To

All Empanelled Vendors,
under component-B of PM-KUSUM scheme.

Memo no. DNRE/HAREDA/2025-26/Pump/4441

Dated: 04/09/25

Subject:- Regarding reporting of misuse/dislocation/shifting of solar pumps on PM-KUSUM Portal.

References:

1. PM-KUSUM component-B review meeting held under the chairpersonship of Director NRE & HAREDA on 01.09.2025.
2. Online training held on dated 3.9.2025 on subject cited above.

It is informed that during the review meeting held on 01.09.25, a total of 2170 solar pumps were found disconnected for more than 180 days, and a total of 2089 solar pumps were found mismatched in location by more than 100 meters on the PM-KUSUM portal. In response, vendors stated that certain farmers are misusing the solar pumps, due to which they are unable to rectify such cases on the portal. Later on, it creates difficulties in addressing the warranty for these systems.

Accordingly, a new feature has been created on the PM-KUSUM portal to report misuse/dislocation/shifting of solar pumps by farmers. Through this feature, if any pump is found to be misused/dislocated/shifted, it can be directly reported on the portal by the vendor or concerned district PO through their login. If a vendor marks a pump as "Misuse" it will be verified by the concerned district PO.

To use this feature, go to the "Consumer ⇒ Details ⇒ Completed" tab on the portal and mark the particular farmer's pump as "Misuse" along with uploading the documentary evidence. Once the pump is rectified, the status can be updated by marking the farmer as "Revoke Misuse" after uploading the supporting evidence. The training for the same has already been provided in an online training session held on 03.09.2025.

In view of the above, it is therefore directed to physically verify the installed solar pumps and report the misuse/dislocation/shifting of solar pumps on the PM-KUSUM portal within **15 days**.

(Sombir Singh)

Chief Scientific Engineer
for Director, NRE & HAREDA
Haryana, Panchkula.

Cc:

1. All ADC-cum-CPO's of the State for information and further taking necessary action as per the instructions already issued against defaulter farmer for misuse/dislocation/shifting of solar pump.
2. IT Cell, HAREDA for information and uploading on HAREDA website.
