# Why Adopt! Animals/Birds

Wild animals and birds have been an integral part of our culture. Roar of a magnificent tiger, leaping of a deer, call of a red jungle fowl, melodious song of a nightingale, beautiful dance of a peacock, chirping of birds would always remind of God's divine creations. But, due to the shrinkage and degradation of habitat and poaching of wildlife; many animals and birds have either become endangered or are like to become so. Some of them have been become extinct.

If the present rate of degradation and shrinkage of habitat continues, the day is not far off when wild animals and birds will be lost forever; and we will be left only with their photographs.

## Scheme for Adoption of Animals/Birds

Haryana Forest and Wildlife Department has started a scheme from January 7, 2011 for the adoption of animals and birds in zoos and deer park of the state to generate love for animals and birds. One can contribute manifold in wildlife conservation by adopting animals through paying for providing feed for them.

Animals adoption scheme will certainly help in running the conservation projects which will involve captive breeding programme especially for endangered species in various zoos.

Let us set an example as responsible citizens by showing our love and fascination for wildlife conservation!! It will inspire others to follow suit.

Together  
we  
make the  
difference

The adoption of animals on ceremonial occasions of birthdays and anniversaries, will prove to be a unique gift of mankind towards wildlife conservation.

### Zoos and Deer Park in Haryana

There are three small Zoos in Haryana located at Pipli (Kurukshetra), Rohtak and Bhiwani. There is also one Deer Park in Hisar District located on Dhansu Road. They help to educate the public, particularly school children and farmers about habits and habitats of wildlife.

**Pipli Zoo**  
Estd. in 1982  
Area 27 acres

**Rohtak Zoo**  
Estd. in 1986  
Area 44 acres

**Bhiwani Zoo**  
Estd. in 1982  
Area 7 acres

**Deer Park, Hisar**  
Estd. in 1970  
Area 42 acres
