Logo/ Icon	Name of the App	Available on Platform(s)	Service Category	Description
				ensure that the Rohtang permits are not mis-used.
	mSuvidha		G2C, G2B	App is developed for trainees trained by HP Kaushal Vikas Nigam to help citizens in contacting these persons for electrical, plumber, mechanic, masonry related jobs in a user-friendly manner.
	Natural Water Sources		G2G	Natural Water Sources app captures Geo Codes, Photos and other data of natural water sources to further strengthen these to meet water scarcity in State. It has been updated now to cover 900 Amrit Sarovar sites of State of HP.
	Elector Search Himachal		G2C	The electors of PRI/ULB (State Election Commission) can check their elector details, polling station details and search the names of electors based on multiple parameters.

4.1 Mobile Apps Developed and Launched by NIC District Centres under DGMC (District Governance Mobile Challenge)

S. No	District Name	App Name	Formal Launch
1	BILASPUR	AIIMS Bilaspur	By Deputy Commissioner on 12-03-2021
2	CHAMBA	Chalo Chamba	By Deputy Commissioner on 15-03-2021

3	KANGRA	e-Patta	By Deputy Commissioner on 18-03-2021
4	MANDI	mRoznamcha	By Deputy Commissioner on 15-03-2021
5	SHIMLA	ePermissions	By Deputy Commissioner on 20-03-2021

6	SIRMAUR	Mycouncillor	By Deputy Commissioner on 19-03-2021
7	SOLAN	eKalyan	By Deputy Commissioner on 15-03-2021

Other Mobile Apps developed by District Centres

S. No.	District Name	App Name	Formal Launch
1	Kangra at Dharamshala	eKATCH	The app helps in the Election Expense Monitoring process during general elections by digitising the election expenditure monitoring and ensuring that the details with regard to work done by different Government agencies is captured on real time basis.

5.0 Software Projects at State Level (Design, Development, Implementation)

Software Name	User Department/Description	Implementation Status

1. eKalyan - Welfare Pension MIS

This software automates the disbursement of pensions through Money Orders. It also automates the work of preparation of ledgers, updation of dead/non-traced pensioners records etc. It enforces the system of Pension Disbursement (as per government guidelines) right from the receipt of application stage to the disbursement of pension and has also helped the department to streamline its pension disbursement system. The new web-based S/W has now been developed and has been pilot tested for two districts.	Coverage: 100% Implemented in all 12 Districts. Approximately 4.4 Lakh pensioners being given pension (IGNOAPS, IGNWPS, IGNDPS, Old Age, Widow, Handicapped). All Central and State schemes are covered under this application.

DEPARTMENT OF WOMEN & CHILD DEVELOPMENT
HIMACHAL PRADESH

2. AWCMIS - Aanganwadi Centre MIS

https://awcmishp.nic.in

Web based applications has been developed for adding Aaganwadi Centres as well as registering the workers/helpers serving in these AWC's. The application is used for generating monthly honorarium and other payments. A number of MIS reports in graphical format are available. The software has been integrated with the state treasuries to ensure online payment of honorarium and rent direct to beneficiaries account.	Data of 78 CDPOs and around 19000 individuals working in these AWCs is available and application is being used for processing honorarium of Anganwadi Works/Helpers and rent payments of accommodation.

Department of Printing and Stationery
Govt. of Himachal Pradesh
Published Since 1st of August, 2007
Total No. of Notifications : 5841
Gazettes : 538

राजपत्र हिमाचल प्रदेश
हिमाचल प्रदेश राज्य शासन द्वारा प्रकाशित

3. eGazette - Digital Rajpatra

https://rajpatrahimachal.nic.in

From 01-August-2007 Gazettes are published online only and from 2011 onwards all Gazettes are digitally signed. Now all previous Gazettes of Himachal Pradesh before 01-August-2007 from year 1953 to 2007 have been digitalized and are available online to all stakeholders. Therefore, all Gazettes of Himachal Pradesh are available in digital searchable format and online.	Coverage: 100% Gazette published daily. Implemented since 1-Aug-2007 All Gazettes are published on the website only. Departments covered: 90

4. HimBhoomi - Land Records Computerisation

भू - अभिलेख हिमाचल प्रदेश
राजस्व विभाग

eHimBhoomi is unique software as it helps to generate the next Jamabandi and related records after amalgamating changes due to mutations and other transactions. The citizen can get copy of record of rights (RoR) from LokMitra Kendra or Tehsil Centre. All LokMitraKendras are authorized to issue signed RoR through HimBhoomi website. The citizens can also access RoR by visiting the official website of the HP Revenue Department at https://himachal.nic.in/revenue. The copies of Plot Maps (Both Musavi and Latest) are also being made available along with the Jamabandi copies for the Tehsils where maps have been digitized and verified. It has been integrated with the BhuNaksha software for providing digitized map copies along with the RoR. Land Records are also integrated with Registration of Deeds software HimRIS. eDistrict, Crop Insurance. Soil Health Card portals are also integrated with the system to provide real time data of Land Owners.

Tehsils made online: All Certified Copy of Jamabandi, ShajraNasb distribution through 3745 LokMitra Citizen Service Centres (2738 LMK users have issued one or more RoRs). Till date total of 75 lakh+ ROR copies have been issued through LMKs/Sugam, generating Rs.17.70 Crore service charges.

The new Jamabandi format has been made simpler and is now in easy Hindi vocabulary. Old languages like Urdu, Arabic, and Farsi have been removed so that common people can easily understand land records.

5. Saarthi - Driving License Issuance System

The driving license issuance system has been developed by NIC as a standard solution for issuing smart card based DLs to public. The S/W doesn't allow wrong issuance of DLs.

100% coverage, Web enabled Sarathi 4.0 has been Implemented in all the RLAs/RTOs of the State.

6. Vahan - Registration of Vehicles Information System

The vehicle registration SW is a standard S/W developed by NIC for the country wide implementation to enable the tracking of vehicles across the country by porting data to a central national register which will be a deterrent for vehicle thieves and help in faster detection of owner/ vehicle details in case of need.

100% coverage Web based Vahan4.0 has been implemented in all the RLAs/RTOs of the State.

7. Transport Barrier Information System

The software has been developed to collect the tax from the vehicle owners as per norms and also to generate various statutory & query reports as well as to help them in changing the fee collection structure within no time at the Transport barriers. Implemented at 10 Interstate transport barriers.

Implemented at 10 Interstate Transport barriers.

8. PUC 2.0 (Pollution Under Control)

To tackle air pollution by ensuring that vehicles are physically inspected and their emissions are checked, a PUCC (Pollution Under Control Certificate) is issued. The PUC 2.0 project, mandates physical presence of the vehicle at Automated Emission Testing Centers (AETCs) and includes live video recording and geo-location of the mobile device for issuing PUCC.

