NIC Copy Right Product | Award of Excellence from CSI

A solution to bring cabinet meetings online, Automate workflow, Facilitate virtual meetings & Make them paper free

Key Components

Gopan Portal

Anytime, Anywhere Availability of Information for Cabinet Ministers, Secretaries & Departments

eMantrimandal Portal

Restricted Access to Gopan Department for Cabinet related Confidential matters

Meeting Day

Management System

Solution to manage the Meeting on Meeting Day. Restricted access to Gopan Officers

Waiting Lounge

Information System

Waiting Lounge management system for Secretaries/officers

Implementation

Monitoring System

Virtual eCabinet

Success Indicators

- ❖ **Green Secretariat.....**Conserve Environment
- ❖ **Last Minutes Run** for Providing information to Stakeholders Changed to Online availability of Information to all
- ❖ **Effective Follow-up** on timely Implementation of Cabinet Decisions
- ❖ Resulting in **Good Governance**, with use of technology
- ❖ **Digital Institutional Memory**

Impacts & Benefits

- ✓ Launched in Jan 2020 by Chief Minister, Uttarakhand as part of Cabinet meet.
- ✓ 100+ Cabinet meetings conducted using eCabinet-Till Date
- ✓ Paper free, an Average Saving of 1 Tree saved for 3 meets
- ✓ Virtual meetings during the Covid19 Period, with Ministers from remote locations & Tablets.
- ✓ Implemented in Uttarakhand, Uttar Pradesh Arunachal Pradesh and Tripura and in progress in Sikkim and Karnatka
- ✓ Effective follow-up

In Service Since 2019

Implemented in 4 States

Ver 2.0 rolled out is in progress in Arunachal and Uttarakhand | Ver 3 with AI/ML is in Development

MHA Requested for Solution

NIC UK Mini Cloud, Mini Data Centre, National Cloud & Cyber Security Service

Infrastructure

- ✓15 Rack Data Centre
- ✓VmWare Based Cloud
- ✓Load Balancers
- ✓WAF

Services Offered

1. Service Collocation
2. Audit & Staging Service
3. Managed Hosting Service
4. Application Load Testing
5. SVN Service
6. Support for Web Server/Database Server Management

**Hosting & Supporting More than
110+ Websites of State and Centre
Govt**

Cyber Security Services Provided

1. Black & White Box Testing
2. Vulnerability Assessment for Website Hosted in NIC Infrastructure
3. Support for Application Security Related Issues.
4. Support for CSD Clearance & Website Audit by NIC HQ
5. Monitoring of Cert-In reported Incidence

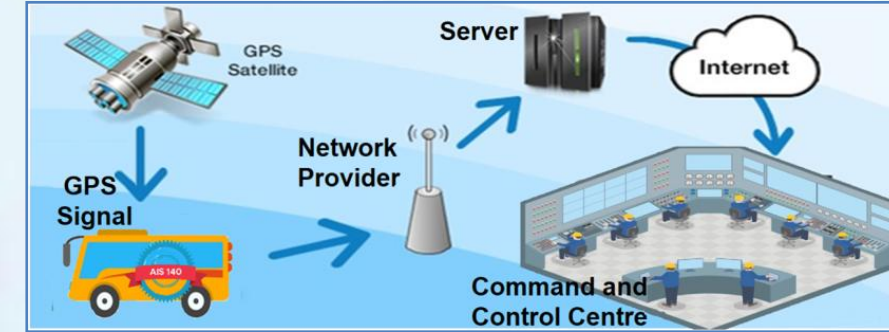

Ministry of Road Transport & Highways amended CMVR by inserting rule 125H , mandating fitment of Vehicle Location Tracking Device & Emergency Button (VLTD) in all public service vehicles.

❖ To enhance the safety of women and children in public services Vehicles.

❖ Equip all the public service vehicles with Vehicle Location Tracking and multiple Emergency buttons (VLTD) for help under distress.

Ministry of Road Transport & Highways amended CMVR by inserting rule 125H, mandating fitment of Vehicle Location Tracking Device & Emergency Button (VLTD) in all public service vehicles to improve safety of women and girl child travelling in public services Vehicles.

