ROC No. 513/2026-CPS

To
All the Unit Heads,

Sir/Madam,

Sub:- eCourts Project - "eCourts Services" Mobile Application Version 4.0- Release- Features- Manual- Backup- Regarding.

Ref: - email from Hon'ble eCommittee, Supreme Court of India, dated 20/04/2026.

o0o

I invite your attention to subject and reference cited.

I am to inform you that an upgraded version of the "eCourts Services" Mobile App i.e. Version 4.0 was launched during the National Conference on Judicial Process Re-engineering and Digital Transformation held on 11th and 12th April 2026 in the Supreme Court of India, New Delhi.

As per the office of Hon'ble eCommittee, Supreme Court of India, the new version of eCourts services mobile app is developed to ensure high performance and responsiveness under heavy data demands. The following are the core enhancements:

1. **Technological Compliance:** The app now targets Android 14 (API level - 34), ensuring continued availability on the Google Play Store for users with the latest hardware.
2. **Performance Upgrade:** The shift to a native rendering engine facilitates faster load times, smoother animations, and more efficient resource management.

3. **Ergonomic UI Redesign:** Following expert consultation, the interface features a minimalist design with a bottom-tab navigation menu for easier one-handed use.
4. **Functional Improvements:**
    1. Direct Order Access: Clickable links within the "Case Status" screen allow users to view order PDFs directly.
    2. Case Conversion Tracking: A new table enables users to view both old and new case numbers for converted cases.
    3. Personalization: The "My Cases" section now utilises pagination (10 records per page) to resolve previous unresponsiveness and "page hanging" issues.
    4. Unified Quick Links: All secondary services like ePay, NJDG, and eFiling are consolidated into a single "Quick Links" menu for intuitive navigation.
    5. Integrated with BHUVAN maps for locating Court Complexes.

I am to inform that the "eCourts services" Mobile App 4.0 is likely to go live on May 5, 2026. In this regard, to safeguard user data, and ensure a seamless migration across all judicial tiers, the Hon'ble e-Committee directed that it is mandatory to take data backup of the mobile App and for this, Users can use the "Export" feature in their current app to back up their saved cases. This is essential to prevent any data loss during the transition to the new React Native storage architecture.

Further to prevent data loss during the transition to version 4.0, a public notice shall be issued across official websites, eSewa Kendras, and Court Complexes. This notice shall detail the new features and advise stakeholders to back up their saved cases.

Hence, I request you to immediately issue the Notification across all available platforms, and give wide publicity to the advocates and all stake holders to backup their data.

This may be treated as **Most Urgent & Important**.

Yours faithfully

T. Venkatam
