Power To Empower

5.0 Software Projects at State Level (Design, Development, Implementation)

Software Name	User Department/Description	Implementation Status
1. eKalyan-Welfare Pension MIS		
	This software automates the disbursement of pensions through Money Orders. It also automates the work of preparation of ledgers, updation of dead/non-traced pensionersrecords etc. It enforces the system of Pension Disbursement (as per government guidelines) right from the receipt of application stage to the disbursement of pension and has also helped the department to streamline its pension disbursement system. The new web based S/W has now been developed and has been pilot tested for two districts.	Coverage: 100% Implemented in all 12 Districts. Approximately 4.4 Lakhpensioners being given pension (IGNOAPS, IGNWPS, IGNDPS, old age, widow, handicapped-all Central and State schemes are covered under it).

2. AWCMIS (Aanganwadi Centre MIS)		https://awcmishp.nic.in
	Web based applications has been developed for adding Aaganwadi Centres as well as registering the workers/helpers serving in these AWC's. The application is used for generating monthly honorarium and other payments. A number of MIS reports in graphical format are available. The software has been integrated with the state treasuries to ensure online payment of honorarium and rent direct to beneficiaries account.	Data of 78 CDPOs and around 19000 individuals working in these AWCs is available and application is being used for processing honorarium of anganwadi works/helpers and rent payments of accommodation.

3. eGazette-Digital Rajpatrahttps://rajpatrahimachal.nic.in		
	From 01-August-2007 Gazettes are published online only and from 2011 onwards all Gazettes are digitally signed. Now all previous Gazettes of Himachal Pradesh before 01-August-2007 from year 1953 to 2007 have been digitalized and are available online to all stakeholders. Therefore all Gazettes of Himachal Pradesh are available in digital searchable format and online.	Coverage: 100% Gazette published daily. Implemented since 1-Aug-2007 All Gazettes are published on the website only. Departments covered: 90
4. eLokParman-Certificate Issuance System		
	The E-Praman is a web application wherein the applicant visiting Tehsildar / Sub-Divisional Magistrate can obtain the desired certificate in a properly structured and standardized form on the	The SW is implemented in all 12 Districts and more than124 Tehsils of the State. Approximately 39 Lakhs certificates have been issued.

submission of the application. The Disability and Senior CitizenID card is issued through the ePehchan SWwhich is issued to the disabled persons/senior citizens so that they can avail travel concessions, reservations and other benefits under various schemes of the Government.

Besides the Disability and Senior Citizen ID Card Issuance System has been developed and implemented at all 12 DWO offices.
Till date 74,091 Disability/Senior Citizen ID cards are generated

5. HimBhoomi-Land Records Computerisation

eHimBhoomi is unique software as it helps to generate the next Jamabandi and related records after amalgamating changes due to mutations and other transactions. The citizen can get copy of record of rights (RoR) from LokMitra Kendra or Tehsil Centre. All LokMitraKendras are authorized to issue signed RoR through HimBhoomi website. The citizens can also access RoR by visiting the official website of the HP Revenue Department at https://himachal.nic.in/revenue. The copies of Plot Maps (Both Musavi and Latest) are also being made available along with the Jamabandi copies for the Tehsils where maps have been digitized and verified. It has been integrated with the BhuNaksha software for providing digitized map copies along with the RoR. Land Records are also integrated with Registration of Deeds software HimRIS. eDistrict, Crop Insurance. Soil Health Card portals are also integrated with the system to provide real time data of Land Owners.

Tehsils made online: All
Certified Copy of Jamabandi, ShajraNasb distribution through 3745 LokMitra Citizen Service Centres (2738 LMK users have issued one or more RoRs). Till date total of 75 lakh+ ROR copies have been issued through LMKs/Sugam, generating Rs.17.70 Crore service charges.

6. HimRIS-Registration Information System

The HimRis is a workflow application and helps the Sub-Registrar Offices to undertake deed registration in an efficient, simple, speedy& efficient manner. The SW covers all kinds of deeds. The S/W has been integrated with the Land Records S/W to prevent fraudulent transactions and keep the records updated all the time.

SROs covered: **104** financially viable offices
Integrated SW (HimBhoomi & HIMRIS) implemented in 97 tehsils.

7. Saarthi-Driving License Issuance System

The driving license issuance system has been developed by NIC as a standard solution for issuing smart card based DLs to public. The S/W doesn't allow wrong issuance of DLs.

100% coverage, **Web enabled Sarathi 4.0** has been Implemented in all 82 RLAs/RTOs offices of the State.