The PUC2.0 has been implemented in Himachal Pradesh with its integration with HimKosh.

9. eDetection

The eDetection Application is reshaping road safety by automatically identifying vehicles which are either blacklisted or operating without valid Motor Vehicle (MV) documents such as Tax, Fitness, Insurance, Pollution Under Control Certificates (PUCC) and

Permits. This system leverages vehicle data from Toll Plazas to issue eChallan seamlessly for the defaulter vehicles detected by the application. Additionally, it helps in identifying counterfeit vehicles with falsified Number Plates by cross-referencing with the Vahan database.	Initially implemented on pilot basis on three NHAI Toll Plazas in HP, the Himachal Entry Tax violations have also been integrated through eCheckpost application in the eDetection system.

10. Citizen Service Centres (Sugam, LokMitra, Pehal, eVikas)

The **Sugam Centre**, one of its kind, provides centralized integrated services to citizens for different departments under one roof. The services cover online transactions like registration of deeds/ vehicles, issuance of licenses/ certificates, payments etc. It is set up in all DC office of the districts and offers more than 50+ services under single roof.

LokMitra: It provide the rural masses with the benefits of Information Technology at their doorstep, the State Government named all MeitY sponsored Citizen Service Centres (CSCs at 3243 Panchayats and Urban Areas) as LokMitra Kendras based on the pilot project implemented by NIC HP in Hamirpur district earlier. The objective is the saving in time and money of the people, which is spent in physically visiting various Govt offices.

Pehal-Citizen Service Centers: It introduce the transparency in the government functioning and to provide better, friendlier, speedier, efficient services to the citizen on a single window. These Service Centers have been set up to offer Driving License and Registration of Vehicle services at all District HQs/Sub-Divisions (RLAs)/RTOs and STA.

11. Budget Processing MIS

Budget Processing and monitoring system developed for the State Finance Department covering real time generation of Supplementary and regular Budget, Re-appropriation, Budget documents. Improvements have been carried out to link it with the Planning department and other State departments to prepare scheme wise online Plan budget proposal &final estimates for the coming financial year. System also generates the scheme wise budget estimates for the next 3 years.	The SW has been implemented for the last many years. Budget Suggestions portal has been integrated with it.

12. OLTIS - Integrated Online Treasury Information System

i-OLTIS is an online centralized application for conducting all the treasury operations. It facilitates processing of bills created online by DDO to creating payment scrolls for banks which banks download from the portal itself thus speeding up the process of payments to beneficiaries. It also simplifies other treasury operations like stamps distribution, DDO management, creating and rendering account to AG office. Real time expenditure reports help the HOD/DDO to utilize the allocated budget in efficient ways. Web services were developed to integrate departmental application for sending online bills. A new module has been developed for the final payment of the GPF of the State Government employees. Various applications viz. Manav Sampada, Treasury and HP AG have been integrated using Open Web APIs for online processing, approval and disbursement of the final payment of the GPF.	Coverage: 100% Implemented in 105 Treasuries. All 16 District level and 89 Sub-Treasuries have been computerised.

13. eSalary - Integrated Online Bill Creation & Submission System (now eBills)

The IPAO System is meant to centralize the job of payroll processing at designated 52 IPAO offices to be located at Treasuries. The DDOs process the monthly related changes of their employees and inform the IPAO offices. The application has been enhanced to include all non-salary bills also. Standardized forms were devised to capture bill details under authorised budgeted schemes by integrating online budget distribution system. After verification, Treasuries process the bills and releases the payments directly into beneficiaries' accounts.	Coverage: 100% 52 Treasuries serving as IPAOs and processing salary for all employees of the State Government.

14. ePension   https://himkosh.hp.nic.in/treasuryportal

The ePension SW has been implemented in 12 District Treasuries for calculation, modifications, processing & disbursement of Pension to 1,10,042 pensioners in Himachal Pradesh on monthly basis. The payment of pension is made electronically through bank branches/ accounts specified by the pensioners. Online Interface, Pensioners' Helpline, is available on the Internet for pensioners to view their pension disbursement details. The SW covers superannuation, family and political pensioners. The SW is web-based and data is stored on the central server at NIC Shimla. Jeevan Praman integration has also been done.	Coverage 100% Monthly pension disbursement is through approximately 1200 bank branches **Award:** National eGov Gold Icon Award 2006

15. eVitran – Online Budget Distribution System

The web-based application is available to the HODs of various Departments for distribution of sanctioned budget to their respective DDOs in the field offices. Sanction letters for the DDOs are generated through the SW. Based on this distribution, payments of bills from the Treasuries are authorised. Software has linkage with other applications also.	Coverage 100% Online sanction letters are available to DDOs. eVitran has been integrated with eBills and iHPOLTIS, facilitates the DDOs to prepare bills under authorized heads.

16. eNPS - New Pension Scheme

The computerised New Pension Scheme SW is for monitoring the employees contribution under NPS. Total 72656 employees of the State Government have been covered under this Scheme. It also has interfacing with the eSalary SW. The total funds (by including matching Government contribution) are transferred to	Coverage 100% Online NPS detail is available to the employees.

the Bank of India and subscriber wise details are electronically transferred to the NSDL.

17. eChallan - Cyber Treasury

An online Government Receipts Accounting System of Himachal Pradesh Government. The departments which generate revenue for the Government are associated with eChallan. A citizen can deposit government money using eChallan by logging on to the system using net banking on 24x7 basis and also directly in bank after generating eChallan from Treasury facilitation counter. eChallan has been integrated with departmental applications like Vahan, Sarthi, TCP etc. for online payments.	eChallans are being generated through this system.

18. GPF Information System for HP AG Office

The employee GPF information system of the HP AG office has been developed specifically to meet the G2E needs of employees in their interaction related to GPF/Pension issues. GPF statement is also available on the mobile.	Available at https://aghp.cag.gov.in

19. SNA SPARSH - System for National Accounts

For the adoption of the Just-in-Time (JIT) release of the funds under Centrally Sponsored Schemes (CSS) using digital platforms like PFMS, e-Kuber (RBI) and State IFMIS, NIC HP State Centre has developed the SNA-SPARSH application, which facilitates seamless fund management and ensures efficient implementation of the JIT system.	The application has been rolled out and implemented across all the Departments of the State for the fund management under the Centrally Sponsored Schemes (CSS).

20. Double Entry Accounting System

DEAS is a computerised solution for maintenance of accounts on double entry system of accounting for development blocks and generating all mandatory reports. The financial transactions are captured in the form of vouchers and linked with development works being executed through Panchayats.	Implemented in all the Development Blocks of the State. A central reporting s/w has also been developed.