Components

AIS 140 / IS :16633 COMPLIANT

- School verification
- Student registration
- Student Verification
- Lottery and Seat allocation
- Student enrollment

Current Status

- Process of server configuration at state data centre Uttarakhand is in progress
- Development of above modules is in progress

Uttarakhand GST portal has been created which works as a single window for all the dealers in Uttarakhand. The portal facilitates with all the VAT and GST services to the dealers and login based system for the officers to get access to the analytical reports which are used for assessment purpose.

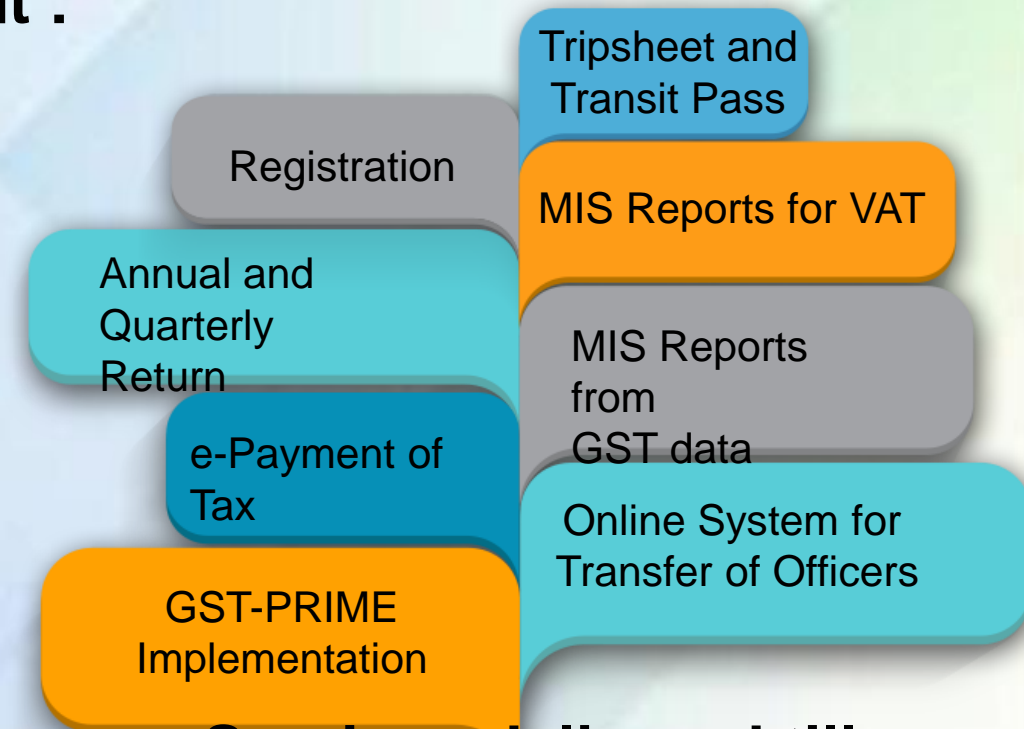

URL : <https://gst.uk.gov.in>

Below are some of reports and modules rolled out :

- Developed a utility to transfer dealer from AC to DC and Vice versa on the basis of their Turnover and for other reason.
- Development of Analytical Reports
- Monitoring System For Joint Commissioner: Joint Commissioner/Review officer's able to see Red Flag Reports of all Jurisdictional officers under his Jurisdiction office. Can also review the action taken by the Jurisdictional officers
- Monitoring System For Commissioner: Entire report related to action taken by the Jurisdictional officers and Joint Commissioners is displayed into Commissioner Dashboard, Commissioner can review Jurisdictional officers as well as Joint Commissioners

Stakeholders (Incl. Citizens, Department):

Officers of the Department, VAT Dealers and GST dealers

Services delivered till date

Implementing AI Satyapikaanan (Face Recognition system) for the identification of fraudulent applicants. The primary goal of incorporating Face Verification technology is to enhance the verification process by leveraging image similarity indexes on uploaded pictures of the applicants. This innovative approach will bolster the State Tax Department's ability to identify the dealers(GST) who are uploading same photo of applicant in more than one application with different names and prevent fraudulent activities, ultimately fostering a more secure and trustworthy tax administration system.