8. Vahan-Registration of Vehicles Information System

The vehicle registration SW is a standard S/W developed by NIC for the country wide implementation to enable the tracking of vehicles across the country by porting data to a central national register which will be a deterrent for vehicle thieves and help in faster detection of owner/ vehicle details in case of need.

100% coverage**web based Vahan4.0** has been implemented in all RLAs/RTOs offices of the State.

9. Transport Barrier Information System

The software has been developed to collect the tax from the vehicle owners as per norms and also to generate various statutory & query reports as well as to help them in changing the fee collection structure within no time at the Transport barriers. Implemented at 10 Interstate transport barriers.	Implemented at 10 Interstate Transport barriers.

10. Citizen Service Centres
(Sugam, LokMitra, Pehal, eVikas)

The **Sugam Centre**, one of its kind, provides centralized integrated services to citizens for different departments under one roof. The services cover online transactions like registration of deeds/ vehicles, issuance of licenses/ certificates, payments etc. It is set up in all DC office of the districts and offers more than 50+ services under single roof.

LokMitra: It provide the rural masses with the benefits of Information Technology at their doorstep, the State Government named all MeitY sponsored Citizen Service Centres (CSCs at 3243 Panchayats and Urban Areas) as LokMitra Kendras based on the pilot project implemented by NIC HP in Hamirpur district earlier. The objective is the saving in time and money of the people, which is spent in physically visiting various Govt offices.

Pehal-Citizen Service Centers: It introduce the transparency in the government functioning and to provide better, friendlier, speedier, efficient services to the citizen on a single window. Theservicecenters have been set up to offer driving license and registration of vehicle services at all District Hqrs/ 49 Sub-Divisions (RLAs)/ 10 RTOs-STA

11. Budget Processing MIS

Budget Processing and monitoring system developed for the State Finance Department covering real time generation of Supplementaryand regular Budget,Re-appropriation, Budget documents. Improvements have been carried out to link it with the Planning department and other State departments to prepare scheme wise online Plan budget proposal &final estimates for the coming financial year. System also generates the scheme wise budget estimates for the next 3 years.	The SW has been implemented for the last many years. **Budget Suggestions portal** has been integrated with it.

12. OLTIS-Integrated Online Treasury Information System

i-OLTIS is an online centralized application for conducting all the treasury operations. It facilitates processing of bills created online by DDO to creating payment scrolls for banks which banks download from the portal itself thus speeding up the process of payments to beneficiaries. It also simplifies other treasury operations like stamps distribution, DDO management, creating and rendering account to AG office. Real time expenditure reports help the HOD/DDO to utilize the allocated budget in efficient ways.Web services were developed to integrate departmental application for sending online bills.	Coverage: 100% Implemented in 105 Treasuries All 16 District level and 89 sub-treasuries computerised Web-interfaces for departments, DDOs developed.

The web based interface for, TelephoneDirectory, Civil Lists of IAS, HPAS, HP Secretariat officers, and HP Secretariat library search interface. It also provide interface for Vacancies, Tenders, Announcements, Vidhan Sabha Questions, List of Business, Proceedings, Weather information.	Availableat https://himachal.nic.in

36. House Allotment MIS

The SW has been developed for fair and transparent allotment of Government pool accommodation to officers at Shimla. The priority lists are generated through the SW along with monthly rent toll. The SW is linked with eSalary. Monthly rent demandis made available to DDO's.	Implemented at Shimla for the Directorate of Estates.

HPTDC Online Hotels Reservation System

37. Integrated Online Hotels Reservation System

iOHRS software provides the online availability status of accommodations and instant online reservation facility of any group/chain of Hotels to the prospective Guests/ Tourists/ Visitors or general public. Online reservation of accommodations and cancellations of already done reservations in hotels can be done instantly by the Guests themselves or through authorized offices/agents. The S/W is integrated with online payment gateways and the online channel manager AxisRoom, Mobile-App, email and SMS Gateways. Integration with the AxisRoom channel manager enables the presence of all Hotels of the concerned group/chain of hotels at all popular online travel portals by making complete inventory of its Hotels available to these portals online.	The S/W has been Implemented in HPTDC since October 2001 with over 10 Lakh bookings worth Rs. over 800 crores covering 60 Hotels. The project has been awarded the **National eGovernance Gold Icon Award** in the year 2015.

38. Election Support

The S/W has been developed for the support to be provided in the randomization of polling parties, uploading of scanned documents of contesting candidates, compilation of election results, data transmission to ECI web servers and Doordarshan. Mobile based polling trends SW developed.Regular VCs arranged with ECI, CEO and Deputy Commissioners. DISE software support being provided in Lok Sabha 2014 Elections.	Randomization SW implemented during by-election to Lok Sabha 2014 Elections. Support to all 12 Districts during the Assembly Elections 2007 & 2012 of the State and Lok Sabha Election 2009& 2014.

