To

All the Empanelled Vendors,  
Under Component-B of PM-KUSUM scheme

Letter no. HAREDA/2023/Pump/ 8320 Dated: 20-10-23

**Subject: Instructions regarding the feasibility of a site to supply and install a solar pump in Severely Water Stressed Villages (earlier defined as Dark Zone) and list of such villages.**

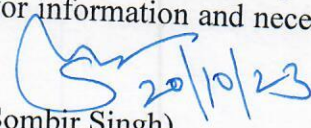

Kindly refer to the subject cited above.

As you are aware, micro-irrigation (drip/sprinkler) is mandatory in villages where the ground water table has gone below 100 feet, as per the Haryana Water Resources Authority (HWRA) for 100% of the land owned at the site of pump if fixed (drip/sprinkler) micro-irrigation system is installed, and a Portable Sprinkler MI system is also allowed up-to five acres of land. The Micro-Irrigation (MI) system is installed/ verified by MICADA and will provide online/offline clearance.

Accordingly, please find attached a list of severely groundwater-stressed villages. Further, the provisions of mandatory micro-irrigation is also made in the Site survey form on the mobile app, and at present 404 villages are also marked in Survey mobile app, but the rest of the villages are not marked due to the lack of a matching village directory.

Therefore, all the vendors are required to ensure the presence of micro-irrigation techniques at the site of the installation of solar pumps when conducting surveys and assessments for the installation of solar pumps in these designated villages. If micro-irrigation facilities are not present at the site during the survey, it must be reported through the mobile app and to the concerned district office. Subsequently, the district officer will instruct the farmer concerned to install micro-irrigation system. In cases where a farmer fails to comply, the allocated solar pump will be cancelled, and the share will be refunded to the farmer.

In view of the above, all the vendors are directed to confirm the feasibility of site in these water-stressed villages with regard to the presence of micro-irrigation techniques prior to proceeding with the supply and installation of solar pumps. This is for information and necessary action in the matter, please.

  
(Sombir Singh)  
Scientific Engineer (A)  
Director General,  
DNRE Haryana & HAREDA,  
Panchkula

for

Cc: All the Additional Deputy Commissioner-Cum-Chief Project Officer of the State  
for necessary action in this matter.
