

12

Hon'ble CM chaired a meeting on 4th June, 2018 to celebrate the Environment Day 2018. After a detailed discussion on various aspects, the CM desired the implementation of a five-point programme in mission mode, within 2-3 months, for maintaining ecological balance. CM has ordered the following:

1. All existing halogen, sodium vapour bulbs and tube lights in government offices would be replaced with energy-efficient LED lights across the State by 15th August, 2018.
2. No new stock of bulbs and tubelights, other than LED lights would be purchased by urban local bodies. Any damaged or non-functioning street lights in municipalities would be replaced only with LED lights.