39. PRI / Urban Local Bodies Elections- Generation of Electoral Rolls

The software is for generation of Electoral Rolls from the existing ECI rolls for the Panchayati Raj Institutions and Urban Local Bodies Elections, minimizing the data entry work. The S/W has been expanded to cover the PRI Representatives including capacity building through continuous training at various Training Institutes in the State. The Electoral Rolls are being generated using this application since 2010 and all annual revisions are carried out by ERMS. The revision of electoral rolls for 2015 general elections has also been carried out successfully in the elections held recently. Till now 2 general elections have been conducted using Electoral Rolls generated using ERMS. Software interface being developed for the Election process now.

40. Energy-Power Projects Monitoring System

Various power projects sanctioned by the State Government for development and generation of electricity through independent power producers (IPP) need close monitoring as majority of the producers have not developed these projects, which affects State economy. Therefore, the project has been developed for close monitoring of such power projects in the private/ public sector. The LADF payment & usage is being monitored.	The software is under implementation and User IDs have been given to the Project developers and producers to enter the status of projects for monitoring purposes.

41. Rohtang Pas Permit Issuance System   https://hpkullu.nic.in

This application is used by common citizens as well as the authorities of District Kullu to generate permits for the vehicles going to and across Rohtang pass. This application is developed as per the guidelines of National Green Tribunal where vehicles are permitted daily as per the defined quota.	The project was implemented on September, 2015. Till date around4,24,070 permits have been issued through the software and approximately 14.24 crores of tax has been collected in lieu of the issuance of permit to visit Rohtang pass.

42. Special Road Tax System

The SRT is a web based application used by the RTO authorities of Transport Department, Himachal Pradesh for time table and route permit issuance of Stage Carriage Vehicle. Application auto- calculates the monthly prepaid Special Road Tax using formula based on the Road Permit parameters like seating capacity, distance and category of roads.	RTOs have collected Rs.92.67 crores as Tax since 2013.

43. SwayamSidham Education Portal	https://rmsahimachal.nic.in
The portal has been developed to facilitate the teachers and students in improving quality of education in Government schools by providing online interface for quality content. Online training of teachers is latest teaching aids is possible through this portal.	Online Books, Multiple choice question-answer, tests, previous board exam papers, lesson plans, indicators, queries of students, best answer sheets are available.
44. eStock Management System	
Web enabled solution for handling purchase, inventory control & maintenance activities of consumable & Non-consumable stock items. The module for procurement and issuance of consumable items has been implemented. The modules for Non-consumables and maintenance of hardware are under development	The software is under testing in NIC HP.

45. Blood Bank Management System	
Blood Bank Management System (BBMS) is designed to store, process, retrieve and analyze information concerned with the administrative and inventory management within a blood bank. This project aims at maintaining all the information pertaining to blood donors, different blood groups available in each blood bank and help them manage in a better way. Check Blood Availability, District Wise Blood Stock, Shortage/Excess of Blood, camp registration, blood donation appointment, request blood and inspiring stories facility available for citizen.	The software is implemented in all Blood banks of the State Hospitals.
46. State Telephone Directory Service https://himachalservices.nic.in/phonekhoj/phnkhoj.asp	
HP State Telephone Directory Service: Users can update/insert telephone numbers of departments/ districts. Users can search for telephone numbers of departments/districts, officers' name using online state telephone directory service by Himachal Pradesh government. Links of emails, telephone numbers, PDF phone directory are also provided.	The data of about 8000 Government officials is available in searchable format and through Mobile Apps on Android, Windows and Apple platforms in a user friendly manner.
47. eVidhan Project https://hpvidhansabha.nic.in	

The eVidhan software is a paperless initiative developed and implemented in the HP Assembly where in all business of the house is conducted through the eVidhan software for interfaces for the Administrative Secretaries to respond the questions, committees, etc in online mode only.

The eVidhan software is implemented in the HP Assembly and is being considered for replication at National level in other Assemblies.

48. Mid Day Meals Automated Reporting & Management System (SMS based)

With a view to enhance the enrolment, retention and attendance and simultaneously improve the nutritional levels among children, the National Programme of Nutritional Support to Primary Education (NP-NSPE) was launched as a Centrally Sponsored Scheme on 15th August 1995. The scheme underwent many changes over the years and is now known as "National Programme of Mid Day Meal in Schools". Over 10 crore eligible school children in almost 11 lakh schools benefit from the Scheme. In order to efficiently manage the enrolment and meals being served in the Schools of various States, the MDM-ARMS software has been developed as a product so that any State Education Department can use it. The data collected will be reflected on the National Portal on daily basis. The software is available at https://mdmhp.nic.inand has been implemented in 17 States covering more than 5 lakh schools of the country.