21. REFNIC - References Monitoring System

Electronic tracking of files/ letters (Papers under consideration) in a big office, Internet interface for officers/ general public, auto-emails for better monitoring/ assessment of workload in different sections.	Implemented at HP Secretariat, HPSEB, DDT&G, Directorate of Education.

22. CM REFNIC

This software is used for monitoring of references received in the form of ordinary letter/fax/telegram/e-mails from various resources e.g. general public, ministers, MLAs & other VIPs related transfer, development, grievances etc.	Coverage: 100% Implemented in CM Office since 2004.

23. Samgr eSamadhan - Comprehensive Public Grievance Redressal System

To resolve the problems in the manual system, a generic web-based system "Samgr e-Samadhan" for grievance monitoring has been developed. The web-based SW enables online filing of grievances/ demands by citizens and their redressal through the work-flow system developed for the back-end Government offices. Features to monitor selected application by higher authorities, view graphical reports, request for transfer of application through RPG and monitor the quality of disposal.	https://esamadhan.nic.in Coverage: It has been implemented since 2009 covering all the Departments. SW is also integrated with CPGRAMS, CM RefNIC to provide single system for redressal of Grievances.

24. Works MIS

The Works MIS includes the working methodology of the department at all operational levels viz. Section, Sub-Division, Division, Circle, Zonal & Head Office and comprises of the following main functions: 1. Finance Management, 2. Scheme Management, 3. Contractor Management, 4. Material Inventory Management. Efforts are on to operationalize & utilize the full potential of the SW.	The SW has been implemented in 46 Sivisions of the JSV. Online Water Bills are being generated on pilot basis. System is also Linked with the e-Procurement software for e-Tendering).

25. Employment Job Portal

	https://eemis.hp.nic.in
A computerised solution for the day-to-day activities of the various Employment Exchanges in the State starting from candidate registration, vacancy booking, submission or sponsoring, renewal, seniority and rotation as per the prescribed rules and regulation of the state and central Labour & Employment department.	The web enabled software is meant for around 8 lakh unemployed youth of the State. Private Sector Industries are also registered with the Department of Industries.

26. Skill Development and Unemployment Allowance MIS

The SDA software enable the registered candidates of Employment exchanges to apply online for seeking training in the recognized training institutes and ensure timely payment of allowance to beneficiaries. The unemployment allowance is also disbursed online through the system on monthly basis.	The software is implemented in all the Regional, District and Sub employment Exchanges of the State since 1st April, 2015.

27. OFRIS - Online Factory Registration System

The OFRIS (Online Factory Registration System) is an automated web-based system which offers facilities for online submission of application for building Plan approval &factory Registration in an automated and work-flow manner thereby helping in the reduction of time span in the registration besides making the	No. of factories registered under Factory Act: Building Plan Approval: 3353 Factory Registration: 3058 Factory Renewal: 7831 Factory Amendment: 1841

applicant aware about the status at each stage during the process.	

28. Manav Sampada - Personnel MIS	https://ehrms.nic.in
The Personnel MIS is developed for convenient and effective monitoring of employee service book with complete details (e-Service Book). Using Personnel MIS, the information like Personal, Professional, Address, Nominee, Family, Education, Training, Leave, ACR, Service History is available on the click to all the employees, helping all individuals to view their upto-date service book from remote location irrespective of reporting office. **Awards**: National eGovernance Gold 2018 and CSI Award of Sustenance 2017, Gems of Digital India Award 2018 – Jury Choice	100 % Implementation in all Departments / Corporation/ Boards of the State. 2.50 Lakh employees covered. Mobile App is also available on Android and iOS. Software has been replicated in 17 States/Central Organisations covering more than 18 Lakh Service Books.
29. Him Atithi Online Government Guest/Rest/Circuit House Booking	
The online booking of Government Guest/ Rest/ Circuit House/Bhawan booking software enables employees and citizens to book accommodation online using this portal and guest houses of PWD, GAD are being offered for online booking through this portal. The application has been customized for Jal Shakti Vibhag (JSV) and launched by Shri Mukesh Agnihotri, Hon'ble Deputy Chief Minister on 20 January 2026. Now the JSV Rest Houses, Inspection Huts, Kisan Bhawans and VWSC Bhawans in HP can be booked online by Government Employees as well as general public.	https://himatithi.nic.in https://himatithi.nic.in/jsv/defaultRhbs.aspx or https://jsv.hp.nic.in/
30. eHimApurti	https://food.hp.nic.in/
The web enabled SW primarily focuses on effective monitoring of the working of department (generating of all mandatory reports by compilation data entered in different offices), providing citizen services and successful implementation of RTI. It has been implemented in 12 DFSC offices. The supply chain &FPS automation will start now.	Coverage: 100% Implemented in all 12 DFSC offices in 12 Districts.
31. Schemes MIS	
Schemes Monitoring Information System is a complete solution for monitoring and reviewing the progress made in implementation of the Developmental Schemes by keeping track of both financial and physical parameters.	Implemented in 10 Districts of Shimla, Solan, Mandi, Kangra, Una, Sirmaur, Chamba, Kullu, Hamirpur and Sirmaur.

32. Examination Processing System	
The Board of Departmental Examinations (BODE) is responsible for conducting departmental examinations for various categories of the HP Government employees, twice a year. The generalized web-enabled Examination Processing System S/W has been developed to computerize the whole process in a work flow manner.	Implemented in MSHIPA. Web interface available at https://himachal.nic.in/ /hipa
33. Road Permits Issuance System	
In order to regulate the traffic on sealed and restricted roads and also provide citizens a pleasurable walk on the various roads in Shimla, the GoHP issues the road permits under the Act. The web-based applications has been developed for issuance of passes/ permits.	Implemented in HP Secretariat& DC office Shimla.
34. Inner Line Permits Issuance System	
The software helps the administration to issue the permits in better and controlled manner for the visitors coming from the remote tribal district of Kinnaur.	Implemented in Kinnaur District
35. Gate Pass Issuance System	
SW with photo capturing and bar code-based checking at gates for effectively controlling & regulating the visitors and enforce security in HP Secretariat.	Implemented in HP Secretariat.
36. Web Enabled G2C Interfaces	
The web-based interface for Telephone Directory and Civil Lists of IAS, HPAS, HP Secretariat officers, and HP Secretariat Library search interface. It also provides interface for Vacancies, Tenders, Announcements, Vidhan Sabha Questions, List of Business, Proceedings etc. BHASHINI's (https://bhashini.gov.in) Language Translation Services, which translates web-page text in 22 Indian Languages is integrated with the HP Government CMS (himachal.nic.in/finance and other 25 websites on this CMS).	Available at https://himachal.nic.in
37. House Allotment MIS	
The SW has been developed for fair and transparent allotment of Government Pool Accommodations to officers at Shimla. The Priority Lists and Monthly Rent Roll are generated through the SW. The SW is linked with eSalary. Monthly Rent Demand is made available to DDO's.	Implemented at Shimla for the Directorate of Estates.