Total number of GST registered dealers are 242477 (127530 state GST dealers and 114947 central GST dealers). Total number of images/photos of the dealers(partner, Proprietor, Director or Authorized signatory) are 769908 (approx). Photos are saved in file system on the server with GST number as the name of the image and with a flag by which we can get the name of the person in the photo from the database.

([https :// rajbhawan.uk.gov.in](https://rajbhawan.uk.gov.in))

NIC Uttarakhand has been entrusted to design and develop an integrated web portal for Uttarakhand Rajbhawan. System Study is completed for 13 Modules.

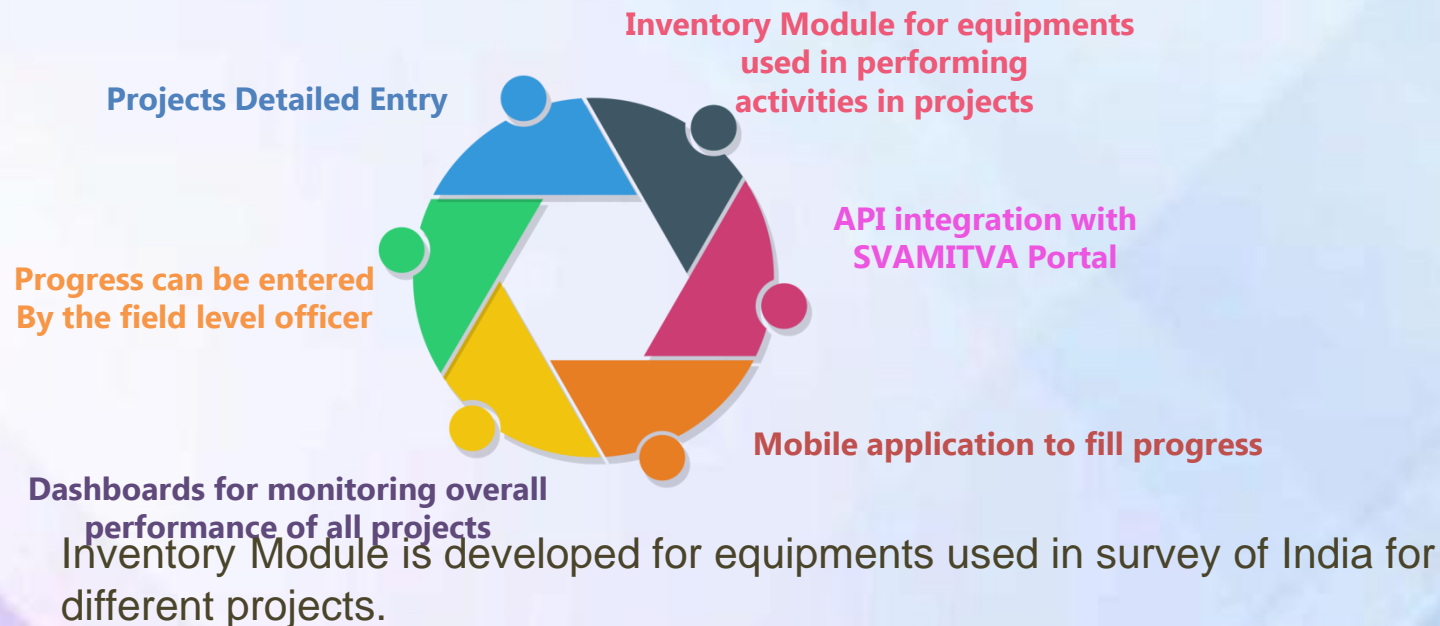

Current Status:

- AI enabled face recognition based visitor's gate pass and appointment system developed and implemented successfully.
- A dashboard for rajbhawan officials have been developed.
- eInvitation module have been developed and implemented successfully.
- Governor's message management module have been developed. User testing is in progress.
- Library management system module have been developed and implemented successfully.
- Inventory management system module have been developed. User testing is in progress.
- VC leave module have been developed and implemented successfully.
- Android based mobile app for role based dashboard has been developed for above modules. Other requirements are in progress.