49. HimPragati software for Chief Minister Office (https://himpragati.nic.in)

The Chief Minister office is monitoring the progress of various schemes, industrial investments, employment targets, big projects being implemented in the State, budget assurances, announcements etc. NIC has developed the requisite software for online monitoring of these projects with features to issue directions and direct data entry by stakeholder departments and industrial entrepreneurs. Software interfaces have been added for multiple parameter monitoring by including the following:

- Budget Assurances
- Departmental Parameters under Him Vikas Samiksha
- Employment Generation Targets
- Investment Targets
- Major Projects, their execution status, issues and concern resolution
- Investment Targets and MoUs
- Various other Schemes
- CM Announcements
- MoUs signed with investors under the Rising Himachal banner
- Development Indicators-Him Vikas Samiksha
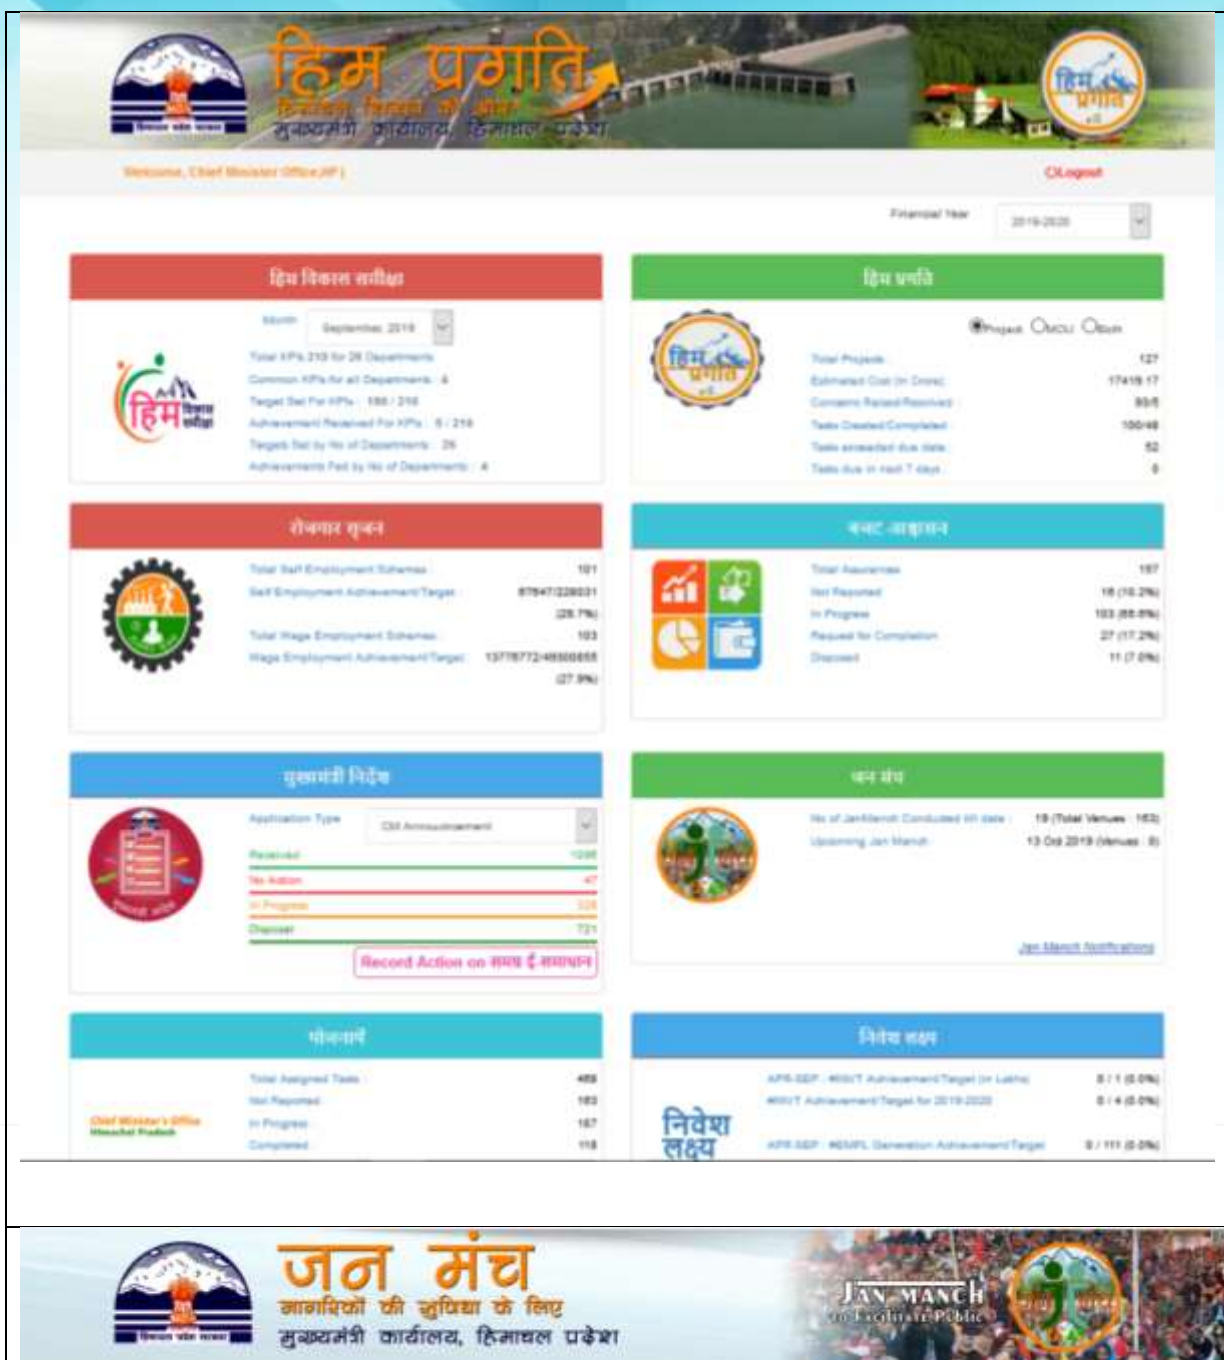