38. Integrated Online Hotels Reservation System	
iOHRS software provides the online availability status of accommodations and instant online reservation facility of any group/chain of Hotels to the prospective Guests/ Tourists/ Visitors or general public. Online reservation of accommodations and cancellations of already done reservations in hotels can be done instantly by the Guests themselves or	The S/W has been Implemented in HPTDC since October 2001 with over 10 Lakh bookings. The project has been awarded the **National eGovernance Gold Icon Award** in the year 2015.

through authorized offices/agents. The S/W is integrated with online payment gateways and the online channel manager AxisRoom, Mobile-App, email and SMS Gateways. Integration with the AxisRoom channel manager enables the presence of all Hotels of the concerned group/chain of hotels at all popular online travel portals by making complete inventory of its Hotels available to these portals online.

39. Election Support

The S/W has been developed for the support to be provided in the randomization of Polling and Counting Staff, uploading of scanned documents of contesting candidates, compilation of election results, data transmission to ECI Web Servers. Mobile based polling trends SW developed. Regular VCs arranged with ECI, CEO, ECI Observers and Deputy Commissioners. NextGen DISE software support is provided in the recently held Lok Sabha General Elections and Vidhan Sabha Bye-Elections.	Support is being provided since 2007 to all 12 Districts during the Lok Sabha and Assembly Elections.

40. PRI/Urban Local Bodies Elections - Generation of Electoral Rolls

The software is for generation of Electoral Rolls from the existing ECI rolls for the Panchayati Raj Institutions and Urban Local Bodies Elections, minimizing the data entry work. The S/W has been expanded to cover the PRI Representatives including capacity building through continuous training at various Training Institutes in the State. The Electoral Rolls are being generated using this application since 2010 and all annual revisions are carried out by ERMS. The revision of electoral rolls for 2015 general elections has also been carried out successfully in the elections held recently. Till now 2 general elections have been conducted using Electoral Rolls generated using ERMS. Software interface being developed for the Election process now. Now EVM management and poll day processes have also been automated and elections held through SW since 2022-23.

41. Energy - Power Projects Monitoring System

Various power projects sanctioned by the State Government for development and generation of electricity through independent power producers (IPP) need close monitoring as majority of the producers have not developed these projects, which affects State economy. Therefore, the project has been developed for close monitoring of such power projects in the private/ public sector. The LADF payment & usage is being monitored.	The software is under implementation and User IDs have been given to the Project developers and producers to enter the status of projects for monitoring purposes.

Tourism Development Council Manali (HP)

42. Rohtang Pass Permit Issuance System   https://rohtangpermits.nic.in/

This application is used by common citizens as well as the authorities of District Kullu to generate permits for the vehicles going to and across Rohtang pass. In addition, Special Rohtang Pass permit, Hamta Pass permit and Manali Entry Green Tax permits are also being issued and managed through this application. The application is developed as per the guidelines of National Green Tribunal where vehicles are permitted daily as per the defined quota.	The project was implemented on September, 2015. Over 9,94,180 permits have been issued through this application and approximately ₹ 41.62 Crores of tax has been collected in lieu of the issuance of various permits.

43. Special Road Tax System

The SRT is a web based application used by the RTO authorities of Transport Department, Himachal Pradesh for time table and route permit issuance of Stage Carriage Vehicle. Application auto- calculates the monthly prepaid Special Road Tax using formula based on the Road Permit parameters like seating capacity, distance and category of roads.	RTOs have collected over Rs. 92.67 Crores as Tax since 2013.

44. Swayam Sidham Education Portal
http://samagrashiksha.hp.gov.in/

The portal has been developed to facilitate the teachers and students in improving quality of education in Government schools by providing online interface for quality content. Online training of teachers is latest teaching aids is possible through this portal.	Online Books, Multiple choice question-answer, tests, previous board exam papers, lesson plans, indicators, queries of students, best answer sheets are available.

45. eStock Management System

Web enabled solution for handling purchase, inventory control & maintenance activities of consumable & Non-consumable stock items. The module for procurement and issuance of consumable items has been implemented. The modules for Non-consumables and maintenance of hardware are under development	The software is under testing in NIC HP.

46. State Telephone Directory Service
https://himachalservices.nic.in/hpcivil/Home?TabId=2

HP State Telephone Directory Service: Users can update/insert telephone numbers of departments/ districts. Users can search for telephone numbers of departments/districts, officers' name using online state telephone directory service by Himachal Pradesh government. Links of emails, telephone numbers, PDF phone directory are also provided.	The data of about 8000 Government officials is available in searchable format and through Mobile Apps on Android, Windows and Apple platforms in a user-friendly manner.
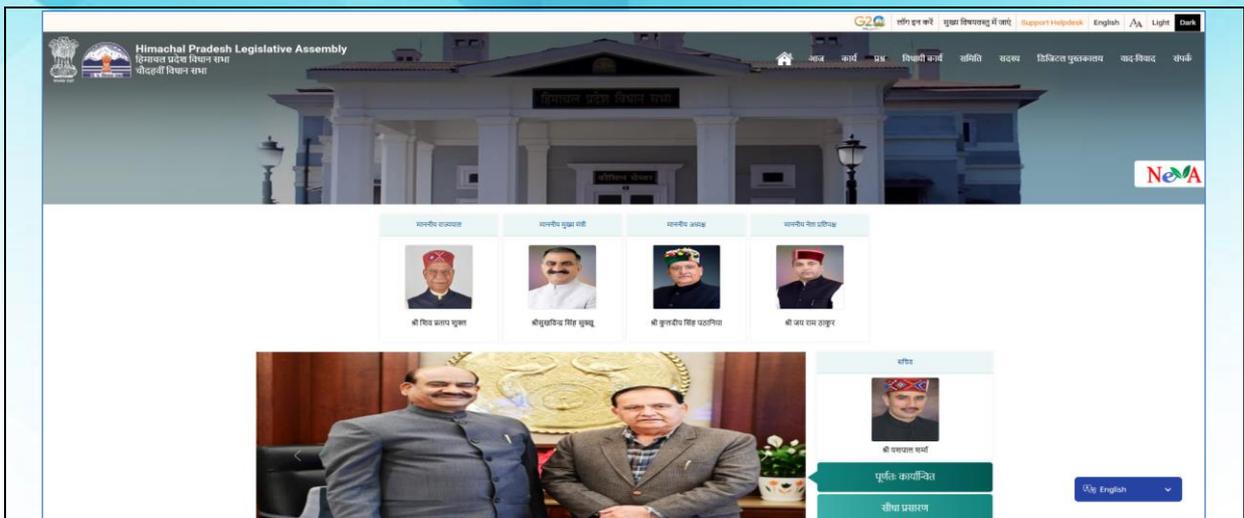

47. eVidhan/NeVA Project	https://hpvs.neva.gov.in/ https://cmshpvs.neva.gov.in/
The NeVA (National eVidhan Application) is a paperless solution initially developed and implemented in the HP Assembly as eVidhan where all business of the house is conducted through this application including interfaces for the Administrative Secretaries to respond to the questions, committees etc. in online mode only.	Both, HP Vidhan Sabha application and website have been migrated to national standard and GIGW compliant NeVA platform.