URL : <https://pragati.surveyofindia.gov.in>

It is a workflow based system used by survey of India to monitor the performance of all their activities under every project running in the department. The projects are entered in the system at the headquarter level and then assigned to different GDCs or states. All the Director GDCs can create in-charge of all the activities of the project assigned, further the in-charge assigned the task to multiple operators/officers. Progress is then filled by them. The overall performance/progress is captured and displayed at a dashboard from smooth monitoring.

Chatbot as a service is developed in python, it can be used to automate the task of answering user queries that are repetitive in nature. This can enable user departments to expedite their administrative processes by relieving them of tasks that can be answered by this system.

Implemented in : Rajbhawan portal

To be Implemented in :

1. Green card Portal of Transport Department
2. State Tax Department

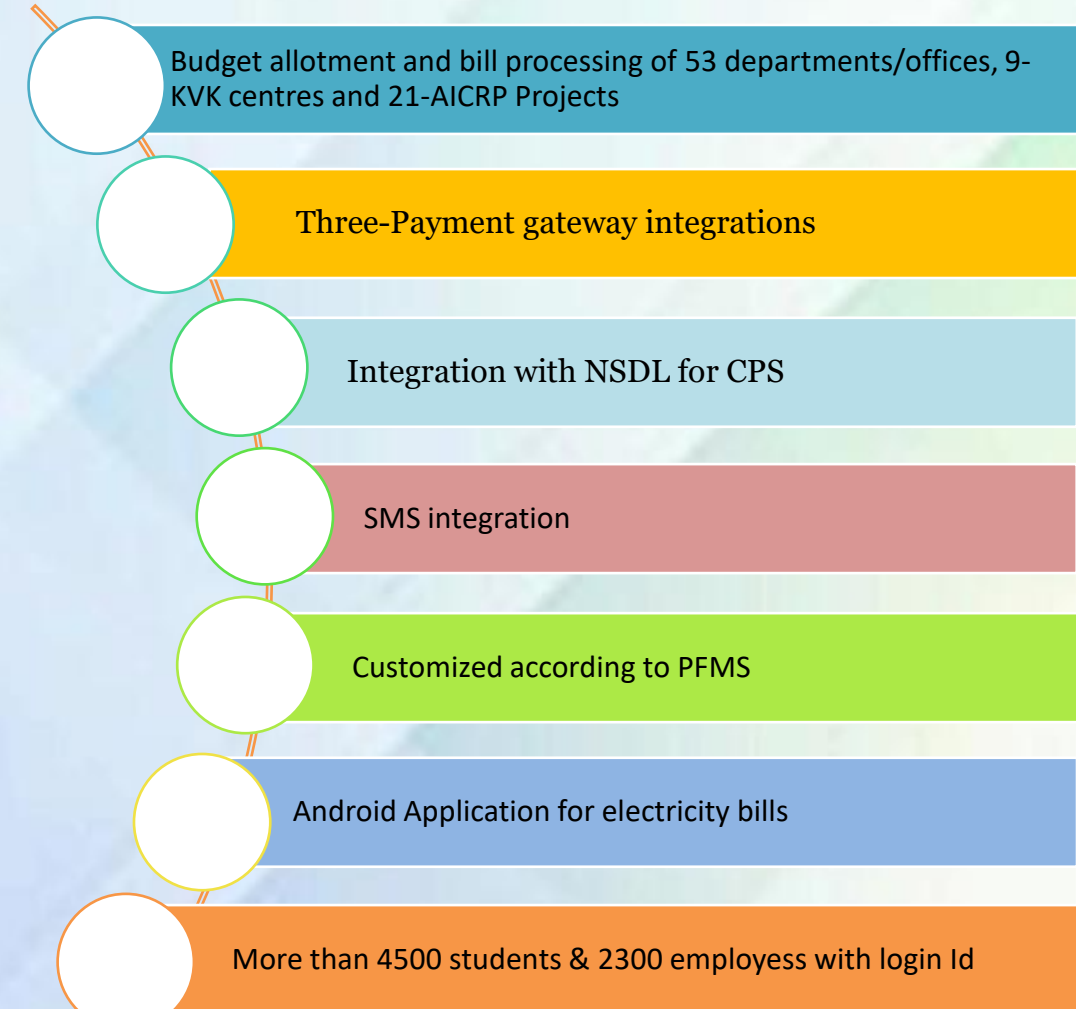

The screenshot shows the Sahayak chatbot interface. At the top, there is a header with the chatbot's name 'Sahayak' and its role 'Rajbhawan Virtual Assistant'. Below this, a prompt asks the user to 'Please select one of these -'. There are five buttons: 'Online Appointment', 'Gate Pass', 'University Related', 'Bill Payments', and 'Miscellaneous'. A 'Back to Menu' button is located below the selection buttons. At the bottom, there is a text input field labeled 'Write a message...' and a 'Send' button. A small chatbot icon is visible in the bottom right corner.

SUSTAINABLE TRANSPORT AND EFFICIENT MOBILITY SOCIETY

STEMS MEGHALAYA

An Initiative by the Government of Meghalaya

Ride With a Smile

STEMS is a society incorporated by the Government of Meghalaya in 2022, to revolutionize the way people commute by leveraging modern transport solutions that are safe, sustainable, efficient, and cost-effective. The objective of the society is to develop and implement transport solutions that can enhance mobility, reduce congestion, and benefit the environment by reducing emissions.

STEMS Project of NIC Uttarakhand is a unique project of its own kind for automation of tasks required for sustainable and efficient mobility objective of Govt of Meghalaya

Key Components

Web Portal

The Food Corporation of India was setup under the Food Corporation's Act 1964 , in order to fulfill following objectives of the Food Policy:

1. Effective price support operations for safeguarding the interests of the farmers.
2. Distribution of foodgrains throughout the country for public distribution system.
3. Maintaining satisfactory level of operational and buffer stocks of foodgrains to ensure National Food Security.