50. Jan Manch Monitoring

The ambitious project of Himachal Pradesh Government, Jan Manch is entirely monitored through the NIC developed Jan Manch software. The data entry takes place from the Panchayats every month and the software is integrated with the eSamadhan software for effective monitoring of grievances received in these Jan Manch programs which are held every first Monday of the month in 12 Panchayats and are attended by Cabinet Ministers and all District officials. So far 8 such programs have been held in every district and entire record is available online with rankings of Districts.

6.0 National level Software Projects

(Development/ Implementation/support/ consultancy aspects)

1. Name of the Project : PRAGATI

PRAGATI(Pro-Active Governance And Timely Implementation) is a multi-purpose and multi-modal platform PRAGATI is a unique integrating and interactive platform. The platform is aimed at addressing common man's grievances, and simultaneously monitoring and reviewing important programmes and projects of the Government of India as well as projects flagged by State Governments. Meeting is chaired by Hon'ble Prime Minister of India.	NIC HP has successfully conducted all sessions of Pragati.

2. Name of the Project : Esamiksha

eSamiksha is a real time, on-line system for monitoring of follow-up action on the decisions taken during the presentations made by different Ministries/Departments to the Prime Minister. The follow-up action in respect of each decision is to be updated by the concerned Ministry/Department/Agency as and when the status changes or at least every month.	eSamiksha is successfully implemented and follow-up action is regularly updated on the portal. Training was provided to the users and support is provided as and when required.

3. Name of the Project : AEBAS

AEBAS (Aadhar Enabled Bio-Metric Attendance system) is Bio-metric attendance system based on Aadhar authentication. It is a cloud based solution with real time monitoring. It works on multiplatform and form factor.	Project has been implemented for central and State Government offices in Himachal Pradesh. 96 Centre Government and 20 State Government departments has implemented the software. More than 63,636 employees are registered with portal.

4. Name of the Project : Jeevan Pramaan

Jeevan Pramaan is a biometric enabled digital service for pensioners. Pensioners of Central Government, State Government or any other Government organization can take benefit of this facility.	Project has been successfully implemented to generate Bio-metric based life certificates of pensioners of Central and State Government. More