Pradhan Mantri Poshan Shakti Nirman (PM POSHAN)
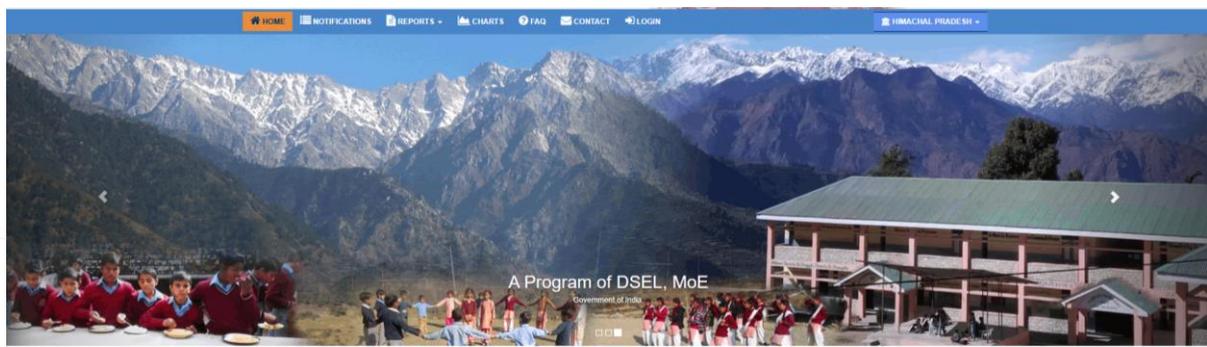

48. Mid Day Meals Automated Reporting & Management System (SMS based)

With a view to enhance the enrolment, retention and attendance and simultaneously improve the nutritional levels among children, the National Programme of Nutritional Support to Primary Education (NP-NSPE) was launched as a Centrally Sponsored Scheme on 15th August 1995. The scheme underwent many changes over the years and is now known as "PM POSHAN". Over 10 crore eligible school children in over 11 lakh schools have been benefited from the scheme. In order to efficiently manage the enrolment and meals being served in the Schools of various States, the MDM-ARMS software has been developed as a product so that any State Education Department can use it. The data collected will be reflected on the National Portal on daily basis. The software is available at https://mdmhp.nic.inand has been implemented in 17 States covering more than 5 Lakh schools of the country.

49. HimPragati Software for Chief Minister Office   https://himpragati.nic.in

The Chief Minister office is monitoring the progress of various schemes, industrial investments, employment targets, big projects being implemented in the State, budget assurances, announcements etc. NIC has developed the requisite software for online monitoring of these projects with features to issue directions and direct data entry by stakeholder departments and industrial entrepreneurs. Software interfaces have been added for multiple parameter monitoring by including the following:

- Budget Assurances
- Departmental Parameters under Him Vikas Samiksha
- Employment Generation Targets
- Investment Targets
- Major Projects, their execution status, issues and concern resolution
- Investment Targets and MoUs
- Various other Schemes
- CM Announcements
- MoUs signed with investors under the Rising Himachal banner
- Development Indicators-Him Vikas Samiksha

50. HP Agriculture Produce Procurement Portal   https://hpappp.nic.in

HP Agriculture Produce Procurement Portal, enables the farmers of Himachal Pradesh to sell their produce as per MSP. The system facilitates farmers' registration for procurement of agriculture produce online and make payment in their bank accounts. It is integrated with Land Records system of State.
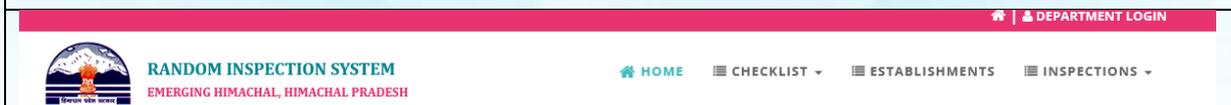

51. Common Inspection System   https://cis.hp.nic.in

The Government of Himachal has constituted a "Central Inspection System" as part of "Ease of Doing Business" for improving the inspection system with an objective to ensure clarity on inspections, frequency of inspections, and reducing duplications. This Inspection System aims to achieve the objective of simplifying business regulations and bring in transparency and accountability in inspections and ensure synchronized Department of Industries (Boilers), Labour Department and HP State Pollution Control Board (HPPCB) based on Risk Assessment.

52. Large Dams Safety Analysis MIS   https://hpdams.hp.gov.in

The software enables monitoring of the 23 large dam sites under Directorate of energy, GoHP, to enter the daily parameters thrice every day at 9:00AM, 2:00PM and 7:00PM. The safety related parameters are also captured periodically, in online manner. The higher authorities can monitor these parameters with the help of data analytics to take timely actions, in case there is any disparity in these parameters, so that disasters can be avoided.

53. HP State Disaster Mitigation Fund MIS   https://hpsdmf.hp.gov.in

SDMF (State Disaster Mitigation Fund) MIS is an initiative by the State Government for online disbursement of the funds through SDMA. It is a single sign-on, role-based application covering all the stake holders like Departments/Executing Agencies, DDMAs, SDMA, Project & Technical Appraisal Committees (PAC & TAC), State Executive Committee (SEC) and Technical Advisors for submission

of the proposals, evaluation, approvals, disbursement of funds and monitoring of physical & financial progress. The application has been implemented in the state and all the stakeholders have started onboarding the application.

Institutes can also partner online with SDMA through this application for Innovation, Technology, Research, Studies and Learning purpose.

54. HP RERA Management Information System   https://hprera.nic.in

The HPRERA Management Information System is unique software of its kind that provides ease of accessibility and simplicity in usage to the Promotors, Agents, Home buyers and Citizens from even the remote part of the Country. The primary objective of RERA is to bring transparency, timely delivery of Real Estate Projects and generate faith and confidence in Real Estate Buyers. It has interface for grievance resolution, online payments and resolution of disputes.

The application has been migrated to the NGC 1.0 (National Government Cloud).