Since its inception, FCI has played a significant role in India's success in transforming the crisis management oriented food security into a stable security system. In order to ensure real time movement of vehicles / trucks, Vehicle Location Tracking System (VLTS) has been developed in association with NIC - Uttarkhand unit so as to monitor Truck movements in online mode through Geo-coordinates and Maps.

State Planning Commission, Planning Department and Government of Uttarakhand has mandate to evaluate, checking of rates, viability and sustainability of all the infrastructure development projects in the state. Presently all the Detailed Project Reports (DPRs)/ Estimates are being prepared by the departments manually and submitting to planning department physically.

To improve efficiency, consistency and effectiveness of government responses, establishing a paperless environment in government offices and to establish transparency and accountability the Government of Uttarakhand has decided to prepare all the DPRs/ Estimates online through Unified Portal.

Started on Oct 2023

Gujarat Pollution Control Board are centred around the Pollution Control and the protection of the environmental quality. Bring about all round improvement in the quality of the environment in the State by effective implementation of the laws. Control of pollution at source to the maximum extent possible with due regard to technological achievement and economic viability as well as sensitivity of the receiving environment. This function is being fulfilled through laying down the disposal standards as well as gaseous emission standards, Identifications of sites and development of procedures and methods for the disposal of hazardous wastes. NIC has re-engineered and strengthened the online manifest system for transportation of Hazardous waste as per Hazardous waste (M&TM) Rules 2016 which is now made functional since 26/2/2020. This is an integral part of the XGN Platform developed by the NIC Gujarat, which is used by the industries of Gujarat for their routine dealings with GPCB.

Chief Electoral Officer, Uttarakhand

NIC-UK Developed Applications

- **Election Polling Personnel Deployment System (EPDS)** – was developed by State Election team as per the ECI guidelines and approved by CEO, through which around 52000 government officials as polling personals were deployed on 11723 Polling Booths in 70 Acs of 13 districts of Uttarakhand using three stage randomization.
- **Mobile GPS based Location Tracking System** – was developed by state NIC for tracking polling parties whose has to cover more than 2km on foot to reach their assigned Polling Booth . Location tracking portal as well as Mobile App was developed.
- **Poll Day Monitoring System (PDMS)** - A mobile App was developed to monitor Poll Process. Information of events performed by polling parties during pre poll, poll day and after poll were captured through the SMS based system. A portal for monitoring the same was also implemented.