	than 48000 pensioners in the state have used this facility.
5. Name of the Project : National Scholarship Portal 2.0	
National Scholarships Portal is one-stop solution through which various services starting from student application, application receipt, processing, sanction and disbursal of various scholarships to Students are enabled. This initiative aims at providing a Simplified, Transparent System for faster & effective disposal of Scholarships applications and delivery of funds directly into beneficiaries account without any leakages.	NSP is successfully implemented in the state. At present few schemes are active on the portal and requests and processing of these schemes are done using the portal.
6. Name of the Project : eBaalNidan	
The eBaalNidan software has been developed by National Informatics Centre Himachal Pradesh as a web enabled Complaint Management System for National Commission for Protection of Child Rights (NCPCR), New Delhi. The basic objective of this application is to provide an online interface for lodging of complaints related to child rights and the online tracking of such complaints by the Members of the Commission by forwarding these to concerned quarters all over the country. The application is available online at https://ebaalnidan.nic.in and also from the NCPCR website.	Implemented in the National Commission.
7. Name of the Project : eProcurement-Online Tendering	
The eProcurement project has been undertaken by NIC Himachal Pradesh as a paid project for the State Government and is under implementation through NICSI. The project involves HW/ SW, manpower, training components and will cover all the Tenders in 38 departments of the State Government. More than 29,928 tenders have been published having value of more than Rs. 16,750+ Crores depending upon the threshold value set by the Department.	Implemented in 38 Departments/ Organisations
8. Name of the Project : eGranthalaya-Library Automation SW	
Standard Library automation SW developed by the NIC for implementation in all Libraries of the country with web-interface for info dissemination.	Implemented in Libraries of HP Secretariat, HIPA, HP Vidhan Sabha, HP Science & Technology Department
9. Name of the Project : Computerisation of Consumer Commissions	
The computerisation of Consumer Commissions is a national level project to completely computerise the working of the Commissions in the State. The website at http://confonet.nic.in provides citizen interfaces for cause list and judgment copies.	Coverage: 100% State & 4 District Consumer Forums at Shimla, Dharamshala,

		Mandi and Una computerised under the National Project
10.Name of the Project : National Portal of India		
To enable a single window access for information and services being provided by the various Indian Government entities. A lot of content related to various categories has been contributed from Himachal Pradesh. *Web-Ratna Gold Icon Award* for NIC State Coordinator of National Portal (NCNP)		2nd Highest content contributed by Himachal Pradesh in the country and most of the services/ forms/ schemes/ Acts/ Rules contributed in systematic manner.
11.Name of the Project : AGMARKNET-Agricultural Marketing Information System Network		
NICNET based Agricultural Marketing Information System Network (AGMARKNET is for linking all-important APMCS (Agricultural Produce Market Committees), State Agricultural Marketing Boards / Directorates and OMI regional offices located throughout the country for effective information exchange on market prices.		Coverage: 41 Markets (Large/ Small covered in Himachal Pradesh) 100% coverage. Online rates, market profile is also available on the portal.
12.Name of the Project : MGNREGS (Mahatma Gandhi National Rural Employment Guarantee Scheme)		
The S/W implemented to monitor the progress of the program and capture the details of the beneficiaries directly from the panchayats and porting the data on the Internet for transparency. All funds transfer through EFMS. http://nrega.nic.in		Coverage: 100% in the State The aadhar seeding for active workers for HP is 85%.
13.Name of the Project : NeGP Agriculture		
The objective of the NeGP-Agriculture MMP is to create an environment conducive for raising the farm productivity and income to global levels through provision of relevant information and services to the stakeholders. All such applications, already developed at GoI/State level will be integrated with the Central Agri Portal (CAP) and the State Agri Portals (SAPs) envisaged under NeGP-A.		Work in progress/ Implementation underway.
14.Name of the Project : ePRI Suite		
To attain decentralised& participatory local self-government through Panchayati Raj Institutions (PRIs) with the objectives of Empowerment, enablement & accountability of PRIs to ensure inclusive development with social justice, and efficient delivery of services, a suite of ePRI applications has been developed by NIC Hqrs.		Work is in progress with all stakeholders as well as GoI empanelled agencies for development of SW solution.

15.Name of the Project : NGDRS	
National Generic Deed Registration software is being customized with the help of NIC Pune Team for implementation in all SROs of the State with pilot planned in February 2019 at Kumarsein and Sunni Tehsils.	The application is being customized for pilot implementation in 2 Tehsils of District Shimla

16.Name of the Project : HIMXLN-Extended Licensing Node	
The software enable online applying and sanction of drug manufacturing and distribution licenses to stakeholders. The software is under implementation and enables the drug manufacturers to apply online for the getting drug licenses. It is a work flow system which is used by the Drug Manufacturers from their office/homes for interaction with the State Drug Controller offices.	Implemented.

17.Name of the Project : ePrisons Software	
The ePrison software has been implemented in all prisons of the State and it captures prisoner details, entry/exit, photo, FIR, case details etc. The prisoner VC with relatives and IOs is a first in the country and is being used successfully through an online web-interface developed for this purpose. **JailVaarta has won Manthan Award 2014.**	Implemented in all 20 prisons of State Prisoner VC (JailVaarta) with relatives and IOs being done on regular basis.

18.Name of the Project : IVFRT	
Immigration, Visa and Foreigner's Registration & Tracking software is used for tracking of foreigners visiting different parts of India. The SPs in the Districts have been designated as FROs (Foreigners Registration Officer) and there are three modules of IVFRT, namely cFRO, cForm and sForm. The Ministry of Home Affairs, GoI has appreciated the efforts of NIC Himachal Pradesh in its implementation.	Implemented.

