📇 **ICJS-About-Us**

ICJS Features

ICJS

INTEROPERABLE CRIMINAL JUSTICE SYSTEM

Free Text Search	Custom Analytics	Across All Pillars	Uniform Data Flow	Web Services For Complete Data
National Search	Dashboard	Profiling A Person	Interoperability	Source Pillar
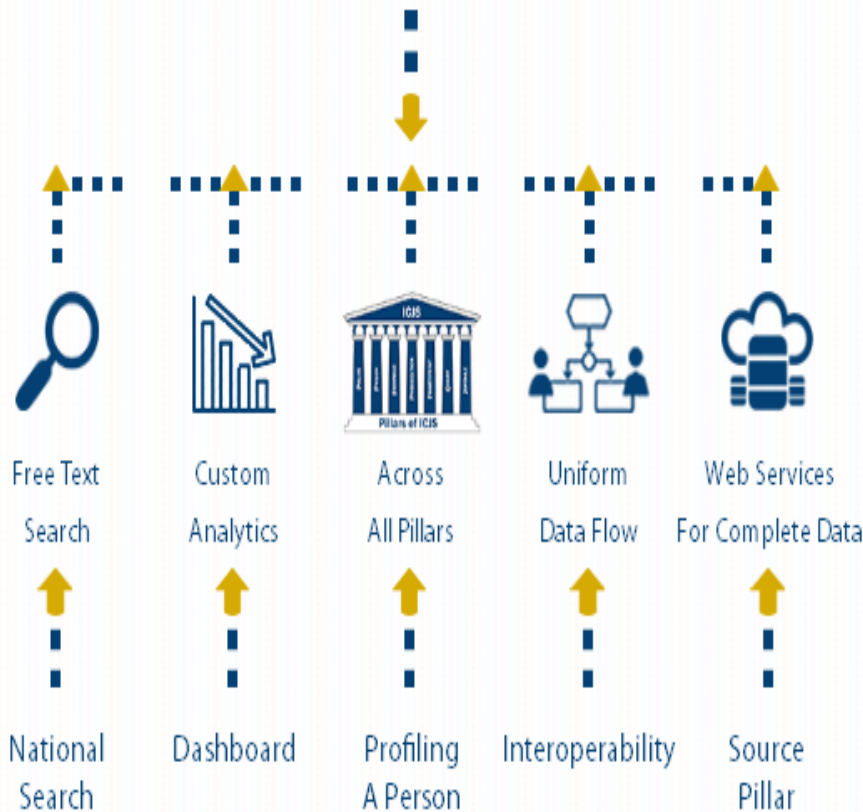

ICJS System

▶ **National Search**

Searching for any person across national database of various pillars by providing search criteria like name, relative name, FIR No, any National Id, email-id, phone number etc. or their combinations.

▶ **Dashboard**

A user interactive dashboard for all stake holders to perform trend analysis along with statistical data export.

▶ **Profiling a Person**

A person can be profiled across the pillars viz. Police, Court and Prison by using national search over the person's detail and further make cross search to get associated information from respective pillars in one window.

▶ **Interoperability**

ICJS shall expose the secured API's to the corresponding stake holders to consume the information as and when required.

▶ **Source Pillar**

Provision for the stake holders to navigate to the source pillar for complete and updated data through web-services for identified cases.

ICJS Pillars

Court	Prison	Police	FSL	Prosecution	WCD	FingerPrint

Interoperable Criminal Justice System aims to integrate CCTNS system with eCourt, ePrison, eForensics, eProsecution, Fingerprint, and Women & Child Department (WCD) systems for seamless flow of information among these pillars of Criminal Justice System to achieve " One Data Once Entry " .

The lack of transparency, absence of adequate investigation tools and delay in information flow among the pillars could also be reasons for delay in delivery of Justice. The proposed Interoperable Criminal Justice System is an attempt to make the justice delivery system speedy and transparent. The project also aims towards smart policing which include empowering citizen, investigating agencies and policy makers.

The ICJS portal serves as an interface for various pillars to perform National Level Searches based on Name, Relative Name, Mobile No, Email-Id, Unique Identifiers (like FIR No, CNR No., Prison ID etc.), Addresses and even on Contents (free text). It also provides customizable National Level Dashboard for Analytics on various metrics. The ICJS Interoperable services soon to be available shall provide a platform for various pillars to exchange information through

ICJS Speciality

ICJS Vision

The project is fully aligned with the vision of the Smart policing and Digital India of the Government of India. Police-Citizen interface will undergo a major shift with the implementation of this project, as a number of services will be enabled through citizen portal

Major Challenges

Integrating systems with highest possible accuracy to achieve related data from various pillars.

Analytics

Crime & Criminal Pattern and Trend Analysis

Mission

To ensure quick data transfer among different pillars of criminal justice system, which will not only enhance transparency but also reduce processing time.

Digital India

A major step towards smart policing.

Empowering Citizens & Justice System