Election Commission Of India Applications

- **ERO-Net** - Electoral Roll Management.
- **EMS** - EVM Management and Randomization System.
- **ENCORE** - Nomination, Affidavits, Voter Turnout, Results.
- **C-Vigil** - Citizens – Vigilance System.
- **ETPBS** - Electronically Transmitted Postal Ballot System..
- **Mobile Apps.** - Voter helpline, Garuda, KYC, PwD, Suvidha, ENCORE.
- **Webcasting** – Support in Poll Day Webcasting.

Mobile App for consumer.
Integrated with CSCs.

On boarded with Bharat Bill Payment System (BBPS)
Ease Of Doing Business (EoDB) compliant.

Around 9 lakh households.

Total Titles
541903

Total Records
1898665

Total Members
128701

Total Libraries
131

After the establishment of Uttarakhand state, there has been a rapid development of higher education in the state from the numerical point of view.

E-Granthalaya 4.0 has been implemented in 5 state universities, 01 state university campus and 106 state colleges and 03 aided colleges.

It is used for online data entry and operations

This cluster provides library members access to e-Catalog in public domain and digital library services using MOPAC - Mobile Responsive OPAC and e-Granthalaya Mobile App.

Computerization and Computer Networking of Consumer Forums in Country

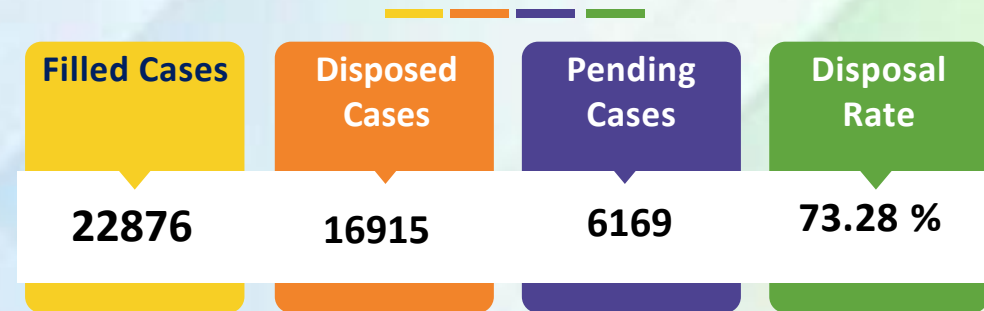

Confonet is an internet based Case Monitoring System developed for automating the work flow of the consumer forums, starting from case registration until announcement of judgment.

Objective

The project aims at improving operational efficiency, co-ordination, accessibility, speed in judicial administration and to set Information Communication Technology (ICT) infrastructure at Consumer Redressal forums all over India. It aims at providing:

- E- Governance
- Efficiency
- Transparency
- Systematizing of working
- To achieve time bound delivery of justice to the consumers.

Statistics for FY 2022-23

Statistics for FY 2023-24

Objective – “e-Daakhil Portal” for Consumer Complaints Redressal

Objectives and Benefits

- The main objective of the portal is to provide a platform to the consumers to lodge their complaints
- The portal functions as a one stop window for easy and quick filing of complaints as per the new Consumer Protection Act, 2019
- The portal aims to cover all the aspects to make it user friendly
- It provides complete transparency about the complaint registration process till its Redressal
- The portal also contains various user manuals and video tutorials making it a user-friendly platform
- Apart from various useful links, consumers/ advocates lodging the complaints can also connect with the help desk in case of any real time issues on the portal.

Key Features

- File new consumer complaints, Appeal, Transfer Application, Misc. Application, Execution Application, Revision Petition, Review Application etc.
- Pay court fee online. (if the disputed amount more than five lacs)
- e-Notice to concerned respondents & opposite parties.
- e-Hearing through video conference.
- Alerts via SMS/Email

Application Flow

Case Information System (CIS)

Through Case Information System Software the litigant should be able to view the daily status of his case, to view the orders of the case, the progress of the case on any particular date etc online from any part of the world. As on date **CIS v1.0** is running at High Court **CIS v3.2** is running at District & Subordinate Courts..