19.Name of the Project : eHospital and Online Registration System	
Online Registration System (ORS) is a framework to link various hospitals across the country for Aadhaar based online registration and appointment system, where counter based OPD registration and appointment system through Hospital Management Information System (HMIS) has been digitalized. Portal facilitates online appointments with various departments of different Hospitals using eKYC data of Aadhaar number, if patient's mobile number is registered with UIDAI.	The eHospital is implemented in three PHCs of Kangra District Bir, Dari, Kherianand one Medical College Mandi, ORS is implemented in HP Secretariat PHC, 7 Zonal hospitals.

20.Name of the Project : SPARROW-Online Filing of APARs/ ACRs	
The SPARROW project enables IAS, IPS and IFS officers to submit their annual performance appraisal reports online and evaluate the APRs submitted by their subordinate officers. The officers can also submit their property returns online.	The software is implemented successfully for IAS, IPS and IFS officersof

	HP Cadre in Himachal Pradesh.

21. Name of the Project: PM KISAN

The PM KISAN software enables financial help distribution on quarterly basis to small and needy farmers and has been implemented in Jan 2019 in the State. Presently, Unique Farmer ID generation is under progress in all Districts of HP as per GOI guidelines for linking these beneficiaries with land records.	The software is implemented, 8.8 Lakh beneficiaries are getting benefits every quarter. Unique ID generation for about 10% beneficiaries has been achieved.

22. Name of the Project: Service Plus Framework

The Service Plus frame work of NIC can be used to quickly develop and deploy online citizen services without the requirement of separate hosting platform, technology or security audit of application. It enables standard service deployment in a very short time. It has been used during Covid19 Pandemic in districts of HP to generate ePasses, contact tracing and monitoring of Covid19 suspects.	The framework has been used during the Covid19 pandemic for issuance of ePasses in District Kangra and other Districts. The initiative is highly appreciated.

23. Name of the Project: DARPAN CM Dashboard

The CM and DM Dashboard software captures data through Key Performance Indicators and displaying in multiple ways on the CM/ DM Dashboard for analysis.	The software is implemented in CM Office and Hamirpur and Sirmaur districts of Himachal Pradesh.

24. Name of the Project: Integrated Criminal Justice System (ICJS)

The Integrated Criminal Justice System software is under implementation in the State by integrating the Courts, Police, Prosecution, Prisons and Forensic Departments in online mode. The process is on to ensure is full implementation. Trainings, Demos are being conducted for the same.	The eForensic, ePrison software are implemented while eProsecution is under implementation and software integration with CCTNS is proposed now.

7.0   Major Projects under Development/ Implementation

1. Name of the Project: Covid19cc.nic.in Portal & RT-PCR Mobile App

The software is developed and implemented for white listing of RT-PCR and Rapid Anti Body mobile app users all over the country. More than 10 thousand web users and 2 Lakh mobile app users are using it in 31 States of the country for Covid19 RT-PCR tests through 8000+ Labs. RT-PCR mobile is developed for use by sample collectors so that they may do it easily for every RT-PCR sample being collected.	Software running successfully, 32 Crore samples collected by 31Dec2021. 14 SRF revisions as per ICMR requirements.

2. Name of the Project: IFMS

Online Treasury information system in Treasuries for a fully online system from Budget processing to submission of bills by DDOs in online mode only and its integration with PFMS, eKuber, GST National portal.	Additional modules being planned for GPF, Pension processing and online submission of bills by employees, eKuber integration, Biometric authentication in IFMS.

3. Name of the Project: MIS for Registration and Fund Xfer to Workers

The portal is being developed for procurement of Agriculture produce during the Kharif and Rabi seasons directly from the farmers and to release payments to them through digital mode.	Registration module completed.

4. Name of the Project: Chief Minister Office Initiatives

Jan Manch, Him Pragati, Him Vikas Samiksha, Budget Assurances, Investment Targets, Employment Targets, MoU Monitoring, Investor Issues, CM REFNIC integration with eSamadhan. New SW interfaces for front office.	All new activities completed in November 2021.

5. Name of the Project: OxyCare MIS (OCMIS) and OxyCare Mobile App

Development of OCMIS-OxyCare Management Information System for MOHFW, GoI with associated mobile app 'OxyCare' for Health Facilities in India. The software has been developed quickly and launched in June 2021 with enhancements and modifications being carried out during the course of implementation as it has PAN India implications for receipt, dispatch and finally receipt by Health Facilities and monitoring of functioning in a systematic manner.	Implemented in all States/ UTs of India in June-July 2021 and enhancements being carried out for inclusion of other Health equipment.

