BRIEF REPORT ON

EXPOSURE VISIT

As part of the experiential learning initiative, students of VI TO XII visited a **Kissan Farm** on 04/02/2025 for a one-day educational exposure. The purpose of the visit was to help students understand **farming techniques, rural lifestyle, and the importance of agriculture** in daily life.

Objectives of the Visit

- To observe **modern and traditional farming practices**
- To interact with **farmers and agricultural workers**
- To learn about **organic farming, crop rotation, irrigation systems**, and farm tools
- To understand the **importance of sustainable agriculture**
- To develop **respect and appreciation for farmers' hard work**

Activities Conducted During the Visit

1. **Farm Tour**
 - Students explored fields with crops like wheat, vegetables, and fruits.
 - Observed various types of soil and irrigation techniques (drip, sprinkler).
2. **Live Demonstration**
 - Farmers showed **ploughing using tractors and bullocks**.
 - A session on **vermicomposting and organic fertilizers** was held.
3. **Hands-On Experience**
 - Students participated in **planting saplings, watering crops etc**