55. Single Use Plastic Items Challans   https://bannedsup.hp.nic.in

The Banned Single Use Polythene (SUP) Challan Software is an initiative of the Department of Environment, Science, Technology and Climate Change, Govt. of HP to enable the various authorities to challan the people or institutions making use of Banned Single Use Polythene items, using the Mobile Apps available on Android and iOS platforms. The web application facilitates the higher authorities (like Deputy Commissioner, Superintendent of Police and the Nodal Department to monitor the challan related activities performed by various Authorized Officers.

The challaned person or institution can pay the fine/challan amount online using either QR Code or payment gateway. This facility is available on both the mobile app as well as web application.

56. HP Milk Incentive Scheme   https://genpmis.hp.nic.in/ahmis
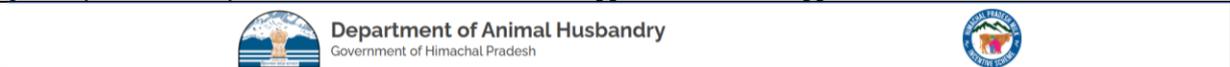

To strengthen the rural dairy economy and to ensure the timely assistance to the farmers, Milk Incentive Scheme is an end-to-end, DBT enabled application for processing and transfer of the Milk Incentive to the Livestock Farmers and Freight Subsidy to the Cooperative Milk Societies.

It is a work-flow based system using which farmers receive instant SMS notification through portal for the benefits transferred to their registered bank accounts. They can also login into the portal through OTP authentication using their registered Mobile Number and can check the Milk Supplied Details, Payments & Deductions etc., if any by their respective Milk Societies and the Milk Incentive paid by the Government. Freight Subsidy to Milk Societies is also directly transferred to their bank accounts.

The application is fully integrated with State Budget and eBills software ensuring that no manual intervention is required at any stage.

6.0 National level Software Projects
(Development/ Implementation/Support/Consultancy aspects)

1. Name of the Project: PRAGATI

PRAGATI(Pro-Active Governance And Timely Implementation) is a multi-purpose and multi-modal platform PRAGATI is a unique integrating and interactive platform. The platform is aimed at addressing common man's grievances, and simultaneously monitoring and reviewing important programmes and projects of the Government of India as well as projects flagged by State Governments. Meeting is chaired by Hon'ble Prime Minister of India.	NIC Himachal Pradesh has successfully conducted all sessions of Pragati since the beginning of the project.

2. Name of the Project: Esamiksha

eSamiksha is a real time, on-line system for monitoring of follow-up action on the decisions taken during the presentations made by different Ministries/Departments to the Prime Minister. The follow-up action in respect of each decision is to be updated by the concerned Ministry/Department/Agency as and when the status changes or at least every month.	eSamiksha is successfully implemented and follow-up action is regularly updated on the portal. Trainings were provided to the users and support is being provided as and when required.

3. Name of the Project: AEBAS

AEBAS (Aadhar Enabled Bio-Metric Attendance system) is Bio-metric attendance system based on Aadhar authentication. It is a cloud based solution with real time monitoring. It works on multiplatform and form factor.	Project has been implemented for central and State Government offices in Himachal Pradesh. 96 Centre Government and 20 State Government departments has implemented the software. More than 63,636 employees are registered with portal.

4. Name of the Project: Jeevan Pramaan

Jeevan Pramaan is a biometric enabled digital service for pensioners. Pensioners of Central Government, State Government or any other Government organization can take benefit of this facility.	Project has been successfully implemented to generate Bio-metric based life certificates of pensioners of Central and State Government. More than 48000 pensioners in the state have used this facility.

5. Name of the Project: National Scholarship Portal 2.0	
National Scholarships Portal is one-stop solution through which various services starting from student application, application receipt, processing, sanction and disbursal of various scholarships to Students are enabled. This initiative aims at providing a Simplified, Transparent System for faster & effective disposal of Scholarships applications and delivery of funds directly into beneficiaries account without any leakages.	NSP is successfully implemented in the state. At present few schemes are active on the portal and requests and processing of these schemes are done using the portal.
6. Name of the Project: eBaalNidan	
The eBaalNidan software has been developed by National Informatics Centre Himachal Pradesh as a web enabled Complaint Management System for National Commission for Protection of Child Rights (NCPCR), New Delhi. The basic objective of this application is to provide an online interface for lodging of complaints related to child rights and the online tracking of such complaints by the Members of the Commission by forwarding these to concerned quarters all over the country. The application is available online at https://ebaalnidan.nic.in and also from the NCPCR website.	Implemented in the National Commission.
7. Name of the Project: eProcurement-Online Tendering	
The eProcurement project has been undertaken by NIC Himachal Pradesh as a paid project for the State Government and is under implementation through NICSI. The project involves HW/ SW, manpower, training components and will cover all the Tenders in 38 departments of the State Government. More than 29,928 tenders have been published having value of more than Rs. 16,750+ Crores depending upon the threshold value set by the Department.	Implemented in 38 Departments/ Organisations.
8. Name of the Project: eGranthalaya-Library Automation SW	
Standard Library automation SW developed by the NIC for implementation in all Libraries of the country with web-interface for info dissemination.	Implemented in Libraries of HP Secretariat, MSHIPA, HP Vidhan Sabha, HP Science & Technology Department.
9. Name of the Project: e-Jagriti - Computerisation of Consumer Commissions	
The computerisation of Consumer Commissions is a national level project to computerise the working of the Commissions in the State. The eDaakhil, OCMS, CMS and ConfoNET applications have been subsumed into a new comprehensive platform e-Jagriti (https://e-jagriti.gov.in/) and the same has been implemented in the State from 1st April 2025.	Coverage: 100% State & 4 District Consumer Forums at Shimla, Dharamshala, Mandi and Una computerised under the National Project.

10. Name of the Project: National Portal of India

To enable a single window access for information and services being provided by the various Indian Government entities. A lot of content related to various categories has been contributed from Himachal Pradesh. Web-Ratna Gold Icon Award for NIC State Coordinator of National Portal (NCNP)	2nd Highest content contributed by Himachal Pradesh in the country and most of the services/ forms/ schemes/ Acts/ Rules contributed in systematic manner.

11. Name of the Project: AGMARKNET-Agricultural Marketing Information System Network

NICNET based Agricultural Marketing Information System Network (AGMARKNET is for linking all-important APMCS (Agricultural Produce Market Committees), State Agricultural Marketing Boards / Directorates and OMI regional offices located throughout the country for effective information exchange on market prices.	Coverage: 41 Markets (Large/ Small covered in Himachal Pradesh) 100% coverage. Online rates, market profile is also available on the portal.

