Salient features and Status:

- Candidates can register online in the Portal.
- Renewal Request for candidate Registration.
- Request for Update of qualification and other details of candidate on the portal.
- All the online request(s) are subject to approval of the concerned Employment Officer.
- Download of candidate's X10 Card.

Transactions

Total No. of Registration	52650
Total No. of Candidates in Live Registered	27528
Total No. of Candidates Renewal	2422
Total No. of Candidates Lapsing	24517

Skill Hands Portal

A platform where employers/citizens can avail the services of skilled work force

Government of Meghalaya

Brief Description :

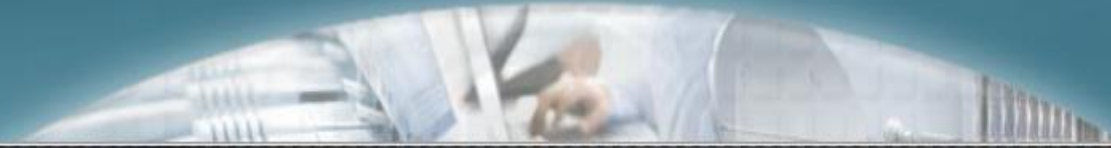

This portal is designed to facilitate collaboration between citizens and skilled personnel, providing opportunities to the unemployed skilled individuals (***Skill Hands***) in the state. It provide Citizens with a database of Skilled Work-Force, highlighting skill details of Skill Hands like Skill Area, Experience, Competency, Certification, Location, Contact Information, Availability, Ratings, Comments, etc.

Salient features and Status:

- Skill Hands can register online in the Portal.
- Citizens can register online with minimal details.
- A Mobile App has been developed for Citizens.
- Update and modification facility for Skill Hands.

Transactions

No. of Registered Skill Hands	1187
No. of Registered Skills	69

Brief Description :

Online VAT(Value Added Tax) services under the Taxation department consists of two main modules:

- (i) Online Registration for VAT and CST
- (ii) Online C-Forms

- The e-registration system allows new dealers to apply online for registration with the Taxation department and to track the status of the application. Taxation Officials can communicate with the dealers using e-mail and SMS during the process at every step.
- Enable the Registered dealers to apply for C-Form electronically and print the pre-filled form after getting necessary approval from the issuing authority.

Transactions

Total No. of Registration	38877
No. of currently registered dealers	31651
No. of cancelled dealers	1192
Total No. of C-Forms requested	77829
No. of C-Forms issued	76601
Total No. of C-Forms invoices	533874

Brief Description :

The BCM App facilitates disseminating latest SOPs, Notifications, Training materials and health awareness campaigns to equip and inform citizens with the right methodologies and processes in carrying out their daily activities and livelihood and impress upon them the need to inculcate healthy habits to fight against the COVID 19 pandemic.

Benefits of the Mobile App:

- The checklists provides a set of questions to help the user to assess himself/herself with regards to hand hygiene, social distancing, respiratory etiquettes etc.
- The occupational-wise training modules and SOPs will help to equip and educate various stakeholders like drivers, barbers, security personnel, Govt. officials, Health care providers etc.
- The training materials are available in three different languages (Khasi, Garo & English).
- Availability of MIS-cum-APIs to enable Health Officials to create new contents, manage contents and view various statistical reports pertaining to the App.

Case Information System e-Court Project

Brief Description :

CIS means Case Information System. The Case Information System software is a giant move under the initiative of the e committee to make the Indian Judiciary more transparent and more litigant friendly. The CIS 1.0 & 3.2 NC versions are available for High Court and lower court respectively. This Case Information System Software for District Judiciary is created under the guidance of the e-committee, Supreme Court of India through the software team at National Informatics Center (NIC), Pune. The whole idea of CIS to put it in a nutshell is that the litigant should be able to view the daily status of his case, to view the orders of the case, hearing date of his case, the progress of the case on any particular date etc online from any part of the world. The Data is also replicated to National Judicial Data Grid, so as to enable the Public, Litigants and Advocates to avail the services from www.ecourts.gov.in

Implemented in High Court since March 2013

<u>Cases Pending</u> (Meghalaya High Court)		<u>Cases Disposed</u> (Meghalaya High Court)	
Civil	817	Civil	10080
Criminal	471	Criminal	1941
Total	1288	Total	12,021

Features :

- Registration and filling of cases.
 - Appeal filling
 - Court Proceeding
 - Backlog and legacy entry
 - Listing of cases
 - Litigants updation
 - Fees Report
-
- Implemented in Meghalaya High Court and all District Courts
 - Implemented District Council(KHADCC)

Meghalaya High Court Mobile App e-Court Project

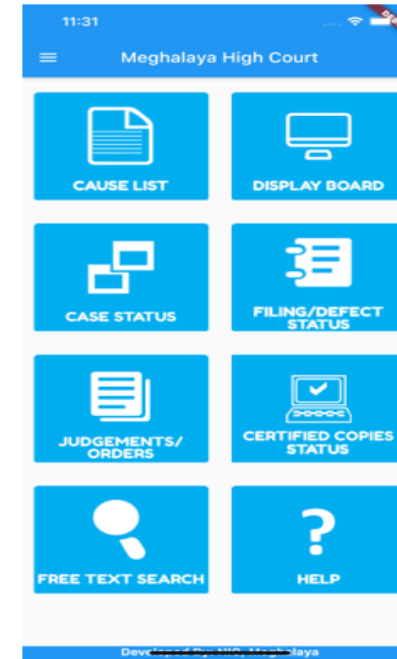

Brief Description :

Meghalaya High Court Mobile Application is an online services to fetch live data from the Case Information System(CIS) database and view it in a mobile device. There are various modules in the application and these modules are user friendly to any users using the application. This application supports on both **iOS and Android platform**. The modules that are available in the application are Causelist, Display Board, Case Status, Judgement/Orders, Certified Copy Status, Free Text Search and Filing Defect Status.

Implemented and Launched since 9th February 2021

Features :

- Causelist : This module is used to display the causelist by selecting specific date
- Display board : This module for displaying real time session of the case taken up on all the courts.
- Case Status : This module is used to view the status of case with their respective case number or Petitioner/Respondent name. Related orders can be viewed.
- Filling Defect Status : This module is used to display the status of defected case whether the case is passed or under defect.
- Judgment/Orders : This module is used to list and select the orders and judgement based on dates selected i.e. from and to date.
- Certified Copies Status : This module is used to display the status of certified copy with their respective application number or case number.
- Free Text Search : This module is a free text search of judgement/orders with searched features based on the keyword and dates.

Future Scope

- Revamped of all the modules and home page.
- User friendly UI
- App Version 2.0

Central Project

VAHAN

VAHAN:

is an online web application for all Vehicle related activities; flagship e-Governance application under National Transport Project.

RFID Tag Search BT

It is an Android mobile application for searching tagged books in the library where the mobile UI facilitates user to key in the Tag ID of the book being searched.

Then the mobile handset is interfaced/paired with a Bluetooth handheld RFID Reader which can be used to scan the library shelves. Once the desired book (Tag ID) is found, the mobile makes a loud sound.

The application is generic in nature and can in fact be used to search for misplaced files, hardware items etc., provided all these have been tagged using RFID Technology.
