

## Instructions regarding uploading of installed solar pump photograph on PM-KUSUM portal

Greetings,

It is to inform you that from Sanction-4 and onwards under PM-KUSUM component-B, the photographs of system which requires to upload on State portal for further synchronization on National portal should have mandatory mentioned following things.

- SARAL ID
- Farmer Name
- Pump capacity, type & number
- Longitude & Latitude (\*showing six digits after decimal point)

Further, the photograph which will be sync. on National portal (i.e. 4th photograph) should be clear and showing the module structure, controller and the flowing water alongwith farmer/farmer authorized person.