12. Name of the Project: MGNREGS (Mahatma Gandhi National Rural Employment Guarantee Scheme)

The S/W implemented to monitor the progress of the program and capture the details of the beneficiaries directly from the panchayats and porting the data on the Internet for transparency. All funds transfer through EFMS. http://nrega.nic.in	Coverage: 100% in the State The aadhar seeding for active workers for HP is 85%.

13. Name of the Project: NeGP Agriculture

The objective of the NeGP-Agriculture MMP is to create an environment conducive for raising the farm productivity and income to global levels through provision of relevant information and services to the stakeholders. All such applications, already developed at GoI/State level will be integrated with the Central Agri Portal (CAP) and the State Agri Portals (SAPs) envisaged under NeGP-A.	Work in progress/ Implementation underway.

14. Name of the Project: ePRI Suite

To attain decentralised& participatory local self-government through Panchayati Raj Institutions (PRIs) with the objectives of Empowerment, enablement & accountability of PRIs to ensure inclusive development with social justice, and efficient delivery of services, a suite of ePRI applications has been developed by NIC Hqrs.	Work is in progress with all stakeholders as well as GoI empaneled agencies for development of SW solution.

15. Name of the Project: NGDRS

A project initiated by the Department of Land Resources, Ministry of Rural Development, Government of India, the National Generic Document Registration System (NGDRS) is a common, generic and configurable application developed for registration departments across the country. The application is specifically designed for the use of sub registrars, citizens and apex users from registration departments.	The application is implemented in all the viable SROs (Sub Registrar Offices) in the State. 'My Deed' pilot project has been launched for easier Land Registry.

16. Name of the Project: HIMXLN-Extended Licensing Node

The software enables online applying and sanction of drug manufacturing and for distribution of licenses to stakeholders. The software enables the drug manufacturers to apply online for the getting Drug Licenses. It is a work flow system which is used by the Drug Manufacturers from their office/homes for interaction with the State Drug Controller offices.	Implemented.

17. Name of the Project: ePrisons Software

The ePrison software has been implemented in all prisons of the State and it captures prisoner details, entry/exit, photo, FIR, case details etc. The prisoner VC with relatives and IOs is a first in the country and is being used successfully through an online web-interface developed for this purpose. **JailVaarta has won Manthan Award 2014.**	Implemented in all 20 prisons of State Prisoner VC (JailVaarta) with relatives and IOs being done on regular basis.

18. Name of the Project: IVFRT

Immigration, Visa and Foreigner's Registration & Tracking software is used for tracking of foreigners visiting different parts of India. The SPs in the Districts have been designated as FROs (Foreigners Registration Officer) and there are three modules of IVFRT, namely cFRO, cForm and sForm. The Ministry of Home Affairs, GoI has appreciated the efforts of NIC Himachal Pradesh in its implementation.	Implemented in all the Districts.

19. Name of the Project: eHospital and ORS - Online Registration System

Online Registration System (ORS) is a framework to link various hospitals across the country for Aadhaar based online registration and appointment system, where counter based OPD registration and appointment system through Hospital Management Information System (HMIS) has been digitalized. Portal facilitates online appointments with various departments of different Hospitals using eKYC data of Aadhaar number, if patient's mobile number is registered with UIDAI.	The eHospital and ORS is implemented in Medical College Mandi, Civil Hospitals, PHCs and Zonal hospitals. Efforts are being done for the migration to NextGen e-Hostpital system.

20. Name of the Project: SPARROW-Online Filing of APARs/ ACRs

The SPARROW project enables IAS, IPS and IFS officers to submit their annual performance appraisal reports online and evaluate the APRs submitted by their subordinate officers. The officers can also submit their property returns online.	The software is implemented successfully for IAS, IPS and IFS officers of Himachal Pradesh.

21. Name of the Project: PM KISAN

The PM KISAN software enables financial help distribution on quarterly basis to small and needy farmers and has been implemented in Jan 2019 in the State. Presently, Unique Farmer ID generation is under progress in all Districts of HP as per GOI guidelines for linking these beneficiaries with land records.	The software is implemented, 8.8 Lakh beneficiaries are getting benefits every quarter. Unique ID generation for about

	10% beneficiaries has been achieved.
22. Name of the Project: Service Plus Framework	
The Service Plus frame work of NIC can be used to quickly develop and deploy online citizen services without the requirement of separate hosting platform, technology or security audit of application. It enables standard service deployment in a very short time. It has been used during Covid19 Pandemic in districts of HP to generate ePasses, contact tracing and monitoring of Covid19 suspects.	The framework has been used during the Covid19 pandemic for issuance of ePasses in District Kangra and other Districts. The initiative is highly appreciated.
23. Name of the Project: DARPAN CM Dashboard	
The CM and DM Dashboard software captures data through Key Performance Indicators and displaying in multiple ways on the CM/ DM Dashboard for analysis.	The software is implemented in CM Office and in the districts of Himachal Pradesh.
24. Name of the Project: Integrated Criminal Justice System (ICJS)	
The Integrated Criminal Justice System software is under implementation in the State by integrating the Courts, Police, Prosecution, Prisons and Forensic Departments in online mode. The process is on to ensure is full implementation. Trainings, Demos are being conducted for the same.	The eForensic, ePrison software are implemented while eProsecution is under implementation and software integration with CCTNS is proposed now.
25. Name of the Project: S3WaaS – Secure, Scalable & Sugmaya Website as a Service	
S3WaaS is a Secure, Scalable & Sugamya Website as a Service is a website generating and deployment product hosted on the National Cloud of NIC. It leverages technology to generate secure websites using GIGW compliant templates which are highly customizable and can seamlessly be deployed on a scalable software defined infrastructure.	All the District Websites of HP have been migrated to the S3WaaS platform. Himachal Pradesh was the first State to migrate all the District Websites to the S3WaaS platform. The NIC Himachal Pradesh State Centre's bilingual website is also migrated to the S3WaaS platform.

7.0 Major Projects of National Importance being handled by NIC Himachal Pradesh

1. Name of the Project: covid19cc.nic.in Portal & RT-PCR Mobile App

The software is developed and implemented for white listing of RT-PCR and Rapid Anti Body mobile app users all over the country. More than 10 thousand web users and 2 Lakh mobile app users are using it in 31 States of the country for Covid19 RT-PCR tests through 8000+ Labs. RT-PCR mobile is developed for use by sample collectors so that they may do it easily for every RT-PCR sample being collected.	Software running successfully, 32 Crore samples collected by 31Dec2021. 14 SRF revisions as per ICMR requirements.

