and 'Criminal'.