6. Name of the Project: HP Agriculture Produce Procurement Portal

The portal is being developed to procure Agriculture produce directly from farmers for the paddy season coming up in Oct 2021 and to transfer funds to them digitally in farmers' accounts, with data transfer to CFPP.	Work is in progress and likely to be implemented in Kangra, Una, Solan and Sirmaur Districts

Training Conducted (Financial Year: 2022-23) # 721	
Employees Trained (Financial Year: 2021-22)# 9,676	
1. Name of the training: covid19cc,RATI,RT-PCR	
Training on Covid19cc Website, RATI Mobile App, RT-PCR Mobile App of Online Covid19cc and PMCARES-OCMIS System	0
2. Name of the training: Works MIS (eIPH),HPPSC, e-Sameeksha & Directorate of Cooperation HP (Online Registration of society)	
IPH Officers training covering officials from all levels on specific modules and e-Sameeksha including hands on in the HIPA Lab	07
3. Name of the training: ICT Awareness	
General ICT awareness training in HP Secretariat on Email, Internet, Wireless, NIC Applications, Mobile Apps	19
4. Name of the training: Revenue, eSamadhan	
Training on NIC Software of eHimBhoomi-Online Charge Creation, eSamadhan held for different officers in person and through VC	0
5. Name of the training: ICT Awareness in Districts	
ICT Training to District Administration officials at District level on Hot Dak, JeewanPraman, PAO, Salary, HimRIS ,Election & Curfew epass in Covidepass application	219
6. Name of the training: eHRMS-Tours, Leaves, Pension, ACR and MDM-ARMS	
Training to other State, AG, Departmental officials on different modules of the eHRMSManavSampada and HIPA Lab	78
7. Name of the training: Treasury-OLTIS	
Training on eSalary and PAO modules of Online Treasury Information System	0
8. Name of the training: e-Procurement & NGDRS	
Training on e-Procurement, eKalyan, iRAD- integrated Road Accident Database & NGDRS modules to official of different departments	398
9. **Name of the training: e-Vidhan**	
Training-cum-workshops organized on e-Constituency Management	0

*After updation in online monthly progress report

NATIONAL INFORMATICS CENTRE NIC

Digital India

9.0　Major Activities Planned

Description of the Project	Target Date
eHRMS-Manav Sampada re-development of software on Open Source Technologies based on Micro-services architecture, replication in Sikkim, Meghalaya, Tripura	Delayed, June 2022
IRADs implementation in State of Himachal Pradesh	March 2022-Delayed
Mobile Apps are planned for with option to develop IOS and Android App for different screen sizes: • HP PSC Candidate/Management App • HP SDMA-Revision • Catch the Rain, Natural Water Sources app • HP IPR Hoardings Management App being developed: • mSuvidha app to be developed for HP Kaushal Vikas Nigam	June 2022
Employment Exchange MIS software ugradation with additional features to candidates and private sector employers	July 2022
Works MIS Upgradation of software as per best practices, SRS	March 2022
Himachal.nic.in Audio Video Section, Chatbot, Improvements, https (Secure) of all NIC HP developed websites, Excel sheet, District eSuite for software access, PPT of State	March 20222 New Activities being added
HP PSC SW replication in other PSCs-Mobile App development	June 2022-Revised
Security audit and Https for all NIC Himachal applications and shifting TLS 1.2 minimum	March 2022
GAD-Online Prize Nominations System	March 2022
Procurement of Mini Cloud/SW licenses under Finance Project	March 2022
Examination System-Online Applying of BODE-Re-evaluation	March 2022-Changes
Online submission of bills by employees under Manav Sampada	October 2021-Tested
Software solution for HP Board for Building & Construction Workers for registration, fees and benefit disbursement	March 2022
Development of OXYCARE Oxygen MIS System for MOHFW, GoI with associated mobile app for Health Facilities in India.	December 2022-WIP
Adoption of new technologies/ tools in the following areas • AI based document analysis • TEJAS for Budget data comparison, visualization • Block chain adoption for various Certificates • Micro-services based Manav Sampada	August 2022
Development of CMS based website, using PostgreSQL as backend for IHM, Kufri	June 2022
eHimBhoomi-Issues to be closed for 100% migration of Tehsils	May 2022
Updation of MDM ARMS software as PM-POSHAN software with new, enhanced features as per requirements	January 2023
Ex-servicemen Re-employment Cell software development	October 2022
Hosting of all Mobile Applications on CDAC Mobile App Store	August 2022-WIP
Software solution for mapping of Government Assets	May 2022-WIP