2. Name of the Project: OxyCare MIS (OCMIS) and OxyCare Mobile App

Development of OCMIS-OxyCare Management Information System for MOHFW, GoI with associated mobile app 'OxyCare' for Health Facilities in India. The software has been developed quickly and launched in June 2021 with enhancements and modifications being carried out during the course of implementation as it has PAN India implications for receipt, dispatch and finally receipt by Health Facilities and monitoring of functioning in a systematic manner.	Implemented in all States/ UTs of India in June-July 2021 and enhancements being carried out for inclusion of other Health equipment.

3. Name of the Project: Mission Recruitment

The portal has been developed to monitor the filling of vacancies at the National level in Central Government Departments. The software takes every vacancy as a project which can be tracked as per defined goals.	The software has been developed and its dashboard adopted in the actual DOPT site.

4. Name of the Project: Notification as a Service

NaaS is a generalised solution to cut down on SMS costs in any project where User Email and/or Mobile number is captured for providing some benefit or accrual of certain Government/ other transactions, say eFile, Emails etc. The user has to use a mobile app and then opt for notifications on mobile/desktop for selected software applications. For receiving notifications on Desktop, the user clicks on a link in mobile application.	The software has been developed and tested on Himachal Government applications is pending for implementation.

5. Name of the Project: Government Intranet Portal

|	
To provide a single interface for all Government interactions through one account for email, eFile, calendar, meetings, tasks, goals and other Departmental Scheme activities.	Work in progress.

6. Name of the Project: GAC ePortal

| The objective of the Grievance Appellate Committee (GAC) is to provide the aggrieved Digital Nagrik with an option to appeal against the decision of the Grievance Officer, in accordance with rule 3A (3) of the IT Amendment Rules, 2022. The portal provides citizens an interface to file appeals against intermediary decisions on their grievances and online system for GACs to process.	Launched by Hon'ble Union Minister of State for Electronics and IT. New features are being developed and implemented on regular basis as per the requirements of the GAC Secretariat.

(Grievance Appellant Committee)

8.0　Trainings Conducted

Employees Trained (Financial Year: 2025-26) #	**4148**
Employees Trained (Financial Year: 2024-25) #	**8279**

1. Name of the Training: covid19cc, RATI, RT-PCR

Training on Covid19cc Website, RATI Mobile App, RT-PCR Mobile App of Online Covid19cc and PMCARES-OCMIS System	0

2. Name of the Training: HPPSC, Directorate of Cooperation HP (Online Registration of Society) and e-Vidhan

HPPSC and Directorate of Cooperation HP officers training covering officials from all levels on specific modules	0

3. Name of the Training: ICT Awareness

General ICT awareness training in HP Secretariat on Email, Internet, Wireless, NIC Applications, Mobile Apps	334

4. Name of the Training: Revenue, eSamadhan, e-Sameeksha, Works MIS (eIPH) and Schools Safety MIS

Training on NIC Software of eHimBhoomi-Online Charge Creation, eSamadhan held for different officers in person and through VC	0

5. Name of the Training: ICT Awareness in Districts

ICT Training to District Administration officials at District level on Hot Dak, Jeewan Pramaan, PAO, Salary, HimRIS, Election & Curfew ePass in Covid ePass application	1810

6. Name of the Training: eHRMS-Tours, Leaves, Pension, ACR and MDM-ARMS

Training to other State, AG, Departmental officials on different modules of the eHRMS Manav Sampada and MSHIPA Lab	733

7. Name of the Training: Treasury-OLTIS

Training on eSalary and PAO modules of Online Treasury Information System	48

8. Name of the Training: e-Procurement & NGDRS

Training on e-Procurement, eKalyan, iRAD - integrated Road Accident Database & NGDRS modules to official of different departments	1223

9. Name of the Training: Digital Literacy & HP High Court

Training-cum-workshops organized on e-Constituency Management	0

After updation in the online monthly progress report

9.0 Major Activities Planned

Description of the Project	Target Date
Revamping of Covid-19 Sample Collection Management System, modification of RT-PCR mobile app and addition of Laboratory Test Results Entry modules, NAPIX APIs for States	Completed. Anonymized data is being transferred to ICMR/6 months
Environment Challans Mobile App	Implemented
Employment Exchange MIS software upgradation with Aadhaar, CSC Integration (LMK) and interface for private sector	User Authentication – WIP
himachal.nic.in Audio Video Section, State Movie/PPT update	February 2026 - WIP
Online submission of Bills by employees in Manav Sampada, Department(s) specific new features in ACR module	March 2026
Software solution for HP Board for Building & Construction Workers for registration, fees and benefit disbursement	Under Implementation
Management of OXYCARE Oxygen MIS System for MOHFW, GoI with associated mobile app for Health Facilities in India	March 2026
Adoption of new technologies/ tools in the following areas: • AI based Document Analysis - PSC Certificate	June 2026 – WIP
Updation of MDM ARMS software as PM-POSHAN software with new, enhanced features as per new requirements	Pending (Funds issue)
Ex-Servicemen Employment Cell SW (New Requirements)	Under Implementation
Hosting of all Mobile Applications on C-DAC Mobile App Store	March 2026 – WIP
SOC MIS Development as a new initiative	Under Testing
ePDS - Shifting of vendor application to NIC Solution	March 2026 – PoC WIP
BOSE/HP KVV Palampur/ HP Health Services Corporation: eSalary and ePension SW, Security Audit & Shifting to SDC	Implemented
State Election Commission SW - New Features, Security Audit and Cloud Shifting to SDC Shimla	March 2026 – UAT WIP
New features in existing SW namely, IFMS, Manav Sampada, Search Directories, iOHRS, Generalised RH Reservation System	Completed. Under Implementation
Security Audit of all NIC Himachal Web and Mobile Applications. VAs of NIC & SDC Cloud System	Regular Activity
HP SDMA Software – SDMF new features, PMS – Figma design	March 2026 – WIP
HP PSC DPC Module changes and other customization	Completed
GAC Backend changes and updations for Authentication feature for eKYC through PAN and DL. Additional new features: • Management Panel for the GAC Secretariat, Mobile App • DBIM compliance and migration to Open Source Technologies	Backend changes - Pending with GAC Additional features - March 2026
Secure passwords in all NIC HP Developed Software.	Completed
Migration of Web Applications to NGC 1.0/SDC Shimla	March 2026 – WIP
Encryption of Critical Data Fields	Completed
Home Guards Volunteers MIS Home Guards Volunteer's Recruitment System	Under Implementation, Made Live
Land Records integration with RBI, e-District, NGDRS, Farmer's Registry (Agri Stack), HP APPP. Aaadhaar & Mobile No. Seeding, Jamabandi Changes, Online Mutations, Additional MIS Reports	March 2026
HP Milk Incentive Scheme (MIS), Department of AH&B GOPAL Scheme MIS under HPGSA, Department of AH&B	Launched by Hon'ble CM March 2026
